

Sculptures by Mario Almaguer

Pedrido Arte Gallery & Studio, located at 290 Miracle Mile Coral Gables, Fl. 33134, will be showcasing a solo exhibition by master sculpture and artist **Mario Almaguer** this October. This exhibition will be taking place Friday October 10th 2025 - Friday November 7th 2025.

We are looking to display a large sculpture in front of our gallery space, if possible, to promote the work of Mario Almaguer as well as attract and invite our community to experience, enjoy, and collect the artwork making up said exhibition. The sculpture we are interested in displaying is approximately 10-14 feet in height. Below are photos of artist Almaguer beside the sculpture of interest for reference as well as images of the spaces we would like to showcase the sculpture.

Mario Almaguer with Sculpture "Tornado"

This is the front of the gallery where we believe would be the best spot for the sculpture.

Alejandro standing in the spot where we would like to display Almaguer's sculpture.

Same spot from a different angle.

This could be another option to place the sculpture but may be in the way of foot traffic

Alejandro standing in place of where the sculpture would be placed.
