

City of Coral Gables Planning and Zoning Staff Report

Applicant:	City of Coral Gables
Application:	Zoning Code Text Amendment: Landscape Requirements
Public Hearing:	Planning and Zoning Board
Date & Time:	November 1, 2022; 6:00 – 9:00 p.m.
Location:	City Commission Chambers, City Hall, 405 Biltmore Way, Coral Gables, Florida 33134

1. APPLICATION REQUEST

The City of Coral Gables has initiated a request for a Zoning Code Text Amendment as follows:

An Ordinance of the City Commission of Coral Gables, Florida, amending the City of Coral Gables Zoning Code, Article 6, "Landscape", Section 6-104, "Landscape Requirements for Public Rights-of-Way" to amend planting height and various other provisions; providing for severability, repealer, codification, and for an effective date.

2. APPLICATION SUMMARY

As requested by the City Commission, Zoning Code text amendments are proposed to give the Greenspace Management Division discretion to allow trees of a lower height at planting provided they meet life safety requirements and contribute to that diversity. The text amendments also clarify a few other provisions regarding planting in the rights-of-way, including provisions regarding the percentage of palms to be planted in the rights-of-way. The proposed text amendments are to incentivize diversity in the urban canopy.

The Planning & Zoning Board reviewed the proposed text amendment at their September 14, 2022, meeting. The excerpt from the meeting minutes is provided as Attachment B. In summary, the Board understood the need to allow shorter trees, but expressed concern for encouraging a variety of tree species within the same block as not being consistent with the original identity of Coral Gables. After a lengthy discussion, the Board deferred the request to hear the review of additional advisory boards, such as the Landscape & Beautification Advisory Board.

On October 13, 2022, the Landscape Advisory Board discussed the proposed text amendments of the intent to provide a variety of street tree species within the same block. At the beginning of the discussion, the Board was divided with multiple opinions. Some members believed that providing a variety of tree species added to the interest and beauty of any street block, while others reported that George Merrick had master planned the city's tree canopy to deliberately be coordinated like the symbolic live oaks on Coral Way as seen on maps dating back to the 1910's. Staff brought up the 2014 *Neighborhood Tree Succession and Initiation Plan* that included extensive color-coded mapping of almost each block and a recommendation to strive for species diversification. The board agreed that they support diversity if master-planned and well-thought out, as planting trees haphazardly would not be appropriate for the city.

3. REVIEW TIMELINE / PUBLIC NOTICE

City Review Timeline

The submitted applications have undergone the following City reviews:

REVIEW COMMITTEES AND BOARDS	DATE
City Commission – 1 st Reading	06.25.22
Planning and Zoning Board	09.14.22
Landscape and Beautification Advisory Board	10.13.22
Planning and Zoning Board	11.01.22
City Commission – 2 nd Reading	TBD

The following has been completed to solicit input and provide notice of the Application:

PUBLIC NOTICE	DATE
Legal advertisement	08.02.22

Legal advertisement	10.21.22
Posted agenda and Staff report on City web page/City Hall	10.28.22

4. FINDINGS OF FACT

The request is a Text Amendment to Article 6, "Landscape," Section 6-104, "Landscape Requirements for Public Rights-of-Way." The proposed changes are provided in Attachment A in strikethrough / underline format.

Zoning Code Section 14-212.5 provides review standards for Zoning Code text amendments:

Standard	Staff Evaluation
a. Promotes the public health, safety, and welfare.	The intent of the proposed amendment is to allow trees of a lower height at planting provided they meet life safety requirements and contribute to that diversity at the discretion of the Greenspace Management Division. This incentivizes diversity in the urban canopy.
b. Does not permit uses the Comprehensive Plan prohibits in the area affected by the text amendment.	The proposed amendment does not affect any uses permitted in the Comprehensive Plan.
c. Does not allow densities or intensities in excess of the densities and intensities which are permitted by the future land use categories of the affected property.	The proposed text amendment does not allow densities or intensities in excess of what are permitted by the future land uses.

Zoning Code Text Amendment - Landscape Requirements

d. Will not cause a decline in the level of	The proposed text amendment will not affect the level of service for
service for public infrastructure which	public infrastructure.
is the subject of a concurrency	
requirement to a level of service which	
is less than the minimum requirements	
of the Comprehensive Plan.	
e. Does not directly conflict with any	The proposed amendment does not conflict with any objective or
objective or policy of the	policy.
Comprehensive Plan.	

Staff comments:

The proposed text amendment to the Zoning Code gives the Greenspace Management Division the discretion to allow trees of a lower height at planting in order to incentivize diversity in the urban canopy. The proposed flexibility to the planting requirements fulfills objectives of the Comprehensive Plan to promote increasing the tree canopy and require additional measures to contribute to increasing the collective tree canopy of the City. The Comprehensive Plan policy to promote and support George Merrick's vision will be fulfilled through the discretionary review of the Greenspace Management Division. The standards identified in Section 14-212.5 for the proposed Zoning text amendment are <u>satisfied</u>.

5. STAFF RECOMMENDATION

Based upon the complete Findings of Fact contained within this report, staff recommends **Approval**.

CITY OF CORAL GABLES, FLORIDA

ORDINANCE NO. 2022-

AN ORDINANCE OF THE CITY OF CORAL GABLES, FLORIDA, AMENDING THE CITY OF CORAL GABLES ZONING CODE, ARTICLE 6 "LANDSCAPE", SECTION 6-104 "LANDSCAPE REQUIREMENTS FOR PUBLIC RIGHTS-OF-WAY" TO AMEND PLANTING HEIGHT AND VARIOUS OTHER PROVISIONS, PROVIDING FOR A REPEALER PROVISION, SEVERABILITY CLAUSE, CODIFICATION, AND AN EFFECTIVE DATE

WHEREAS, the City has certain Zoning Code provisions which address the planting heights of tress placed in the City's public rights-of-way; and

WHEREAS, in order to incentivize diversity in the urban canopy the City Commission wishes to give the Greenspace Management Division discretion to allow trees of a lower height at planting provided they meet life safety requirements and contribute to that diversity; and

WHEREAS, the City Commission also wishes to clarify a few other provisions regarding planting in the rights-of-way, including provisions regarding the percentage of palms to be planted in rights-of-way; and

WHEREAS, after notice was duly published, a public hearing was held before the City Commission on June 25, 2022, for First Reading at which hearing all interested parties were afforded the opportunity to be heard; and

WHEREAS, after notice was duly published, a public hearing was held before the Planning and Zoning Board on September 14, 2022, at which hearing all interested parties were afforded the opportunity to be heard; and

WHEREAS, the Planning and Zoning Board was presented with the proposed text amendment, and after due consideration, deferred (vote: 6 to 0) the text amendment until after the Landscape and Beautification Advisory Board reviewed it and gave feedback; and

WHEREAS, the Landscape and Beautification Advisory Board was presented with the proposed text amendment on October 13, 2022, and after discussion of multiple viewpoints of street tree plantings, the Board agreed that they supported diversity of trees within a master plan; and

WHEREAS, after notice was duly published, a public hearing was held before the Planning and Zoning Board on November 1, 2022, at which hearing all interested parties were afforded the opportunity to be heard; and

WHEREAS, the Planning and Zoning Board was presented with the proposed text amendment, and after due consideration, recommended <u>approval/denial</u> (vote: _ to _) of the text amendment; and

NOW THEREFORE, BE IT ORDAINED BY THE COMMISSION OF THE CITY OF CORAL GABLES, FLORIDA:

SECTION 1. That the foregoing **"WHEREAS"** clauses are hereby ratified and confirmed as being true and correct and are hereby made a specific part of this Ordinance upon adoption hereof.

SECTION 2. That Article 6 "Landscape", Section 6-104 "Landscape Requirements for Public Rights-of-Way" of the Zoning Code of Coral Gables, Florida be amended as indicated in the attached Exhibit A¹:

SECTION 3. All ordinances or parts of ordinances inconsistent or in conflict with the provisions of this Ordinance are hereby repealed.

SECTION 4. If any section, part of section, paragraph, clause, phrase or word of this Ordinance is declared invalid, the remaining provisions of this Ordinance shall not be affected.

SECTION 5. It is the intention of the Commission of the City of Coral Gables, Florida, that the provisions of this Ordinance shall become and be made part of the City of Coral Gables Zoning Code; and that the sections of this "ordinance" may be changed to "section", "article", or such other appropriate word or phrase in order to accomplish such intentions.

SECTION 6. If the Zoning Code of the City of Coral Gables Tables of Contents or other reference portions is affected by these provisions, then changes are approved as a part of this Ordinance.

SECTION 7. This Ordinance shall become effective immediately upon passage.

¹ Deletions are indicated by strikethrough. Insertions are indicated by <u>underline</u>.

Section 6-104. Landscape requirements for public rights-of-way

A. Public rights-of way. Properties within MF1, MF2, MF3, MF4, MX1, MX2, MX3, S, UCD, PAD and P zoning districts exceeding the applicability thresholds as defined in Section 6-102.B. shall be required to install the improvements listed below. The required improvements are based upon the properties lineal property dimension abutting the r.o.w. The requirements provided herein and any potential conflicts shall be subject to review and approval by the Public Works Department and Public Works Landscape Public Works Greenspace Management Division.

	Туре	Minimum Requirements
1.	Drainage.	All properties shall be required to install drainage within the r.o.w. pursuant to the Department of Public Works requirements.
2.	City Public Works Manual	a. Landscaping, landscape islands, bulbouts, curbing, pedestrian crosswalks bulbouts, drainage and other associated traffic calming improvements shall be required pursuant to the City Public Works Manual and accompanying standards. If the City Public Works Manual and accompanying standards are not applicable to the area in which the proposed development is contemplated, see Section 6-104.A.3 below for minimum r.o.w. planting requirements.
3.	Right-of-way planting requirements not associated with the City Public Works Manual .	 a. Landscaping shall be installed within the City r.o.w. and shall be installed in accordance with all of the following: Large shade trees. Provide one (1) large shade tree, minimum planting height of sixteen (16) feet/three-and-ahalf (3½) inch caliper per thirty-five (35) linear feet or fraction thereof of right-of-way abutting the property. Palm or medium shade tree, minimum planting height of fourteen (14) feet/two-and-a-half (2½) inch caliper may be utilized to satisfy the above large shade tree requirements at a three-to-one (3:1) ratio. A maximum of ten twenty-five (10 25%) percent of the required total may be palm varieties. Exceptions to planting height for tree varieties whose average mature height is 25 feet or less may be approved by the Greenspace Management Division Director prior to installation provided that the requested

		 trees meet all relevant height clearance requirements, comply with all other life safety regulations, and add to the diversity of the urban canopy. Shrubs. Provide one (1) shrub per one (1) linear foot or fraction thereof of the right-of-way abutting the property.
		 a. If a median exists or can be established on the abutting r.o.w., the improvements listed in above Section 6-104.A.3 shall be installed pursuant to the City Public Works Manual and accompanying standards.
		 b. If a median exists or can be established on the abutting r.o.w. and is not included within the City Public Works Manual a median shall be provided subject to all of the following:
4.	Medians and/or traffic calming devices required pursuant to the City Public Works Manual.	 Large shade trees. One (1) large shade tree, minimum planting height of sixteen (16) feet/three-and-a-half (3½) inch caliper per thirty-five (35) feet linear feet or fraction thereof of right-of-way abutting the property. Palm or medium shade tree, minimum planting height of fourteen (14) feet/two-and-a-half (2½) inch caliper may be utilized to satisfy the above large shade tree requirements at a three-to-one (3:1) ratio. A maximum of twenty-five (25%) percent of the required total may be palm varieties. Exceptions to planting height for tree varieties whose average mature height is 25 feet or less may be approved by the Greenspace Management Division Director prior to installation provided that the requested trees meet all relevant height clearance requirements, comply with all other life safety regulations, and add to the diversity of the urban canopy.
		 Shrubs. One (1) shrub per one (1) linear feet or fraction thereof of the right-of-way abutting the property.
5.	Lawn grass.	Il unpaved surfaces on rights-of-way shall be sodded. Groundcover nay be substituted in lieu of lawn grass subject to Public Works andscape Services Division review and approval.
6.	Payment in lieu of installation.	n lieu of the requirements set forth in Section 6-104.A.2-4, the City Nanager or designee in accordance with these rules and regulations

may allow for the payment of the above improvements into a designated fund in lieu of providing the improvements if either of the following exist: 1) the off-site improvements are provided; 2) if onsite constraints exist that prohibit the improvements; and or, 3) if the City determines that a comprehensive installation of the improvements will be more beneficial. The estimate shall be based upon design, installation, and costs of all improvements. Applicants shall provide the City an estimate prepared by a licensed civil engineer or other City approved entity. The City shall evaluate and approve all estimates in accordance with the City's rules and regulations. These funds shall be allocated in a special fund towards street improvements in close proximity to the provider.

