

Eric R. Moore
363 Aragon Ave #511
Coral Gables, Fl. 33134

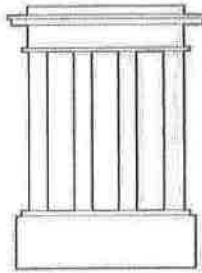

To Whom It May Concern,

I'd be interested in serving on the Green Initiatives Program. I have worked in municipal finance as a fixed-income specialist for six years. I'd like to serve in the capacity of someone interested in historic preservation and as a city resident. I have lived in the City a total of 10 years and I'd like to contribute some of my time and knowledge back.

Dear Coral Gables City Officials:

I am a Coral Gables resident, a licensed landscape architect in Florida and Connecticut, a LEED Accredited Professional, an employee of the Coral Gables office of AECOM Design + Planning, and a graduate of Cornell University with over ten years of landscape architecture and planning experience. As the current Vice-Chair of the Coral Gables Green Task Force, I am writing to express my interest in being reappointed to the Coral Gables Green Task Force.

In addition to being a Coral Gables resident, I also work in Coral Gables and commute via bicycle from my home near the Granada Golf Course to my office in the Douglas Entrance building. As a landscape architect and planner, environmental, social, and economic sustainability are inherent in my daily life and work, and I would welcome the opportunity to continue to use my unique skill set to help make our city greener and more sustainable. I would be honored to be selected to continue to serve on the Green Task Force and serve the city in which I both work and reside.

Please contact me at any time if you would like any additional information. I look forward to hearing from you. Thank you for your continued support.

Sincerely,

Brook Dannemiller

Re: Green Task Force

Dear Mr. Foeman,

I would like to continue serving the City of Coral Gables on the Green Task Force. I have been a resident of the City of Coral Gables since 1968. My architecture firm, Ferguson Glasgow Schuster Soto, Inc. has been in business in the City since the 1950's. I am very interested in serving on the Task Force to assist in developing policy and awareness to achieve a totally Green Coral Gables.

If you need additional information, please do not hesitate to contact me.

Sincerely,

Natividad Soto, AIA, LEED AP BD+C

Re: Coral Gables Green Task Force

To Whom It May Concern:

My name is Hung V. Nguyen, and I am writing to apply for a position on the City's Green Task Force. I know I would be a valuable asset for the Task Force as well as the City for several reasons, including that: 1) I love the City and only want the best for the City and its residents; 2) My legal background, analytical skills, and common sense judgment will help in the Task Force's mission; and 3) I truly believe in green, sustainable technologies and methods, and am philosophically in tune with these ideas (while also being pragmatic in developing optimal solutions).

While I have only been a resident of the City for about a year and a half, I have worked in and admired the City for over a decade. I am proud to own a historically designated house in North Gables and can often be seen riding my bicycle with my fiancé around town. I strongly believe in the City's mission to have a beautiful, verdant town with low crime, minimal congestion, and solutions that make sense for our residents. My vision is to aid the City to become a world leader in terms of green and sustainable urban development and planning while addressing the real needs of our residents.

As an attorney, my time is valuable. I do not submit this application lightly and am committed to working hard if chosen. I am applying for one of the three resident positions on the Task Force and can supply references if needed. I also enclose my resume. Thank you for your consideration.

Respectfully,

Hung V. Nguyen

Hand Delivered to:

Office of the City Clerk, Coral Gables City Hall

Re: Green Task Force, City of Coral Gables

To Whom It May Concern

I hereby submit my name and resume for consideration for the City's new Green Task Force.

Since moving to Coral Gables several years ago I have actively sought to become involved in my community. I have done this in a number of ways and wish to continue. The concept of this new Task Force that is being developed is something of keen interest to me, and a group that I would very much like to be a part of.

I have spent a good deal of my adult life involved in teaching the merits of ecology, sustainability, green concepts and sound environmental practices. This actively started with my children, volunteering in their schools to plant gardens back in the 1980s, serving on the newly formed Village of Pinecrest Landscape Committee and other activities such as conducting Ethnobotany Walking Tours at Fairchild Tropical Botanic Garden.

