7. Compost For Life Presentation

Francisco Torres, CEO of Compost For Life and Coral Gables resident, gave a presentation on his company, Compost For Life.

- Founded in 2020 to help find a solution to the world's food waste problem.
- With Commissioner Aileen Higgins, Compost For Life drafted the new MDC composting ordinance. It is designed to divert 12,500+ tons of food waste per year per local farm from landfills.
- Today, Compost For Life is collecting more than 100,000 pounds of food waste per week. Since October 2020, more than 7 million pounds of food have been diverted from landfills and 240,500 gallons of gas has been saved with the support of the 488 active customers they now have.
- The City of Coral Gables is beginning to work with the Coral Gables Library to open a community composting drop-off program. More information will come soon as these conversations are in the beginning stages.

8. Commercial Beautification Awards

- i. The Board voted on the nominations for the Commercial Beautification Awards. The nomination period is from March 1 through April 30, and the public is able to nominate local businesses for the award during this time period. The criterion for the award is based on how well a business keeps its storefront and if they do not have any violations. Many businesses were nominated for the 2025 Commercial Beautification Award but only five made it to the voting round. These five were Andromeda District, Giralda Cleaners, Misha's Cupcakes, The Plaza Coral Gables, and Il Duomo Dei Saponi Restaurant. The Board voted with the set criteria in mind and awarded the five locations and were awarded the Commercial Beautification Award. Unfortunately, Il Duomo Dei Saponi closed its doors between being nominated and this SAB meeting. The business owners will be presented with the award individually at upcoming Commission meetings and be recognized by the Commission.
- ii. The board considered recommending future award categories based on business size to ensure fair comparisons and recognition
