Statement of Use

St. Philip's Episcopal Church & School ("St. Philip's") is proposing a Major Site Plan Amendment to its 2002 Master Plan.

The amendment involves the demolition of the campus' easternmost building on Andalusia Avenue and construction of a replacement building. The existing structure houses 2 pre-k classrooms and its condition doesn't merit repair. In addition, the layout was retrofitted from a single family home to pre-school use, and is not an ideal design for Pre-K education. The City's Historic Resources Department has determined that this structure does not have any historic significance and may be demolished.

The replacement structure will total 4,198 square feet in size consisting of:

1. Two classrooms
2. Multi purpose room
3. Storage
4. Connection hallway

The proposal also involves a modification to one of the conditions of the original site plan. The condition was that any new building on the southeastern boundary not have windows facing the abutting neighbors to the east. The Board of Architects at its meeting reviewing the preliminary plans for the new building requested windows to maintain a residential streetscape. The windows would be fixed (non operative) with impact glass. The windows are on the storage room section of the new building that is closer to the street and visible from the sidewalk. The storage room abuts the neighbor's driveway and garage. The portion of the new building that abuts the neighbor's house is windowless.

The new building will house the same 2 pre-k classrooms: one pre-k 3 and one pre-k 4 - with 22 students each. The replacement building will provide an educational use interior design, increased security for the students and staff and will be ADA compliant.

There is no proposed increase in the total number of students – currently 180.

5. This Declaration is to run with the land and shall be binding on all parties and all persons claiming under it for a period of thirty (30) years from the date this Declaration is recorded after which time it shall be extended automatically for successive periods of ten (10) years, unless an instrument signed by the then owner(s) of the Property has been recorded agreeing to change the covenant in whole, or in part, provided that the Declaration has first been modified or released by the City of Coral Gables.

9. All rights, remedies and privileges granted herein shall be deemed to be cumulative and the exercise of any one or more shall neither be deemed to constitute an election of remedies, nor shall it preclude the party exercising the same from exercising such other additional rights, remedies or privileges.

10. Where construction has occurred on the Property or any portion thereof, pursuant to a lawful permit issued by the City, and inspections made and approval of occupancy given by the City, then such construction, inspection and approval shall create a rebuttable presumption that the buildings or structures thus constructed comply with the intent and spirit of this Declaration.

11. . . Invalidation of any of these covenants by judgment or Court shall not affect any of the other provisions, which shall remain in full force and effect.

The Reverend Mary E. Conroy
St. Phillip's Episcopal Church
1121 Andalusia Avenue
Coral Gables, Florida 33134

Re: 1109 Andalusia Avenue legally described as Lots 14 & 15, Block 18, Coral Gables Section A, according to the plat thereof as recorded in Plat Book 5, Page 102 of the public records of Miami-Dade County, Florida.

Dear Reverend Conroy:

Section 8-107(G) of the Coral Gables Zoning Code states that "All demolition permits for non-designated buildings and/or structures must be approved by the Historic Preservation Officer or designee. The approval is valid for eighteen (18) months from issuance and shall thereafter expire and the approval is deemed void unless the demolition permit has been issued by the Development Services Department. The Historic Preservation Officer may require review by the Historic Preservation Board if the building and/or structure to be demolished is eligible for designation as a local historic landmark or as a contributing building, structure, or property within an existing local historic landmark district. This determination of eligibility is preliminary in nature and the final public hearing before the Historic Preservation Board on Local Historic Designation shall be within sixty (60) days from the Historic Preservation Officer determination of "eligibility." Consideration by the Board may be deferred by mutual agreement by the property owner and the Historic Preservation Officer. The Historic Preservation Officer may require the filing of a written application on the forms prepared by the Department and may request additional background information to assist the Board in its consideration of eligibility. Independent analysis by a consultant selected by the City may be required to assist in the review of the application. All fees associated with the analysis shall be the responsibility of the applicant. The types of reviews that could be conducted may include but are not limited to the following: property appraisals; archeological assessments; and historic assessments."

