

City of Coral Gables Planning and Zoning Staff Report

Property: Regency on the Park (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard)

Applicant: Alliance Starlight I, LLC

Application: Comprehensive Plan Map Amendment, Zoning Code Map Amendment, Planned Area Development, and Mixed-Use Site Plan

Public Hearing: Planning and Zoning Board / Local Planning Agency

Date & Time: June 13, 2018, 6:00 – 9:00 p.m.

Location: City Commission Chambers, City Hall,
405 Biltmore Way, Coral Gables, Florida, 33134

1. APPLICATION REQUEST

The request is for consideration of the following for a project known as “Regency on the Park:”

1. Comprehensive Plan Map Amendment
2. Zoning Code Map Amendment
3. Planned Area Development
4. Mixed-Use Site Plan (Conditional Use Review)

The application proposes an infill mixed-use project in the North Ponce district. While the project is appropriate for the location and reflects recent discussion about the vision and goals for the area, the Zoning Code does not provide a simple process of approval. Thus, the application requires multiple ordinances and resolutions. Staff is requesting input from the Planning and Zoning Board members on the merits of the concept, and the opportunities to enhance the process through the on-going zoning code re-write process.

Proposed project and existing conditions

Regency on the Park

Regency on the Park is a mixed-use development, within walking distance of the Douglas Entrance, and the Coral Gables Trolley. It abuts the recently adopted North Ponce de Leon Boulevard Mixed Use District. The building is also situated on future Galiano Street bike routes as designated in the 2014 Bicycle Master Plan.

The project includes:

1. Project Site is approximately 1.2 acres (185,577 square feet)
2. Maximum habitable building height of 130 feet
3. 8 live/work units
4. 152 residential units
5. 231 parking spaces
6. 17,698 square feet of ground-floor open space
7. Public realm improvements for approximately 6,000 square feet of public park and corner plaza

The request requires three public hearings, including review and recommendation by the Planning and Zoning Board, and 1st and 2nd Reading before the City Commission.

The Ordinances and Resolution under consideration include the following:

1. *An Ordinance of the City Commission of Coral Gables, Florida requesting an amendment to the Future Land Use Map of the City of Coral Gables Comprehensive Plan pursuant to Zoning Code Article 3, "Development Review," Division 15, "Comprehensive Plan Text and Map Amendments," and Small Scale amendment procedures (ss. 163.3187, Florida Statutes), from "Multi-Family Medium Density" Land Use to "Mixed Use" Land Use and extending the "North Ponce de Leon Boulevard Mixed-Use Overlay District" for the property legally described as Lots 5 to 12, Block 12, Douglas Section (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard), Coral Gables, Florida; providing for a repealer provision, providing for a severability clause, and providing for an effective date. (LPA review)*
2. *Ordinance of the City Commission of Coral Gables, Florida requesting a change of zoning pursuant to Zoning Code Article 3, "Development Review", Division 14, "Zoning Code Text and Map Amendments", from Multi-Family 2 District (MF2) to Commercial District (C) and extending the "North Ponce de Leon Boulevard Mixed-Use Overlay District" for the property legally described as Lots 5 to 12, Block 12, Douglas Section (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard), Coral Gables, Florida; and providing for severability, repealer and an effective date.*
3. *An Ordinance of the City Commission of Coral Gables, Florida granting approval of a proposed Planned Area Development (PAD) approval referred to as "Regency on the Park" pursuant to Zoning Code Article 3, "Development Review," Division 5, "Planned Area Development (PAD)," for the construction of a project consisting of a mix of uses including office, live/work, and residential, on the property legally described as Lots 5 to 12, Block 12, Douglas Section (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard), Coral Gables, Florida; including required conditions; providing for severability, repealer and an effective date.*

- 4. A Resolution of the City Commission of Coral Gables, Florida requesting Mixed-Use Site Plan Review pursuant to Zoning Code Article 4, "Zoning Districts," Division 2, "Overlay and Special Purpose Districts," Section 4-201, "Mixed Use District (MXD)," for the proposed project referred to as "Regency on the Park" on the property legally described as Lots 5 to 12, Block 12, Douglas Section (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard), Coral Gables, Florida; including required conditions; providing for a repealer provision, providing for a severability clause, and providing for an effective date.

Summary of Application.

Alliance Starlight I, LLC (hereinafter referred to as "Applicant"), has submitted an application (hereinafter referred to as the "Application") for review of the following: Small Scale Comprehensive Plan Map Amendment by changing the Future Land Use from "Multi-Family Medium Density" to "Mixed Use" and extending the "North Ponce de Leon Boulevard Mixed-Use Overlay District to include the subject site; Zoning Code Map Amendment, rezoning the subject site from Multi-Family 2 District (MF2) to Commercial District (C) and extending the "North Ponce de Leon Boulevard Mixed-Use Overlay District"; Planned Area Development (PAD); and Mixed Use Site Plan review for consideration at public hearings pursuant to and in accordance with the City of Coral Gables Zoning Code. The Application package submitted by the Applicant is provided as Attachment A.

The subject site is comprised of eight (8) contiguous lots, consisting of approximately 53,022 square feet or 1.22 acres. It is located in the Douglas Section of Coral Gables within the North Ponce Conservation Overlay (NPCO) District along East Ponce De Leon Boulevard, between Calabria Avenue and Santillane Avenue as shown in the aerial map below:

Public Notification and Comments

The Applicant completed the mandatory neighborhood meeting on May 30, 2018 with notification to all property owners within 1,500 feet of the property boundary. A summary of the meeting is provided as Attachment B.

The Zoning Code requires that a courtesy notification be provided to surrounding property owners within 1,500 feet. The notice indicates the following: applications filed; public hearing dates/time/location; where the application files can be reviewed and provides for an opportunity to submit comments. Approximately 988 notices were mailed.

A copy of the legal advertisement and courtesy notice are provided as Attachments C. A copy of the published newspaper notification of this public hearing item is included as Attachment D.

