BRIEF HISTORY:

As part of the funding provided by the American Recovery and Reinvestment Act (ARRA), the Federal Government through the Florida Department of Agriculture and Consumer Services is offering grant funding for projects that improve the health of American forests. In the grant proposal the City is proposing a specialized pruning program targeted at improving the structure of newly planted City trees in order to train them for proper future growth. The City is requesting \$24,000.00 and no matching funding is required.

The administration will need to sign a Grant Memorandum of Agreement which serves as the contract between the City and the Florida Department of Agriculture and Consumer Services and is required of any successful grant recipient.