1	MR. TORRE: Yes.	1	agenda is E-3. Mr. Ceballos.
2	THE SECRETARY: Chip Withers?	2	MR. CEBALLOS: File ID 22-4426, an
3	MR. WITHERS: Yes.	3	Ordinance of City Commission amending the City
4	THE SECRETARY: Claudia Miro?	4	of Coral Gables Zoning Code, Article 6
5	MS. MIRO: I just wanted to make a comment	5	"Landscape," Section 6-104 "Landscape
6	before. I wanted to say that I did read the	6	Requirements for Public Right-of-Way; to amend
7	letter from the Prehistoric (sic) Board, and	7	planting height and various other provisions
8	while I don't, as a rule, just generally favor	8	providing for a repeater provision,
9	vacating alleys, I think that listening to the	9	severability clause, codification, and
10	applicant and listening to Public Works, I	10	providing for an effective date.
11	think that, in this case, you know, the	11	CHAIRMAN AIZENSTAT: Thank you.
12	Preservation says, oh, it's public land, but	12	MS. BELL-LLEWELLYN: Good evening,
13	there's water lines there. It's not like we	13	everyone. I'm Deena Bell-Llewellyn, Assistant
14	could use it as a park. And I really like the	14	Director of Public Works for Green Space
15	idea that we can make money off of this land	15	Management.
16	now and collect taxes. So, yes.	16	So this is very simple. Right now, the
17	THE SECRETARY: Julio Grabiel?	17	Zoning Code requires trees in public
18	MR. GRABIEL: Yes.	18	right-of-way swales, when they're planted new,
19	THE SECRETARY: Eibi Aizenstat?	19	to be 15 to 16 feet tall at the time of
20	CHAIRMAN AIZENSTAT: Yes.	20	planting. So we have a dense urban forest in
21	MR. GUILFORD: Thank you very much.	21	Coral Gables with a lot of large trees, and
22	CHAIRMAN AIZENSTAT: Thank you, Zeke. Nice	22	what this does is provides residents, as well
23	seeing you again.	23	as City Staff, when we're doing tree plantings,
24	MR. GUILFORD: Likewise.	24	to add more is that a yes? I think that's a
24	CHAIRMAN AIZENSTAT: The next item on the	25	yes add more diversity to the urban forest
23			
	Page 43		Page 44
1	by using smaller height trees, more natives,	1	MS. MIRO: No comments. I think she was
2	more flowering trees, more interest. Being	2	very clear.
3	that unusual trees come in smaller sizes in	3	CHAIRMAN AIZENSTAT: She was clear.
4	nurseries, it's very difficult to find them	4	MS. MIRO: I mean thank you.
5	sometimes 15 to 16 feet tall. So this just	5	CHAIRMAN AIZENSTAT: Luis?
6	gives people variety, greater variety, easier	6	MR. REVUELTA: No comment.
7	to find them in nurseries. It will create	7	CHAIRMAN AIZENSTAT: Venny?
8	diversity and more interest in the swales.	8	MR. TORRE: I do have a couple of
9	CHAIRMAN AIZENSTAT: Thank you.	9	questions. So I understand what you're trying
10	Do we have Jennifer, would you like to	10	to do with the variety and so on. So, for
11	make any comments? Thank you.	11	example, a small tree, an Orange Geiger, let's
12	Do we have anybody from the public, Jill?	12	pretend, that would be okay and something like
13	THE SECRETARY: No.	13	that could actually be the one that you kind of
14	CHAIRMAN AIZENSTAT: Zoom?	14	want to put in there, like maybe go tops 15,
15	THE SECRETARY: No.	15	16 when it's fully grown?
16	CHAIRMAN AIZENSTAT: Phone platform?	16	MS. BELL-LLEWELLYN: Uh-huh.
17	THE SECRETARY; No. We just got back,	17	MR. TORRE: So that sort of small tree
18	actually. Zoom was down, but it's back on and	18	could be the one that you kind of want to put
19	we don't have any speakers.	19	in there?
20	CHAIRMAN AIZENSTAT: Zoom was down, but we	20	MS. BELL-LLEWELLYN: Yes, trying to
21	are back on. Okay. But we have nobody, right?	21	establish a medium high canopy, below very
22	THE SECRETARY: Correct.	22	large trees, so we get a layering effect in the
23	CHAIRMAN AIZENSTAT: Okay. At this time,	23	urban forest, right, and then we're going to
24	I'd like to go ahead and close it for public	24	get a greater species variety. Of course,
25	comment. Claudia?	25	we'll make sure they're not in conflict with

	Page 45		Page 46
1	sidewalks or triangles of visibilities. As	1	visibility issue with
2	long as there's proper clearance for safety,	2	MS. BELL-LLEWELLYN: There's no change to
3	we'll look at the application on a case per	3	the triangle of visibility Code proposed. It
4	case basis.	4	reads that there must be visibility from thirty
5	MR. TORRE: And then I think I read it, but	5	inches height to eight feet. So you must have
6	just to be clear, when those trees are smaller,	6	a trunk that can you can see through from
7	you plant them closer together or not	7	thirty inches up to eight feet. All of the
8	necessarily?	8	ground covers in the swales have to be
9	MS. BELL-LLEWELLYN: You can, depending on	9	maintained below thirty inches tall. So you're
10	the planting design.	10	not going to have a wall of vegetation.
11	MR. TORRE: They're not going to be at the	11	MR. WITHERS: So you're not encouraging the
12	same distance as the big trees by default? You	12	planting of trees in the swales, you're
13	could space them closer together?	13	encouraging more of the lower landscaping in
14	MS. BELL-LLEWELLYN: You can space them	14	swales and this is primarily in setback areas?
15	randomly, triangulated. You know, we're trying	15	I'm not quite sure. What is well, what are
16	to allow for flexibility in the design of	16	you encouraging people to do?
17	swales. We have the swale planning package,	17	MS. BELL-LLEWELLYN: This amendment is for
18	and a lot of people are taking advantage of	18	any right-of-way, swales in front of
19	that and designing a landscape for their swales	19	Residential property, as well as City
20	and submitting to Public Works for review. Our	20	properties, like parks. Right now, when we are
21	division reviews that on a case by case basis	21	reviewing plans that are submitted by residents
22	and makes sure the design works.	22	or developers or Commercial properties, street
23	CHAIRMAN AIZENSTAT: Chip.	23	trees are required to be 15 to 16 feet of
24	MR. WITHERS Thank you.	24	height at time of planting.
25	So how do you manage the whole triangle of	25	MR. WITHERS: Right. Right.
	Page 47		Page 48
1	MS. BELL-LLEWELLYN: Sometimes great tree	1	just has anybody thought that through? I
2	species are not available in nurseries at 15 to	2	mean, has anybody gone to the garden clubs and
3	16 feet. Sometimes they can only find them 12	3	the different public groups and have they all
4	to 13 feet, but we know that there are species	4	signed off on this?
5	that will grow very quick. So we're trying to	5	MS. BELL-LLEWELLYN: Right. I don't know
6	allow flexibility and that way we're going to	6	the date, six or seven years ago, when the tree
7	get better trees and a greater variety of	7	succession project was underway in the City, it
8	trees.	8	was before I was here, there was a consultant,
9	MR. WITHERS: So, if someone has all Black	9	and by Ordinance adopted that diversity was
10	Olives or someone has all Mahoganies or someone	10	going to be the goal for the tree canopy.
11	has all Oak Trees on their street, they have	11	MR. WITHERS: No, I'm just trying to
12	the ability to go in front of their home, where	12	understand what pushed this, because I'm
13	their swale is, and plant Silver Buttonwoods,	13	thinking of Coconut Grove. It has absolutely
14	Gumbo Limbos or whatever they want? So we're	14	no theme on their streets and they allow
15	not going to try to maintain that themed street	15	whatever you want right up to the street. Is
16	any longer; is that the intention?	16	that okay? Is that what we want the Gables to
17	MS. BELL-LLEWELLYN: That's right.	17	look like, Coconut Grove, Kiaora and those

MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much.	2 3 4 5 6 7	landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into
2 3 4 5 6 7 8	architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was	2 3 4 5 6 7 8	landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where?
2 3 4 5 6 7 8 9 10 11	architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process	2 3 4 5 6 7 8 9 10 11	landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus.
2 3 4 5 6 7 8 9 10 11 12	architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that	2 3 4 5 6 7 8 9 10 11 12	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus. MR. WITHERS: Okay. That's a good example.
2 3 4 5 6 7 8 9 10 11 12 12	architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that you're the final order on what's proposed and	2 3 4 5 6 7 8 9 10 11 12 13	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus. MR. WITHERS: Okay. That's a good example. Perfect.
2 3 4 5 6 7 8 9 10 11 12 13 14	architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that you're the final order on what's proposed and whether it makes sense or not? Is that the way	2 3 4 5 6 7 8 9 10 11 12 13 14	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus. MR. WITHERS: Okay. That's a good example. Perfect. MR. TORRE: Very good example, right. So
2 3 4 5 6 7 8 9 10 11 12 13 14 15	architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that you're the final order on what's proposed and whether it makes sense or not? Is that the way it goes?	2 3 4 5 6 7 8 9 10 11 12 13 14 15	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus. MR. WITHERS: Okay. That's a good example. Perfect. MR. TORRE: Very good example, right. So if they did something that you said, you know,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that you're the final order on what's proposed and whether it makes sense or not? Is that the way it goes? MS. BELL-LLEWELLYN: My division, yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus. MR. WITHERS: Okay. That's a good example. Perfect. MR. TORRE: Very good example, right. So if they did something that you said, you know, that's really not the right choice, and maybe
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that you're the final order on what's proposed and whether it makes sense or not? Is that the way it goes? MS. BELL-LLEWELLYN: My division, yes. MR. TORRE: That's how it goes? 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus. MR. WITHERS: Okay. That's a good example. Perfect. MR. TORRE: Very good example, right. So if they did something that you said, you know, that's really not the right choice, and maybe that's a coral rock house, which I've seen
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that you're the final order on what's proposed and whether it makes sense or not? Is that the way it goes? MS. BELL-LLEWELLYN: My division, yes. MR. TORRE: That's how it goes?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus. MR. WITHERS: Okay. That's a good example. Perfect. MR. TORRE: Very good example, right. So if they did something that you said, you know, that's really not the right choice, and maybe that's a coral rock house, which I've seen there's several there, you would say, the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that you're the final order on what's proposed and whether it makes sense or not? Is that the way it goes? MS. BELL-LLEWELLYN: My division, yes. MR. TORRE: That's how it goes? MS. BELL-LLEWELLYN: Yes. MR. TORRE: So you're still going to be the 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. TORRE: So, you know, following with his previous comments, so if somebody came into your office and on Columbus Boulevard did something that MR. WITHERS: I'm sorry, where? MR. TORRE: On Columbus. MR. WITHERS: Okay. That's a good example. Perfect. MR. TORRE: Very good example, right. So if they did something that you said, you know, that's really not the right choice, and maybe that's a coral rock house, which I've seen there's several there, you would say, the better choice would be this? Is that a proper
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 architectural standard for what types of plants or what look. Whether you have a tropical jungle look or a trimmed English Garden look, that's sort of up to the applicant and their style. MR. WITHERS: Okay. MR. TORRE: Would you allow me? MR. WITHERS: Oh, I'm done. Thank you very much. MR. TORRE: Following up what Chip was talking about, do you have a review process that you do for these applicants, so that you're the final order on what's proposed and whether it makes sense or not? Is that the way it goes? MS. BELL-LLEWELLYN: My division, yes. MR. TORRE: That's how it goes? MS. BELL-LLEWELLYN: Yes. MR. TORRE: So you're still going to be the one, you or somebody in your department or 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 landscape architect and a certified arborist, and we have another landscape architect coming onboard. We have a horticulturist and we have two other certified arborists that also do plans reviews. MR. 	Daga 52		Dago 54
	Page 53		Page 54
1	appropriate and think about the growth habits	1	case per case basis for lighting, generally.
2	and the maintenance, and on Columbus, better	2	MR. WITHERS: I mean, so it's a, yes,
3	like shade under those big ficus trees and that	3	people can light their swales now?
4	kind of thing.	4	MS. BELL-LLEWELLYN: Well, it depends on
5	MR. TORRE: Does character matter, meaning	5	the type of project. Some Commercial projects,
6	not just the fauna style or type, but maybe how	6	you know, have lighting in the right-of-way.
7	it fits in character? No? I'm just asking the	7	Residential, I haven't seen many applications
8	question.	8	for lighting in Residential swales, no.
9	MR. WITHERS: No. It's a free fall. That	9	MR. WITHERS: There's a lot of lighting
10	was my concern.	10	that I'm sure is in our City that shouldn't be
11	MR. TORRE: Well, I'm following your	11	there.
12	MS. BELL-LLEWELLYN: There is no I don't	12	MS. BELL-LLEWELLYN: But this is just tree
13	know a better word to say style, judging of	13	height, you know, but if you have more
14	style of someone's personal landscape tastes,	14	questions about lighting, that would be a
15	no.	15	Public Works review question.
16	MR. WITHERS: I do have another question I	16	MR. WITHERS: But you're going to allow
17	had written. So, as far as the irrigation,	17	utilities like water?
18	you're going to allow people to encroach into	18	MS. BELL-LLEWELLYN: We do allow irrigation
19	the right-of-way with utilities?	19	systems with planting through the Swale
20	MS. BELL-LLEWELLYN: Yes, they can put	20	Planting Permit. The owners or residents will
21	irrigation in the right-of-way with this Public	21	sign the covenants and they become responsible
22	Works permit process.	22	for the maintenance of the irrigation system,
23	MR. WITHERS: Under the sidewalk? Are they	23	as well as the landscaping as a whole.
24	going to allow to put lighting in?	24	MR. WITHERS: And the setback from the side
25	MS. BELL-LLEWELLYN: We look at that on a	25	of the street to the tree is, what?
	Page 55		Page 56
1	MS. BELL-LLEWELLYN: Setback from the side	1	standard, right?
2	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree	2	standard, right? MR. WITHERS: I'm sorry? Because Segovia
2 3	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to	2 3	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a
2 3 4	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street?	2 3 4	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone
2 3 4 5	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree	2 3 4 5	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require
2 3 4 5 6	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we	2 3 4 5 6	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't
2 3 4 5 6 7	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven	2 3 4 5 6 7	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in?
2 3 4 5 6 7 8	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the	2 3 4 5 6 7 8	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think
2 3 4 5 6 7 8 9	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street.	2 3 4 5 6 7 8 9	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables.
2 3 4 5 6 7 8 9 10	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the	2 3 4 5 6 7 8 9 10	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not.
2 3 4 5 6 7 8 9 10 11	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree	2 3 4 5 6 7 8 9 10 11	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct?
2 3 4 5 6 7 8 9 10 11 12	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk.	2 3 4 5 6 7 8 9 10 11 12	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water
2 3 4 5 6 7 8 9 10 11 12 12	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the	2 3 4 5 6 7 8 9 10 11 12 13	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the
2 3 4 5 6 7 8 9 10 11 12 13 14	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope?	2 3 4 5 6 7 8 9 10 11 12 13 14	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the median down Segovia
2 3 4 5 6 7 8 9 10 11 12 13 14 15	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope? MS. BELL-LLEWELLYN: Our Code says that	2 3 4 5 6 7 8 9 10 11 12 13 14 15	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the median down Segovia MR. GRABIEL: And it was very
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope? MS. BELL-LLEWELLYN: Our Code says that trees have to be at least five feet from	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the median down Segovia MR. GRABIEL: And it was very controversial.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope? MS. BELL-LLEWELLYN: Our Code says that trees have to be at least five feet from driveway approaches, right, five to six feet,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the median down Segovia MR. GRABIEL: And it was very controversial.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope? MS. BELL-LLEWELLYN: Our Code says that trees have to be at least five feet from driveway approaches, right, five to six feet, so 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the median down Segovia MR. GRABIEL: And it was very controversial. MR. WITHERS: It was controversial, because they did not want but they ended up putting
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope? MS. BELL-LLEWELLYN: Our Code says that trees have to be at least five feet from driveway approaches, right, five to six feet, so MR. WITHERS: So there was I don't know	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the median down Segovia MR. GRABIEL: And it was very controversial. MR. WITHERS: It was controversial, because they did not want but they ended up putting curbing in, because they didn't want cars
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope? MS. BELL-LLEWELLYN: Our Code says that trees have to be at least five feet from driveway approaches, right, five to six feet, so MR. WITHERS: So there was I don't know if there's something in our Code that requires	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the median down Segovia MR. GRABIEL: And it was very controversial. MR. WITHERS: It was controversial, because they did not want but they ended up putting curbing in, because they didn't want cars jumping off and hitting the Oak Trees.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope? MS. BELL-LLEWELLYN: Our Code says that trees have to be at least five feet from driveway approaches, right, five to six feet, so MR. WITHERS: So there was I don't know if there's something in our Code that requires curbing when the trunk is at a certain	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. WITHERS: Okay. So when they put the median down Segovia MR. GRABIEL: And it was very controversial. MR. WITHERS: It was controversial, because they did not want but they ended up putting curbing in, because they didn't want cars jumping off and hitting the Oak Trees. MR. GRABIEL: Yeah, but the Residential
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MS. BELL-LLEWELLYN: Setback from the side of the street to the tree MR. WITHERS: Yeah, how close can I come to the side of the street? MS. BELL-LLEWELLYN: It depends on the tree species and the character, but obviously we like to maintain a minimum of six feet, seven feet, from road edges, depending on the branching character of that street. MR. WITHERS: That's from the trunk or the tree MS. BELL-LLEWELLYN: From the trunk. MR. WITHERS: From the trunk, not the canope? MS. BELL-LLEWELLYN: Our Code says that trees have to be at least five feet from driveway approaches, right, five to six feet, so MR. WITHERS: So there was I don't know if there's something in our Code that requires curbing when the trunk is at a certain diameter. It's the highway standard. Do you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 standard, right? MR. WITHERS: I'm sorry? Because Segovia has curbing because those Oak Trees are a little bigger. So this is so if someone puts a bigger tree and is not going to require curbing in front of their house, the City can't come back and say, you need to put curbing in? CHAIRMAN AIZENSTAT: I actually don't think curbing is allowed in the City of Coral Gables. MR. GRABIEL: No, it's not. CHAIRMAN AIZENSTAT: It's not, correct? MR. GRABIEL: Because as the water MR. GRABIEL: Yeah, but the Residential side does not have curbs.

	Page 57		Page 58
1	island that's curbed.	1	landscaping, to allow Deena and her to be able
2	MR. WITHERS: I understand. If it's on a	2	to use their discretion of having different
3	side, you're not required curbing, only if it's	3	types of trees plantings in the right-of-way.
4	in the median? Is that	4	It has nothing to do with lighting, nothing to
5	MR. REVUELTA: It's not permitted.	5	do with sprinkler systems, irrigation into the
6	CHAIRMAN AIZENSTAT: It's not permitted.	6	right-of-way. It is just about landscaping.
7	It's not that it's not required. You're not	7	MR. WITHERS: Understood.
8	allowed.	8	Thank you.
9	MR. TORRE: I think because of the	9	CHAIRMAN AIZENSTAT: Thank you.
10	narrowness of that	10	Julio?
11	MR. WITHERS: No, I understand. I	11	MR. GRABIEL: Yeah. I have a bit of a
12	Understood.	12	problem with what you're proposing. I think
13	MS. GARCIA: But it usually depends on the	13	the beauty of Coral Gables' streets is that you
14	intersection. There are some intersections,	14	have you have uniformity of planting and you
15	like the more recent traffic calming	15	drive down the street and it's either
16	intersections, that have the circle in the	16	Mahoganies or Black Olives or Oaks of Palm
17	middle, they do provide curbing, but then you	17	Trees, but there's continuity of it, and that's
18	need to be able to control where that drainage	18	what makes those streets beautiful.
19	goes.	19	The moment you start breaking the rhythm of
20	MR. WITHERS: Right.	20	the landscaping and you don't put another Oak
21	MS. GARCIA: And then it depends on where	21	Tree or another Mahogany or another Gumbo
22	the draining is going to be located, too, if	22	Limbo, as the rest of the street has, you lose
23	they need that curbing or if it could just	23	the quality of the street. To come along now
24	filter into the and I just wanted to clarify	24	and start putting smaller trees, different
25	something. This text amendment is just for the	25	variety and I understand the need to create
	Page 59

2 3 4 5 6 7 8	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we	2 3 4 5 6 7 8	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance.
2 3 4 5 6 7 8 9	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all.	2 3 4 5 6 7 8 9 10 11	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to
2 3 4 5 6 7 8 9 10 11 12	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on	2 3 4 5 6 7 8 9 10 11 12	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological
2 3 4 5 6 7 8 9 10 11 12 12	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in	2 3 4 5 6 7 8 9 10 11 12 13	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not
2 3 4 5 6 7 8 9 10 11 12	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires	2 3 4 5 6 7 8 9 10 11 12 13 14	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That
2 3 4 5 6 7 8 9 10 11 12 12	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in	2 3 4 5 6 7 8 9 10 11 12 13 14 15	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No. MR. REVUELTA: Within private property.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been broadened up a little, like I kind of like to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No. MR. REVUELTA: Within private property. This is public property.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been broadened up a little, like I kind of like to do.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No. MR. REVUELTA: Within private property. This is public property. MS. BELL-LLEWELLYN: No. In street tree	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been broadened up a little, like I kind of like to do. So back in the day, you know, we had a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No. MR. REVUELTA: Within private property. This is public property. MS. BELL-LLEWELLYN: No. In street tree planning, we allow diversity now. That already	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been broadened up a little, like I kind of like to do. So back in the day, you know, we had a little bit more freedom. I think I did or we
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No. MR. REVUELTA: Within private property. This is public property. MS. BELL-LLEWELLYN: No. In street tree planning, we allow diversity now. That already occurs. 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been broadened up a little, like I kind of like to do. So back in the day, you know, we had a little bit more freedom. I think I did or we did. Come Andrew, things started to change.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No. MR. REVUELTA: Within private property. This is public property. MS. BELL-LLEWELLYN: No. In street tree planning, we allow diversity now. That already occurs. Let me explain about the diversity. I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been broadened up a little, like I kind of like to do. So back in the day, you know, we had a little bit more freedom. I think I did or we did. Come Andrew, things started to change. Come Wilma and Katrina, a lot of things
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No. MR. REVUELTA: Within private property. This is public property. MS. BELL-LLEWELLYN: No. In street tree planning, we allow diversity now. That already occurs. Let me explain about the diversity. I think, when I mentioned, during the tree	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been broadened up a little, like I kind of like to do. So back in the day, you know, we had a little bit more freedom. I think I did or we did. Come Andrew, things started to change. Come Wilma and Katrina, a lot of things changed, from my perspective, when Brook, your
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	a variety of the planting, but I'm not in agreement that all of a sudden anybody can plant an eight-foot tree, where there's supposed to be 13, and everybody on the street has the taller trees. I think there's a responsibility, as an urban element, the trees the continuity of the trees on both sides of the street and as we proceed, is what makes those streets valuable and beautiful. To start changing that, I'm not in agreement with that at all. MS. BELL-LLEWELLYN: Okay. I can speak on that. Well, currently we allow diversity in tree species. There's nothing that requires the same trees be MR. GRABIEL: It doesn't? MS. BELL-LLEWELLYN: No. MR. REVUELTA: Within private property. This is public property. MS. BELL-LLEWELLYN: No. In street tree planning, we allow diversity now. That already occurs. Let me explain about the diversity. I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	diversity in tree species, because of think about disease, mass kill-offs, mass problems with certain tree species. If there's a blight that kills one specific tree species, we don't want to rely on just that tree species. We want a mix in diversity, so there are other tree species to provide the shade canopy and keep it in a sustainable balance. So I think that was the main purpose of this study and the Ordinance back during the Tree Succession Plan, to as a mission, to create the diversity, so there's an ecological balance throughout the City, and we're not relying on just the handful of species. That was the reason. MR. TORRE: I want to add something to your because I think this debate has been broadened up a little, like I kind of like to do. So back in the day, you know, we had a little bit more freedom. I think I did or we did. Come Andrew, things started to change. Come Wilma and Katrina, a lot of things