Application Requests

1. Future Land Use Map Amendment

A comparison of the property's existing Future Land Use Map designations and the Applicant's requested designation is shown on the following mapping:

The Future Land Use Classification of the subject property is “Multi-Family Medium Density.” The Applicant requests changing the land use to “Mixed Use” and extending the “North Ponce de Leon Boulevard Mixed-Use Overlay District.”

At the present time, the Future Land Use, Multi-Family Medium Density does not allow for commercial uses. The proposed change in Land Use will allow the Applicant the opportunity to provide for Mixed-Use development. As stated in the Applicant’s intent “this will permit the development of a high quality mixed use development with large landscaped open areas for public enjoyment that will activate the Ponce De Leon neighborhood while enhancing the aesthetic character of the surrounding neighborhood.”

Under the proposed Mixed Use Land Use, building height is controlled by applicable Zoning Code provisions. The Site Specific Zoning Regulations, Section A-40 Douglas Section, will be used to provide height regulations for this property which allows thirteen (13) stories or one-hundred-fifty (150) feet in height whichever is less.

Findings of Fact- Land Use Map Amendment

Zoning Code Section 3-1506 provides review standards for Comprehensive Plan amendments:

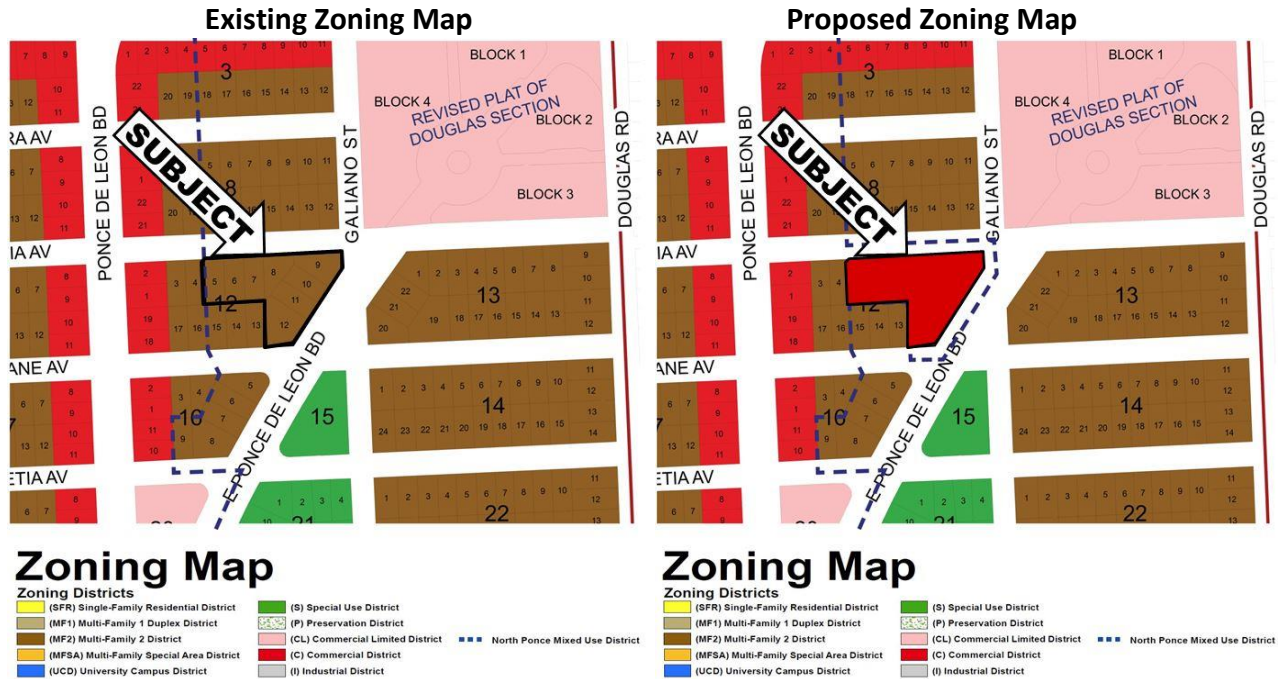

Standard	Staff Evaluation
1. Whether it specifically advances any objective or policy of the Comprehensive Land Use Plan.	The Comprehensive Plan map amendment from Multi-Family Medium Density to Mixed Use is appropriate for this location near major thoroughfare, employment hubs and commercial centers.
2. Whether it is internally consistent with Comprehensive Land Use Plan.	The proposed Mixed Use land use allows many beneficial aspects of the project, but the distribution of uses and the type of uses should be considered.
3. Its effect on the level of service of public infrastructure.	The proposed map amendment will support enhanced multi-modal activity in the North Ponce neighborhood which is a goal of the Comprehensive Plan. There is an opportunity to reduce the traffic on the area by encouraging residents to work where they live, and walk, bike, or use mass transit. Shared parking or comparable planning tools should be considered.
4. Its effect on environmental resources.	The proposed amendments promote urban infill redevelopment on a currently vacant and underutilized land. No significant environmental resources will be impacted.
5. Its effect on the availability of housing that is affordable to people who live or work in the City of Coral Gables.	The proposed amendments will provide additional multi-family housing opportunities in the City with access to frequent transit service and pedestrian access to dining, shopping, and employment opportunities. The project contributes to the provision of additional housing options for people who live, work, and study in the City.
6. Any other effect that the City determines is relevant to the City Commission's decision on the application.	Related to this application, the Applicant is also requesting a PAD review. As required by PAD, no single use may comprise more than 85% of the MXD floor area ratio. Staff is recommending continuance of this item to give time for the Applicant to work with staff in the proper distribution of uses and Floor Area Ratio.

Staff comments:

The intent of the Comprehensive Plan is to encourage redevelopment or development of areas that are significant like Ponce De Leon Boulevard. The proposed Mixed Use Land Use is appropriate for this location. This change in land use will facilitate mixed use development, encourage mass transit, and reduce the need for automobile travel. Therefore, development on this site enhances the neighborhood and encourages redevelopment of the North Ponce neighborhood.

