**BRIEF HISTORY:**

The dredging of the Coral Gables Waterway (C-3 Canal) is necessary to improve storm flow and conveyance capacity in the City's primary waterway between Red Road and Biscayne Bay. Stormwater Utility funding for the dredging in the amount of \$2,610,000 is required to perform the project and to pledge funds for an approved State grant in the amount of \$2,200,000.

Capital Improvement funding for the Coral Gables Museum is necessary for the historic building renovations for the remaining required amount of \$3,500,000 to fund the cost of construction in advance of the receipt of donations and other funds.
