St. Thomas is an integral part of the Coral Gables community, and as such, should be allowed to improve its playing field for the benefit of the children attending the school.</p> <p>My daughter just finished preschool and I recently went through the daunting task of trying to find an elementary school for her. I was so impressed with St. Thomas and its wonderful staff that I have enrolled my daughter in Kindergarten this fall and have made plans to stay in Coral Gables so that I can be near the school. My belief is that making these improvements will enhance the school and cause more families, just like mine, to send their children to this</p>

My husband and I have been residents of Coral Gables for 10 years. During those 10 years we have also been associated with St. Thomas Episcopal School with three of our four children attending school there over the years.</p> <p>St. Thomas is such a lovely school and definitely an asset to the City of Coral Gables. When people relocate, schools are always of much import. Having a gem like St. Thomas in your city is an incredible draw. If however we want St. Thomas to remain competitive in the private school sector, they need to enhance their facilities.</p> <p>As you know, several years back, the church and school bought the neighboring property with the intent to expand our campus. Now the only thing holding us back is the current residential zoning. 					<p>years, I hope the re-zoning request is approved so that the school could build an enhanced playing field for the children of St. Thomas. As it is, there is a constant struggle to maintain the limited space we have for a playing field due to its stand-in for overflow parking for church and school events. Car tire treads ruin the grass and with any moderate amount of rain, the field becomes a muddy mess unsuitable for the children to use. Turning the adjacent property (already owned by St. Thomas) into a large playing field would benefit our students by providing greater opportunity for P.E., play and sports activities. I also believe it would benefit the neighborhood by helping to ease the parking overflow issue, ultimately improving traffic flow in the area, and, importantly, by adding green space.</p> <p>Thank you very much for your consideration,</p> <p>Sincerely, Anne Lawrie</p>

					<p>Dear Messrs. Foeman and Riel:</p> <p>My children attend St. Thomas Episcopal Parish School (STEPS). As a parent, I can attest to the huge value STEPS adds to not only the school community but the community as a whole. STEPS works tirelessly to provide an excellent education to its students as well as a warm and loving environment which truly nurtures our children and prepares them to be successful adults in the future.</p> <p>STEPS facilities would be greatly enhanced if it could utilize the property adjacent to the parking area as a playing field for the children. The current field is often used to accommodate overflow parking which ruins the quality of the sod. The field also often floods which prohibits the children from playing. An integral part of elementary education is physical activity and by providing an adequate space to do so, our children can only benefit.</p> <p>As a Coral Gables resident and parent of children who attend STEPS, I would greatly appreciate any efforts you could make to re-zone the property to allow for an enhanced playing field for St. Thomas.</p> <p>Thank you for your consideration.</p> <p>Martha de Zayas 125 West Sunrise Ave Coral Gables, FL 33133</p>

I am a parent of a student currently enrolled at the School. The use of the lot for a playing field would greatly enhance the school's ability to offer more outdoor activities and events on a regular basis. A playing field, which would only add to the existent use at the site, would not substantially alter or change the surrounding neighborhood or feel, and would be entirely consistent with the School's current special use designation. Indeed as the natural foliage already exists, or even if enhanced along the borders as needed, I believe little to no discernable change would be felt by the neighborhood or immediate neighbors. These days athletic and outdoor activities are an essential part of a school's mission, and the increased space should allow for the school to offer such rewarding activities.</p> <p>Thank you for considering this petition.</p> <p>Armin G. 					<p>Dear Gentlemen,</p> <p>I am writing you as a parent of 2 St. Thomas students, a member of the church, and a Coral Gables resident. Our school is very much in need of a new playing field for our children. The current field has very poor drainage, and as it rains so often here, they are left unable to play outside. As of now, the school is in urgent need of both parking spaces and playing fields. As you know, most public schools have eliminated after-school sports because they have either too high costs or have had to sacrifice field space for classroom use. One of the reasons why many parents struggle to send their children to St. Thomas Episcopal School is because of the wonderful combination it has with both academic and an athletic program. Recently, the school has also increased in size and has fallen under the same problems as most other schools in South Florida/ Coral Gables. The good part is, St. Thomas has an adjacent lot ready for its use. The children urgently need the approval of this land. It will be put to use to benefit the future residents of Coral Gables.</p>

		5341 Banyan Drive Coral Gables, FL			<p>Thomas for change of utilization of property that is adjacent to a resident is a long request for a Master Plan. In previous meetings before the city council and mayor I have requested that the Church/Parish have a Master Plan for intended usage. It is difficult to agree to changes in usage of one property when we do not know what the long term plan for that property is. My concern with turning it into fields for the use of the children is I believe this should be contiguous with the existing fields instead of "skipping over a building" and then placing additional fields for play. I believe there are parking/safety concerns with the already troubled traffic area of Kendall Drive. Kendall Drive is going to be additionally congested with the already "partially approved" closing off of School House Road for a gate. The City of Coral Gables needs to look at all projects affecting a neighborhood this will add an additional burden on the traffic on Kendall Drive. Keep in mind that parents "love" to park next to fields where their children are playing, they presently use the right-of-way for this purpose during activities, this is a hazard when they back up on Kendall Drive. I believe this presents a serious liability for the city and should be addressed. Secondly the traffic impact of both of these requests should be studied together.</p> <p>I am sorry I am unable to be at the meeting. If you have any questions please let me know. I believe in St. Thomas providing their members what they need, but we need to keep in balance a safe method in implementing that preserves the sanctity and safety of the neighborhood.</p> <p>Sincerely, Cynthia Trescott</p>
72.	06 03 09	Guillermo & Ofelia Fernandez 5441 Banyan Drive Coral Gables, FL 33156	X		<p>We adamantly oppose the proposed change in land use for the property located at 5450 N. Kendall Drive. Through the years St. Thomas Church has been growing and encroaching more and more into our once quiet neighborhood. Some years ago, they requested and received cooperation and approval from the neighbors for new buildings and promised that they would not make any more changes to the school. Since that time they have purchased 2 more properties in the neighborhood, each one on either side of our house. The property on the west side is before you today requesting a Change of Land Use. The property on the east side is currently used as a residence for the pastor. How long will it before they want a Change in Land Use on that one also? Twenty years ago we purchased out home surrounded by single family one acre residences. Changing the land use on this property would cause irreparable harm to our neighborhood.</p> <p>Please protect our neighborhood and do not recommend a Change in Land Use for this property. The continued growth of this school threatens our right to quiet enjoyment of our home and neighborhood.</p> <p>Thank you for your consideration. Guillermo & Ofelia Fernandez</p>