2. Zoning Code Map Amendment

A comparison of the property's existing Zoning Map designations and the Applicant's requested Zoning Map designation is shown on the following mapping:

Findings of Fact- Zoning Code Map Amendment

Zoning Code Section 3-1404 provides review standards for applicant-initiated Zoning Map amendments:

1. It is consistent with the Comprehensive Plan in that it:
 - a. Does not permit uses which are prohibited in the future land use category of the parcel proposed for development.
 - b. Does not allow densities or intensities in excess of the densities and intensities which are permitted by the future land use category of the parcel proposed for development.
 - c. Will not cause a decline in the level of service for public infrastructure to a level of service which is less than the minimum requirements of the Comprehensive Plan.
 - d. Does not directly conflict with any objective or policy of the Comprehensive Plan.
2. Will provide a benefit to the City in that it will achieve two or more of the following objectives:
 - a. Improve mobility by reducing vehicle miles traveled for residents within a one-half (1/2) mile radius by:

The Applicant is requesting a Planned Area Development for this property in order to provide unique open space opportunities, such as plazas and courtyards. In addition, the Planned Area Development provides some flexibility in terms of massing, the location of paseos, the location of off-street parking, and the location of driveways and loading.

* Setback relief may be awarded for MXD projects approved for Mediterranean style design bonuses.

The stated purpose of the Zoning Code's PAD provisions is to encourage the construction of Planned Area Developments (PAD) by providing greater opportunity for construction of quality development on tracts and/or parcels of land through the use of flexible guidelines which allow the integration of a variety of land uses and densities in one development.

The Applicant is requesting a Planned Area Development for this property in order to provide unique open space opportunities, such as plazas and courtyards. In addition, the Planned Area Development provides some flexibility in terms of massing, the location of paseos, the location of off-street parking, and the location of driveways and loading.

Findings of Fact- Planned Area Development

Zoning Code Section 3-501 states that a proposed PAD project must comply with the following:

1. *Allow opportunities for more creative and imaginative development than generally possible under the strict applications of these regulations so that new development may provide substantial additional public benefit.*
2. *Encourage enhancement and preservation of lands which are unique or of outstanding scenic, environmental, cultural and historical significance.*
3. *Provide an alternative for more efficient use and, safer networks of streets, promoting greater opportunities for public and private open space, and recreation areas and enforce and maintain neighborhood and community identity.*
4. *Encourage harmonious and coordinated development of the site, through the use of a variety of architectural solutions to promote Mediterranean architectural attributes, promoting variations in bulk and massing, preservation of natural features, scenic areas, community facilities, reduce land utilization for roads and separate pedestrian and vehicular circulation systems and promote urban design amenities.*
5. *Require the application of professional planning and design techniques to achieve overall coordinated development eliminating the negative impacts of unplanned and piecemeal developments likely to result from rigid adherence to the standards found elsewhere in these regulations.*

The Planning and Zoning Board shall recommend to the City Commission the approval, approval with modifications, or denial of the plan for the proposed PAD and shall include not only conclusions but also findings of fact related to the specific proposal and shall set forth with particularity in what respects the proposal would or would not be in the public interest. These findings shall include, but shall not be limited to the following:

- A. *In what respects the proposed plan is or is not consistent with the stated purpose and intent of the PAD regulations.*

Staff comments: The Applicant's plans comply with the purpose and applicability for a PAD set out in Zoning Code Section 3-501 as specified in the evaluation presented in Staff's report and the following findings of fact. The requirements and performance standards set out in the Zoning Code for a PAD have been evaluated and are provided in the Preliminary Zoning Analysis prepared by the Planning and Zoning Division (see Attachment C). That analysis and compliance with the purpose and applicability for a PAD indicate that the proposal satisfies the Code's requirements for a PAD project.

- B. *The extent to which the proposed plan departs from the zoning and subdivision regulations otherwise applicable to the subject property, including but not limited to density, size, area, bulk and use, and the reasons why such departures are or are not deemed to be in the public interest.*

Staff comments: Current regulations are intended for smaller parcels and do not require additional green areas. The proposed project provides a comprehensive design that coordinates ground level spaces and the overall massing of the project in ways that enhances the outcome of typical regulations.

- C. *The extent to which the proposed plan meets the requirements and standards of the PAD regulations.*

Staff comments: A Zoning Analysis was prepared by Planning Division Staff to determine compliance with applicable provisions and requirements within the Zoning Code for a proposed PAD and mixed use (MXD) site plan. The analysis indicates that the proposed project meets the applicable provisions and requirements within the Zoning Code, and is included as Attachment C.

- D. *The physical design of the proposed PAD and the manner in which said design does or does not make adequate provision for public services, provide adequate control over vehicular traffic, provide for and protect designated common open areas, and further the amenities of light and air, recreation and visual enjoyment.*

Staff comments: All vehicular parking for the project and service access is within the confines of the building, and is physically separated from pedestrian circulation around the perimeter of the project. The project's ground floor pedestrian amenities enhance the redevelopment of the area. The project will be required to underground all overhead utilities. In addition, the proposal includes a public park of approximately 6,000 square feet, public realm improvements (i.e., landscaping, pedestrian benches, bicycle racks, waste receptacles, etc.) that will provide amenities for pedestrians.

- E. *The compatibility of the proposed PAD with the adjacent properties and neighborhood as well as the current neighborhood context including current uses.*

Staff comments: The planned redevelopment of this property as a mixed use project is compatible and complies with the intent of the Zoning Code mixed use and PAD requirements and performance standards. The proposed project height of 130 feet is below the maximum allowed by the Site Specifics regulations of the Douglas Section which is 150 feet.

- F. *The desirability of the proposed PAD to physical development of the entire community.*

Staff comments: The redevelopment of this property as a mixed use project fulfills the objective of the City to attract mixed use developments to the North Ponce area and the creation of a pedestrian-oriented urban environment. The introduction of live-work and office spaces allows residents to have a place for business activity without the need to leave home.

- G. *The conformity of the proposed PAD with the goals and objectives and Future Land Use Maps of the*

City of Coral Gables Comprehensive Plan.