Most recently, as a Co-Chair of the Villagers' Annual Garden Tour, I focused the event on small yards and public spaces within the City of Coral Gables, highlighting the "Florida Friendly Yards" concept of reducing fertilizer, water and excessive maintenance. In addition to the five residential yards featuring low maintenance landscapes of "do it yourselves" we showcased two municipal properties. Fewell Park was included to illustrate a native habitat. The Edible Community Garden at the Merrick House was also included to demonstrate how to make a residential kitchen garden. People attended in record numbers, eager for knowledge of how to simplify their landscapes and live a more "green" lifestyle.

As Director of the Edible Community Gardens Project at the Merrick House, I show local residents how simple it can be to grow your own herbs, vegetables and fruit and teach what a powerful thing this activity can be personally, for the community and for the planet. I believe that practicing a higher consciousness starts with each of us, in our own back yards.

Having decades of experience in the commercial real estate business as an analyst and appraiser of institutional grade property has also taught me the importance of elevating our consciousness in urban areas as well. I have also had extensive experience in being part of a development team analyzing raw land and shepherding it through DRI and ultimate development and construction. Some critical concerns of mine in this sector include the quality of existing green space and pedestrian zones, current zoning codes and the lack of recycling in office and multi-family structures.

I feel that my background and current endeavors make me an excellent and well rounded candidate for the new Task Force being formed. It would be my honor and privilege to serve in such a capacity. I hope that you will grant me this opportunity.

Respectfully submitted,

Julie A. Petrella Arch

Subject: Coral Gables Green Task Force

Dear Walter,

I was given your name at the Clerk's Office. I was interested in offering my time to help out with your Green Task Force. I currently have the time and desire to assist in this noble endeavor.

I was born in Coral Gables in 1958 and have been continuously living here since 1989. My background is in Architecture (Universidad de Los Andes, Bogota) and Historic Preservation (Columbia University). I have a small consulting practice that focuses on design in historic contexts.

Since the inception of Coral Gables, the foundations of our Garden City have been well cemented. Time may have changed our perception of land and place, but the bones of our City offer some of the best features an urban setting could desire. The possibilities of improving our city's position as a model for environmentally forward applications is quite an exciting opportunity.

I feel strongly that we need to increase our collective consciousness concerning our urban and natural environments. No doubt the task force could be a catalyst. We owe it to future generations to implement the ideas expounded by environmentally progressive among us.

Please let me know if I may be of service.

Respectfully Yours,

Ernesto Fabre
305-586-0172

Coral Gables, FL 33134

Following is a statement of interest in serving on the board:

"It is my belief that I can be of assistance to the board in the development of environmentally sound and sustainable best practices in support of the mission, goals, and objectives of the City of Coral Gables Sustainability Master Plan"

Thank you for your consideration.

Very truly yours,

Thomas A. Natiello

Dr. Thomas A. Natiello is a forensic economist and business consultant. He has attained the rank of Full Professor, and Director of the Institute for Health Administration, Emeritus in the School of Business Administration at the University of Miami, Coral Gables, Florida. He has extensive nationally recognized experience in teaching, research, administrative, and directorship responsibilities, which include involvement with each of the teaching departments found within the School of Business, as well as other, university departments and schools including medicine and law.

He received a Bachelor of Science Degree in Physics, BS; a Master of Business Administration Degree, MBA; and a Doctor of Philosophy Degree in Business Administration, Ph.D., with specialization in Management and Economics, from Michigan State University. During his education, he was elected to Beta Gamma Sigma the National Honorary Society, and received the Scholastic Achievement Award. In addition, he was a Research Associate in the Social Research Program at Michigan State University, and received a Ford Foundation Fellowship for the study of economic and organizational issues within the IBM Corporation.

In addition to his teaching service as a Full Professor at the University of Miami, he founded the Graduate Program in Administrative Studies, the Graduate Program in Management Studies, the Graduate Health Administration Program, and the Institute for Health Administration and Research, serving as Director of each of these organizations. He has also established, coordinated, and directed educational residencies for graduate university students at various hospitals, and health industry organizations in the State of Florida and other national and international locations.

Currently, he serves as a member of the Board of Directors of the SantaFe Health Care System, a not for profit health care and social service organization, that includes within its structure organizations for: the delivery of health care, managed care, third party payment administration; retirement and continuing care retirement communities including independent, assisted, skilled nursing; and hospice organizations. He has also served as a member of the Board of Directors and as Chairman of various committees of the AvMed Health Maintenance Organization.

