RECOMMENDATION OF THE CITY MANAGER:

It is recommended that this Ordinance be adopted on first reading.

BRIEF HISTORY:

On August 28, 2007 the City Commission adopted Ordinance No. 2007-27 establishing an Impact Fee for new developments to assist in addressing the impact on existing City facilities and capital equipment. During the public input of the presentation, University of Miami requested that the City Commission consider establishing a separate category for the University providing credit for certain services provided, such as, police and park facilities.

TishlerBise was engaged by the City to develop the methodology of establishing the rate structure for the impact of future development by the University of Miami. Such consulting fees have been paid by the University of Miami.

The University of Miami, TishlerBise and City Staff have been working towards this goal since September 2007, exchanging information and meeting when required.

The report and fee structure for the University of Miami category is presented today for your consideration.