Staff comments: Together with this application, the Applicant also requesting a land use change from Multi-Family Medium Density to Mixed Use, which if approved would allow mixed use development. As concluded in this report, this Application is “consistent” with the CP’s Goals, Objectives and Policies with the recommended conditions of approval and site plan provisions which address the City’s objectives for encouraging mixed use development in the North Ponce de Leon neighborhood.

4. Mixed Use Site Plan

Mixed Use District (MXD) Purpose and Objectives

The purpose of the Mixed Use District is to encourage the construction of residential mixed-use projects that support a pedestrian-friendly environment within urban areas of Coral Gables. The Applicant benefits from the option to construct residential development in urban areas, while the City benefits from mandatory architectural features that enhance the beauty and the walkability of those urban areas.

Mediterranean Architectural Style

The proposed project received preliminary approval of Mediterranean architectural bonuses from the Board of Architects on April 5, 2018.

Section 4-201 of the Zoning Code states the purpose of the MXD district is as follows:

1. *Provide the method by which tracts of land may be developed as a planned unified project rather than on a lot-by-lot basis as provided for in the City’s other regulations.*
2. *Provide for residential uses at higher densities in exchange for public realm improvements.*
3. *Provide maximum design freedom by permitting property owners an opportunity to more fully utilize the physical characteristics of the site through modified development regulations and the planned mixing of uses.*
4. *Require that property within the District will be developed through a unified design providing continuity among the various elements causing a better environment.*
5. *Create a diversity of uses within walking distance, including but not limited to: residential, offices, workplaces, neighborhood commercial, and public open spaces.*
6. *By organizing appropriate building densities, public transit will be further strengthened as an alternative to the use of private vehicles.*
7. *Provide a strong emphasis on aesthetics and architectural design through the use of the regulations and the planned mixing of uses to establish identity, diversity and focus to promote a pedestrian friendly environment.*

Staff comments: The compliance of the Applicant’s plans with the MXD requirements and performance standards set out in the Zoning Code have been evaluated and is provided in the Zoning Analysis

prepared by the Planning Division included with the Application package provided as Attachment C.

Site Plan Review Criteria

Section 3-406 of the Zoning Code states that the Planning and Zoning Board shall review applications for conditional use (site plan review) and provide a recommendation to the City Commission whether they should grant approval, grant approval subject to specific conditions or deny the application. The Planning and Zoning Division, Planning and Zoning Board and City Commission may recommend such conditions to an approval that are necessary to ensure compliance with the standards set forth in Section 3-408.

Findings of Fact- Mixed Use Site Plan

The Applicant's plans have been compared to the site plan review criteria set out in Zoning Code Section 3-408 as follows:

- A. *"The proposed conditional use is consistent with and furthers the goals, objectives and policies of the Comprehensive Land Use Plan and furthers the purposes of these regulations and other City ordinances and actions designed to implement the Plan."*

Staff comments: The proposed mixed use project, in context meets with the CP's Goals, Objectives and Policies by encouraging mixed use development in major corridors. However, staff is of the opinion that the site plan can be further refined in order to present a better distribution of uses.

- B. *"The available use to which the property may be put is appropriate to the property that is subject to the proposed conditional use and compatible with existing and planned uses in the area"*.

Staff comments: The subject property is located along a major road and within close proximity to major employment and commercial centers. Therefore, a mix use project is appropriate in this location as it compliments other uses in the surrounding area.

- C. *"The proposed conditional use does not conflict with the needs and character of the neighborhood and the City"*.

Staff comments: The redevelopment of this property as a mixed use project fulfills the objective of the City to attract mixed use developments to the North Ponce de Leon neighborhood and the creation of a pedestrian oriented urban environment. The introduction of live-work, office spaces and residential will provide the economic support for the surrounding commercial and retail uses. The ground floor pedestrian amenities enhance the existing uses within the North Ponce de Leon area. The project is required to underground all overhead utilities. In addition, the proposal includes a passive park of approximately 6,000 square feet, public realm improvements (i.e., landscaping, pedestrian benches, bicycle racks, waste receptacle, etc.), that will provide amenities for pedestrians.

- D. *“The proposed conditional use will not adversely or unreasonably affect the use of other property in the area.”*

Staff comments: The proposed mixed use project is similar and consistent with the development pattern in the area. Adding live-work and office spaces into the area will provide additional economic support for the surrounding commercial and retail uses.

- E. *“The proposed use is compatible with the nature, condition and development of adjacent uses, buildings and structures and will not adversely affect the adjacent uses, buildings or structures”.*

Staff comments: The planned redevelopment of this property as a mixed use project is compatible and complies with the intent of the Zoning Code Mixed Use design regulations and Comprehensive Plan Mixed Use District (MXD) provisions. The proposed project height and massing is consistent and allowed in the Site Specifics, Douglas Section, and potential future height of the mid-rise multi-family apartment properties located to the east of the project site.

- F. *“The parcel proposed for development is adequate in size and shape to accommodate all development features.”*

Staff comments: The subject property is larger than the minimum 20,000 square foot size required for an individual mixed use project and those located within a designated MXD Overlay District. The Zoning Analysis prepared by the Planning Division indicating compliance with applicable Zoning Code PAD and mixed use provisions is provided as Attachment C. Staff is recommending continuance of this item to allow the Applicant the opportunity to work with staff in order to present a better distribution of uses.

- G. *“The nature of the proposed development is not detrimental to the health, safety and general welfare of the community.”*

Staff comments: The project site is surrounded and in close proximity to properties with either commercial or multi-family zoning designations, all of which allow for mid-rise development (70'-0" as-of-right, 97'-0" with Mediterranean bonuses) or high-rise development (150'-0" as-of-right, 190'-6" with Mediterranean bonuses). The height of the project is consistent with the property's underlying Site Specific regulations. The proposed project is consistent with the stated goals and objectives for mixed use redevelopment in the North Ponce de Leon Mixed Use Overlay. The redevelopment of this property as a mixed use project fulfills the objective of the City to attract mixed use developments to the North Ponce de Leon neighborhood and the creation of a pedestrian oriented urban environment. The project's ground floor pedestrian amenities enhance the existing and future uses surrounding the property and within the North Ponce de Leon area.

