| 1                                      | Commission would make the final decision.   | 1  | MR. BELLIN: I'll make a motion for  |
| 2                                      | MR. FLANAGAN: Can I add to that?  | 2  | approval with conditions.   |
| 3                                      | CHAIRMAN AIZENSTAT: Yes.  | 3  | CHAIRMAN AIZENSTAT: With conditions.  |
| 4                                      | MR. FLANAGAN: Where was I? One of Staff's   | 4  | MR. LEEN: The same conditions as the  |
| 5                                      | conditions did say that the location of hat   | 5  | That's fine.  |
| 6                                      | they can go to amend the ordinance to I   | 6  | MR. BELLIN: The same conditions   |
| 7                                      | think revise it, but that the location of the   | 7  | MS. ALBERRO MENENDEZ: I'll second it.   |
| 8                                      | easement will not change. Here, Number 5, you   | 8  | CHAIRMAN AIZENSTAT: We have a second by   |
| 9                                      | can reconfigure the substitute alloway, but   | 9  | Maria. Any discussion?  |
| 10                                     | the location of the easement shall remain the   | 10   | Having none, call the roll, please.   |
| 11                                     | same.   | 11   | MS. MENENDEZ: Julio Grabiel?  |
| 12                                     | MR. BEHAR: And we're keeping it the same.   | 12   | MR. GRABIEL: Yes.   |
| 13                                     | The location is the same. We just   | 13   | MS. MENENDEZ: Ma shall Bellin?  |
| 14                                     | reconfigure We're not relocating to the   | 14   | MR. BELLIN: Yes.  |
| 15                                     | other side of the property. I mean, it's  | 15   | MS. MENENDEZ: Anthony Bello?  |
| 16                                     | within the same area where it currently exists.   | 16   | MR. BELLO: Yes.   |
| 17                                     | MR. FLANAGAN: Okay.   | 17   | MS. MENENDIZ: Jeff Flanagan?  |
| 18                                     | CHAIRMAN IZENSTAT: Staff is okay with   | 18   | MR. FLANAGAN: Yes.  |
| 19                                     | that?   | 19   | MS. MENE DEZ: Maria Menendez?   |
| 20                                     | MR. WU: Yes, we're okay with that. And  | 20   | MR. ALBURRO MENENDEZ: Yes.  |
| 21                                     | the record on clarify, the motion is for which  | 21   | MS. MENDEZ: Eibi Aizenstat?   |
| 22                                     | application? We have two applications before  | 22   | CHAIRMAN AIZENSTAT: Yes. Thank you.   |
| 23                                     | us.   | 23   | MR SEHAR: Thank you very much. Thank  |
| 24                                     | CHAIRMAN AIZENSTAT: This is for the   | 24   | you. 💆  |
| 25                                     | first   | 25   | CHAIRMAN AIZENSTAT: Thank you.  |
|  | Page 54   |  | Page 56   |
| 1                                      | MR. WU: The ordinance.  | 1  | Let's just take about three minutes or  |
| 2                                      | CHAIRMAN AIZENSTAT: Correct.  | 2  | four, so they'll clear out, and then we'll  |
| 3                                      | MR. WU: Thank you.  | 3  | continue.   |
| 4                                      | MR. LEEN: We're going to do separate vates  | 4  | (Thereupon, a brief recess was taken.)  |
| 5                                      | on them?  | 5  | CHAIRMAN AIZENSTAT: Okay, let's go ahead  |
| 6                                      | CHAIRMAN AIZENSTAT: How would you like to   | 6  | continue, please.   |
| 7                                      | have it handled?  | 7  | The next item is an Ordinance of the City   |
| 8                                      | MR. LEEN: I'd prefer separate votes.  | 8  | Commission of Coral Gables, Florida, providing  |
| 9                                      | CHAIRMAN AIZENSTAT: Olay. We have a   | 9  | for text amendments to the City of Coral Gables   |
| 10                                     | motion. Any other discussion?   | 10   | Official Zoning Code, Article 3, "Development   |
| 11                                     | Call the roll, please.  | 11   | Review," Division 10, Transfer of Development   |
| 12                                     | MS. MENENDEZ: Jeff Flanagan?  | 12   | Rights, known as TDRs, by expanding the area  |
| 13                                     | MR. FLANAGAN: Yes   | 13   | for qualifying TDR sending sites to include   |
| 14                                     | MS. MENENDEZ: Julio Grabiel?  | 14   | historically designated properties within a   |
|  |   |  |   |
| 115                                    |   | 15   | Multi-Family 2, known as MF2 District, located  |
| 15<br>16                               | MR. GRABIEL: Yes.   | 15<br>16                                     | Multi-Family 2, known as MF2 District, located in the area north of the Central Business  |

MS. SPAIN: Good evening.                              |

Page 59 Page 57 MR. GRABIEL: This one? 1 1 So this is before you today as a 2 MS. ALBERRO MENENDEZ: This works, Dona. 2 recommendation from the Historic Preservation CHAIRMAN AIZENSTAT: Dona, go ahead and 3 3 Board, and it began in 2013, when the Historic 4 Preservation Board was considering the local 4 take Julio's. 5 designation of 234 Majorca, without the owners' 5 MS. SPAIN: All right. I'm sorry. I'm 6 old. I've got to go to the eye doctor. consent, and Mario Garcia-Serra, who I think is 6 Okay, so the parameters for expansion of 7 7 going to come back in here, represented the the sending sites is located within the North 8 8 property owner at the time, and asked that the Ponce area, and we've already discussed that 9 Board consider expanding the sending sites for 9 area north of Navarre, which is the northern 10 10 the transfer of transfer development rights to boundary of the Central Business District, east 11 11 include those properties -- and actually, it of LeJeune Road and south of Southwest 8th 12 12 was in a much broader area; he wanted us to 13 Street, zoned Multi-Family 2, MF2, and has one 13 look at commercial properties and also the of the following MF2 permitted land uses, which 14 North Ponce area. 14 is a duplex dwelling, a multi-family dwelling, 15 15 The Historic Preservation Board asked the or a bed and breakfast. 