

1 How does the challenge work?

Determine a six-month collection time period.

Collect a minimum of 500 lbs. or 40,500 plastic film and bags.

Weigh and record amount of film recycled each month.

Deliver the collected plastic film to a participating retailer (see list) for recycling.

Report recycling totals to Stephanie Hicks, shicks@trex.com each month.

What can be recycled?

All plastic must be clean, dry and free of food residue.

Grocery bags

Bread bags

Bubble wrap

Dry cleaning bags

Newspaper sleeves

Ice bags

Plastic shipping envelopes

Ziploc & other reclosable food storage bags

Cereal bags

Case overwrap

Salt bags

Pallet wrap & stretch film

Wood pellet bags

Produce bags

2 What does Trex provide?

- Two recycling bins
- Posters
- Award

3 Award

- If goal is met or exceeded, group will receive a Trex bench.

RECYCLE BEYOND THE BAG

Recycle your household bags & wrap into Trex's Earth-friendly composite decking and railing!

FROM THE STORE

✓ Produce bags

✓ Store bags

✓ Ice bags

Did you know cigarette butts are the world's most littered item, with about 4.5 trillion cigarettes discarded each year worldwide and 9.7 billion cigarette butts discarded along roadways and waterways in the United States? And most cigarette filters are made of plastic fibers, which don't break down naturally and will persist in our environment when littered.

Removing this litter from our communities through organized cleanups is just the beginning of keeping cigarette butts out of our parks and waterways. After hosting a cleanup, collecting them at home, or with a cigarette receptacle, separate cigarettes from other trash and send them to TerraCycle to be recycled for FREE through the [Cigarette Waste Free Recycling Program!](#)

Here's how it works:

1. Collect your cigarette butts in a sturdy, sealable bag or container

2. Fill out the form below to get a free shipping label

3. When you're ready to ship, seal your bag or container, place it in a box you have around the house, and print your free shipping label

4. Send us your cigarette butts to be recycled!

The butts are shredded and sanitized to remove contaminants. Then they are separated into tobacco, paper, and cellulose acetate filters. Tobacco and paper are dried and mixed with other organic materials to create compost. The filters are dried and turned into a powder that's used to make plastic products.

TerraCycle and [Keep America Beautiful](#) invite community organizations, nonprofits, and local municipalities to collect cigarette waste and clean up their neighborhoods.

Keep America Beautiful is the nation's leading community improvement nonprofit organization, inspiring and educating people to take action every day to improve and beautify their community environment. If you're not already signed up for the Keep America Beautiful newsletter, [click here to subscribe](#).

TerraCycle is an international leader in innovative sustainability solutions, creating and operating first-of-their-kind platforms in recycling, recycled materials, and reuse. Across 21 countries, TerraCycle is on a mission to rethink waste and develop practical solutions for today's complex waste challenges. You can #RecycleEverything collected during community cleanups through our free and paid recycling solutions. [Get started by creating an account](#).