Dr. Natiello has served as a founding member of the Founding Executive Committee of the Beacon Council of Miami-Dade County, established for the industrial development of South Florida, and has served as Co-Chairman of the Health Care Task Force of that Council. He has also served as Chairman of various civic and professional organizations which include: the State of Florida, Health Care Cost Containment Board, Advisory Committee on Competition in Health Care; the Greater Miami Chamber of Commerce Health Care Committee; and as Chairperson and Committee Member of the Blue Ribbon Study Committee of the City of Coral Gables, receiving a Key to the City of Coral Gables; and as Chairman of the Southwest Greater Miami YMCA Board of Directors.

Dr. Natiello has also served as a founding member, and as Commissioner and Chairman of the Dade County Fair Housing and Employment Commission, the first organization set up in Miami-Dade County to hear and render opinions on cases that involved discrimination in its various forms in housing and employment.

In addition, Dr. Natiello has served as the Director of Research and Evaluation for the Office of Economic Opportunity, Family Health Centers of Liberty City and Brownsville locations in Miami, Florida, and assisted in the development of other clinics in the Miami and Homestead, Florida area. He has served as a consultant to the United States Public Health Service for the design and implementation of health services information systems, and for the development of managed care programs. He has worked extensively with the Miami community for the delivery of health care, and serves as a consultant to business and health organizations of various types.

While serving as Director of the Institute for Health Administration and Research at the University of Miami, Dr. Natiello established international exchanges of research information and programs concerning the study of economics, the cost of health care, the organization of health care delivery systems and health organizations, consumer and health care provider behavior, and telecommunications systems for health care delivery, and established the first graduate university programs in health administration in South Florida at the University of Miami..

Dr. Natiello has also served as a member of the Board of the International Health Council, and as Chairman of the Greater Miami Chamber of Commerce Health Industry

Committee, and has made many presentations before professional, public, and private groups and organizations.

Dr. Natiello has been involved in research activities that have included; the study of the economics, financing, and marketing, of health care and health care institutions; health services organization and research; health services planning; health service utilization and expenditures in hospitals and other health organizations; development of health evaluation indicators; educational programs for health care delivery; marketing of health services; innovative methods for health care delivery; cost benefits analysis for health applications; management and organizational aspects of health care; inpatient, ambulatory care and nursing home care delivery design and evaluation; organization of professionals for health care research and delivery; security of health information systems; the local, state and national trauma systems; health care information systems for national and institutional management and evaluation; communications technology applications for health care delivery; ambulatory mental health care for the aged; health care delivery within prison systems; and business relationships. Additional research activities have included an analysis of the insurance industry and its effect on the tort system and its operation, and the economic analysis and implementation of local, national, and international diagnostic and health delivery systems, which utilize advanced communications technology.

In addition to health industry, Dr. Natiello's other areas of research interest and experience include the application of the disciplines of business administration, including economics, marketing, finance, management, consumer behavior, statistics, and telecommunications, for the analysis of business problems of various types, and the provision of expert opinion within courts of law.

Dr. Natiello's holding of professional offices and membership in professional organizations include: Founder and National Chairperson, Health Care Administration, Professional Division, Academy of Management; Founding Fellow, Academy of Marketing Science; Professional Division, National Policy Committee, and National Coordinator, Health Care Administration Section, Academy of Management; Governor, Southern Management Association; membership and program coordinator for the American Public Health Association; Founding Member Forensic Economic Association; Editor, Health, Journal of Business Research; Consulting Editor, Health Administration, Hollbrook Press, Inc.; Consulting Editor, Inquiry; Editor, Health Care Administration Newsletter, Academy of Management; Editorial Board Member, Health Care Management, MCB University Press; and various other organizations involving telemedicine and tele-health systems.

Dr. Natiello's professional associations include: Academy of Management; Academy of Marketing Science, Founding Fellow Alpha Iota Delta (National Information Systems Honor Society); American Association for Medical Systems and Informatics; American Economic Association; American Institute of Decision Sciences;

American Marketing Association; American Public Health Association; Association for Social Sciences in Health, Beacon Council; Association of Western Hospitals; Community Agenda/Internal Management Policy Group; Beta Gamma Sigma (Business Honorary Society); International Health Council; National Association for Application of Computer Methods to Health Organizations; National Council for International Health; Phi Delta Kappa, Honorary Educational Society; Society for Advanced Medical Systems (fellow); Institute of Decision Sciences; Southern Marketing Association; Southwestern Academy of Management; Southwestern Marketing Association; and the Southwestern Social Science Association.