16 16 Historic Staff to separate out the designation This is the boundaries of the North Ponce 17 17 process with his request, and so they 18 designated the building -- after a lot of 18 area. And we already have seven properties that are designated as historic landmarks deferrals, they designated the building as a 19 19 20 20 within this area, and these list those local historic landmark. I believe -- He's not properties. If this goes through, they would 21 here, but I believe they filed an appeal, and 21 be eligible to transfer development rights, and 22 that's on hold now, pending the outcome of this 22 23 I'm just going to go through the images of the 23 ordinance. properties that we believe would qualify to be 24 The -- you know, the TDR ordinance has been 24 25 on the local registry. And it's important to 25 in place for quite some time. It now allows Page 60 Page 58 note that these may not be the only properties, for the property owners of the historically 1 1 2 but we're fairly certain that these would 2 designated properties within the Central qualify. I don't believe there's very many 3 Business District to transfer the development 3 properties up there, other than these, that 4 rights to developments within the Central 4 would qualify, but quite possibly, but no one 5 5 Business District, but everything is within the wanted to come forward to us. We did not go 6 6 Central Business District. into the ownership history of these -- These, 7 7 What this would do is to not change the we did, but of the other properties that were 8 amount of square footage that's allowed on the 8 9 built at later times. We did go through, 9 developments, but open up the sending sites to 10 looking at those properties that were built in other properties. So it would be the MF2 10 the 1920s and 1930s, and looked at the 11 properties in the North Ponce area, and I'll go 11 through the proposal. You have the Staff 12 architects, but those built in the '50s and 12 13 '60s, we did not look at the architects. So 13 Report that we did? there may be some building out there that we 14 MR. WU: Hold on. Here we go. 14 just missed, but I don't believe there's very 15 MS. SPAIN: Okay, thank you. I'm going to 15 many. I think this is a good representative of have to get closer because my eyes are really 16 16 the buildings that would qualify. It's really 17 17 bad, and I apologize. very nice buildings up there. MS. ALBERRO MENENDEZ: Do you need this? 18 18 And as you know, approximately 11 years 19 19 MS. SPAIN: I could, but looking here, I 20 ago, the City passed an ordinance that requires 20 can see the thing. So --21 a preservation officer's signature on any Is this working? 21 demolition. So these buildings that we've 22 THE COURT REPORTER: No. 22 identified as being historically significant MS. ALBERRO MENENDEZ: This one might be 23 23 24 cannot be demolished. So it puts the owners in 24 working. a situation where they can't demolish the MS. SPAIN: That's all right. 25 25

Page 63 Page 61 1 if they need -building and they may not have the resources to 1 CHAIRMAN AIZENSTAT: On that specific 2 2 actually maintain them. So I've been with the 3 3 City for 18 years. We've talked about trying property --MS. SPAIN: On that specific property. 4 to help the property owners in the North Ponce 4 CHAIRMAN AIZENSTAT: -- that's going to be 5 area, even before that ordinance was put in 5 6 sold, the TDRs are going to be sold? 6 place, and I really think that this would help MS. SPAIN: That's right, from the historic 7 7 the people out. property. They go out, they identify any 8 That shows the location. It's difficult to 8 issues. They identify future maintenance, you 9 9 see. 10 10 know, when will they need a new roof, when will So I think this is interesting. The the air conditioning have to be -- and that's potential future TDRs from the resources that 11 11 12 put into a maintenance plan that is approved by 12 we've identified in the North Ponce area, the the Historic Preservation Board, and they file 13 13 previously designated local historic landmarks, a restrictive covenant on that. 14 14 that those properties that are already designated are basically 60,000 square feet of Now, the City doesn't get involved on where 15 15 the money goes, but they're required to comply 16 16 available FAR. The approximate future with that maintenance plan, and it would be 17 17 availability, if we would designate each of Code Enforcement, now, with that. 18 those that we've shown you, is 107,000, 18 CHAIRMAN AIZENSTAT: If they don't maintain 19 19 108,000. So the total is 167,098.5 square 20 20 them. feet. MS. SPAIN: If they don't maintain them. 21 21 So the existing TDRs that are available CHAIRMAN AIZENSTAT: There's certain cities 22 from sending sites within the CBD, the total 22 that have TDR transferable rights, not 23 previously transferred was 156,000. So, 23 specifically from historic --24 really, what we're asking is to replenish the 24 25 25 MS. SPAIN: Right. FAR that's already been transferred within the Page 64 Page 62 1 CHAIRMAN AIZENSTAT: -- but a lot of these CBD, and so the total available is 226,412 1 2 sites -- a lot of these cities, for example, 2 square feet, and that includes 109,000 square 3 require that a property not have any Code 3 feet from privately-owned properties, but the violations and so forth. Do we do anything 4 4 City owns 116,485 square feet of potential 5 like that? 5 development rights, and that is the Coral 6 MS. SPAIN: No. No. No, not as part of 6 Gables Museum and the Miracle Theatre. 7 this process, we don't. But we certainly 7 So hopefully I explained that. I'm happy 8 identify -- My department contacts Code 8 to answer any questions. 9 Enforcement to see if there's any violations, 9 CHAIRMAN AIZENSTAT: Dona, if I can just 10 and if there is, that's part of the maintenance 10 ask you a question. plan, that they would have to clear up. So 11 11 MS. SPAIN: Sure. it's done that way, because obviously, if 12 CHAIRMAN AIZENSTAT: The process is, 12 13 there's a Code Enforcement issue with 13 somebody can go ahead and sell their TDR rights maintenance, we would want it to be cleared up, 14 to a property in the CBD? 14 but it's not specifically in the Code. 15 15 MS. SPAIN: Yes. CHAIRMAN AIZENSTAT: Are you happy with the CHAIRMAN AIZENSTAT: Once they do that, 16 16 17 process? 17 what's in place to ensure that the funds are 18 MS. SPAIN: I am. I think it works. I used -- or what's in place to make sure that 18 19 think it works well. 19 the property that's designated historic is 20 CHAIRMAN AIZENSTAT: And through your 20 maintained? 21 tenure of being in the Historic Preservation 21 MS. SPAIN: Right. Part of the process is Board, you've seen people actually improve 22 a maintenance plan that goes to the Historic 22 23 their properties? 23 Preservation Board. That's done by an engineer 24 MS. SPAIN: Absolutely. 24 or an architect, and they identify things that 25 CHAIRMAN AIZENSTAT: Okay. 25 need to be done to maintain it. For instance,

|          |  | _        |  |
|----------|--|----------|--|
|          | Page 65  |          | Page 67  |
| 1        | Maria?   | 1        | build 3.5 FAR. So the maximum development  |
| 2        | MS. ALBERRO MENENDEZ: I was going to ask a               | 2        | rights is the maximum allowed on that site,  |
| 3        | similar question. As part of the TDR process,            | 3        | which includes bonuses. So, you take the   |
| 4        | don't they have to do like a report that then            | 4        | difference between the building volume and   |
| 5        | gets submitted to your department?                       | 5        | that, and that's what you can sell.  |
| 6        | MS. SPAIN: Yes. Yes.                                     | 6        | MR. BELLIN: But if I'm allowed a 1.9 with  |
| 7        | MS. ALBERRO MENENDEZ: Are they keeping up                | 7        | Med bonus in an MF2, I add   |
| 8        | with that?   | 8        | MS. SPAIN: According to the Planning and   |
| 9        | MS. SPAIN: Yes.  | 9        | Zoning, it's 1.5. You know, honestly, you know   |
| 10       | MS. ALBERRO MENENDEZ: Okay, great. And                   | 10       | it better than me.   |
| 11       | that's how you know that it's working?                   | 11       | If I have a zoning question, I call  |
