C-4 Discussion regarding PTSA Zoom Meeting held with Dr. Rosenfeld of Miami Beach (Facilitated by Winnie Chang, Chairperson)

Draft

Chairperson Chang indicated that schools in Miami Beach are structured differently from other jurisdictions. Their budget is fully for programming and not for beautification. The committee reviewed the notes from the PTSA Zoom meeting and discussed.

Acting Liaison Lopez will follow up with the district on how other cities distribute funding if similar programs are present.

Board Member Goodman also serves as Vice President of the Little Carver PTA and provided background on PTA group and how Miami Beach runs their program. He asked how many families in Coral Gables send their kids to public schools.

Chairperson Chang indicated that the Miami Beach program was a process of twenty years to get to where they are today. Miami Beach was able to have their own budget via conducting their own community survey, thus serving their residents accordingly to their specific needs. Perhaps something to look at is to conduct a city-wide survey and collect the necessary information such as what is the number of families within Coral Gables that utilize public schools and or would they want to use public schools. Acting Liaison Lopez explains that the city already conducts a bi-annual community survey but that it is not specific to schools, while there is a general question regarding education within the survey.

A request is made to go back to the schools and clarify that the SCRC wishes to know what their programmatic enrichment needs currently are.

District Administrative Director Aillette Diaz will reach out to the principals and provide Acting Liaison Lopez with the requested information before the next SCRC meeting. Board Member Slesnick brought up using museum funds for this program again. Limiting it to 5K per school to start with.

Board Member Goodman motions for a resolution to the City Commission requesting for a consultant and or trained expert to conduct a thorough needs assessment and serve as an education officer. The motion does not receive a second.

Vice Chairperson Dimitris mentioned to gear toward STEM or teacher certification programming.

Estelle Lockhart circled back to the survey discussion and states that it would need to be very technical and would need to be statistical and solely on education. Mentions that Miami Beach did a compact and 50/40 split to help fund feeder schools as well. States that the city needs a full-time employee to work on these items. Workshops need to be planned and well thought out. She also states that there needs to be a nationwide comparison.

Sam Joseph indicated that Somerset is a charter and it's not included in the list district's list. Requested notes from workshop summit from 2018 meeting with Miami Beach. Ms. Levi-Garcia should have details of such meeting. Mr. Joseph agrees that another workshop/community meeting is required. A Chief Educational Officer is needed.

Chairperson Chang agrees that a workshop for a strategic plan is needed. A discussion on scheduling a workshop will be added to the next meeting agenda.

Board Members Goodman and Slesnick encourage PTSA presidents to speak with their principals to discuss the request for programmatic needs assessment and make sure they respond. Board Member Slesnick asked Board Member Watson to let PTSA know through her contacts.