Recognition and awards received include: Listing in American Men of Science, The Social Behavioral Sciences; Listing in Who's Who in the South and Southwest; Dictionary of International Biography; Personalities of the South; Outstanding Educator of America; recognition and appreciation for assistance in the Department of Health, Education and Welfare, Public Health Service; recognition for Outstanding Service, Southern Management Association; personal Letter of Appreciation for Services on National Health Management Task Force from Assistant Surgeon General, Health Service and Mental Health Administration, Department of Health, Education and Welfare; Personal Letter of Appreciation from Dade County, Florida Manager's Office for excellence in contribution to economic development; Personal Letter of Appreciation from Governor, State of Florida , for contribution to economic development and innovative approaches for the delivery of health care; Certificate of Recognition presented in recognition of outstanding contribution and dedicated service as a participant in the Strategic Planning Project of the Beacon Council, a public/private partnership created to guide Dade's economy into the future; The Beacon Council, Office of the County Manager, Dade County, Florida; and Certificate of Recognition presented for contribution to the Conference Regional Para Las Americas De La Federacion International De Hospitales, 111 Congreso De La Federacion International De Hospitales, Buenos Aires, Argentina. Special recognition has also been received from Metropolitan Miami-Dade County, Florida, from various members of the Congress and, and from the National Highway Traffic and Safety Commission, for Contributions made in the study of national and local trauma systems. Professional services have also been provided as invited speaker before such groups as the Florida Chamber of Commerce, and national, and regional private, professional, governmental and civic organizations.

In addition to academic, research, and professional activities, Dr. Natiello's additional experience includes management experience in the private and public sectors involving the design, development, production, and operation, of advanced telecommunications systems for the delivery of health care services, and in the field of economic consulting and business organization.

Dr. Natiello also provides professional services as an economic and business consultant to individuals, groups, and organizations in the public, private and

governmental sectors, providing business, economic, and forensic economic analysis and information.

Dr. Natiello also served in the U.S. Navy on board the USS McNair (DD679) and the USS Essex (CV, CVA, and CVS9) and is a recipient of the Naval and Marine Corp Expeditionary Medal in the Cuban Campaign. Currently he is a Life Member of the Veterans of Foreign Wars; and is a member of the American Legion.

Dr. Natiello has also worked with The Boeing Corporation as a Senior Manager in the Apollo/Saturn V Moon Mission in the production of Stage One and the Technical Integration of mission contractors.

Dr. Natiello is a founding member of the National Association of Forensic Economics (NAFE), and adheres to their "Statement of Ethical Principals, and Principals of Professional Practice".

Dr. Natiello serves as Chairperson of the South Dade and the Florida Keys Long-Term Care Ombudsman Council of Florida's Long-Term Care Ombudsman Program and is a Certified State of Florida Ombudsman.

Dr. Natiello has provided over forty years of trial testimony and forensic expert witness services. Expert witness services have been provided in matters involving plaintiffs, defendants, and legislative and governmental agencies.

Dr. Natiello's opinions have been accepted, and testimony provided in Federal and State, and Chancellery Courts, Worker's Compensation courts, and in legislative and agency, and arbitration, and mediation hearings. Testimony and opinions have been provided in compliance with state, federal, antitrust, and Jones Act, and other relevant guidelines.

Prior expert witness forensic analysis and testimony experience have included such areas as: marketing and loss of profit analysis; economic analysis of loss and costs associated with medical and legal malpractice outcomes; discrimination; wrongful employment termination; defamation; sexual harassment; economic effects of arrest; antitrust; real estate marketing, commercial transactions and valuation of businesses and loss of sales; divorce evaluations; personal injury and wrongful death; cost and value of life plans and other long term losses of earning capacity and earnings; theatrical contracts and productions, loss of net accumulations and support, loss of pension values resulting from termination or reduction in income, injury, death, or divorce; the development and evaluation of annuity and structured settlements; bankruptcy reorganization; and issues relating to hedonic and whole-time approaches to damages.