- H. *“The design of the proposed driveways, circulation patterns and parking is well defined to promote vehicular and pedestrian circulation.”*

Staff comments: All vehicular parking for the project and service access is within the confines of the

building, and is physically separated from pedestrian circulation around the perimeter of the project. The project's ground floor pedestrian amenities enhance the redevelopment of the area. The project will be required to underground all overhead utilities. In addition, the proposal includes public realm improvements (i.e., under and over story landscaping, pedestrian benches, bicycle racks, waste receptacles, etc.) that will provide amenities for pedestrians.

- I. *"The proposed conditional use satisfies the concurrency standards of Article 3, Division 13 and will not adversely burden public facilities, including the traffic-carrying capacities of streets, in an unreasonable or disproportionate manner".*

Staff comments: The project will be required to comply with the City's Concurrency Management program to ensure that there is adequate infrastructure available to support the project. The proposed project was not reviewed for concurrency. As such, staff is recommending continuance until the Applicant received a Concurrency Impact Statement (CIS) to ensure that there is adequate infrastructure available to support the project.

Traffic Study

This property falls within the Gables Redevelopment Infill District (GRID). The City's GRID allows development within its boundaries to move forward regardless of a roadway's level of service (LOS). The City does, however, require all developments within the GRID that increase intensity/density to complete a Traffic Impact Analysis report and provide appropriate traffic mitigation to help offset the impacts. A Traffic Study prepared by David Plummer & Associates, dated April 2018, which was submitted with the application was reviewed by the Public Works Department and the City's traffic consultant, comments is provided on Attachment F. All traffic issues identified in the City review process must be satisfied and provided on the Applicant's plans prior to approval by the City Commission.

Concurrency Management

This project is required to comply with the City's Concurrency Management program to ensure that there is adequate infrastructure available to support the project.

Public School Concurrency Review

Pursuant to the Educational Element of the City's Comprehensive Plan, Article 3, Division 13 of the Zoning Code, and State of Florida growth management statute requirements, public school concurrency review is required prior to final Board of Architects review for all applications for development approval in order to identify and address the impacts of new residential development on the levels of service for public school facilities. For a residential development to secure a building permit, adequate school capacity must be available or scheduled to be under actual construction within three years of the final approval. If capacity is not available, the developer, school district and affected local government must work together to find a way to provide capacity before the development can proceed.

Art in Public Places Program

The Applicant is required to satisfy the City’s Art in Public Places program by either providing public art on site, or providing a contribution to the Art in Public Places Fund. The Applicant proposes providing a contribution to the Art in Public Places Fund in compliance with Zoning Code regulations.

Undergrounding of Overhead Utilities

The provisions in Zoning Code Section 4-201, Mixed Use District require that all utilities shall be installed underground pursuant to the direction of the Public Works Department. In accordance with that requirement, all utilities within the public right-of-way adjoining the project site will be installed underground. To assist in a cohesive undergrounding of all utilities, in furtherance of satisfying Zoning Code Article 3, more specifically, Division 2, “Overlay and Special Purpose Districts,” Section 4-201, “Mixed Use District (MXD),” and Article 4, “Zoning Districts,” Division 4, “Conditional Uses,” Section 3-408, “Standards for review,” the Applicant is required to underground all existing overhead utilities.

Consistency Evaluation of the Comprehensive Plan (CP) Goals, Objectives and Policies

This section provides a detailed analysis of the CP providing a basis of consistency, and finds the following CP Goals, Objectives and Policies are consistent:

REF. NO.	COMPREHENSIVE PLAN GOAL, OBJECTIVE AND POLICY	STAFF REVIEW
1.	Goal FLU-1. Staff Comments: Staff has determined the Application is “consistent” with the CP’s Goals, Objectives and Policies identified herein. Compliance is achieved subject to the conditions of approval recommended by Staff and satisfaction of all applicable PAD and MXD Zoning Code and Comprehensive Plan requirements.

Staff Recommendation and Conditions of Approval.

The overall concept of the project meets the intent of Comprehensive Plan. However, current zoning regulations do not provide for a single approved process. Alternative process could be:

- a. Expand the overlay of North Ponce de Leon Mixed Use District, with no PAD request.
- b. Develop the project following the Residential Infill Regulations (RIR).
- c. Develop a mixed-use zoning category at future date.

However, the Applicant has made specific request, as stated on the Statement of Use in attachment A. Staff’s review and analysis is based on the Applicant’s specific request.

The Comprehensive Plan and the Zoning Code are complex in allowing mixed use development. There is no mixed use zoning, and staff is not recommending the proposed rezoning to commercial. At this time, Staff recommends discussion of available options which would be typical of mixed-use projects.

Based upon the complete Findings of Fact contained within this report, staff recommends the following:

1. An Ordinance of the City Commission of Coral Gables, Florida requesting an amendment to the Future Land Use Map of the City of Coral Gables Comprehensive Plan pursuant to Zoning Code Article 3, "Development Review," Division 15, "Comprehensive Plan Text and Map Amendments," and Small Scale amendment procedures (ss. 163.3187, Florida Statutes), from "Multi-Family Medium Density" Land Use to "Mixed Use" Land Use and extending the "North Ponce de Leon Boulevard Mixed-Use Overlay District" for the property legally described as Lots 5 to 12, Block 12, Douglas Section (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard), Coral Gables, Florida; providing for a repealer provision, providing for a severability clause, and providing for an effective date. (LPA review)

Staff recommends **Approval**.

2. Ordinance of the City Commission of Coral Gables, Florida requesting a change of zoning pursuant to Zoning Code Article 3, "Development Review", Division 14, "Zoning Code Text and Map Amendments", from Multi-Family 2 District (MF2) to Commercial District (C) and extending the "North Ponce de Leon Boulevard Mixed-Use Overlay District" for the property legally described as Lots 5 to 12, Block 12, Douglas Section (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard), Coral Gables, Florida; and providing for severability, repealer and an effective date.

