Re:

Remediation and Corrective Pruning of Tree at 1071 San Pedro – NOVI-25-01-8749

March 11th, 2025

Dear Green Space Management Division:

I am writing regarding a live oak tree located at 1071 San Pedro, City of Coral Gables, Florida and the Notice of Violation dated January 28, 2025. Below is our arborist report and proposed corrective pruning plan to resolve the Notice of Violation (#NOVI-25-01-8749) and to permit trimming of an adjacent oak tree in the ROW.

The subject tree is a southern live oak (*Quercus virginiana*). I evaluated the tree in February of 2025. I observed cuts consistent with the City's Notice of Violation.

The tree's critical measurements can be found in Attachment A. Photo documentation of the tree, including our recommended corrective pruning cuts, can be found in Attachment B. We propose to allow regenerative growth to occur on heading cuts and to remove a limb with a flush cut. For the additional ROW tree to permit, we propose reduction of the canopy using ANSI A-300 and ISA best practices.

No additional work or action is proposed or associated with the letter.

Should you require any additional information or wish to discuss this further, please do not hesitate to contact me.