| 12       | MS. SPAIN: We do, and if there's any                     | 12       | Marshall. But I believe that it's 1.5. If  |
| 13       | issues, we contact Code Enforcement.                     | 13       | it's limited to 45 feet, you have to have over   |
| 14       | MS. ALBERRO MENENDEZ: Okay.                              | 14       | 20,000. I should get somebody from Zoning up   |
| 15       | MR. BELLIN: Dona, I have a question. I                   | 15       | here.  |
| 16       | buy a TDR excuse me, I buy a TDR, and what               | 16       | MR. BELLIN: We've been through this, and   |
| 17       | do I get with respect to that TDR? I get extra           | 17       | it would be my   |
| 18       | FAR?   | 18       | MS. SPAIN: Right. So 1.5 is what we're   |
| 19<br>20 | MS. SPAIN: Yes.  | 19       | using for these calculations.  |
| 21       | MR. BELLIN: Do I get extra density?                      | 20       | MR. BELLIN: The 20,000 foot requirement,   |
| 22       | MS. SPAIN: Density?                                      | 21       | 20,000 square feet, there's an exemption in the  |
| 23       | MR. BELLIN: Yeah. Can I MS. SPAIN: Like number of units? | 22       | site specifics.  |
| 24       | MR. BELLIN: Number of units.                             | 23       | MS. SPAIN: Uh-huh.   |
| 25       | MS. SPAIN: No, just FAR.                                 | 25       | MR. BELLIN: And it says that you don't need 20,000 square feet, and the boundaries are |
| 2.5      |  | 23       |  |
|          | Page 66  |          | Page 68  |
| 1        | MR. BELLIN: FAR  | 1        | almost the same, but not quite. It goes from   |
| 2        | MS. SPAIN: You don't get any more height.                | 2        | Salzedo to Douglas and from 8th Street, I  |
| 3        | You just fill out the volume. You get square             | 3        | think, LNK.  |
| 4        | footage, is what you get.                                | 4        | MS. SPAIN: Uh-huh.   |
| 5        | MR. BELLIN: Okay, so basically it's just                 | 5        | MR. BELLIN: So you don't need 20,000.  |
| 6        | floor area ratio?  | 6        | Therefore but on Salzedo, on the west side   |
| 7        | MS. SPAIN: Yes.  | 7        | of Salzedo, it's not included in that exemption  |
| 8        | MR. BELLIN: That's what we get.                          | 8        | in the site specifics. So they start at 1  |
| 9        | MS. SPAIN: Yes.  | 9        | MS. SPAIN: I've had this discussion with   |
| 10       | MR. BELLIN: I have a question, because I                 | 10       | Zoning, and I can only tell you that we were   |
| 11       | really don't understand the process, but                 | 11       | told 1.5 was the maximum for the MF2 that we   |
| 12       | apparently you can buy TDRs                              | 12       | were talking about, and that's what we used in   |
| 13       | MS. SPAIN: Uh-huh.                                       | 13       | the calculation.   |
| 14       | MR. BELLIN: and the boundaries for that                  | 14       | MR. BELLIN: I  |
| 15<br>16 | area is the North Ponce, which is                        | 15<br>16 | MS. SPAIN: I'm not I'm not in Zoning.  |
|          | MS. SPAIN: Are you talking about the                     |          | We can only go by what they told us.   |
| 17       | proposal?<br>MR. BELLIN: Yeah. Yeah.                     | 17<br>18 | MR. BELLIN: Okay. All right. CHAIRMAN AIZENSTAT: Well, Marshall, would                 |
| 18<br>19 | MS. SPAIN: Right. It's Now, the North                    | 19       | you like to ask Zoning that specific question?   |
| 20       | Ponce I should mention this. Those                       | 20       | MR. BELLIN: If there's somebody here from  |
| 21       | properties that are MF2 would be the most                | 21       | Zoning that can answer it.   |
| 22       | amount of transferable If you were to knock              | 22       | CHAIRMAN AIZENSTAT: Ramon is here.   |
| 23       | down these buildings, you could only build 1.5           | 23       | MR. TRIAS: Marshall, is your question  |
| 24       | FAR. It's not like the commercial buildings              | 24       | What is the question, specifically?  |
| 25       | within the Central Business District, that can           | 25       | MR. BELLIN: For argument's sake, if I want   |
|          | man die Condui Duomeos District, that call               |          | and and an   |

| _  |  |    |   |
|----|--|----|---|
|    | Page 69  |    | Page 71   |
| 1  | to build a building on the west side of        | 1  | MR. TRIAS: Precisely.                           |
| 2  | Salzedo, because I don't have 20,000 square    | 2  | MR. BELLIN: Okay.                               |
| 3  | feet, I can only go to 45 feet in height, and  | 3  | MS. SPAIN: Exactly, and I apologize,            |
| 4  | my FAR starts at 1.                            | 4  | Marshall. I didn't know what the question was,  |
| 5  | MR. TRIAS: Yes.                                | 5  | obviously.                                      |
| 6  | MR. BELLIN: If I buy TDRs, then my FAR         | 6  | MR. BELLIN: I didn't know what I was            |
| 7  | goes up, or am I still limited to the 1?       | 7  | talking about, either.                          |
| 8  | MS. SPAIN: No, I think Well                    | 8  | MS. SPAIN: That's okay. Well, there you         |
| 9  | MR. TRIAS: Go ahead. Yeah, go ahead.           | 9  | go.   |
| 10 | MS. SPAIN: The TDRs is based on the            | 10 | MR. TRIAS: I'm glad we could help. Thank        |
| 11 | maximum that person would be able to build if  | 11 | you.  |
| 12 | the building were knocked down. Right?         | 12 | MR. GRABIEL: Dona                               |
| 13 | MR. TRIAS: Yeah, but he's asking as a          | 13 | MS. SPAIN: Yes.                                 |
| 14 | receiving site, right? You're asking           | 14 | MR. GRABIEL: A question. Why did you stop       |
| 15 | MS. SPAIN: The receiving site is all the       | 15 | at Southwest 8th Street, you didn't go all the  |
| 16 | same. It's only in the Central Business        | 16 | way to Flagler?                                 |
| 17 | District.                                      | 17 | MS. SPAIN: Well, that's interesting,            |
| 18 | MR. TRIAS: You have to be in the Central       | 18 | because we intended to, and there are actually  |
| 19 | Business District to be able to be a receiving | 19 | multi-family historically designated properties |
| 20 | site.  | 20 | above that area.                                |
| 21 | MS. SPAIN: And they get 4.375 maximum.         | 21 | MR. GRABIEL: Right.                             |
| 22 | MR. TRIAS: Right.                              | 22 | MS. SPAIN: But they are legally                 |
| 23 | MR. BELLIN: But I thought to be on the         | 23 | non-conforming and they're built on             |
| 24 | receiving site, you had to                     | 24 | single-family zoned lots.                       |
| 25 | MR. TRIAS: Yeah, let me I think I              | 25 | MR. GRABIEL: Okay.                              |
| -  |  |    |   |
|    | Page 70  |    | Page 72   |
| 1  | understand your question. The only thing that  | 1  | MS. SPAIN: And the zoning doesn't have the      |