Dr. Natiello is widely known for his knowledge of the health care system including, marketing, finance, technology, delivery, and consumer behavior. He has also worked with and developed opinions with other experts in fields such as rehabilitation, accounting, valuation and appraisal, antitrust, collective bargaining, economic and market trends, industrial and service sector management, theatrical production, medicine, and defense, plaintiff, and appellate law. He has also served as a consultant to both plaintiff and defense groups for case strategy development, rebuttal preparation, and case valuation

305.274.3615 fax
jfbarros@endodonticslimited.com

Jose Francisco Barros, DDS, is a local dentist specializing in endodontics. He has practiced in area for 25 years first as a general dentist and now as an endodontist. He joined Tropical Audubon society upon arriving in Miami after completing his dental training in 1987. He joined the Board in 1992 and became president of the board in 2002.

Born in Spain after his parents left Cuba in 1961, the Barros family immigrated to United States and settled in Jacksonville Florida. Joe grew up on the north Florida beaches and along the St Johns River where he learned to appreciate the natural environment that made Florida unique. As a young boy fishing and hiking through the woods he learned the local snakes, fish, and birds. As a boy scout he continued his love and knowledge of the environment hiking and camping in the many forest communities in the area. Joe attended the University of Florida where he continued his studies of the environment and received his Bachelors degree in Zoology. Continuing his education, he then attended Emory University where he received his dental degree. He returned to school obtaining a certificate in the specialty of endodontics from Nova Southeastern University.

Upon graduation, Joe followed his family who had already moved to Miami and began his private dental practice. He followed his love of the environment and joined Tropical Audubon Society where he met great friends within the TAS family and soon joined them on the board.

Over the years Joe has run the Native Plant Sales, lead bird and plant walks and he has represented Tropical Audubon Society at numerous functions. As president, TAS has been instrumental in defeating plans for the airport at the Homestead Air Reserve Base, in the protection of Biscayne Bay, holding the Urban Development line, supporting the Comprehensive Everglades Restoration Plan (CERP)

Joe is also active in his profession serving as president of the West Dade Dental Society in 2007. He is an adjunct professor at the Nova Southeastern University School of dentistry and has taught clinical and didactic courses since completing the endodontic specialty program in 1999. He recently has participated in the international endodontic surgical externships traveling with the endodontic residents to Peru and Columbia. He was recognized by the South Florida District Dental Society in 2002 with the Project Dentist Care Leadership Award. Joe is married to Helen Torres for 21 years. They both enjoy music, traveling and birding together.

Growth is good and at Tropical Audubon we have great growth

SENIOR LEVEL BUSINESS OPERATIONS PROFESSIONAL

PROPERTY MANAGEMENT | RENOVATION, REPAIR & MAINTENANCE | PROJECT MANAGEMENT

- ✓ Seasoned, successful and ambitious **Facilities Maintenance Director** with broad based expertise in the oversight of all aspects of repair, maintenance, and renovation for a portfolio of up to 30 properties.
- ✓ Skilled in exercising independent judgment and initiative to assume a lead role in promoting the goals of the organization while safeguarding the company's reputation as a leader in the industry.
- ✓ A broad command of all practices, tools, materials, and methods associated with the maintenance and repair of buildings and equipment, with a record of excellence leading major renovation projects affecting HVAC, drywall, electrical systems, plumbing, and other core areas.

CORE COMPETENCIES

- Leading Property Improvements and Repair
- Overseeing Maintenance Projects
- P&L Accountability/Budget Management
- Improving Value Through Renovation
- Establishing Collaborative Relationships
- Managing Multiple Properties
- Real Estate Construction Project Management
- HVAC, Electrical, Plumbing, Drywall Expertise
- Structure Deals/Negotiate Agreements
- Retain Customers/Build Loyalty

Technical Proficiencies: MS Office and SalesForce

PROFESSIONAL HISTORY

2008 to Present: Tropic Holdings LLC, Doral, FL – Project Manager

Fulfill a key project management role for this franchisee of Homevestors of America, a leading real estate franchise corporation engaged in the renovation and resale of properties. Exercised decisive business leadership and facilities maintenance expertise to manage a portfolio of up to 30 homes with supervisory authority over personnel management, construction projects, and property management issues. Engaged in the acquisition of sub-contractors, completion of punch lists, negotiation of purchase prices, and other aspects of the business.