	Dama (1	1	
	Page 61		Page 62
1	basically, you get one, two or three options,	1	tall, available in the nurseries in any large
2	and we basically became where we had to plant	2	quantity, you're pretty much going to get Oaks,
3	the single liter Oak or this and he wanted me	3	Gumbo Limbos, Mahoganies, Coconut Palms, you
4	to plant a palm from Hawaii I forget the	4	know. It really limited the options.
5	name of it and it was very, very, very	5	So nurseries grow a lot of really
6	expensive, and I ended up with something	6	interesting sustainable native trees, in
7	different.	7	smaller sizes, that we'd like to be able to
8	But I think that the other side of this is	8	incorporate in the City.
9	that we got to be where we're repeating, for	9	CHAIRMAN AIZENSTAT: Your emphasizes is on
10	the sake of the hurricane situation, and all I	10	native trees?
11	could see was, we're trying to do it just to	11	MS. BELL-LLEWELLYN: Sustainability and
12	protect from the tree. So it was very	12	withstanding hurricanes and trees that protect
13	protective, and I don't know that we were	13	the health and public you know, the health,
14	getting anything more than two or three trees,	14	welfare and safety of the public. Meaning very
15	from you know, five, six, seven years ago, I	15	sustainable, strong, resilient trees, are
16	remember that's what we were doing.	16	mostly natives.
17	So is that still in discussions, how these	17	CHAIRMAN AIZENSTAT: But you encourage
18	trees, you know, work with the hurricanes and	18	native trees?
19	with winds and all of that? Is that part of	19	MS. BELL-LLEWELLYN: Uh-huh, encourage
20	this whole thing, as well?	20	natives in the right-of-way, but we also really
21	MS. BELL-LLEWELLYN: Exactly. Exactly,	21	would love to see flowering trees. A lot of
22	bringing in diversity, more native trees that	22	the public wants to bring in some beautiful
23	will be sustainable, withstand the hurricanes.	23	tropical flowering trees. We have many
24	You're right, Venny. I mean, you know, years	24	options. We're blessed to have such a variety
25	ago, to find a tree species, 15 to 16 feet	25	of trees that are available in nurseries
	Page 63		Page 64
1	flowering.	1	CHAIRMAN AIZENSTAT: Any other comment?
2	MR. TORRE: Is this going, in a way,	2	MR. REVUELTA: I want to thank Chip for
3	against that whole momentum of protecting	3	starting this public comment. I was getting
4	against Public Works having to go out and clean	4	kind of lazy and I think what Chip and Julio
5	up? In other words, that's all I ever really	5	are saying, I would like to see some talk about
6	felt was going on. It was very protective	6	certain streets and avenues, like Coral Way.
7	towards Public Works and how they were going to	7	THE SECRETARY: Mr. Revuelta, can you speak
8	handle post-hurricanes and so forth. To me,	8	thank you.
9	that's all they were looking at.	9	MR. REVUELTA: Consistency has to be
10	Now you're saying, let's open this up. Is	10	maintained for the sake of the history of the
11	it going to become an issue again where massive	11	City. I think that diversity is good, but I
12	trees in the ground are going to happen	12	think has any thought been given to certain
13	post-hurricanes, because of this? Is that not	13	avenues and streets, that have a very historic
14	likely to be occurring?	14	character, that those should be maintained?
15	MS. BELL-LLEWELLYN: No. Like I'm saying,	15	MS. BELL-LLEWELLYN: Uh-huh. You keep
16	our arborist and we're reviewing the plans	16	mentioning Coral Way. It's interesting,
17	on a case by case basis, making sure they're	17	because those trees are under Miami-Dade
18	using very resilient, sturdy species. We're	18	County's jurisdiction and we don't review
19	not opening it up for anyone to choose any tree	19	permits for planting on Coral Way. That's a
20	they want. There's still a review process.	20	Dade County right-of-way, so is Old Cutler Road
21	CHAIRMAN AIZENSTAT: You still have the	21	and some other major streets.
22	professionals, such as yourself, that are	22	MR. REVUELTA: Columbus, I think
23	reviewing to make sure?	23	MR. WITHERS: You know, just Granada
24	MS. BELL-LLEWELLYN: It still requires a	24	between Bird and North Greenway.
25		1 25	MC DELL LLEWELLVN, Dird Dood is also work

25

25

permit and review process.

MS. BELL-LLEWELLYN: Bird Road is also, yeah.

	Page 65		Page 66
1	MR. REVUELTA: I believe that there are	1	colleagues on the fact that we want to
2	certain avenues and streets that, if we control	2	maintain you know, the City Beautiful got
3	them, I think they should be respectful of the	3	its name, I think, just because of these trees
4	history and the context.	4	and the canopy that we have.
5	MS. BELL-LLEWELLYN: Uh-huh.	5	So it's another option than to just blanket
6	MR. REVUELTA: This is public property. At	6	and say, "Okay, the whole City can go diverse.
7	this point, what we're saying is that I own my	7	We want diversity." Everybody here's voiced
8	lot. I can put whatever landscaping diversity	8	that. Is there a way that we can do it in a
9	I want, but once I go into the public realm,	9	way that we also preserve our history?
10	maybe it's good to have this total diversity in	10	MS. BELL-LLEWELLYN: All right. So,
11	certain streets, in certain parts of the City,	11	Jennifer, help me out here. Our Zoning Code
12	but in other parts I think I'm in agreement	12	does not get that detailed in landscaping. I
13	with Chip, Venny and Julio, I think those need	13	mean, the next step, I believe would be, we
14	to somehow be maintained, and I don't know what	14	would have to establish what streets would be
15	system there is to	15	preserved with the trees species of historic
16	CHAIRMAN AIZENSTAT: But at the same time,	16	character, right?
17	we also have to believe in our professionals,	17	MS. GARCIA: Right. So there is the
18	which are within the City, that are tasked to	18	Streetscape Master Plan that was done several
19	do just that.	19	years ago. I don't know if we can tie that in
20	MS. MIRO: I was going to say, is there any	20	to the Text Amendment, as far as different
21	way that we can make a recommendation to say,	21	streets, because there are streets, like what
22	you know, some of these historic streets would	22	you're saying, that are designated as, you
23	be exempt from this or maybe revisit this,	23	know, this is Black Olive well, it's not
24	because I think that, you know, both Chip and	24	Black Olive, but that's another example,
25	Julio bring up a great point. I agree with my	25	mahogany, Bridalveil, different kinds of

Page 67

	Page 67		Page 68
1	streets, blocks that have a certain kind of	1	review or however they should do it, to make
2	species.	2	sure that there's a check and balance to that
3	MS. BELL-LLEWELLYN: We would have to like	3	process.
4	spell that out	4	CHAIRMAN AIZENSTAT: But there does exist
5	MS. GARCIA: Right.	5	that right now, because the arborists and all
6	MS. BELL-LLEWELLYN: have an official	6	of the professionals that are within that
7	part of the amendment. I don't know what you	7	department, that's what they do.
8	would call it, Street Tree Protection Map I	8	MR. REVUELTA: Is the review similar to the
9	don't know what you could call it.	9	Board of Architects, in which you have
10	MS. GARCIA: I mean, you can reference that	10	CHAIRMAN AIZENSTAT: It's administrative, I
11	Master Map in here	11	think.
12	MS. BELL-LLEWELLYN: Because right now it	12	MS. BELL-LLEWELLYN: This is through the
13	does not exist, right?	13	Development Services plan this is a typical
14	MS. GARCIA: if you want to review that	14	plan review process, and Public Works plan
15	Master Plan again and see if that's going to be	15	review process. It's not a Board review. It's
16	in conflict with what you're trying to do here.	16	a plan reviewer level.
17	CHAIRMAN AIZENSTAT: If I may suggest, I	17	CHAIRMAN AIZENSTAT: It's administrative.
18	think what it's sounding like, maybe if there's	18	MS. BELL-LLEWELLYN: Administrative.
19	a way to tweak it, from the concessus that I'm	19	MR. TORRE: Could there be a suffix to this
20	hearing from my Board Members, and please	20	saying, with additional review as to historical
21	correct me if I'm wrong, but maybe if there is	21	tradition or something to that, and particular
22	a way to specify certain areas that should be	22	streets named as such, and then you basically
23	preserved. I don't know if you can do that or	23	go Granada, Riviera, Columbus, and do something
24	you can't do that, but that's the consensus	24	where you're making it additionally burdensome
25	MR. TORRE: Or take an extra level of	25	to change what is already historic or