| 2  | has changed is the sending.                    | 2  | same maximum with the development rights that   |
| 3  | MS. SPAIN: Right.                              | 3  | the MF2 does.                                   |
| 4  | MR. TRIAS: Okay? The receiving sites           | 4  | MR. GRABIEL: Even though it has been built      |
| 5  | haven't changed. They still have to be within  | 5  | above the allowable?                            |
| 6  | the Central Business District, and the maximum | 6  | MS. SPAIN: Even though it was built as          |
| 7  | FAR is the 4.2                                 | 7  | multiple family, and quite possibly, in the     |
| 8  | MS. SPAIN: 375. 4.375.                         | 8  | future, we could figure something out for those |
| 9  | MR. TRIAS: Yes.                                | 9  | properties.                                     |
| 10 | MR. BELLIN: So, basically, what you're         | 10 | MR. GRABIEL: It's a Catch-22.                   |
| 11 | expanding is the donor sites.                  | 11 | MS. SPAIN: It is. It is. But that's why         |
| 12 | MS. SPAIN: Exactly.                            | 12 | we didn't go forward.                           |
| 13 | MR. TRIAS: Exactly. That's the only change.    | 13 | MR. GRABIEL: Right, because I know at           |
| 14 | MS. SPAIN: And that's all we're asking for.    | 14 | least two                                       |
| 15 | MR. TRIAS: That's the only change, is, now     | 15 | MS. SPAIN: Well, we've designated at least      |
| 16 | we can send a few more square footage into     | 16 | one.  |
| 17 | exactly the same maximum as we have right now. | 17 | MR. GRABIEL: Yeah, that could benefit.          |
| 18 | MS. SPAIN: Right.                              | 18 | MS. SPAIN: Right, right.                        |
| 19 | MR. TRIAS: So that the maximum development     | 19 | MR. LEEN: Can I say something, Mr. Chair?       |
| 20 | does not change.                               | 20 | CHAIRMAN AIZENSTAT: Yes.                        |
| 21 | MS. SPAIN: Right. The potential in the         | 21 | MR. LEEN: You know, I really like the           |
| 22 | CBD remains the same.                          | 22 | idea, actually you know, I'm the Code           |
| 23 | CHAIRMAN AIZENSTAT: It's just a pool that      | 23 | Enforcement prosecutor and I like the idea that |
| 24 | you have                                       | 24 | they should be in compliance with the Code.     |
|    | JOH MATO -                                     |    | and should be in compliance with the code.      |
| 25 | MS. SPAIN: Exactly.                            | 25 | MS. SPAIN: That is nice.                        |

|          | Page 73  | Γ        | Page 75   |
|----------|--|----------|---|
| 1        |  | 1        | MR. LEEN: Yeah.   |
| 2        | MR. LEEN: And I know you said you put it as part the maintenance plan. | 1 2      | MS. SPAIN: To approve everything and then   |
| 3        | MS. SPAIN: Yes.  | 3        | have someone not actually eliminate the lien on   |
| 4        | MR. LEEN: But it doesn't expressly say                                 | 4        | the property.   |
| 5        | that, although   | 5        | CHAIRMAN AIZENSTAT: Well, in the cities   |
| 6        | MS. SPAIN: It does not.  | 6        | that I was referring to, they have to be  |
| 7        | MR. LEEN: you know, it's within your                                   | 7        | Code-compliant  |
| 8        | discretion. But maybe we could add that. It                            | 8        | MR. LEEN: Yes.  |
| 9        | seems to me that a donor site, if they have a                          | 9        | CHAIRMAN AIZENSTAT: prior to being able   |
| 10       | large lien, they should try to have I think                            | 10       | to sell. That's one of the conditions, and  |
| 111      | before they can sell something   | 11       | that's why I was asking. It was a little  |
| 12       | MS. SPAIN: Well  | 12       | strange to me that the City of Coral Gables   |
| 13       | MR. LEEN: which is a privilege, that                                   | 13       | didn't have some kind of a tool or a vehicle in   |
| 14       | maybe they should have to resolve the lien.                            | 14       | place, to at least at that point, make sure   |
| 15       | MS. SPAIN: I have a bit of an issue with                               | 15       | that the property is Code-compliant. I'm not  |
| 16       | that, because a lot of times, these are                                | 16       | so much saying whatever that maintenance plan   |
| 17       | properties you know, they're built in the                              | 17       | is, proceeding forward, but I do feel that the  |
| 18       | '20s.  | 18       | property that is donating should be   |
| 19       | MR. LEEN: I know.  | 19       | Code-compliant at the time or have something in   |
| 20       | MS. SPAIN: They're in disrepair. They may                              | 20       | place to bring it up to you know, to correct  |
| 21       | have been cited by Code Enforcement because of                         | 21       | the problems it has at that point.  |
| 22       | some type of maintenance issues, and so the                            | 22       | MS. SPAIN: Yeah. Many   |
| 23       | only way they can actually get help is to sell                         | 23       | CHAIRMAN AIZENSTAT: It just may be hard   |
| 24       | off the TDRs.  | 24       | with the economics, I don't know, and I don't   |
| 25       | MR. LEEN: True.  | 25       | know how you go about it.   |
|          | Page 74  |          | Page 76   |
| 1        | MS. SPAIN: So I think by the end of the                                | 1        | MS. SPAIN: Yeah, and many of these  |
| 2        | process, they should be free of it, but not                            | 2        | properties are legally non-conforming, and  |
| 3        | asking for it. Do you understand?                                      | 3        | so they   |
| 4        | MR. LEEN: I understand. I'm just saying                                | 4        | CHAIRMAN AIZENSTAT: No, no, I'm not saying  |
| 5        | that I may want to you know, I thought that                            | 5        | so much about the issues of legal   |
| 6        | was a good point, and if it's okay, I'd like to                        | 6        | non-conforming properties.  |
| 7        | talk to you about something that could be                              | 7        | MS. SPAIN: We're talking about the  |
| 8        | included, just so that we don't have a                                 | 8        | maintenance issues.   |
| 9        | situation where it's There's just an                                   | 9        | CHAIRMAN AIZENSTAT: I'm talking about that  |
| 10       | appearance as to why, if there's this huge                             | 10       | they have some Code violations  |
| 11       | lien, they're being able to sell all this and                          | 11       | MS. ALBERRO MENENDEZ: Right. Dirty  |
| 12       | then keep it.  | 12       | roofs   |
| 13       | MS. SPAIN: Well, you're right.   | 13       | CHAIRMAN AIZENSTAT: because they've   |