- Assume a lead role managing major renovation projects with budgets up to \$250,000, spanning HVAC, walls, electrical, plumbing, and other core areas.
- Significantly improved the market value of properties purchased for under \$500,000, driving the generation of consistent streams of revenue from resale.

2008 to 2009: AMBIUS, Atlanta, GA - Vice President / Branch Manager

Oversaw vision, strategy, and execution for the Atlanta branch for the largest Interior Landscape Company in the world, providing landscaping, plant maintenance and living walls to a diverse roster of key clients in the hospitality, commercial and business industries. Successfully grew revenue by over 6% annually.

- Drove development and implementation of business infrastructure, staffing, performance plans, sales forecasts and marketing strategies to grow revenue to \$3MM in just one year.
- Spearheaded major revitalization efforts to lead this underperforming location to success; evaluated and made sweeping changes in staff mix, marketing and customer service standards to rapidly impact business results.
- Created a new sense of cohesion and accountability among a diverse team of sales, service and administrative professionals; developed coaching, mentoring and training programs to help individuals achieve unprecedented sales and operations success.

David L. Jones

Page 2 | 1245 Algard Avenue ■ Coral Gables, FL 33146
305-726-6180 Cell ■ dljones1245@gmail.com

- Led initiative to develop and launch a standardized quality control program to increase customer satisfaction, retention and loyalty – decreased lost accounts and customer complaints dramatically and improved overall retention by 8%.
- Drove new business development, client relations and sales strategies to deliver solid sales, revenue and profitability performance; simultaneously worked to decrease overhead costs by 5% through cost targeted reduction, expense management and vendor negotiations.
- Personally designed new techniques for servicing plants including sub-irrigation processes to improve lifespan of landscaping.
- Managed a team of 5 direct reports including an Administrative Manager, Warehouse Manager, 2 Concierges, 3 Truck Drivers and 27 Service Technicians.
- Managed all sales forecasts, P&L accountability, budgets and expenses; led redesign of warehouse, receiving and inventory management processes to increase efficiencies, enhance inventory controls and decrease costs.

1990 to 2008: CREATIVE FOLIAGE, Miami, FL – Owner/President

Led operations, business infrastructure, policies, procedures, sales and marketing strategies to drive year over year business growth for this highly successful provider of interior plant maintenance services for major clients across the hospitality, travel and commercial industries. Acquired existing business from Clark J. Jones and grew company to new heights of success.

- Drove all creative development, outreach and sales initiatives to capture lucrative new business opportunities with some of the worlds biggest names in travel and hospitality; increased annual sales revenue by over 5%, year over year.
- Gained reputation for high quality, reliable and cutting-edge interior plant design and maintenance programs in the US – further expanded business reach to international cruise customers.
- Cultivated key business relationships with high level decision makers within the Carnival Cruise Line, Norwegian Cruise Line, Hyatt Hotels and Wyndham Hotels as well as a number of upscale legal firms and corporate businesses.
- Drove outreach, branding and public relations to expand market reach; actively participated in a wide variety of industry events and networking platforms to continuously reach new audiences.
- Hired, trained, developed and led a team of 1 Manager, 1 Sales Representative, 1 Installer and 13 Service Technicians based in Miami and Puerto Rico, hired and contracted additional service providers to support cruise maintenance agreements.
- Maintained 96% customer retention; created a culture of exceptional customer service and reliability.
- Negotiated all contractual agreements, built a strong network of vendors and conducted all sourcing, purchasing and buying activities with a focus on high quality products at a fair price.

DOT JONES PRODUCTS, INC., Coconut Grove, FL – President/Owner

- Instrumental manager in the manufacture, distribution and sales of Dot Jones BBQ sauces; built a substantial presence among grocery retailers, specialty stores and restaurants.
- Overhauled marketing, brand and advertising campaigns to expand market penetration; reengineered ingredient selection and quality standards to deliver a better product.
- Participated in trade shows and industry events to capture the attention of potential clients.

Accredited Claims Adjuster: 5-20 / 6-20 / 3-20

HUMBERTO M. SPEZIANI became Assistant Vice President for Financial Operations in October 2010. Mr. Speziani joined the University in May 1985 as a Senior Accountant for the Budget Office. During Mr. Speziani's 28-plus years with the University of Miami, he progressively held more responsible positions within the Business & Finance division.