Therefore, please be advised that after careful research and study of our records and the information you presented the following information has been determined:

1109 Andalusia Avenue legally described as Lots 14 & 15, Block 18, Coral Gables Section A, according to the plat thereof as recorded in Plat Book 5, Page 102 of the public records of Miami-Dade County, Florida, does not meet

the minimum eligibility criteria for designation as a local historic landmark. Therefore, the Historical Resources staff will not require review by the Historic Preservation Board if an application is made at this time for a demolition permit.

Please note that, pursuant to Section 14-107.5(b)(15) of the Coral Gables Zoning Code, this determination does not constitute a development order and is valid for a period of eighteen (18) months. In the case where the Historic Preservation Officer or designee determines that the property does not meet the minimum eligibility criteria for designation, a permit for the demolition of the property must be issued within the eighteen-month period.

Upon expiration of the eighteen-month period, you will be required to file a new application. Any change from the foregoing may be made upon a demonstration of a change in the material facts upon which this determination was made.

If you have any further questions concerning this matter, please do not hesitate to contact this office.

Sincerely,

Warren Adams
Historic Preservation Officer

PUBLIC NOTICE is hereby given that the City of Coral Gables, Florida, the Planning and Zoning Board will conduct a Public Hearing on **Wednesday, November 8, 2023** on the following application at the Coral Gables City Commission Chambers, City Hall, 405 Biltmore Way, Coral Gables, Florida:

An Ordinance of the City Commission of Coral Gables, Florida, amending St. Philip’s School site plan approved under Ordinance No. 3576 to replace an existing building with a new pre-K building located at 1109 Andalusia Avenue, Coral Gables, Florida; all other conditions of approval contained in Ordinance No. 3576 shall remain in effect; and providing an effective date.

An Application has been submitted by Ms. Laura Russo, Esq. on behalf of St. Philip’s Episcopal Church, Inc. (the “Applicant”), to the City of Coral Gables for an amendment to the 2002 Site Plan that was approved under Ordinance No. 3576. The Applicant seeks to demolish an existing building on the easternmost building on Andalusia Avenue and replace it with a new pre-K building. The proposed 1-story structure will include two classrooms, a multi-purpose room, storage, and a connection hallway, comprised of 4,198 square feet. Additionally, the proposal aims to amend the condition that “no new doors, windows, or other similar openings shall be permitted on the east side of any structures located on the eastern side yard property line.” This amendment would allow non-operable windows to address the Board of Architects aesthetic concerns. The application request requires review and recommendation by the Planning and Zoning Board at one (1) public hearing, and consideration by the City Commission at two (2) public hearings (Ordinance format).

Additional information may be found at www.coralgables.com. Please forward to other interested parties.

Neighborhood meeting Summary

The meeting was held in St. Philip's Media Room. While numerous neighbors had RSVP'd that they would be attending - only 4 neighbors showed up on October 16, 2023. They live immediately east of the building being proposed for demolition and replacement. The other neighbor lives across the corner from the school and directly east of the parking lot the school uses for its employees and staff.

Rev. Conroy introduced herself, Ed Diaz - Head of Operations and Norma Perez - Head of School and gave a brief history of the Church and School that have been in the current location for over 70 years. Mr. Diaz showed a power point presentation that identified the old building and provided elevations and renderings of the proposed replacement building. There were a few questions regarding the number of classrooms and the demolition of the existing garage. The sticky points were the gravel on the swale where despite the no parking signs - parking occurs on a regular basis. The architect, Octavio Santurio explained to the neighbors that at the conclusion of the construction the swale would be heavily landscaped to prevent parking and reminded them that the gravel drop off was done during covid. The school representatives told the neighbors to please call them whenever a car is parked in the swale and the school representatives will address if it is a parent. They encourage the neighbors to keep the lines of communication open between them.

The main issue in the neighborhood is the parking. The church and school are across the street from San Salvador park and ever since one of the tennis courts was converted to pickles ball the use has increased. Also - the dog park brings extra visitors to the area many of whom arrive via car. Ms. Russo volunteered to speak with Deena Bell Llewellyn to see what protections can be implanted in the neighbors swale across from the parking lot.