| 14       | MR. LEEN: For the historic property, when                              | 14       | got Yeah, whatever. It could be that. It  |
| 15       | they have this major problem with the property,                        | 15       | could be problems with their sewer, if they're  |
| 16       | that they're not complying.  | 16       | on septic as opposed to City. There could be  |
| 17       | MS. SPAIN: At the end of this process,                                 | 17       | other issues. I'm not so concerned, like I  |
| 18       | that should be eliminated. I don't have a                              | 18       | said, with legally non-conforming issues. I'm   |
| 19       | problem with that.   | 19       | just I would just not like a property to  |
| 20       | MR. LEEN: There should be some mechanism,                              | 20       | remain an eyesore when the property is  |
| 21<br>22 | and I think it was a very good point. I don't                          | 21       | MS. SPAIN: Well, I certainly think that we  |
| 23       | think you have to do anything with it; I just wanted to mention it.    | 22<br>23 | could put something I don't know, Craig, you  |
| 23<br>24 | MS. SPAIN: And we haven't come across                                  | 23       | need to weigh in on this, but I certainly think we could put something in that if there are |
|          |  | 25       | Code infractions, that  |
| 25       | that, but if we did, that would be troubling.                          |          |   |

|          |   | Г        | 2.70  |
|----------|---|----------|---|
|          | Page 77   |          | Page 79   |
| 1        | MS. ALBERRO MENENDEZ: Compliance prior to                                   | 1        | District. They already are in the Central       |
| 2        | the sale.   | 2        | Business District.                              |
| 3        | MS. SPAIN: Well, or that they need to come                                  | 3        | MR. BELLIN: No, but I mean but what             |
| 4        | into compliance as part of the within so                                    | 4        | we're talking about                             |
| 5        | much after selling it. I would not want them                                | 5        | MS. SPAIN: The proposal.                        |
| 6        | to have to be in compliance in advance of                                   | 6        | MR. BELLIN: it's only MF2, not                  |
| 7        | selling them, because I think a lot of times                                | 7        | commercial?                                     |
| 8        | they will have Code Enforcement issues, and                                 | 8        | MS. SPAIN: Yes.<br>MR. WU: Correct.             |
| 9        | this is a way to get them out of that situation.                            | 10       | MS. SPAIN: In the proposal.                     |
| 111      | MR. LEEN: I was just thinking as part of                                    | 11       | MR. BELLIN: Yeah. So my question is, what       |
| 12       | the but you said you do the maintenance                                     | 12       | if I have an MF2 historic building and I need   |
| 13       | preservation plan, you could add a few words                                | 13       | to rezone it which is the case of the           |
| 14       | that just says because right now, it says,                                  | 14       | project that we're working on. What happens to  |
| 15       | "which sets forth a maintenance schedule and/or                             | 15       | the development rights? Can I still sell those  |
| 16       | rehabilitation treatment, if applicable, for                                | 16       | development rights for that building, since the |
| 17       | those architectural elements that contribute to                             | 17       | zoning has changed? I don't know.               |
| 18       | the historic integrity of the property or                                   | 18       | MR. LEEN: So you rezone the property to a       |
| 19       | restoration of original features," comma, and                               | 19       | zoning designation that allows greater          |
| 20       | we could add something about  | 20       | MS. SPAIN: Are you talking about 42             |
| 21       | MS. SPAIN: I like that.   | 21       | Navarre?  |
| 22       | MR. LEEN: compliance with the Code, as                                      | 22       | MR. BELLIN: Yeah. In that case, it's a          |
| 23       | well, just a few words to give her more                                     | 23       | little different, because we're using our       |
| 24       | discretion, so if anyone challenges it, we                                  | 24       | rights to build a                               |
| 25       | could say that it's well within your  | 25       | MR. LEEN: Let me ask you something. Why         |
|          | Page 78   |          | Page 80   |
| 1        | discretion. You still don't have to do it, in                               | 1        | would you If it's a historic property and       |
| 2        | the appropriate case.   | 2        | it's going to remain                            |
| 3        | MS. SPAIN: I don't have a problem with                                      | 3        | MR. BELLIN: Uh-huh.                             |
| 4        | them coming into compliance. I do have a                                    | 4        | MR. LEEN: and you're rezoning, it would         |
| 5        | problem with them being in compliance before                                | 5        | still have the same historic property there,    |
| 6        | they sell it.   | 6        | though. Why would you rezone it?                |
| 7        | MR. LEEN: As part of the maintenance  | 7        | MS. SPAIN: Well, in that case, it's part        |
| 8        | schedule.   | 8        | of a larger parcel.                             |
| 9        | MS. SPAIN: As part of the maintenance                                       | 9        | MR. LEEN: Because it's part of the larger       |
| 10       | schedule.   | 10       | parcel?   |
| 11       | MR. LEEN: It could be something we could                                    | 11       | MR. BELLIN: Yeah, it's a whole block, and       |
| 12<br>13 | set MS. SPAIN: Because we check on that.                                    | 12<br>13 | it's MR. WU: Well, I would caution you. You're  |
| 14       |   | 14       | talking about a future case that's quasi        |
| 15       | MR. LEEN: It gives more ability, then, to get these houses into compliance. | 15       | MS, SPAIN: I know.                              |
| 16       | MS. SPAIN: Yes, I like it a lot.  | 16       | MR. WU: So                                      |
| 17       | MR. LEEN: So maybe just a few words in                                      | 17       | MR. LEEN: Well, it's a hypothetical,            |
| 18       | there, if everyone's okay with that.  | 18       | though. I mean, it's something that we have to  |
| 19       | MS. SPAIN: Yes.   | 19       | consider, because I don't know if that's        |
| 20       | MR. LEEN: That would be a suggestion.                                       | 20       | your I would be curious what Staff's view       |
