**WHEREAS**, in April of 2018 Skinny Labs, Inc., doing business as Spin (hereinafter “Spin”), approached the City of Coral Gables about implementing a pilot program for last mile mobility devices, specifically electric kick scooters; and

**WHEREAS**, the City recognizes the value of shared last mile mobility devices, and the desire of City residents and visitors to use such devices; and

**WHEREAS**, though the City has had a recent influx of unauthorized personal mobility devices in the City, Spin approached the City prior to deploying any devices within the City, and has not yet deployed in the City as they do not currently have City approval or a signed memorandum of understanding; and

**WHEREAS**, the City is interested in executing an agreement for a short pilot program for electric kick-scooters in order to determine the need for such devices within the City, the areas where said devices are used the most, and to generally study the use of shared mobility devices within the City; and

**WHEREAS**, section 316.008, Florida Statutes, provides that a municipality may enact an ordinance to permit, control or regulate the operation of vehicles, motorized scooters, and electric personal assistive mobility devices with certain limitations; and

**WHEREAS**, the City Commission desires to enter into an exclusive pilot agreement with Spin through August 28, 2018, the next City Commission meeting, in order to provide the City’s residents and visitors with the option of using shared mobility devices and to provide the City Commission with information regarding usage and resident response in the City; and

**WHEREAS**, City staff will work closely with Spin to ensure that all electric kick-scooters are deployed and left in proper areas of the City and that no electric kick-scooters are abandoned on City rights-of-way so as to impede pedestrian access; and

**WHEREAS**, City staff will consult with Spin throughout the pilot period in order to educate users of the electric kick-scooters, ensure proper placement of the electric kick-scooters throughout the City, and relocate the scooters upon request; and

**WHEREAS**, Spin will abide by all relevant City ordinances and regulations in the implementation of the electric kick-scooter pilot program; and

**WHEREAS**, Spin will provide reports to the City with aggregate usage data in order to assist the City in its works on a multi-modal transportation plan and inform any potential future RFP process regarding shared mobility devices; and

**WHEREAS**, the City Commission authorizes the City Manager and City Attorney to enter into an agreement for an electric kick-scooter pilot program in the City of Coral Gables in substantial conformity with the points outlined below:

- The agreement shall be for an exclusive pilot program from the date of execution of the agreement through August 28, 2018.
- The maximum number of electric kick-scooters to be deployed at on any given day in the City shall be 75; and

**WHEREAS**, During the August 28, 2018 City Commission meeting staff and Spin shall provide an update to the City Commission regarding the pilot program;

**NOW, THEREFORE, BE IT RESOLVED BY THE COMMISSION OF THE CITY OF CORAL GABLES:**