Staff recommends **Denial on rezoning and approval on** extending the "North Ponce de Leon Boulevard Mixed-Use Overlay District to include the subject site.

3. An Ordinance of the City Commission of Coral Gables, Florida granting approval of a proposed Planned Area Development (PAD) approval referred to as "Regency on the Park" pursuant to Zoning Code Article 3, "Development Review," Division 5, "Planned Area Development (PAD)," for the construction of a project consisting of a mix of uses including office, live/work, and residential, on the property legally described as Lots 5 to 12, Block 12, Douglas Section (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard), Coral Gables, Florida; including required conditions; providing for severability, repealer and an effective date.

Staff recommends **Continuance**. PAD needs to be updated to comply with Mixed-Use land use requirements.

4. A Resolution of the City Commission of Coral Gables, Florida requesting Mixed-Use Site Plan Review pursuant to Zoning Code Article 4, "Zoning Districts," Division 2, "Overlay and Special

Purpose Districts,” Section 4-201, “Mixed Use District (MXD),” for the proposed project referred to as “Regency on the Park” on the property legally described as Lots 5 to 12, Block 12, Douglas Section (100, 114, and 126 Calabria Avenue and 912 and 918 East Ponce de Leon Boulevard), Coral Gables, Florida; including required conditions; providing for a repealer provision, providing for a severability clause, and providing for an effective date.

Staff recommends **Continuance**. Site Plan needs to be updated.

Summary of the Basis for Approval

Consistency with the Comprehensive Plan Goals, Objective and Polices. Staff’s support of the Application for PAD and mixed use site plan review is based on compliance with the Comprehensive Plan (CP) Goals, Objectives and Policies, Zoning Code and other applicable Codes as enumerated in the complete Findings of Fact presented within this Staff Report.

Conditions of Approval

In furtherance of the Comprehensive Plan’s Goals, Objectives and Policies, Zoning Code and other applicable City provisions, the recommendation for approval of the PAD and mixed use project referred to as “Regency on the Park” is subject to all of the following conditions of approval:

- 1. To be completed prior to City Commission.** The Applicant shall continue to work with Staff in refining the proposal, including the following issues.
 - a. The proposed site plan design shall be updated to include the following:
 - i. Revise frontage on Calabria Avenue to better relate to existing multi-family to the north of Calabria Avenue.
 - ii. Expand lawn/landscape along existing sidewalk along Santillane Ave.
 - iii. Step back the upper floors in the rear of the property and provide a landscape buffer to allow relief for Santillane neighbors.
 - iv. Prepare a shared parking analysis.
 - v. Detail both vehicular entrances with flare curb cuts with continuous sidewalks and arcade pathways through vehicular lanes, as indicated during DRC.
 - vi. Coordinate with P&Z and Public Works Staff to develop an improved streetscape plan/section.
 - b. Public benefit: proffer off-site and public realm improvements beyond required impact fees.
 - i. \$125,000 contribution toward improvements to the adjacent Freedom Plaza and Galiano from proposed development site to SW 8th Street.
- 2. Application/supporting documentation.** Construction of the proposed project shall be in substantial conformance with all of the following:

- a. The Applicant shall update the application package and supporting documentation to comply with all requirements.
 - b. Traffic Impact Study, dated April 2018, prepared by David Plummer & Associates as reviewed by the Public Works Department.
 - c. All representations proffered by the Applicant's representatives as a part of the review of the Application at public hearings.
- 3. Restrictive covenant.** Within thirty (30) days of City Commission approval of the Application, the Applicant, property owner(s), its successors or assigns shall submit a restrictive covenant for City Attorney review and approval outlining all conditions of approval as approved by the City Commission. Failure to submit the draft restrictive covenant within the specified time frame shall render the approval void unless said time frame for submittal of the draft restrictive covenant is extended by the City Attorney after good cause as to why the time frame should be extended. It is recognized that the requirements contained in the restrictive covenant constitute regulatory conditions of approval and shall survive as regulatory conditions of approval even if the restrictive covenant is later found to be void or unenforceable.
- 4. Prior to issuance of the first Building Permit,** Applicant shall:
- a. **Impact Fees.** The Applicant shall include the payment of all applicable City of Coral Gables impact fees, sewer capacity fees and service charges prior to the issuance of a building permit. No impact fee shall be waived.
 - b. **Art in Public Places.** Applicant shall provide a complete and notarized copy of the Project Value Application to the City. Prior to the issuance of the first Building Permit, Applicant must make the required contribution to the appropriate Art in Public Places fund or receive approval for a waiver in accordance with the requirements of Article 3, Division 21, Section 3-2103(B).
 - c. **On-street parking.** Payment shall be provided by Applicant, its successors or assigns according to established City requirements for the loss of any on-street parking space as a result of the project.
 - d. **Additional Reviews.**
 - i. **Board of Architects.** Final approval of the project by the Board of Architects is required prior to issuance of any building permit.
 - ii. **Zoning Review.** The Applicant shall provide measurable floor plans of the project to City Staff for verification of Zoning requirements such as floor area ratio, setbacks, height and parking.
 - iii. **Landscape Plan.** Final approval of the overall landscape plan by the Landscape Services Director is required prior to issuance of any building permit.
 - e. **Signage.** Provide Signage Plan indicating size and location of all proposed exterior signage, including tenant signs, directory signs, parking garage signs, etc.
 - f. **Ground Floor Design.** The ground floor of all buildings shall continue to be designed to optimize pedestrian activity and retail success. All Storefronts shall be transparent.