| 21       | MR. BELLIN: Dona, I have another question.                                  | 21       | is, generally                                   |
| 22       | MS. SPAIN: Yes.   | 22       | MR. WU: Well                                    |
| 23       | MR. BELLIN: The donor sites can only be in                                  | 23       | MR. LEEN: in this area.                         |
| 24       | the MF2 zoning?   | 24       | MR. WU: As I'm reading the zoning               |
| 25       | MS. SPAIN: And the Central Business   | 25       | ordinance proposed, it's only designated in the |

| _   |   |    |   |
|-----|---|----|---|
|     | Page 81   |    | Page 83   |
| 1   | MF2 district.                                   | 1  | and you have a historic property there, I would |
| 2   | MS. SPAIN: Yes.                                 | 2  | be troubled by that, I have to say. I don't     |
| 3   | MR. WU: Once it's changed, it loses             | 3  | as the lawyer, as the attorney, I would be      |
| 4   | eligibility.                                    | 4  | you know, I'd wonder what the public It may     |
| 5   | MS. SPAIN: Yes, that would be the case.         | 5  | be a public purpose analysis, it may be just,   |
| 6   | And the property you're speaking of is already  | 6  | you know, having a rational basis for that      |
| 7   | in the Central Business District.               | 7  | decision. I would be troubled by it, I'd have   |
| 8   | CHAIRMAN AIZENSTAT: What happens if a           | 8  | to say.   |
| 9   | property was                                    | 9  | MS. SPAIN: I would be, also.                    |
| 10  | MS. SPAIN: I understand.                        | 10 | MR. WU: It defeats the purpose of the           |
| 11  | CHAIRMAN AIZENSTAT: MF2, sold its TDRs,         | 11 | ordinance.                                      |
| 12  | and then went to rezone? Can it do that?        | 12 | MS. ALBERRO MENENDEZ: Right.                    |
| 13  | MR. BELLIN: And that's the case, in other       | 13 | MR. LEEN: Yeah.                                 |
| 14  | properties.                                     | 14 | CHAIRMAN AIZENSTAT: Right.                      |
| 15  | MR. WU: That's always possible.                 | 15 | MS. SPAIN: Right.                               |
| 16  | MR. LEEN: So you already sold it?               | 16 | MR. LEEN: So I can't put my finger on it,       |
| 17  | Well, it would depend on the restrictive        | 17 | it was something to think about, but it's a     |
| 18  | covenant. The restrictive covenant might        | 18 | good point you're raising.                      |
| 19  | prevent you from doing that.                    | 19 | MS. SPAIN: The way it stands now, they          |
| 20  | MS. ALBERRO MENENDEZ: That doesn't make         | 20 | would then not be eligible to transfer the      |
| 21  | sense. You're selling, to then regain it? I     | 21 | development rights.                             |
| 22  | mean, that doesn't make sense.                  | 22 | (Inaudible discussion)                          |
| 23  | MS. SPAIN: The only properties up there         | 23 | Yes, that's it.                                 |
| 24  | are MF2.  | 24 | We're talking about a maintenance plan,         |
| 25  | MS. ALBERRO MENENDEZ: Once you sell it,         | 25 | but   |
|     | Page 82   |    | Page 84   |
| 1   | you're stuck with the size of your building, if | 1  | MR. TRIAS: The maintenance plan would           |
| 2   | you've sold them all. If you've sold            | 2  | allow you not to do exactly what you're         |
| 3   | partially, then you can then take up whatever   | 3  | proposing, so I think that there's several ways |
| 4   | you haven't sold.                               | 4  | to regulate this process, and clearly there's   |
| 5   | MS. SPAIN: But Marshall is saying if you        | 5  | review and so on, so but in this specific       |
| 6   | keep the size of the building and just want to  | 6  | case that applies to your project, you're       |
| 7   | rezone it for some reason.                      | 7  | already in the Central Business District.       |
| 8   | MR. BELLIN: Yeah. Well, if it's part of a       | 8  | MR. BELLIN: Yeah, but we have other             |
| 9   | larger site and part of that site is commercial | 9  | projects that are not                           |
| 10  | and part of it is MF2                           | 10 | MR. TRIAS: Right, but                           |
| 11  | MS. SPAIN: Then you wouldn't need the           | 11 | MR. BELLIN: and have the same issue.            |
| 12  | transfer of development rights. You have the    | 12 | MR. TRIAS: Right.                               |
| 13  | FAR for that building, anyway. It would be      | 13 | MR. BELLIN: So I                                |
| 14  | part of your development.                       | 14 | CHAIRMAN AIZENSTAT: Let's It's better           |
| 15  | MR. BELLIN: Okay.                               | 15 | if we don't get into a very specific case or    |
| 16  | MR. LEEN: Well                                  | 16 | issue at this point. I think we're here to      |
| 17  | MS. SPAIN: That's what I'm thinking.            | 17 | take a look at what's before us.                |
| 18  | MR. LEEN: I mean, not your more                 | 18 | Is Julio, did you have something you            |
| 19  | generally, if you rezoned Do we have any MF2    | 19 | want to   |
| 20  | that could be in a commercial zone?             | 20 | MR. GRABIEL: Yes. Going back to north of        |
| 21  | MS. SPAIN: I don't believe so. Do we?           | 21 | 8th Street, what would the City have to do to   |
| 22  | No.   | 22 | allow for those historic properties to benefit? |
| 23  | MR. LEEN: So, if you rezone okay, but           | 23 | MS. SPAIN: Those north of 8th Street?           |
| 24  | hypothetically, if you were rezoned to          | 24 | MR. GRABIEL: Uh-huh.                            |
| 25  | commercial, you'd have a higher potential FAR,  | 25 | MS. SPAIN: Well, Craig, do you think that       |
| , 1 | commercial, you d have a night potential PAR,   | 20 | Mis. St Atta. Well, Craig, do you tillik tilat  |

|    | Page 85   | Γ  | Page 87   |
|----|---|----|---|
| 1  | if I were a property owner of a legally         | 1  | MS. ALBERRO MENENDEZ: Right. Don't you          |
| 2  | non-conforming multi-family home on a single    | 2  | then have to knock it down and have it come     |
| 3  | on a property that's zoned single-family, would | 3  | into conformance with building                  |
| 4  | I be able to come to the City and request that  | 4  | MS. SPAIN: I've actually been to the            |
| 5  | I be included as a sending site for a transfer  | 5  | County with Manny Lopez and asking that since a |
| 6  | of development rights, if I'm not within        | 6  | building was historically designated, that it   |
| 7  | that  | 7  | not be required to be knocked down, and the     |
| 8  | MR. LEEN: But already you have a higher         | 8  | County agreed to it.                            |
| 9  | intensity development than what is allowed. I   | 9  | MS. ALBERRO MENENDEZ: But I'm talking           |
| 10 | would be concerned with it, because the whole   | 10 | about   |