- Budget Office, Senior Accountant in May 1985
- Controllers Office, Supervisor, General Accounting & Reporting in March 1987
- Treasurers Office, Manager, Accounts Payable in July 1988
- Treasurers Office, Manager, Student Accounts in October 1990
- Information Technology, Manager, Billing in August 1991
- Information Technology, Manager, Finance in August 1992
- Information Technology, Assistant Director, Administration and Budget Control in February 1996
- Business Services, Assistant Director, Budget and Administration in July 1998
- Business Services, Director, in February 2001
- Business Services, Assistant Vice President, in December 2005
- Business Services, Interim Vice President, in October 2008
- Treasurer Office, Assistant Vice President, Business Services in May 2009
- Finance & Treasury, Assistant Vice President, Financial Operations in October 2010.
- Finance & Treasury, Assistant Vice President & Interim Chief Supply Chain Officer, in February 2013.

Mr. Speziani received his BBA and MBA from the University of Miami. He also completed the Master Certificate Program in Telecommunication Management, the Harvard Management Development Program, and is a certified brown belt in Six Sigma quality management. He is a member of the SACS accreditation leadership team, representing the Business and Finance division.

As Assistant Vice President for Financial Operations, Mr. Speziani provides management direction for all aspects of Purchasing, Risk Management, Environmental Health and Safety, Document Services and Solutions, Copy Centers, Travel, Contract Administration. He also serves as the disaster recovery coordinator for Financial Operations and is the alternate to the University's disaster recovery team leader. He is responsible for planning, directing, and coordinating the operations of the department's internal financial accounting and reporting systems. He provides direction for all fiscal functions, including budget formulation and financial performance reporting for all Financial Operations' units. Mr. Speziani is responsible for the administration of the

Business Services' budget of approximately \$30 million. Financial Operations has 66 University employees.

Mr. Speziani also monitors operations to ensure policies and procedures produce desired results, and supervise the financial condition and/or feasibility of all current and prospective operations and projects; including contractor's performance for compliance to terms of outsourcing agreements. Financial Operations handles the establishment, monitoring, and review of the majority of University business contracts. Mr. Speziani is responsible for insuring the institution for a variety of risks associated with University operations, he works closely with the insurance industry to develop a risk management plan which insures the University for property, casualty and other lines of coverage. Coordinates claims with FEMA, insurance companies and the University as part of the UM/FEMA catastrophe team, which provides pre and post disaster preparedness and has responsibility for the Green U program, which has taken steps to adopt sustainable environmental policies. Mr. Speziani helps maintain the morale and business culture of the department by encouraging collaboration, team work and open communications.

RE: Appointment to Green Task Force
Representing Historic Preservation

Dear Mayor and City Commissioners for the City of Coral Gables, Florida

Please accept this letter as my request to be considered as a candidate for the City's Green Task force. I am applying for the seat held to represent the issues and concerns of historic preservation.

I have lived in Coral Gables for over 50 years and occupy a contributing property within the historic Alcazar District. As an aside, the house is equipped with solar panels and an "on-demand" water heater, both of which greatly save on energy and water consumption. Further, I drive a hybrid automobile which gets 37-40 mpg.

In addition to interests in historic preservation I took the occasion to do volunteer work for the organization, *Citizens for a Better South Florida*, an Environmental/Earth Science Education Provider. This is a group which provides hands-on environmental educational experiences for youth in under-served areas of the county.

Having been involved with historic preservation both in Dade County through the Dade Heritage Trust as a board member and as a board member on the City of Coral Gables Historic Preservation Board for more than 15 years, I believe that I am well qualified to monitor and stand for the historic fabric of the City Beautiful.

Thank you for your consideration.

To Whom It May Concern:

I am writing to express my interest in serving on the City of Coral Gables Green Task Force in the professional planner capacity. I have attached my resume for your review and consideration. As shown, I have extensive experience as a professional planner and am certified by the American Institute of Certified Planners. I am currently employed as a Principal Planner with a focus in Environmental Planning at Miami-Dade County where I have worked on numerous sustainability-related initiatives. I look forward to assisting the City in achieving a more sustainable future.