	Page 69		Page 70
1	traditional in that area, something to that	1	and, again, I cut through Coconut Grove a lot
2	effect? I'm just wondering.	2	and I'm always, you know and it looks if
3	So you're saying, you're still going to	3	you like that jungle feel I just don't want
4	look at it, but you are going to have to look	4	to see that happening here, you know, because
5	at it through a different lens, as well, and	5	once you put, I know, a couple of trees in the
6	keep that second level of review.	6	swales, and then you let the bushes grow up in
7	CHAIRMAN AIZENSTAT: Is there a	7	the swale, it's just going to fill in, and I
8	recommendation that we'd like to so we're	8	love our Code Enforcement Department, but, I
9	asking if you would come back? Is that the	9	mean, but that's just one more thing to start,
10	consensus that the Board would make?	10	you know, to enforce.
11	MR. TORRE: My perspective is to bring back	11	And I'm not against trees and I'm not
12	whatever you think that should apply to, maybe	12	against bushes and I'm not against diversity
13	you could where does that apply?	13	and all of that stuff in landscape, and you
14	CHAIRMAN AIZENSTAT: Exactly.	14	should see my house, I don't want it look I
15	MR. TORRE: Maybe Castile or, I mean, there	15	don't want it to look clean and tapered, but I
16	could be some streets that are very significant	16	make sure that, you know, it's clean.
17	or maybe you get with Carol or with Warren and	17	MR. TORRE: I guess it goes to the word
18	say, okay, which ones do you think we should	18	character, character of these streets.
19	have I don't know.	19	MR. WITHERS: Yeah, I think it does.
20	MR. WITHERS: I mean, you look at Hardee,	20	MR. TORRE: I don't think that changing the
21	where the French village is, the village and	21	character, because we're doing this on a
22	you know Hardee right there, I mean, I'd	22	free-for-all situation, makes sense somewhat.
23	hate to see those swales filled up so you miss	23	It gives us a little
24	that beauty of that architecture as you drive	24	MR. GRABIEL: Listen, the Landscaping
25	down Hardee. I mean, to me, it would be	25	Department of the City has been doing wonderful
	Page 71		Page 72
1	Page 71 work, because before you only used to worry	1	Page 72 that all of the Board Members have given, and
1 2	-	1 2	5
	work, because before you only used to worry		that all of the Board Members have given, and
2	work, because before you only used to worry about trees, and all of a sudden I see that	2	that all of the Board Members have given, and then bring it back with that. If I'm wrong,
2 3	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color	2 3	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's
2 3 4	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So	2 3 4	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so.
2 3 4 5	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a	2 3 4 5	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right.
2 3 4 5 6	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think	2 3 4 5 6	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances,
2 3 4 5 6 7	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the	2 3 4 5 6 7	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was
2 3 4 5 6 7 8	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are	2 3 4 5 6 7 8	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you
2 3 4 5 6 7 8 9 10 11	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's	2 3 4 5 6 7 8 9	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all
2 3 4 5 6 7 8 9 10 11 12	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same	2 3 4 5 6 7 8 9 10 11 12	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio
2 3 4 5 6 7 8 9 10 11 12 12 13	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new	2 3 4 5 6 7 8 9 10 11 12 12 13	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you
2 3 4 5 6 7 8 9 10 11 12 13 14	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to	2 3 4 5 6 7 8 9 10 11 12 13 14	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain
2 3 4 5 6 7 8 9 10 11 12 13 14 15	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to proceed in some way and come back for a second	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain streets and avenues in a way historical, as far
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to proceed in some way and come back for a second review two years from now, three years from	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain streets and avenues in a way historical, as far as the landscaping rhythm and just I think
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to proceed in some way and come back for a second review two years from now, three years from now, and say is there a way to check this	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain streets and avenues in a way historical, as far as the landscaping rhythm and just I think it should be as simple as that. And, then, at
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to proceed in some way and come back for a second review two years from now, three years from now, and say is there a way to check this out in the future and say, what you're doing	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain streets and avenues in a way historical, as far as the landscaping rhythm and just I think it should be as simple as that. And, then, at that point, I think you achieve an interesting
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to proceed in some way and come back for a second review two years from now, three years from now, and say is there a way to check this out in the future and say, what you're doing doesn't quite I don't know.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain streets and avenues in a way historical, as far as the landscaping rhythm and just I think it should be as simple as that. And, then, at that point, I think you achieve an interesting variety, because you're going to have a certain
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to proceed in some way and come back for a second review two years from now, three years from now, and say is there a way to check this out in the future and say, what you're doing doesn't quite I don't know. CHAIRMAN AIZENSTAT: Well, I think, from	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain streets and avenues in a way historical, as far as the landscaping rhythm and just I think it should be as simple as that. And, then, at that point, I think you achieve an interesting variety, because you're going to have a certain formality in parts of the City and then a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to proceed in some way and come back for a second review two years from now, three years from now, and say is there a way to check this out in the future and say, what you're doing doesn't quite I don't know. CHAIRMAN AIZENSTAT: Well, I think, from what I was hearing from my Fellow Board Members	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain streets and avenues in a way historical, as far as the landscaping rhythm and just I think it should be as simple as that. And, then, at that point, I think you achieve an interesting variety, because you're going to have a certain formality in parts of the City and then a certain informality in other parts of the City,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. TORRE: Does it make any sense to proceed in some way and come back for a second review two years from now, three years from now, and say is there a way to check this out in the future and say, what you're doing doesn't quite I don't know. CHAIRMAN AIZENSTAT: Well, I think, from what I was hearing from my Fellow Board Members was, if there was a way to tweak it and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	that all of the Board Members have given, and then bring it back with that. If I'm wrong, please correct me. That's MR. REVUELTA: I think so. MS. MIRO: Right. MR. REVUELTA: The check and balances, Venny, I think will end up with what Chip was saying. We know that if people get to plant whatever they want in the swale, pretty much we'll be part of Coconut Grove, which is you know, we are not against Coconut Grove at all whatsoever, but there is a context that Julio and everybody is talking about. Just like you designate certain parts of the City and certain structures as historical structures, it should not be very difficult to designate certain streets and avenues in a way historical, as far as the landscaping rhythm and just I think it should be as simple as that. And, then, at that point, I think you achieve an interesting variety, because you're going to have a certain formality in parts of the City and then a certain informality in other parts of the City, which in itself is attractive, rather than have
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	work, because before you only used to worry about trees, and all of a sudden I see that there's an understory and planting and color and flowers, which were not there before. So my hat's off to you guys, because you created a lot of variety, but I think, when you think urbanistically, the rhythm that's set up by the tree planting on Residential streets, it could be historical or not, a lot of Residential streets, especially on the North Gables, are beautiful because you have a canopy that's created by a rhythm of trees and the same height, and I'm concerned that at this new idea, we might lose that, and we're going to lose quality of the urban environment. MR. 	Page 73		Page 74
1	put down Switzerland, but a total manicure.	1	required total could be palm varieties. It
2	So, now, in the City, you would have	2	reduces it to 10. So from 25 percent it
3	certain areas that are urbanistically	3	reduces it to 10, and then I will read the
4	consistent and certain areas that are not. I	4	language that is being added.
5	think that would be actually interesting for	5	"Exceptions to planting height for tree
6	the City, just like Merrick set the Chinese	6	varieties whose average mature height is 25
7	Village, the French Village, that variety, I	7	feet or less, may be approved by the Green
8	think, adds to the architecture.	8	Space Management Division Director, prior to
9	Like I argued one time in the Florida	9	installation, provided that the requested trees
10	vernacular and metal roofs	10	meet all relevant height clearance requirement,
11	CHAIRMAN AIZENSTAT: Mr. Ceballos, if we'd	11	comply with all other life safety regulations,
12	like for them to tweak it and so forth and come	12	and add to the diversity of the urban canopy."
13	back, do we need to defer it or how do we	13	That is the extent of the change. I just
14	proceed with this?	14	want to make sure that that's
15	MR. CEBALLOS: You would just make a motion	15	MR. WITHERS: Understood, but that's a
16	directing Staff that you'd like for them to	16	
17	bring it back. If I may, I may offer to just	17	subjective opinion of a person in a department as to what can be planted there.
18		18	MR. CEBALLOS: Correct.
19	read the exact change that is being proposed, because I believe that we're discussing a	19	MR. WITHERS: And I think the feeling is
20	free-for-all and a lot of things of the like of	20	that there shouldn't be that huge amount
20	check and balances and I don't believe that's	20	nothing against you, I mean, but just the
21	an accurate reflection of the text.	21	
			subject. I mean, that's how I see it.
23	So besides updating the Green Space	23	MS. BELL-LLEWELLYN: Right. Let me remind
24 25	Management Division title, the change reduces a	24 25	you, there's a swale planting permit, separate
20	maximum of originally 25 percent of the	25	from our discussion, that already allows
	Page 75		Page 76
1	Page 75 resident to plant whatever they want in the	1	Page 76 that you know is impossible to find in the
1 2	_	1 2	
	resident to plant whatever they want in the		that you know is impossible to find in the
2	resident to plant whatever they want in the swale below 30 inches high.	2	that you know is impossible to find in the nursery, maybe that resident can find it in
2 3	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right.	2 3	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in.
2 3 4	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone	2 3 4	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're
2 3 4 5	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale.	2 3 4 5	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to.
2 3 4 5 6	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf.	2 3 4 5 6	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you
2 3 4 5 6 7	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf.	2 3 4 5 6 7	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members
2 3 4 5 6 7 8	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me.	2 3 4 5 6 7 8	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of
2 3 4 5 6 7 8 9	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's	2 3 4 5 6 7 8 9	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we
2 3 4 5 6 7 8 9 10	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting.	2 3 4 5 6 7 8 9 10	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth?
2 3 4 5 6 7 8 9 10 11 12 12 13	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of	2 3 4 5 6 7 8 9 10 11 12 13	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know
2 3 4 5 6 7 8 9 10 11 12 13 14	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get	2 3 4 5 6 7 8 9 10 11 12 13 14	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of
2 3 4 5 6 7 8 9 10 11 12 13 14 15	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the	2 3 4 5 6 7 8 9 10 11 12 13 14 15	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale. MS. BELL-LLEWELLYN: Yeah. There's a swale
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because the nurseries don't provide	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale. MS. BELL-LLEWELLYN: Yeah. There's a swale permit, and they submit it through this process
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because the nurseries don't provide CHAIRMAN AIZENSTAT: You're trying to just	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale. MS. BELL-LLEWELLYN: Yeah. There's a swale permit, and they submit it through this process to Public Works. We review it, and you're
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because the nurseries don't provide CHAIRMAN AIZENSTAT: You're trying to just lower the height of the tree that's already	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale. MS. BELL-LLEWELLYN: Yeah. There's a swale permit, and they submit it through this process to Public Works. We review it, and you're virtually allowed to design your own swale
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because the nurseries don't provide CHAIRMAN AIZENSTAT: You're trying to just lower the height of the tree that's already allowed?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale. MS. BELL-LLEWELLYN: Yeah. There's a swale permit, and they submit it through this process to Public Works. We review it, and you're virtually allowed to design your own swale planting, put crush stone for parking. And
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because the nurseries don't provide CHAIRMAN AIZENSTAT: You're trying to just lower the height of the tree that's already allowed? MS. BELL-LLEWELLYN: Yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale. MS. BELL-LLEWELLYN: Yeah. There's a swale permit, and they submit it through this process to Public Works. We review it, and you're virtually allowed to design your own swale planting, put crush stone for parking. And this was implemented to help with parking in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because the nurseries don't provide CHAIRMAN AIZENSTAT: You're trying to just lower the height of the tree that's already allowed? MS. BELL-LLEWELLYN: Yes. CHAIRMAN AIZENSTAT: That's the only 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale. MS. BELL-LLEWELLYN: Yeah. There's a swale permit, and they submit it through this process to Public Works. We review it, and you're virtually allowed to design your own swale planting, put crush stone for parking. And this was implemented to help with parking in swales and illegal dumping in swales. It's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because the nurseries don't provide CHAIRMAN AIZENSTAT: You're trying to just lower the height of the tree that's already allowed? MS. BELL-LLEWELLYN: Yes. CHAIRMAN AIZENSTAT: That's the only discussion 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. CHAIRMAN AIZENSTAT: So, Chip, what you were discussing or what other Board Members were discussing, would be a recommendation for the Public Works Department to look at, so we don't have, down the road, different types of species on the road, like you said, Coral Way or so forth? MR. WITHERS: Quite honestly, I didn't know that a resident could plant whatever kind of tree they wanted right now in the City swale. MS. BELL-LLEWELLYN: Yeah. There's a swale permit, and they submit it through this process to Public Works. We review it, and you're virtually allowed to design your own swale planting, put crush stone for parking. And this was implemented to help with parking in swales and illegal dumping in swales. It's really helped keeping cars from parking in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 resident to plant whatever they want in the swale below 30 inches high. MR. WITHERS: Right. MS. BELL-LLEWELLYN: Plus put crush stone parking areas in the swale. MR. WITHERS: Artificial turf. MS. BELL-LLEWELLYN: Not artificial turf. You're testing me. MR. WITHERS: Not yet, right? That's coming. MS. BELL-LLEWELLYN: I mean, that already exists separately as the swelling planting. All we're talking about today is the height of trees, right, because it's difficult to get very tall trees. We're getting stuck with the same four or five different species, because the nurseries don't provide CHAIRMAN AIZENSTAT: You're trying to just lower the height of the tree that's already allowed? MS. BELL-LLEWELLYN: Yes. CHAIRMAN AIZENSTAT: That's the only 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 that you know is impossible to find in the nursery, maybe that resident can find it in eight to ten feet tall, and put the tree in. That's sort of the idea. That's what we're trying to get to. 1	CHAIRMAN AIZENSTAT: So, you're saying,		feet long, three or four cars.
2	today, somebody in the swale that's in front of	2	CHAIRMAN AIZENSTAT: And what keeps those
3	their home can put crushed rock, because I	3	rocks from going into the street and
4	really don't see that in Coral Gables?	4	damaging
5	MS. BELL-LLEWELLYN: Yeah. I mean, I think	5	MS. BELL-LLEWELLYN: You have to plant
6	we've reviewed a couple hundred of those	6	completely solid around it to hold it in place.
7	permits since it started. It started in 2017.	7	So all of this is a current permit process that
8	It was approved by Commission in 2017.	8	people are already implementing. It was passed
9	CHAIRMAN AIZENSTAT: I never knew that.	9	by Commission in 2017.
10	I've seen it in the Grove.	10	CHAIRMAN AIZENSTAT: I did not know that.
11	MS. BELL-LLEWELLYN: That already exists.	11	MS. BELL-LLEWELLYN: Yeah.
12	MR. REVUELTA: Is that only for the	12	CHAIRMAN AIZENSTAT: Chip, it just sounds,
13	driveway or for the whole swale?	13	then, from what Gus went ahead and read, this
14	MS. BELL-LLEWELLYN: No, the whole swale.	14	procedure is already there.
15	A resident can plant the entire swale using	15	MS. BELL-LLEWELLYN: It's already there.
16	their own landscape architect or designer to	16	CHAIRMAN AIZENSTAT: The only difference is
17	design the swale, submit it to us for review,	17	that they're not able to get the height of the
18	and as long as it meets the height requirement,	18	trees.
19	below 30 inches tall, they can plant trees,	19	MS. BELL-LLEWELLYN: Right.
20	like we're talking about today, and put crushed	20	CHAIRMAN AIZENSTAT: And they're asking for
21	gravel parking areas. There are length	21	the height to be
22	restrictions. For instance, in front of most	22	MR. WITHERS: Well, I think what they
23	Single-family homes, the gravel area is limited	23	passed was wrong.
24	to 20 feet long, so two cars. Multi-Family or	24	CHAIRMAN AIZENSTAT: I'm not disagreeing
25	apartment buildings go up to more like 30, 36	25	with you.
	Page 79		Page 80
1	MR. WITHERS: You know, I think it was a	1	grandfather those homes in, right, and that's
2	bad Ordinance or whatever it is.	2	going to already change what the City could
3	CHAIRMAN AIZENSTAT: But we can also make a	3	look like possibly.
4	recommendation, as part of this, for the review	4	I would feel more comfortable if we defer
5	of what they have done, am I correct?	5	this and gave them the opportunity to come back
6	MR. CEBALLOS: Yes, and you could also	6	to us and say, "Hey, these are the streets that
7	include let's say, if your decision is to	7	we're going to go out of the way to make sure
8	move forward and approve or recommend approval	8	that we preserve."
9	to this, you can incorporate as part of that	9	CHAIRMAN AIZENSTAT: But that's not what
10	approval a recommendation to the City	10	they're asking. I'm not disagreeing with you.
11	Commission that they consider possibly	11	I agree with you. But that's not what's there
12	exempting some of the historic roads. That's	12	before us. Before us is basically the height
13	something you can also make as part of your	13	of the tree.
14	recommendation.	14	MS. MIRO: Right, but the height of the
15	MS. MIRO: I just wanted to chime in again.	15	tree changes the tree, right, because if you
16	I hear what everybody is saying, but I still	16	can't find a Gumbo Limbo or you can't find

think I feel safer or we're protecting our City

more leaning towards the deferring it, because

I think -- like I heard what Venny said, "Hey,

years we check it out and see how it's doing,"

that have already planted trees and we decide

let's move forward, and then in a couple of

right, but at that point, if you have people

to go back, then you're going to have to

a little bit better if we do come back. I'm

certain trees of a certain height, then doesn't

to find trees at the current height and that's

we have trees in the urban canopy now that are

why you're asking to lower the height?

MS. BELL-LLEWELLYN: Not necessarily.