| 11 | purpose of this is to try to help the MF2       | 11 | MS. SPAIN: But that's not every individual      |
| 12 | properties that could develop more and that     | 12 | case.   |
| 13 | can't because they're historic.                 | 13 | MS. ALBERRO MENENDEZ: No, I'm talking for       |
| 14 | MS. SPAIN: Right.                               | 14 | the cases that are non-conforming, like the one |
| 15 | MR. LEEN: And it doesn't really make sense      | 15 | that Julio described, for example, the ones     |
| 16 | in those properties.                            | 16 | MS. SPAIN: Oh, I see what you mean.             |
| 17 | MS. SPAIN: That's what our thought process      | 17 | MS. ALBERRO MENENDEZ: What I'm saying           |
| 18 | was, but  | 18 | is  |
| 19 | MR. LEEN: But it doesn't you know, I            | 19 | MS. SPAIN: Well, if they're unsafe              |
| 20 | but you'd have to come up with a purpose, like  | 20 | structures, then they have to come then they    |
| 21 | why would we do what would be the benefit.      | 21 | would have to come down.                        |
| 22 | MR. GRABIEL: I was thinking that some of        | 22 | MR. LEEN: They would have to.                   |
| 23 | those structures, if they need repairs, they    | 23 | MS. ALBERRO MENENDEZ: But what I'm saying       |
| 24 | could sell their development rights, you know.  | 24 | is, the non-conforming properties, don't they   |
| 25 | They could then benefit from maintenance        | 25 | at some point when they have to make major      |
| 23 |   | 20 |   |
| _  | Page 86   |    | Page 88   |
| 1  | MS. SPAIN: But the point is, they really        | 1  | repairs When does it become When do we          |
| 2  | don't have any.                                 | 2  | require them to become conforming?              |
| 3  | MR. LEEN: You're granting them development      | 3  | MS. SPAIN: We don't.                            |
| 4  | rights, too, though.                            | 4  | MR. LEEN: Well, I'll read to you. I have        |
| 5  | MS. SPAIN: They really don't have               | 5  | the provision right here.                       |
| 6  | development rights.                             | 6  | MS. ALBERRO MENENDEZ: Okay, that would be       |
| 7  | MR. WU: There's no development rights to        | 7  | great.  |
| 8  | give if they're oversized in a single-family    | 8  | MR. LEEN: It's You're talking about             |
| 9  | lot.  | 9  | destruction of nonconforming structures.        |
| 10 | MS. SPAIN: Right.                               | 10 | MS. SPAIN: Right. It's only when they're        |
| 11 | CHAIRMAN AIZENSTAT: Okay. That answers          | 11 | destroyed.                                      |
| 12 | that question.                                  | 12 | MR. LEEN: What it says is, except as            |
| 13 | MS. SPAIN: Right. There really is no            | 13 | provided in this Code, in Section 3-1112 and in |
| 14 | development rights for them to give. They're    | 14 | this Section 6-302, "a non-conforming structure |
| 15 | already   | 15 | or non-conforming portion of a structure that   |
| 16 | MS. ALBERRO MENENDEZ: In the                    | 16 | is destroyed to an extent exceeding 50 percent  |
| 17 | non-conforming, if they have to do repairs up   | 17 | of its replacement cost at the time of its      |
| 18 | to a certain amount, don't they have to knock   | 18 | destruction shall not be reconstructed except   |
| 19 | it down and be conforming? So, in other words,  | 19 | in conformity with these regulations. All       |
| 20 | a non-conforming building, if in fact it gets   | 20 | residential structures, including accessory     |
| 21 | to a point where it needs to be fixed and it's  | 21 | uses and structures, located in a residential   |
| 22 | 50 percent I don't know what the percentage     | 22 | district may be reconstructed if destroyed to   |
| 23 | is  | 23 | any extent, provided that such reconstruction   |
| 24 | MS. SPAIN: Yes. That's one of those             | 24 | does not increase the extent of the             |
| 25 | structural concerns.                            | 25 | non-conformity existing prior to destruction."  |

|          | Page 89   |          | Page 91   |
|----------|---|----------|---|
| 1        | -   | 1        | go out for grants because they're theoretically         |
| 1        | So, basically, for residential structures,  | 1 2      | able to be visited by the public. But                   |
| 2        | you can rebuild them even if it's more than 50  | 3        | typically, in a historic building, the                  |
| 3        | percent.  | 4        | interiors are not designated. It's only the             |
| 5        | MS. SPAIN: There's also a section in  | 5        | exterior volume that we care about.                     |
| 6        | the I think it's Article 3, in the Preservation Code, that talks about the                | 6        | CHAIRMAN AIZENSTAT: And how would that                  |
| 7        | destruction of historic properties, which would   | 7        | affect the non-conforming structure, if it              |
| 8        | qualify, and there's a certain  | 8        | wants to do some work?                                  |
| 9        | percentage that   | 9        | MS. SPAIN: They can be legally                          |
| 10       | MR. LEEN: That's what they're citing at   | 10       | non-conforming and                                      |
| 11       | 3-1112, I believe, is that section.   | 11       | MR. LEEN: They just can't increase the                  |
| 12       | MS. SPAIN: Okay.  | 12       | extent of the non-conformity.                           |
| 13       | MR. LEEN: So it is an exception.  | 13       | MS. SPAIN: Exactly. They can't increase                 |
| 14       | MS. SPAIN: That's an exception to that,   | 14       | it.   |
| 15       | because if they're designated I can't   | 15       | MR. LEEN: Unless they receive some sort of              |
| 16       | remember what it says, but there is a   | 16       | variance, but even then, that's an interesting          |
| 17       | percentage that it says it has to be  | 17       | question. I haven't seen a non-conforming               |
| 18       | reconstructed, and then there's another   | 18       | building receive a Have we had that come up?            |
| 19       | percentage that they have an option.  | 19       | MS. SPAIN: We have.                                     |
| 20       | MS. ALBERRO MENENDEZ: But do you  | 20       | MR. LEEN: Did you have it in Historic?                  |
| 21       | historically designate non-conforming   | 21       | MS. SPAIN: If for instance, setbacks.                   |
| 22       | buildings?  | 22       | CHAIRMAN AIZENSTAT: Right.                              |
| 23       | MS. SPAIN: Yes, all the time.   | 23       | MS. SPAIN: A lot of the buildings well,                 |
| 24       | MS. ALBERRO MENENDEZ: You do?   | 24       | some of the buildings even encroach onto the            |
| 25       | MS. SPAIN: Absolutely.  | 25       | neighboring property. But some of them, if              |
|          | Page 90   |          | Page 92   |
| 1        | MS. ALBERRO MENENDEZ: Okay. I didn't know   | 1        | there's a five-foot setback, they were built            |
