DEPARTMENT HEAD RECOMMENDATION:

Approval with conditions.

PLANNING AND ZONING BOARD RECOMMENDATION:

The Planning and Zoning Board at their August 12, 2020 meeting discussed and recommended approval with conditions of the proposed project.

1. Transfer of Development Rights (TDR), vote: 6-0
2. Planned Area Development (PAD), vote: 6-0
3. Mixed-Use Site Plan (Conditional Use Review), vote: 6-0
4. Tentative Plat, vote: 6-0

In addition to Staff's proposed conditions of approval, the Board recommended that the Applicant shall:

- Add shrubs and deciduous plants on Bird Road; study the feasibility of the rooftop of the existing office building to be planted (green roof); and, consider providing a dog park nearby, within one (1) block radius.

BRIEF HISTORY:**Project Summary**

In 2016, a mixed-use project referred to as "The Collection Residences" was approved by the City Commission by Resolution No. 2015-86 to be located in the subject site, including the entire Block 3 from Bird Road to Altara Avenue but the project was not built.

The current proposal is a mixed-use project referred to as Merrick 250, located on the north-half of Block 3, approximately 1.41 acres in size. The project includes 215 residential units, ground floor commercial uses of approximately 18,500 square feet, and a parking structure with 362 parking spaces. The proposed building height is 12-stories at 120 feet to the top of habitable space and 130'-4" to the top of architecture. The Floor Area Ratio (FAR) is 3.58 (220,322 sq. ft. including 4,904 sq. ft. of TDRs). On-site landscape open space is provided at 21% (12,931 sq. ft.) of the site area.

On October 8, 2019, by Resolution No. 2019-299, the City Commission approved Alta Developers, LLC to file an application for receipt/use of 7,000 sq. ft. of TDRs which are specific TDRs made available pursuant to a Dispute Resolution Agreement between the City and Mundomed S.A. and South High Cliff Corporation. These specific TDRs may be transferred and utilized in any Commercial and Industrial zoned areas of the City, which do not abut and are not adjacent to either South Dixie Highway or properties zoned Single Family Residential subject to the approval of the City Commission. The utilization of TDRs in this project will permit an increase in FAR from 3.5, as permitted in the underlying zoning district, to 3.58 an increase of 2.3% in FAR, which is within the 25% increase in FAR, when TDRs are utilized.

As required by the PAD designation per Section 3-501, the proposed project offers the following public benefits:

1. Provides new high-quality retail space to enhance the City's goal of having a "Design and Innovation District" in this area.
2. Provides a large office component so as to significantly increase the amount of new office space in the North Industrial Mixed-Use District.
3. Helps to fulfill the Comprehensive Plan objective to create a "mixed use village" in this area.
4. Will serve to further improve the value of a key City owned asset, the Shops at Merrick Park.
5. Meets the growing demands for office space in the city.
6. Provides public realm landscape and streetscape improvements.
7. Replaces underutilized buildings.

8. Will provide the City with \$100,000 in funding earmarked for public realm and public open space improvements in the District.