- i. All arcades shall be flush with the sidewalk grade and open to the public.
 - ii. Arcades shall not be interrupted by stairwells, elevators, or solid walls.
 - iii. Create a continuous walkway in the colonnade on Calabria Avenue.
 - iv. All green areas shall be open to the public.
- g. **Construction Staging.** A construction staging plan shall be submitted to the Building Division. A checklist of requirements shall be provided upon request. Construction phasing/staging shall maintain pedestrian access and circulation along Calabria Avenue and East Ponce de Leon Boulevard, with sidewalks to remain open throughout construction.
- h. **Traffic Improvements.** All proposed traffic flow modifications including street design, width, sight triangles, cross walks, diverters, etc. shall require written conceptual approval of Miami-Dade County and the City prior to the issuance of the first City permit for vertical construction. If any components of the proposed modifications are not approved, the traffic study shall be revised and additional community involvement may be required.
- i. **Encroachment Plan.** Obtain Commission approval by resolution of an Encroachment Plan addressing special treatment sidewalks, decorative pavers, landscaping, irrigation, street lighting, landscaping lighting and any other encroachments into, onto, under and over the right of way as shown in the site plan. The above encroachments must be approved by City resolution and a Hold Harmless agreement must be executed approving the encroachments.
- j. **Encroachment Agreement and Covenant.** Execute and record a restrictive covenant regarding encroachments and utilities in, below and above the public rights-of-way, in a form acceptable to the Public Works Director, the Risk Management Division, and the City Attorney, which shall include the precise locations and dimensions of the proposed areas of all encroachments. It is recognized that the requirements contained in the restrictive covenant constitute regulatory conditions of approval and shall survive as regulatory conditions of approval even if the restrictive covenant is later found to be void or unenforceable.
- k. **Bond to Restore Project Property.** Provide to the City a surety bond, or other form of security deemed acceptable by the City, covering the estimated maximum cost of the full restoration of the Property, including installation of sod and landscaping to City Code standards, and removal of all construction fencing.
- l. **Construction Notices.** Provide written notice to all properties within one thousand (1,000) feet of the project boundaries providing a specific liaison/contact person for the project including the contact name, contact telephone number and email, to allow communication between adjacent neighbors or interested parties of construction activities, project status, potential concerns, etc.
- m. **Sustainability Certification.** Prior to the issuance of a Building Permit, the developer/owner/contractor shall provide the City with a performance bond, cash or irrevocable letter of credit payment (Green Building Bond) in the amount of three (3%) percent of the master building permit construction cost value.
- n. **Car Sharing Facilities.** To the same extent of other projects of similar size within the City, the Applicant shall reserve space within the project for future car sharing facilities in coordination with the City's parking Director. Final design shall require written conceptual approval of the Parking Director prior to issuance of the first City permit. Required parking spaces may be utilized for car sharing.

5. Prior to issuance of the first Certificate of Occupancy or Temporary Certificate of Occupancy, Applicant shall:

- a. **Underground utilities.** Submit all necessary plans and documents, and complete the undergrounding of all new utilities along all public rights-of-way surrounding and abutting the project boundary, subject to review and approval by the Directors of Public Works, Landscape Services and Planning and Zoning.
- b. **Utility Upgrades.** Sewer improvements may be required, at the Applicants expense, based on the proposed connections.
- c. **Art in Public Places.** The Applicant shall comply with all City requirements for Art in Public Places.
- d. **Bicycle / Pedestrian Plan.** The bicycle and pedestrian paths shall comply with the City's Bicycle Pedestrian Master Plan.
- e. **Right-of-way and public realm improvements.** Install all right-of-way improvements and all landscaping, public realm and streetscape improvements identified on the Applicant's approved plans, subject to review and approval by the Directors of Public Works, Landscape Services, Planning and Zoning, and Parking. Any changes to and departures from the right-of-way and public realm improvements identified on the Applicant's approved plans and associated detail plans and specifications via the permitting process shall be subject to review and approval by Directors of Public Works, Landscape Services, Planning and Zoning, and Parking.
- f. **Publicly Accessible Open Spaces Easement.** Execute and record a Publicly Accessible Open Spaces Easement Agreement between the City and the Owner for all proposed park areas and arcades.

6. Following issuance of the first Certificate of Occupancy, Applicant shall:

- a. **Sustainability Certification.** Within two years of the issuance of a Final Certificate of Occupancy, the building must achieve LEED Silver or equivalent certification. If the Applicant chooses to pursue NGBS Silver Certification, an Energy Star Label will also be required within two years of the Final Certificate of Occupancy.
 - i. The City will hold the Green Building Bond for the time necessary for the green certification, or equivalent, to be issued for twenty-four (24) months after issuance of the Certificate of Occupancy or Completion; whichever occurs first. Upon receiving final documentation of certification from the developer/owner/contractor, the City shall release the full amount of the bond within thirty (30) days.
 - ii. If the developer/owner/contractor is unable to provide proof of green certification, or equivalent, within twenty-four (24) months after issuance of the Certificate of Occupancy or Completion, the full amount of the Green Building Bond shall be forfeited to the City. Any proceeds from the forfeiture of the bond under this section shall be allocated toward funding Sustainability Master Plan initiatives.

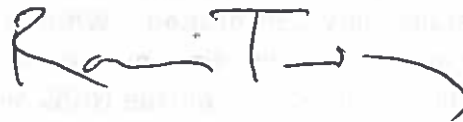

- b. **Traffic Monitoring.** At the Applicant's expense, the City shall perform an annual traffic monitoring study for three years beginning one year from the issuance of the first Temporary Certificate of Occupancy at locations to be determined by the Public Works Director. If the Public Works Director determines that livability improvements are warranted on any of these roadways, the Applicant shall construct or pay for any physical livability improvements required by these studies within one year of the completion of these studies, as approved by the Public Works Director.

Neighborhood Meeting – Date/Time/Location:	Wednesday, May 30, 2018 at 5:30 p.m. – 6:30 p.m. ChateauBleau Hotel, 1 st Floor Conference Room 1111 Ponce de Leon Boulevard Coral Gables, FL 33134

Dear Neighbor:

On behalf Alliance Starlight I, LLC, the current property owner, we cordially invite you to a public meeting to obtain information regarding the new Regency on the Park Project. The Project is a mixed use development that consists of ground floor work-live uses and upper level residences. As you may already know, an application has been filed with the City of Coral Gables for the City’s review and approval.

