Good Morning,

I am reaching out to advise of the meeting next week for Code Board.

I have called the number we have on record and I can not get through. You will have to advise where you are in the permit process. I see no activity, and have not heard from your architect since May 17th.

This email will be added to your case as record of attempted communication.

Thank you

Lynn N Schwartz

Good Afternoon

Our architect is working on the plans, I had an update from him 2 days ago where he confirmed that the plans would be ready next week.

Good Morning,

Please contact me regarding the work at 614 Valencia / unit 103.

The permit is currently in "denied" status.

Where are you with the process, and what has to be done to correct? You should be contacting the city to correct the issues. Please let me know if you are having difficulty doing so. I currently have your customer on hold going before our Code Enforcement Board.

Please advise,

Thank you,

Good Morning,

If the permit is "pending" there is no possible way they can schedule an inspection.

Please advise me of the permit number.

Good Afternoon

I submit all the documents for the permit, they are pending and in the role they left me at home they told me that on December 3 they will do the inspection, do I want to confirm if it will be like that? And if they have a schedule?

Good Morning,

Please see the permitting department at 427 Biltmore Way for advisement on how to apply for a permit. Their hours are 7:30 to 2:30 Mon to Fri.

Good Afternoon

I spoke to you on the phone this afternoon, my name is Lianni, I live at 614 Valencia Ave Apt 103 Coral Gables FL 33134, I'm going into town to get the forms but there are many options and I don't want to do anything that isn't correct, here you are. I explain what we did so you can tell me what are the forms that I should obtain

- 1- We changed the cabinets in the kitchen, only the cabinets, the electricity remained the same
- 2- In the patio there was already a 110 V outlet and we added another one of the same 110 V
- 3- We removed the existing doors, sent them to paint and placed them again
- 4- We put the new radopies of the property
- 5- We changed the covers of the outlets and switches of the property (everything in the same place, only the covers were changed)
- 6- The entire property was painted inside

With this information you can tell me what permissions I need, because I see many and I don't want to get the wrong one

Sincerely
Lianni