MS. MIRO: Didn't you say you were not able

MS. BELL-LLEWELLYN: The goal is -- I mean,

that change the tree? Isn't that the issue

that we are finding --

r		1	
	Page 81		Page 82
1	50, 60, 75 feet tall. Some people want to	1	have to have something that says, special
2	build a plant underneath them, with smaller	2	consideration must be given to traditional
3	species, to create, you know, a real layering	3	treescapes or something like that, at the end,
4	effect, not just have a solid tree species of	4	that sort of says, but you must take some
5	one height. Plus it's very difficult in	5	consideration where tradition or character is
6	nurseries to find large trees in quantities.	6	relevant to the street or something to that
7	You know, especially, developments, sometimes	7	effect.
8	we have to make special exceptions, because	8	Something could be added I'm not sure if
9	they can't find 30 Gumbo Limbos 16 feet tall.	9	it will do it versus bringing it all back
10	We might need to make an exception that they	10	and having to come back. So whether this makes
11	have 35 Gumbo Limbos 13 feet tall, to be able	11	sense or not so it's a matter of, you have
12	to meet the quantities, that kind of thing.	12	to have a review process that takes into
13	CHAIRMAN AIZENSTAT: All right. Anybody	13	account that you must respect the tradition,
14	would like to make a motion on this?	14	character and other factors that make Coral
15	MR. TORRE: Let me try something here. I'm	15	Gables feel like what we've been experiencing.
16	being brave just to try something.	16	So you cannot break that. I'm not sure I've
17	So I think I understand what you're trying	17	said it well.
18	to do, and, again, the guidance of your	18	MR. GRABIEL: Let me ask you a question.
19	Department is always needed and it has to be	19	When somebody wants to needs to plant the
20	where you guys recommend what is right and	20	median, the space in front of their houses, and
21	wrong for each street.	21	all of the street trees on that particular
22	So giving you the opportunity to put these	22	street are Mahoganies, can they come in and put
23	smaller trees isn't necessarily bad. The	23	in a Poinciana?
24	question is, where would you break something	24	MS. BELL-LLEWELLYN: Well, that wouldn't be
25	that contradicts, as you just said so you	25	appropriate because they would conflict. The
	Page 83		Page 84
1	trees would be too large. They would be in	1	in other parts of our County and you can go
2	conflict.	2	down a street and you'll see a Royal
3	MR. GRABIEL: Okay. So your department	3	Poinciana, you'll see a Palm Tree, you'll see
4	would not allow	4	an Oak Tree, you'll see a Mango Tree, you'll
5	MS. BELL-LLEWELLYN: If it's an open space,	5	see an Avocado Tree in the swale, and I think
6	yes. Currently diversity is encouraged by the	6	it looks terrible. I think it just absolutely
7	Tree Succession Study. So, yes, we do allow	7	looks And I'm not casting any stones on
8	it.	8	anyone, but I like to see uniformity on the
9	MR. GRABIEL: Okay. But if there is I'm	9	streets.
10	worried about the streets that have already a	10	MR. REVUELTA: Ironically, I was just
11	standard established tree canope, meaning a	11	thinking, in order to change the character of
12	particular tree types, Mahoganies, Oaks, even	12	the streets that we're talking about, it takes
13	Black Olives.	13	a hurricane, because nobody is going to take
14	MS. BELL-LLEWELLYN: The answer is yes.	14	them down. Nobody is going to ask for a permit
15	Right now we allow people to plant different	15	to take down one of these trees.
16	species, yes.	16	So I was just thinking, I think we're in
17	MR. GRABIEL: You do?	17	the right track being concerned about this, but
18	MS. BELL-LLEWELLYN: Uh-huh.	18	at the point that you're going to keep the

25

MR. GRABIEL: Okay.

is that possible?

MR. TORRE: I'm going to put it even worse,

Oaks and somebody wants to put a palm or two,

MR. WITHERS: Look, and I'm not trying to

disparage our neighbors around, but you drive

you can put a palm. You've got a street of

character, it would take a hurricane to wipe some of those things out, and, then, at that

- point, I think the question is, what do you replace it with, because I don't believe the
- people are going to be now submitting for a
- permit to take out a big Oak or a big ficus to

	Page 85		Page 86
1	I'm assuming that that's not the case, that	1	based on what we're saying to each other, that
2	you guys will not allow that. So it was just	2	that's what I'm looking at right now.
3	going through my mind what the reality of the	3	CHAIRMAN AIZENSTAT: And, I think, Venny,
4	issue is, and I think it would take a hurricane	4	that's what you were trying to do.
5	to wipe all of these things out. If, in the	5	MR. TORRE: I was trying to do something of
6	unfortunate occasion, that that happens, I	6	the sort, but maybe somebody can do a better
7	think there has to be then the consistency that	7	job. I think we all agree what we're trying to
8	we're talking about. And, also, there are	8	put forth to the Commission.
9	certain plant materials that I'm assuming you	9	CHAIRMAN AIZENSTAT: So if I understand
10	guys will not allow under a canopy of trees,	10	correctly, the height, we understand the
11	that, at some point, are going to die and	11	purpose with the change in the language, but at
12	they're going to look ratty. You can certainly	12	the same time, we'd like to make a
13	not plant a mango trees or a guava tree under	13	recommendation that Public Works or City Staff
14	one of these trees it would never work or	14	look at the type of species in an area, which
15	a palm tree.	15	is you know, there's got to be some kind of
16	And it looks to me that the issue, the	16	a definition or
17	Ordinance that we're going to vote in here, is	17	MR. TORRE: Typology.
18	not really related to what we're talking about,	18	CHAIRMAN AIZENSTAT: typology for a
19	which I think is what Eibi was trying to point	19	specific area, so there's continuity.
20	out, but I do think that we have, then, an	20	MR. REVUELTA: And compatibility.
21	opportunity to now	21	CHAIRMAN AIZENSTAT: And compatibility.
22	CHAIRMAN AIZENSTAT: Make a recommendation.	22	MR. TORRE: Again, I don't think our
23	MR. REVUELTA: I'm willing to approve, not	23	wording is going to end up at the Commission
24	the DNA of the Ordinance, but I think it's	24	I mean, this is a recommendation. It can be
25	incumbent upon us to make a recommendation	25	worded in certain ways, but they understand
	Page 87		Page 88
1	Page 87 what it is we're trying to do, and let them	1	Page 88 discussed here, that we want to make sure do
2	what it is we're trying to do, and let them come back to the final answer	1 2	5

2 3 4 5 6 7 8 9 10 11 12 13 14 15	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think 	2 3 4 5 6 7 8 9 10 11 12 13 14 15	discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you've approved?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you're approved? MS. GARCIA: Yeah, I think we can gather
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion on the table right now? Anybody would like to 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you've approved? MS. GARCIA: Yeah, I think we can gather that within
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 what it is we're trying to do, and let them come back to the final answer – CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion on the table right now? Anybody would like to make a motion? 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you've approved? MS. GARCIA: Yeah, I think we can gather that within MR. WITHERS: So we can see visually what
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion on the table right now? Anybody would like to make a motion? Venny, you were going to make a motion? 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you're approved? MS. GARCIA: Yeah, I think we can gather that within MR. WITHERS: So we can see visually what the effect is. Is that possible?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion on the table right now? Anybody would like to make a motion? Wenny, you were going to make a motion? MR. TORRE: The thing is to actually push 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you've approved? MS. GARCIA: Yeah, I think we can gather that within MR. WITHERS: So we can see visually what the effect is. Is that possible? MS. BELL-LLEWELLYN: Yeah, some of the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion on the table right now? Anybody would like to make a motion? Wenny, you were going to make a motion? MR. TORRE: The thing is to actually push it back a little bit, so that you can take 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you've approved? MS. GARCIA: Yeah, I think we can gather that within MR. WITHERS: So we can see visually what the effect is. Is that possible? MS. BELL-LLEWELLYN: Yeah, some of the swale planting.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion on the table right now? Anybody would like to make a motion? Wenny, you were going to make a motion? MR. TORRE: The thing is to actually push it back a little bit, so that you can take these comments and bring back the same thing, 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you've approved? MS. GARCIA: Yeah, I think we can gather that within MR. WITHERS: So we can see visually what the effect is. Is that possible? MS. BELL-LLEWELLYN: Yeah, some of the swale planting. MR. WITHERS: And did you say this did go
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 what it is we're trying to do, and let them come back to the final answer – CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion on the table right now? Anybody would like to make a motion? MR. TORRE: The thing is to actually push it back a little bit, so that you can take these comments and bring back the same thing, with some kind of level of protection for the 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you're approved? MS. GARCIA: Yeah, I think we can gather that within MR. WITHERS: So we can see visually what the effect is. Is that possible? MS. BELL-LLEWELLYN: Yeah, some of the swale planting. MR. WITHERS: And did you say this did go to the City Beautiful Committee? Has this gone
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 what it is we're trying to do, and let them come back to the final answer CHAIRMAN AIZENSTAT: Wouldn't it be up to the City Attorney to put the wording together, maybe we're not able to put the exact wording that we'd like to put forth, but maybe the City Attorney can put that language together? Is that a possibility, Gus? MR. CEBALLOS: I would defer, as my current position is Counsel to the Board. You would make your recommendation to your Staff liaison to prepare language that would then get presented to the City Commission. CHAIRMAN AIZENSTAT: Okay. MR. TORRE: I agree with that. I think that's what Claudia said. CHAIRMAN AIZENSTAT: So do we have a motion on the table right now? Anybody would like to make a motion? Wenny, you were going to make a motion? MR. TORRE: The thing is to actually push it back a little bit, so that you can take these comments and bring back the same thing, 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 discussed here, that we want to make sure do not go and get left behind as the measure of this CHAIRMAN AIZENSTAT: But, then, at that time, you are asking her to change, not the Code, is it, that you're asking to change MS. MIRO: To capture the essence of what we're discussing. MS. GARCIA: Right. You would change the language as previously drafted. CHAIRMAN AIZENSTAT: To incorporated MS. GARCIA: Yeah, and bring it back to the Board, uh-huh. MR. WITHERS: Is there any way to bring back some of the finished product, pictures of what's happened that you're approved? MS. GARCIA: Yeah, I think we can gather that within MR. WITHERS: So we can see visually what the effect is. Is that possible? MS. BELL-LLEWELLYN: Yeah, some of the swale planting. MR. WITHERS: And did you say this did go

	Page 89		Page 90
1	that's why they're here, right?	1	examples, and bring it back to us then.
2	CHAIRMAN AIZENSTAT: What Board would it	2	CHAIRMAN AIZENSTAT: And incorporate what
3	be?	3	that Beautification Committee to take a look
4	MR. WITHERS: I don't know. Do we have a	4	at it, before it comes to us?
5	City Beauty	5	MS. MIRO: Yeah.
6	MS. BELL-LLEWELLYN: The Landscape	6	MR. WITHERS: I'll second that.
7	Beautification Advisory Board	7	CHAIRMAN AIZENSTAT: We have a second. Any
8	MR. WITHERS: Yeah.	8	discussion? No?
9	MS. BELL-LLEWELLYN: could weigh in.	9	Call the roll, please.
10	MR. WITHERS: I'm sorry?	10	THE SECRETARY; Venny Torre?
10	MS. BELL-LLEWELLYN: We could have the	11	MR. TORRE: Yes.
12	Landscape Beautification Advisory Board weigh	12	THE SECRETARY: Chip Withers?
13	in.	13	MR. WITHERS: Yes.
14	MR. WITHERS: Why not use them, too? I	14	THE SECRETARY; Claudia Miro?
	-	15	MS. MIRO: Yes.
15	mean, that's just another set of eyes.	16	
16	MS. MIRO: Okay. So I'll go ahead and make		THE SECRETARY: Julio Grabiel?
17	a motion, and the motion would be to defer it	17	MR. GRABIEL: Yes.
18	back to Staff to capture the comments that	18	THE SECRETARY1 Luis Revuelta?
19	we've made here in the conversation, to make	19	MR. REVUELTA: Yes.
20	sure that we talk about things like	20	THE SECRETARY: Eibi Aizenstat?
21	compatibility, and just the concerns of the	21	CHAIRMAN AIZENSTAT: Yes.
22	streets, and, again, like she said, would be	22	MR. WITHERS: Well, you bit off some gritty
23	changing the language and also to incorporate	23	thing here, didn't you? You thought you were
24	the Landscape Beautification and also bring	24	just going to glide through. You thought you
25	back some visuals for us to look at, some	25	were going to get out of here in five minutes.
	Page 91		Page 92
1	MS. BELL-LLEWELLYN: I thought this was the	1	to Page 4 on your Staff report, there are six
2	simplest thing in the world; why are they even	2	bullet points, right. This will be allowing
3	inviting me here?	3	metal roofs let me go back, allowing metal
4	CHAIRMAN AIZENSTAT: Deena, thank you very	4	roofs allowing seam metal roofs throughout
5	much for coming.	5	all of Coral Gables, but there are six points
6	MS. BELL-LLEWELLYN: You're very welcome.	6	that you should take into consideration.
7	Thank you, everyone. We'll see you soon.	7	The first one is to be prohibited in
8	MR. WITHERS: Thank you.	8	designated Historic Districts. So if you're a
9	Okay. The next item on the agenda is E-4.	9	Historic District, whether you're contributing
10	MR. CEBALLOS: This is File ID 22-4482, an	10	or non-contributing, you would not be allowed
11	Ordinance of the City Commission providing for	11	to request a metal roof for your house. Again,
12	text amendments to the City of Coral Gables	12	sorry, going back, metal roofs (Unintelligible)
13	Official Zoning Code, Article 5,	13	and Single-Family houses, okay.
14	"Architecture," Section 5-505, "Pitched roofs,	14	The second bullet point is requiring
15	material;" to expand the allowed roof materials	15	Historic Preservation Board approval for any
16	for pitched roofs to include metal roofs, and	16	locally historic designated property or
17	Article 16, providing for a definition of	17	historic based significant homes. So if you
18	"Standing seam metal roof;" providing for	18	have a designated property, you're not within a
19	severability clause, repeater provision,	19	Historic District, you could be required to go
20	codification, and providing for an effective	20	to the Historic Preservation Board for
21	date.	21	approval, and that's already captured in the
22	CHAIRMAN AIZENSTAT: Thank you.	22	Zoning Code, but that's just clarifying for
23	MS. GARCIA: So it's a proposed text	23	this Text Amendment.
24	amendment coming to you straight from the	24	The third one is limiting the seam, like I
25	Commission. And just to summarize, if you go	25	said.