| 2        | that.   | 2        | two feet from the property line. We have had            |
| 3        | MS. SPAIN: Yeah.  | 3        | instances where they wanted to add to the               |
| 4        | MS. ALBERRO MENENDEZ: I thought you did   | 4        | building, and they would have to go for a               |
| 5        | not, that's why.  | 5        | variance or   |
| 6        | MS. SPAIN: Most of them are   | 6        | CHAIRMAN AIZENSTAT: Before the Board of                 |
| 7        | non-conforming, because they were built in the  | 7        | Adjustments?  |
| 8        | '20s.   | 8        | MS. SPAIN: No.  |
| 9        | MS. ALBERRO MENENDEZ: Okay.   | 9        | MR. WU: No, Historic Preservation.                      |
| 10       | CHAIRMAN AIZENSTAT: Now, what's the   | 10       | MR. LEEN: No, Historic Preservation.                    |
| 11       | process, if somebody brings you a historic  | 11       | MS. SPAIN: Historic Preservation.                       |
| 12       | property that they want to not I guess,   | 12       | CHAIRMAN AIZENSTAT: Oh, Historic                        |
| 13       | rebuild is the wrong phrase, but they want to   | 13       | Preservation. So they'd never go to the Board           |
| 14       | restore it?   | 14       | of Adjustments, then?                                   |
| 15       | MS. SPAIN: Uh-huh.  | 15       | MS. SPAIN: They would never go to the                   |
| 16       | CHAIRMAN AIZENSTAT: Is there a percentage   | 16       | Board of Adjustment MR. WU: Not for historic in nature. |
| 17       | of the structure that they have to maintain?  | 17       | MS. SPAIN: Not on historic.                             |
| 18<br>19 | Do they have to maintain the exterior walls; they can gut the inside? What's the process? | 18<br>19 | CHAIRMAN AIZENSTAT: Okay.                               |
| 20       | How does that work?   | 20       | MS. SPAIN: Because they take into                       |
| 21       | MS. SPAIN: Well, it's the same with any   | 21       | consideration the historic nature of the                |
| 22       | historic structure. We do not designate the   | 22       | property.   |
| 23       | interiors, although the buildings in the North  | 23       | CHAIRMAN AIZENSTAT: So the Historic                     |
| 24       | Ponce area, there is a section of the Code that   | 24       | Preservation Board does grant a variance?               |
| 25       | applies to them, because that allows them to  | 25       | MS. SPAIN: Yes, exactly like the Board of               |

|     | The state of the s | 1  |   |
|-----|--|----|---|
| 1   | Page 93  |    | Page 95   |
| 1   | Adjustment, only for historically designated   | 1  | "Development Review Committee," of Chapter 101, |
| 2   | buildings.   | 2  | Administration and Enforcement, of the Cora     |
| 3   | CHAIRMAN AIZENSTAT: That answers my  | 3  | Gables Code of Ordinances in its entirety; and  |
| 4   | question.  | 4  | Division 8 of Article 2, Decision Making and    |
| 5   | MS. SPAIN: Because they understand the   | 5  | Administrative Bodies, of the Official Zaning   |
| 6   | issues.  | 6  | Code of Coral Gables in its entirety; an ending |
| 7   | CHAIRMAN AIZENSTAT: Okay.  | 7  | Section 101-19, Development Review Committee,   |
| 8   | Any other comments?  | 8  | of Chapter 101, Administration and Enforcement, |
| 9   | MS. SPAIN: Now that we're thoroughly   | 9  | of the Coral Gables Code of Ordivances; and     |
| 10  | confused?  | 10 | providing for a new Division 8, Article 2,      |
| 11  | CHAIRMAN AIZENSTAT: Would anybody like to  | 11 | Official Zoning Code of Coral Gables, by        |
| 12  | make a motion?   | 12 | updating, revising and codifying Development    |
| 13  | MR. FLANAGAN: I'll move it.  | 13 | Review Committee, known as DRC, procedures and  |
| 14  | MR. GRABIEL: Second it.  | 14 | review requirements as originally established   |
| 15  | CHAIRMAN AIZENSTAT: As is? Any comments?   | 15 | in Ordinance Number 2903-45; providing for      |
| 16  | MR. FLANAGAN: Do you want your language,   | 16 | severability, repealer, odification and an      |
| 17  | or do you want to deal with that later?  | 17 | effective date.                                 |
| 18  | MR. LEEN: Well, maybe you could Instead  | 18 | MR. WU: Thank you, Mr. Chair. We believe        |
| 19  | of putting an amendment, maybe just a  | 19 | this is a housekeeping matter. In 2003, the     |
| 20  | suggestion to the City Attorney and Staff to   | 20 | City Commission adopted extensive City Code     |
| 21  | look at adding some language regarding the Code  | 21 | provisions related to Development Review        |
| 22  | compliance.  | 22 | Committee, and during the Code rewrite, we also |
| 23  | MS. ALBERRO MENENDEZ: Okay.  | 23 | adopted some provisions, rather minor, in the   |
| 24  | MS. SPAIN: Yeah, I like that.  | 24 | Zoning Code.                                    |
| 25  | CHAIRMAN AIZENSTAT: Is that okay with your   | 25 | So we have two provisions in the City Code      |
|     | Page 94  |    | Page 96   |
| 1   | motion?  | 1  | and the Zoning Code that speak to the DRC, the  |
| 2   | MR. FLANAGAN: Yeah, that's fine.   | 2  | Development Review Committee.                   |
| 3   | CHAIRMAN AIZENSTAT: Julio, the second?   | 3  | At the same time, 10 years later, since         |
| 4   | MR. GRABIEL: Yes.  | 4  | 2003, we have since We have new practices as    |
| 5   | CHAIRMAN AIZENSTAT: Any other comments?  |    | to how we conduct the Development Peview        |
| 6   | Having heard none, call the roll, please.  | 6  | Committee, some things we do, some things we do |
| 7   | MS. MENENDEZ: Maria Menendez?  | 7  | not any longer, so we thought it would be more  |
| 8   | MS. ALBERRO MENENDEZ: Yes.   | 8  | practical to repeal both sections and readopt   |
| 9   | MS. MENENDEZ: Marshall Bellin?   | 9  | sections in the Zoning Code, and it resides in  |
| 10  | MR. BELLIN: Yes.   | 10 | the Zoning Code, and update the Development     |
| 11  | MS. MENENDEZ: Anthony Bello?   | 11 | Review in terms of its makeup, its processes    |
| 12  | MR. BELLO: Yes.  | 12 | and its scheduling.                             |
| 13  | MS. MENENDEZ: Jeff Flanagan?   | 13 | So, to start off with, we copied the            |
| 14  | MR. FLANAGAN: Yes.   | 14 | purpose and intent into the Zoning Code         |
| 15  | MS. MENENDEZ: Julio Grabiel?   | 15 | provision. We have clarified what types of      |
| 16  | MR. GRABIEL: Yes.  | 16 | applications go before the DRC, and we also     |
| 17  | MS. MENENDEZ: Eibi Aizenstat?  | 17 | have a provision for discretionary or the items |
| 18  | CHAIRMAN AIZENSTAT: Yes.   | 18 | that the Staff can determine whether to take    |
|     |  | 19 | before the DRC. For example, we used to take    |
| 19  | MS. SPAIN: Thank you very much.  | 20 | all cases when you have a tenant change-out     |
| 20  | CHAIRMAN AIZENSTAT: Thank you, Dona. The next item and the final item on our   | 21 | before the DRC, and we thought they were rather |
| 21  |  |    | mino, but the Code does tie our hands to take   |
| 2.2 | accords topicht is an Ordinance of the City  |    |   |
| 22  | agenda tonight is an Ordinance of the City   | 22 |   |
| 23  | Commission of Coral Gables, Florida, repealing   | 23 | it before the DRC, and we'd like to make that   |
|     | • • •  |    |   |