If additional information is needed, you can reach me by phone at (407) 341-4281 or by email at ksbrown0811@yahoo.com. Thank you for your consideration.

CITY OF CORAL GABLES
RECEIVED BY THE
OFFICE OF THE CITY CLERK
2014 FEB 24 AM 9:29

Dear Mr. Foeman:

This letter is a follow-up on a conversation we had last week about my interest in serving on the City's new Green Task Force. I am interested in the position of "a person interested in historic preservation".

I am currently in the active practice of oral and maxillofacial surgery on Kendall Drive. My curriculum vitae includes having served on the boards of many of my professional organizations. I have served on numerous Boards associated with Oral and Maxillofacial Surgery and Dentistry and have been President of the American Association of Oral and Maxillofacial Surgeons and the Florida Dental Association.

In particular, as it relates for my appropriateness for this Committee, is my interest in historic preservation. I have been a member of the Dade Heritage Trust from 1980 to the present and currently serve on their Board of Trustees. I am also a member of the Miami Design Preservation League, the National Trust for Historic Preservation, The Civil War Trust and the Historic Homeowners Association of Coral Gables. I have served on the Board of Trustees of History Miami from 1998 through 2012 and was Chairman of that Board of Trustees in the years 2008-2010. I also was a member of the Historic Preservation Board of the City of Coral Gables from 2000-2007 and served as the Chairman of that Board from 2002 until 2006.

I am sure Donna Spain will add any needed information relative to my appropriateness for this Green Task Force.

If you have any questions regarding this note, please do not hesitate to contact me.

Yours truly,

A handwritten signature in dark ink, appearing to read "E. I. Parnes". The signature is stylized with a large, sweeping "P" and a distinct "E".

green task force application - Ainsworth

From: John Ainsworth (jainsworth@marcellfelipe.com)

Sent: Wed 1/08/14 10:47 AM

I'll start chronologically. I graduated from Michigan State University in 2005 with two bachelor degrees: Supply Chain Management (which is basically a business-logistics degree) and Spanish. I then worked in the logistics industry for about 1.5 years until I was hired by Mercedes Benz Technology (Mbtch) in Michigan, a subsidiary of Mercedes Benz. At Mbtch I worked in the Consulting and Project Management division. In our group we provided consulting and project management services to Daimler companies (all auto related) and also third party companies that required our expertise. I held the position of Associate for three years.

In 2008 I decided to change careers and scenery to study law at the University of Miami. I came to Miami because of my love for Latin culture and the Spanish language; what better place to hone my Spanish skills and have the potential to use Spanish in my career daily than Miami? My idea was to parlay my business experience, Spanish skills, and legal training to work with Latin American companies and entrepreneurs, which is exactly what I am doing today.

I was admitted to the Florida Bar in September 2012, and since December 2012 I have worked as an Associate Attorney at Marcell Felipe, P.A. We are a boutique law firm in Brickell that focuses in corporate, tax, immigration, and real estate law. I focus mainly on corporate and immigration, so I help Latin American and European investors to create businesses, enter into contracts, defend their rights in court, and ensure that they have the proper employment immigration status to be able to live and work in the United States.

Since August of 2011 I have lived at 130 Oak Ave, Coral Gables 33133. I love the area and I do not see myself moving out of the general Miami area anytime soon. Living in the Coral Gables district has allowed

No. 2031ge P. 3/3

My interest in "green" stems from my interest in health. In my home I eat nothing but organic foods, and I try to eat as little meat as possible. I am also into exercise. These two practices have pushed me into the interest of not only keeping my body clean and healthy, but also keeping the world we live in clean and healthy, because I believe that Earth is simply an extension of our bodies, or rather, that we are an extension of Earth.

I also have real world experience in "green." My last project at MBtech before moving to Miami was at one of the "Big-Three" automakers, in their hybrid development division. This was a project management position where I supported the development of a Federal grant petition to obtain Federal funds to prove and develop their new plug-in hybrid technology on a nation-wide scale. The project involved private sector auto suppliers, university researchers, and local governments. After we submitted the grant petition I moved to Miami to start law school and I was happy to hear that the project was approved and funded beginning in 2010.

Again, thank you for the opportunity to apply for a position on the Green Task Force Committee. I am honored by the chance to apply.