STAFF:

Deena Bell-Llewellyn, Assistant PW Director, Greenspace Sayleen Arocha, Landscape Designer, Greenspace Pilar Wiesse, Recording Secretary Jennifer Garcia, City Planner

CALL TO ORDER:

The meeting was called to order at 10:30 a.m. The roll was taken, and a quorum was present.

MEETING MINUTES APPROVAL:

The board reviewed the September 8th, 2022, minutes. A motion was made to "Approve the minutes of September 8th, 2022" The motion was seconded, voted upon, and adopted unanimously.

PRESENTATIONS / DISCUSSIONS:

UPDATE ON STREET TREE CODE: City Planner Jennifer Garcia attended the meeting to talk about a proposed amendment to the tree code and take the board's comments to the Planning and Zoning board. She said that the Planning and Zoning board has not approved text amendment and deferred it to hear the comments from the Landscape Advisory board. It will be reviewed again by the Planning & Zoning Board on November 1st with their comments and then provide a recommendation to the City Commission for 2nd Reading. The proposed amendment will give Greenspace Management division discretion to allow trees of a lower height to meet life safety requirements and contribute to diversity. It also clarifies other provisions regarding planting in the right-of-way, including the percentage of palms to be planted in the right-of-way. It will incentivize diversity in the urban canopy and tree species throughout the city. Ms. Garcia would like to have a recommendation from the board about having singular street trees more often or complete diversity of trees. Ms. Bell intervened saying that the neighborhood tree succession plan from 2014 recommended diversity as well as respecting some historic trees. She explained that the advantages of environmental diversification of species are good for resiliency; tree monocultural, same type of trees species, are more at risk to be wiped out if pest or infestation. Ms. Bell also said that the city will continue to maintain the standard 8 feet canopy clearance over pedestrian sidewalks and roads. Greenspace division will professionally review tree species and size appropriate to each area. This will create diversity while allowing smaller size trees and trees of different species that are not easy to find.

Ms. Garcia read the proposed change: "Exceptions to planting height for tree varieties whose average mature height is 25 feet or less may be approved by the Greenspace Management Division Director prior to installation provided that the requested trees meet all relevant height clearance requirements, comply with all other life safety regulations, and add to the diversity of the urban canopy."

Members of the board have different opinions on the issue. They will not want dense canopy; all streets should not be dark. Variety is needed; pockets of sun to have the ability to plant and grow your own garden. Include the neighbors in the streetscape. Lined trees should have symmetry and be consistent. Trees should not be a hazard, should be resistant to hurricanes. Diversity could be wonderful if it is well thought out and not a hazard. • KEEP CORAL GABLES BEAUTIFUL AWARD: Discussion took place to remove commercial aspects out of the landscape beautification award to not have a conflict with Keep Coral Gables Beautiful award. *A motion was made to "remove commercial aspects out of the landscape beautification awards." The motion was seconded, voted upon, and adopted unanimously.*

• UPDATE PLANS FOR THE HISTORIC ENTRANCES: Ms. Bell told the board that the office of Capital Improvement Projects (CIP) had a project to restore the seven (7) historic entrances a few years ago. It involved renovation of the fountains, painting of walls, installation of irrigation but landscaping was not done because of budgetary issues. She will write a new needs package next fiscal year for all 7 entrances to include beautification and irrigation. The work will be done in phases as it is a significant project. Board can help with input to redesign all historic entrances. As a quick fix, landscape staff and volunteers will keep enhancing them as much as they can with the budget they have.

• DISCUSSION ABOUT BEAUTIFICATION OF FIELD AT GRANADA BLVD AND PONCE DE LEON: Ms. Boynton-Trigg inquired about the site that sits on the corner of Granada Blvd and Ponce de Leon. Ms. Bell said that University of Miami owns it and that she has not heard of any future development. She will get UM contact for next meeting.

• UPDATE MISCELLANEOUS PROJECTS:

<u>Coral Gables Country Club</u>: Ms. Bell announced that Coral Gables Country Club is open. Restaurant, café and facilities are up and running. Landscape staff is maintaining the landscape. Landscaping will be redesigned and enhanced. It will be done a little at a time, as budget allows. She invited the board to visit the Country Club and give her input for new landscape.

<u>Ponce de Leon Medians</u>: Contractor is about to start removing the plants in the median and the right-of-way from Miracle Mile up to Menores Ave. It will be replaced with a variety of low groundcovers for visibility and safety.

Entrance at Coral Way and Red Road: FIU students volunteered to plant flowers on the corner of that entrance. Plants were donated by the local nursery that have pledged to make an annual donation of plants for \$50,000.

ADJOURNMENT: There being no further business, the meeting was adjourned at 11:45 a.m.

THE NEXT MEETING WILL BE HELD ON THURSDAY, NOVEMBER 10th, 2022, 10:30 AM 2151 SALZEDO ST, CORAL GABLES, FL 33134

NEIGHBORHOOD TREE SUCCESSION AND INITIATION PLAN

Prepared for: City of Coral Gables

Prepared By: Curtis + Rogers Design Studio, Inc. and Lisa Hammer, Horticulturist

June 2014

INTRODUCTION

Curtis + Rogers Design Studio, Inc. was retained by The City of Coral Gables Public Works Department to prepare a Neighborhood Tree Succession and Initiation Plan for the residential streets. The goals of the project were as follows:

- 1. Develop a program to ensure the longevity of the urban forest in the residential areas of Coral Gables, by replacing missing canopy
- 2. Promote species diversity within the City
- 3. Evaluate species based on their appropriateness for the area and their past performance
- 4. Identify new tree species for inclusion in tree pallette
- 5. Preserve the historical plant pallette themes

This project was divided into 4 tasks and they are as follows:

Task 1: Tree Inventory and AnalysisTask 2: Tree MappingTask 3: Preparation of the Neighborhood Tree Succession and Initiation PlanTask 4: Presentation to City Commission

This report will summarize the process taken in each task and report the findings during the inventory and analysis portion. It will include maps showing the existing tree and palm locations, the locations of proposed tree and palm locations and an excel spreadsheet (in electronic format) with the information by street address. In addition, the report will include planting details, specifications and a probable order of costs.

TASK I - INVENTORY & ANALYSIS

In Task I, C+R was given the task to inventory and analyze all of the existing trees and palms (approximately 38,000 trees and palms) that are in the single family residential right of ways. C+R was also instructed to look at a particular sampling of the Coconut Palm streets to determine if Coconut Palms were appropriate for those streets.

Figure 2- Sample Excel Spreadsheet

Figure 3- Sample Map

NEIGHBORHOOD TREE SUCCESSION AND INITIATION PLAN

Process

The Curtis + Rogers team divided the city into 5 zones (refer to Figure 1) in order to methodically confirm the locations and species of all trees and palms. The original information was provided by The City of Coral Gables Public Services Department in an excel spreadsheet digital file format (refer to Figure 2 for a sample page). C+R imported the information into GIS and mapped all of the trees and palms (refer to Figure 3 for a sample map). After the maps were created the C+R team began confirming the information. A team of seven C+R professionals walked every street to confirm the location of the trees and the species of the trees. In addition, they were documenting the discrepancies, looking for spaces where trees are missing and capturing the character of the street.

The information provided to C+R included future planting locations. We found that in some cases, that even though there was an open space for a tree, and it would follow the spacing on a particular street, a tree would not do well for numourous reasons such as the canopy of a tree from private property overhanging in the right of way (photo 4), too close to an intersection, not enough space between driveways (photo 5) or there are utilities in the way (photo 6)..

Once all the data was confirmed, C+R began the task of mapping the information. The original spreadsheet was updated to reflect the confirmed data. This information was then brought back into the GIS mapping and new maps were created with the updated information.

Photo 4- over hanging canopy

between driveways

Findings

The City of Coral Gables appears to have a balanced diversity. Few predominant species are found, and continued diversification and balance should be striven for.

Predominant Trees

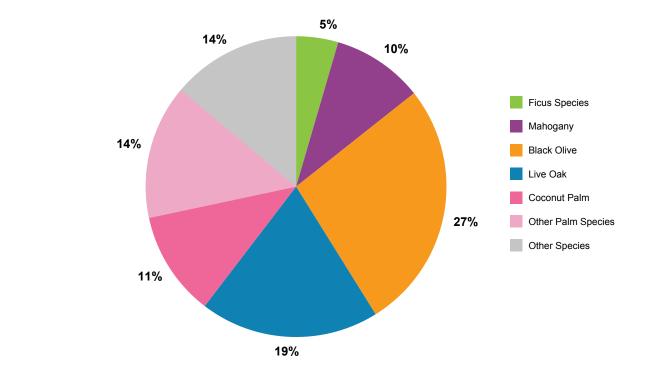

- Black Olive
- Live Oak
- Coconut Palm
- Mahogany

Photo 6- existing utilities

Coral Gables Tree Species

While C+R confirmed the information received, Lisa Hammer, Certified Arborist, was performing a Level 1 Limited Visual Assessment of all trees. This was performed with the objective of identifying obvious defects which pose immediate hazards and significant tree health issues, as seen from the drive-by perspective. Using a motor scooter, the arborist drove down every street in the single-family residential areas, noting any tree that met the above criteria, locating it by address and tree number on the maps provided, and making brief comments in regard to the defects observed. This information was later compiled with the master plan data. Work began in the northwestern quadrant of the city and proceeded toward the south and southeast.

General Conditions

In general, the arborist found most of the street trees to be in good general condition when age, size, and location factors are considered. Many of the City's trees are old and as such, have incurred storm damage, lightning damage, vehicle damage, pest/disease infestations, or other common occurrences under local urban conditions. However, they continue to provide the desired functions of canopy coverage, shade, and the overall environmental benefits of urban trees.

NEIGHBORHOOD TREE SUCCESSION AND INITIATION PLAN

Recommendations

Under a Level 1 assessment, our scope was to identify obvious defects which pose immediate hazards and significant tree health issues, as seen from the drive-by perspective. In cases where trees were no longer performing the desired functions due to the above, and recovery or hazard abatement was not likely, the arborist recommended removal. If there was a chance that defective or unhealthy trees could be remedially treated, she recommended pruning or further evaluation to determine if there might be other options.

Risk Assessment

Many of the damaged trees pose some level of risk due to their potential to fail, limb drop, trunk splitting, breaking, toppling, etc., even though they may have healthy canopies. Should these damaged trees split, break, or topple, people or property could be at risk of injury or damage.

This evaluation was a Level 1 Risk Assessment only and the threshold levels for risk acceptance have not been established by the City. Therefore, the arborist recommended removal only for those trees that she deemed to be at an immediate risk of failure in which the consequences would be severe. For all others of concern, she recommended Further Evaluation, in which case additional risk assessments (Level 2 or 3) could be performed and/or the City can evaluate the tree and determine the level of acceptable risk.

Most Common Tree Problems

Trunk Damage

The most common problem noted on the larger hardwood trees was trunk damage from storms (limb rip-outs and splits) and vehicles (particularly trash pick-up equipment). Mahogany trees and black olive trees seemed to most affected, but some of the live oaks and other species also had damaged trunks. In many cases trunk damage was severe and the trees are at risk of failing, even though they may still have a healthy canopy. For future plantings, you may want to consider eliminating mahogany trees due to their great potential to split, and make sure that black olives and live oaks have acceptable branching structures. If feasible, consider potential alternatives to locating trash piles adjacent to trees.

Lightning Damage

Another common problem noted was lightning damage. Many trees showed signs of past or recent lightning strikes. Those with structural defects were treated as above for those with trunk damage. For those which were in an obvious state of decline, removal was recommended, as recovery would be unlikely. If the stress and damage was moderate, Further Evaluation was recommended, as there could be a chance for recovery.

Coconut Palm Problems

Many of the coconut palms showed stress symptoms due to cold damage in 2009-2010 and rugose spiraling whitefly infestations in the past two years. Both of these stressors have ultimately resulted in nutritional deficiencies. Some palms were so severely stressed that recovery is unlikely, in which case the arborist recommended removal. For those which could potentially recover with remedial fertilization and pest control treatments she

recommended Further Evaluation. The City must make a management decision as to whether remedial treatments are desirable to help save the trees. Otherwise, they could be left as is, in which case they may eventually die, or they could be removed and replaced now as part of the Tree Succession Plan.

In general, she did not note any streets in which the coconut palms were in such poor condition that an entirely new street design was warranted.

