I am a resident of Coral Gables for the last 5 Years and a happy owner of a historic 1920's home in the Italian village. We absolutely love the Coral Gables community. I have a special passion for historic homes and architecture of the early 1920's Miami.

I currently work and have a 6 year old daughter and a 2.5 year old son. I currently work part time at South Miami hospital. I have spent a considerable time restoring our home and making tight connections with our neighbors. We are truly blessed to live here.

My husband is a Miami native and I am originally from Dubai, United Arab Emirates. I am a senior Clinical Pharmacy Specialist and my husband is an Interventional Cardiologist. We are both very involved in the medical community at University of Miami, Jackson hospital and South Miami hospital.

I have worked in Haiti in 2009 volunteering for a makeshift clinic providing primary care post-earthquake in Jeremie and Carcasse. Post Irma I was also part of team B that came into south Miami hospital for recovery efforts in the emergency room. I am very passionate about recycling and sustainability also. I have attended a few educational sessions at the Coral Gables museum with my daughter.

My husband is director of the interventional cardiology fellowship program at UM and director of nuclear medicine. He (although more busy than I) would be possibly interested in the CG/UM communication board.

I have attached a summary of my work history and some volunteer work that I have done. I hope you consider my application.

Regards
Sadia Raja
