WHEREAS, the City Commission of the City of Coral Gables declares that it is in the best interest of the public health, safety, and welfare of its residents and visitors to reduce runoff from improperly applied fertilizers in the waters of the City; and

WHEREAS, the City Commission of Coral Gables has previously considered legislation regulating the use of nitrogen and phosphorous based fertilizers during certain time periods; and

WHEREAS, the City is currently conducting extensive research into the quality of the City's waterways in order to determine the impact of improper usage of fertilizers on the City's waterways and Biscayne Bay; and

WHEREAS, the City Commission adopted a resolution prohibiting the use of fertilizers containing nitrogen or phosphorous by City crews or contractors in City owned and operated properties during the rainiest summer months, from June 1st through September 30th each year; and

“ORDINANCE RELATING TO REGULATION OF FERTILIZER; CREATING CHAPTER 18C OF THE CODE OF MIAMI-DADE COUNTY, FLORIDA; REGULATING FERTILIZER APPLICATION AND USAGE IN THE