Weeping Fig Trees

Some large weeping fig (Ficus benjamina) trees remain, although many have been lost to storms in past years. Those which remain are in variable condition. Some are partially toppled, some have numerous dead branches, and ficus whitefly infestations are recurring and causing significant defoliation. Following these stressors are infections of wood-rotting diseases such as Hypoxylon canker and Kretzschmaria deusta, which will eventually kill the tree. The arborist expects that most all of them will be gone within the next several years. She has recommended removal for any that are diseased, dangerous, or in very poor general condition. For some she has recommended further evaluation. On streets that have only a few weeping figs left, you may want to consider removing them and re-designing.

Lofty Fig Trees

The lofty fig (Ficus altissima) trees are mostly in good condition, but sthe arborist noted a few that are diseased with one or both of the wood-rotting diseases mentioned above on the weeping figs. She recommended removal of the diseased trees. This species is on Miami-Dade County's list of prohibited species, therefore, those which are removed cannot be replaced with the same species. If significant numbers of lofty figs die out in a specific area, some re-design may be needed.

Queen Palms

There are numerous queen palms (Syagrus romanzoffianum) and overtop palms (Syagrus amara) in Gables By The Sea (Bella Vista Avenue and adjacent side streets). These palms are not well-adapted to alkaline soils and as such, many are in very poor condition due to nutritional deficiencies. Again, removal was recommended for many of them which are beyond recovery, and unless a stringent fertilization program is implemented, more can be expected to decline. This might be an area to consider for a new street tree design.

Purple Trumpet Trees

Riviera Court is lined with purple trumpet trees (Tabebuia impetiginosa). These trees are not well-adapted to our soils and many on this street are missing or in poor condition. This is another street to consider for a new street design.

Bottlebrush Trees

Some old bottlebrush trees (Callistemon viminalis) remain. Most are in poor general condition due to damage, stress, or disease (gall disease). The arborist only recommended removal for those in very poor condition, but some consideration should be given to removal of most, if not all, bottlebrush trees in an effort to update current plantings.

Hong Kong Orchid Trees

Some Hong Kong orchid trees (Bauhinia blakeana) trees remain in scattered locations. This species is highly susceptible to trunk and limb breakage and most of the trees are damaged. The arborist only recommended removal of the most severely damaged trees, or those near streets or sidewalks where there are significant "targets". But in general, some consideration might be given to replacing all of these trees with alternative species for greater long-term performance.

Young Live Oaks

There are numerous recent (last several years) plantings of young live oak trees. Most are performing well but some scattered trees show symptoms of stress. In severe cases, the arborist has recommended removal. In moderate cases, she has recommended further evaluation to determine the cause of stress, which might be abated with remedial treatments or prevented in future plantings.

Conclusion

C+R met with the city at various stages during the inventory and analysis process to discuss our progress and our findings. It was evident very early on that this task was greater and would take much longer than originally thought mostly because work started at the beginning of summer and the rainy season. In order to keep the project moving forward we agreed to start working on specifications, looking at costs for the replacements and production of what would become the final deliverables to shorten the schedule at the end of this project.

During these meetings the concern of the whether or not Coconut Palms was an appropriate species was discussed at length. After many meetings and review trips C+R was finally given a criteria in which to assess the palms. The criteria was to look at the percentage of trees that were missing, dead or unhealthy looking at each of Coconut Palm streets. If any of these streets had more than 30% of missing, dead or unhealthy looking palms they should be changed to shade trees. The final plan reflects the proposed species of the streets that met this criteria.

NEIGHBORHOOD TREE SUCCESSION AND INITIATION PLAN

TASK II - MAPPING

Once the analysis was completed C+R began the process of calling out and mapping tree species for the individual streets. This process evolved over time as we received direction from the City Manager and city staff. We began by color coding the different species of the streets that were predominantly one species. During this initial process we began to see that some streets were mixed. Some were mixed with two or three species and some were just completely mixed. After we color coded everything we met with the city to discuss our progress and seek direction on the mixed streets.

The color coding helped us see the distribution of species throughout the entire city. This was useful when determining which species these particular streets should be converted to. During our numerous meetings it was determined that we would look at the streets with two or three species by block instead of as a whole. In doing so we found that many cases the blocks were already one species therefore no decision was required. It was also determined that a few streets were historically completely mixed and should stay that way. It would be left up to the city staff to decide what tree to plant if a tree needed to be replaced at the time of replacement. The color coded plans also included the change from Coconut Palms to street trees.

Once we finalized all of the streets C+R started finalizing the tree master plan so that the plan could be presented to the residents. For purposes of simplification the team divided the entire City into 5 zones as follow:

ZONE 1

From Coral Way (SW 24th St) north to City limits From Red Road (SW 57th Ave) to Douglas Road (SW 37th Ave)

ZONE 2 From Bird Road (SW 40th St) to Coral Way (SW 24th St) From Red Road (SW 57th Ave) to Douglas Road (SW 37th Ave)

ZONE 3 From US1 to Bird Road (SW 40th St) From Red Road (SW 57th Ave) to Le Jeune Road (SW 42h Ave)

ZONE 4 From Sunset Dr (SW 72nd St) to US1 From Red Road (SW 57th Ave) to Le Jeune Road (SW 42h Ave)

ZONE 5 From Sunset Dr (SW 72nd St) south to City Limits

A total of 5 community meetings where held, one meeting per zone (refer to figure 4). Residents were invited to ask questions and/or make comments. The main resident concerns were as follows:

- Coconut Palms not looking good and not providing enough shade
- Black Olive Trees staining sidewalks and there were some complaints of the Black Olive Trees destroying sidewalks
- Crepe Myrtle Trees not providing shade and not flowering
- Queen Palms not doing well in some areas
- When is this project of replacing trees and palms going to begin
- Who will take care of the trees after they are installed

NEIGHBORHOOD TREE SUCCESSION AND INITIATION PLAN

ZONE 1

ZONE 2

ZONE 3

ZONE 5

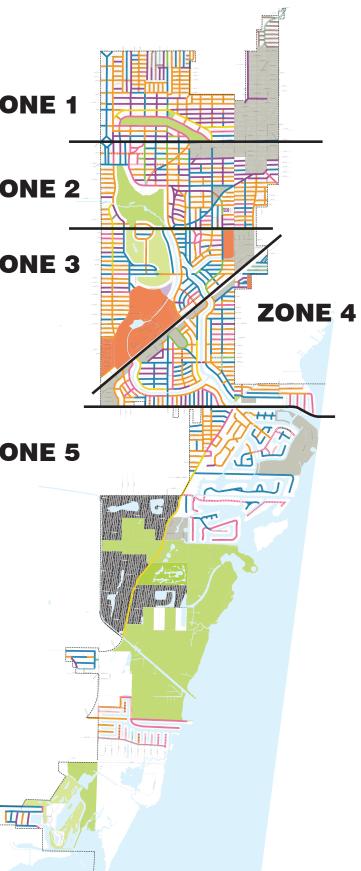

Figure 4- Street tree master plan

TASK III - NEIGHBORHOOD TREE SUCCESSION PLAN

Task III was the creation of the neighborhood tree succession and initiation plan. The tree succession plan is the replacing of currently missing and damaged trees in the city and the initiation plan is the introduction of trees to the newly annexed neighborhoods. The plans produced reflect C+R's following recommendations.

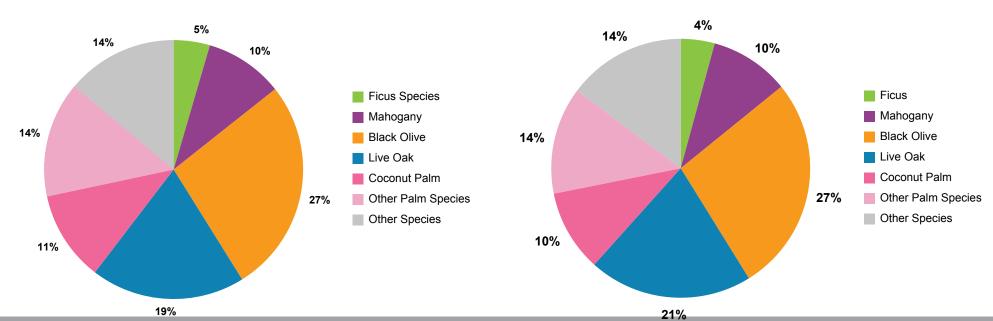

Recommendations:

- The city should continue with the historical thematic street tree planning
- The city should follow the Florida Power and Light's plant the right tree in the right place program
- The city should review the succession plan every five years which may include review of particular species for community preference replacements
- The city should continue to strive for species diversification
- The city should explore and implement a treatment plan for the Black Olive trees in order to minimize staining

In order to increase diversification in the future C+R recommends the addition of the following new species:

Bridalveil - Caesalpinia granadillo Verawood - Bulnesia arborea Wild Tamarind Tree - Lysiloma latisiliqua Yellow Elder- Tecoma stans Glossy Privet- Ligustrum japonicum Simpson Stopper- Myrcianthes fragans Pink Shower Tree - Casia bakeriana White Tabebuia - Tabebuia roseo-alba Purple Tabebuia - Tabebuia ipe Yellow Poinciana - Peltophorum pterocarpum

These plans were completed after the public meetings and include replacement of the Coconut Palms that met the criteria set forth by the city.

CITY OF CORAL GABLES, FLORIDA NOTICE OF PUBLIC HEARING HYBRID MEETING ON ZOOM PLATFORM

City Public Hearing Dates/Times Local Planning Agercy/Planning and Zoning Board Tuesday, November 1, 2022, 6:00 p.m. Location City Commission Chamber, City Hall 405 Biltmore Way, Coral Gables, FL 33134

PUBLIC NOTICE is hereby given that the City of Coral Gables, Florida, Local Planning Agency (LPA)/ Planning and Zoning Board (PZB) will conduct Public Hearing on the following:

- An Ordinance of the City Commission amending the City of Coral Gables Zoning Code, Article 6 "Landscape," Section 6-104 "Landscape Requirements for Public Rights-of-Way: to amend planting height and various other provisions, providing for a repealer provision, severability clause, codification, and providing for an effective date. (*This item was discussed and deferred from the September 14th PZB Meeting.*)
- 2. An Ordinance of the City Commission of Coral Gables, Florida providing for a text amendment to the City of Coral Gables Official Zoning Code by amending Article 2, "Zoning Districts," Section 2-402, "Zain/Friedman Miracle Mile Downtown District Overlay" to promote quality design and amend the property size requirements that require Conditional Use review and approval for properties facing Miracle Mile; providing for severability, repealer, codification, and an effective date.
- 3. An Ordinance of the City Commission of Coral Gables, Florida, providing for text amendments to the City of Coral Gables Official Zoning Code, Article 10, "Parking," Section 10-109, "Payment in Lieu and Remote Off- Street Parking;" to clarify remote parking processes and fee structure; providing for severability, repealer, codification, and for an effective date.
- 4. An Ordinance of the City Commission providing for a text amendment to the City of Coral Gables official Zoning Code by amending Article 14, "Process," Section 14-204.9, "Expiration of Approvals; to eliminate the expiration of Certificates of TDR; providing for severability clause, repealer provision, codification, and providing for an effective date.

Local Planning Agency/Planning And Zoning Board

- 5. An Ordinance of the City Commission of Coral Gables, Florida providing for a text amendment to the City of Coral Gables Official Zoning Code by amending Article 15, "Notices" to include mailed notice to all properties within the applicable mailing distance; providing for severability clause, repealer provision, codification, and providing for an effective date.
- 6. An Ordinance of the City Commission of Coral Gables, Florida providing for a text amendment to the City of Coral Gables Official Zoning Code by amending Article 15, "Notices" to require online publication of historical determination letters and Article 8, "Historic Preservation" revising the process of historical determination letters; providing for severability clause, repealer provision, codification, and providing for an effective date.

The Planning and Zoning Board will be holding its regular board meeting on Tuesday, November 1, 2022, commencing at 6:00 p.m. Pursuant to Resolution No. 2021-118, the City of Coral Gables has returned to traditional in-person meetings. Accordingly, any individual wishing to provide swom testimony shall be present physically in the City Commission Chambers.

However, the City Commission has established the ability for the public to provide comments (non-sworn and without evidentiary value) virtually. Accordingly, only individuals who wishes to provide public comment in this format, may appear and provide those comments via Zoom.

Members of the public may join the meeting via Zoom at (https://zoom.us/j/83788709513). In addition, a dedicated phone line will be available so that any individual who does not wish (or is unable) to use Zoom may listen to and participate in the meeting by dialing: (305) 461-6769 Meeting ID: 837 8870 9513. The public may comment on an item using the City's E-Comment function which may be found on the City's website at: (https://coralgables.granicusideas.com/meetings) once the meeting's agenda is published, or by sending an email to planning@coralgables.com prior to the meeting.

The meeting will also be broadcasted live for members of the public to view on the City's website (<u>www.coralgables.com/cgtv</u>) as well as Channel 77 on Comcast.

Sincerely, City of Coral Gables, Florida 10/21

22-104/0000626933M