The public information meeting will be held on Wednesday, May 30, 2018, at 5:30 p.m., at the ChateauBleau Hotel, 1st Floor Conference Room in Coral Gables, Florida. Kindly RSVP by contacting Janet Rosillo at (305) 579-7847 or via email at rosilloj@gtlaw.com. We thank you for the opportunity to speak with you and look forward to meeting you.

Regency on the Park 5/30/2018 Neighborhood Meeting

The neighborhood meeting took place at the ChateauBlue Hotel located at 1111 Ponce de Leon Boulevard in the 1st Floor Conference Room, conveniently located 0.07 miles from the proposed Regency on the Park Project. Notice of the Neighborhood Meeting was provided by U.S. Mail to property owners within 1,500 feet of the Regency on the Park Project located at 100-114 Calabria Avenue and 912-918 Ponce de Leon Boulevard.

There were a total of eight (8) neighbors in attendance at the meeting and six (6) neighbors signed the Neighborhood Meeting sign-in sheet, a copy of which is attached hereto. Mr. Jorge Navarro (Legal Representative) introduced himself and gave a brief overview of the property location, proposed development parameters and approval requests for the Regency on the Park project (the “Project”). There were three (3) exhibit stands located at the front of the conference room that displayed detailed floor plans, renderings and elevations for the neighbor’s review. While the neighbors reviewed the Project’s plans, they were able to submit various questions to the Regency on the Park team which included, Mr. Navarro, Mr. Henry Paper (Owner) and Mr. Robert Behar (Architect). The neighbors posed questions regarding the following topics:

- Description of Work-Live concept;
- Unit Breakdown and Square Footage;
- Residential Amenities;
- Parking Garage Layout;
- Ingress/Egress Accessways of the Project;
- Landscaped Open Space and Public Park;
- Pedestrian Friendly Enhancements & Nearby Transit Options; and
- Traffic Control Mechanisms (i.e. Speedbumps)

All of the above-mentioned questions were addressed by Mr. Navarro, Mr. Paper and Mr. Behar. The meeting ended at approximately 6:30pm

Division 6. Design Review Standards		
Sec. 5-601	<p>Purpose and applicability.</p> <p>A. The purpose of these design review standards is to:</p> <ol style="list-style-type: none"> 1. Provide standards and criteria for review of applications for development approval within the City; 2. Promote innovative design with regard to the aesthetics, architectural design, appearances, safety, and function of the built environment in relation to the site, adjacent structure and surrounding community; 3. Promote orderly and harmonious development of the City; 4. Enhance the desirability of residences or investment in the City; 5. Encourage the attainment of the most desirable use of land and improvements; 6. Enhance the desirability of living conditions upon the immediate site or in adjacent areas; 7. Promote visual environments which are of high aesthetic quality and variety and which, at the same time, are considerate of each other; 8. Establish identity, diversity and focus to promote a pedestrian friendly environment; and 9. Encourage the utilization of a variety of architectural attributes and street level amenities to create a sense of place, including the spatial relationship of buildings and the characteristics created to ensure attractive and functional areas. <p>B. The standards in this Division shall be applicable to applications for development approval within all zoning districts, except as otherwise provided herein.</p>	To be reviewed and approved by the Board of Architects.
Sec. 5-602.A	<p>The Board of Architects shall determine if an application satisfies the following design review standards:</p> <ol style="list-style-type: none"> 1. Technical Review Comments

Project: The Regency at the Park Traffic Study
Report Date: April 2018

To: Jessica Keller – City of Coral Gables

Subject: Review Comments

From: Jack Schnettler, PE - Atkins

Date: May 30, 2018

cc: Chris Russo, PE - Atkins

Comments:

1. Section 2.2-Traffic Counts: Possible typo for seasonal factor. The text reads 0.98 while the FDOT documentation in Appendix C shows 0.99 seasonal factor for week containing April 12. Correct typo, or otherwise, correct calculations as needed.
2. Section 2.5-Existing Conditions: When summarizing the magnitude of delay, it is suggested to use values or categories defined by HCM instead of including opinion based commentary such as “minor delays are experienced”. If this language is preferred, please define what is considered “minor”.
3. Please provide reasoning why HCM 2000 was used instead of HCM 6 for the intersection of SW 8th St. and Ponce de Leon Blvd. Upon review of the Synchro report (PDF page 117), it appears the southbound U-turn is listed as a custom phase instead of protected in phase 3.
4. Exhibit 4-Existing Intersection Capacity Analysis: Table values do not match Synchro outputs in the Appendix for following categories:
 - AM Peak LOS/Delay at SW 8th St and Ponce de Leon Blvd
 - PM Peak LOS/Delay at SW 8th St and Galiano
 - PM Peak LOS/Delay at SW 8th St and 37th Avenue
 - PM Peak LOS/Delay at SW 12th St and 37th Avenue
 - PM Peak LOS/Delay at Ponce de Leon Blvd/Salamanca Avenue

Please revise text and/or calculations as needed.
5. Section 4.1-Background Traffic and Committed Developments: Text reads that annual growth rate is 0.2%. Appendix lists average growth rate of 2.0%. Correct text and revise calculations if needed.
6. Section 4.2-Future without Project: The executive summary indicates the buildout is anticipated to be 2020. Suggest reiterating the buildout year in this section.
7. Appendix B – Methodology Letter: Letter indicates that a queuing analysis would be performed if valet or gated entrance would be provided. Documentation does not indicate if either of these will be used. Clarify if either valet service or a gated entrance would be provided. Perform a queuing analysis if either are part of project operations.
8. Appendix A – Ground Floor Plan: Truck loading bay
 - a. What size truck is accommodated by the interior truck loading bay?
 - b. When the truck is positioned as shown in the ground floor plan in the loading area, there seems to be no room at the rear of the truck for accessing the truck, including using a lift ramp. Otherwise, the truck will likely be positioned into the circulation aisle in order to accommodate loading and unloading. Please clarify.
9. Section 5 – Circulation: Will the project be providing bicycle parking near the plaza at the northeast corner of the property or elsewhere?
