1 2	spaces or cars from the park when you're		here, or in this garden area here, on top of
1 2 3	spaces or cars from the park when you're looking at the project towards the east.	1 2 3	here, or in this garden area here, on top of the cinema, that is about a little over 40,000
2	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as	2	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The
2 3	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see	2 3	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs
2 3 4	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of	2 3 4	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are
2 3 4 5	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see	2 3 4 5	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel
2 3 4 5 6	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or	2 3 4 5 6	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is
2 3 4 5 6 7	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or	2 3 4 5 6 7	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the
2 3 4 5 6 7 8	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are	2 3 4 5 6 7 8	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space
2 3 4 5 6 7 8 9	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public.	2 3 4 5 6 7 8 9	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and
2 3 4 5 6 7 8 9 10	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing	2 3 4 5 6 7 8 9 10	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this
2 3 4 5 6 7 8 9 10 11	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the	2 3 4 5 6 7 8 9 10 11	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the
2 3 4 5 6 7 8 9 10 11 12	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office	2 3 4 5 6 7 8 9 10 11 12	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this
2 3 4 5 6 7 8 9 10 11 12 13	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the	2 3 4 5 6 7 8 9 10 11 12 13	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the diagram. The office folks will also be able to have
2 3 4 5 6 7 8 9 10 11 12 13 14	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the typical footprint for the residential	2 3 4 5 6 7 8 9 10 11 12 13 14	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the diagram. The office folks will also be able to have access to roof, here in this location on the
2 3 4 5 6 7 8 9 10 11 12 13 14 15	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the typical footprint for the residential buildings, and in orange is the cinema. I	2 3 4 5 6 7 8 9 10 11 12 13 14 15	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the diagram. The office folks will also be able to have access to roof, here in this location on the top of the garage. So these are all the roofs
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the typical footprint for the residential buildings, and in orange is the cinema. I mentioned, it's 32,000 square feet, and it is a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the diagram. The office folks will also be able to have access to roof, here in this location on the top of the garage. So these are all the roofs that are actually covering those parking levels
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the typical footprint for the residential buildings, and in orange is the cinema. I mentioned, it's 32,000 square feet, and it is a VIP cinema and I think best described by some	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the diagram. The office folks will also be able to have access to roof, here in this location on the top of the garage. So these are all the roofs that are actually covering those parking levels that I talked about previously, preventing you
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the typical footprint for the residential buildings, and in orange is the cinema. I mentioned, it's 32,000 square feet, and it is a VIP cinema and I think best described by some of these images that describe the sense that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the diagram. The office folks will also be able to have access to roof, here in this location on the top of the garage. So these are all the roofs that are actually covering those parking levels that I talked about previously, preventing you from seeing any cars from above, if you're in,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the typical footprint for the residential buildings, and in orange is the cinema. I mentioned, it's 32,000 square feet, and it is a VIP cinema and I think best described by some of these images that describe the sense that you're able to It's still a stadium seating.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the diagram. The office folks will also be able to have access to roof, here in this location on the top of the garage. So these are all the roofs that are actually covering those parking levels that I talked about previously, preventing you from seeing any cars from above, if you're in, for instance, the buildings across Ponce.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the typical footprint for the residential buildings, and in orange is the cinema. I mentioned, it's 32,000 square feet, and it is a VIP cinema and I think best described by some of these images that describe the sense that you're able to It's still a stadium seating. You're able to eat at the chairs, you're able	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. So the hotel pool and event space is located here on Level 4, essentially, of the project; residential pool and amenity space here for residential building one; and residential buildings two and three share this larger amenity space located here in the diagram. The office folks will also be able to have access to roof, here in this location on the top of the garage. So these are all the roofs that are actually covering those parking levels that I talked about previously, preventing you from seeing any cars from above, if you're in, for instance, the buildings across Ponce. This is just a blowup of the plaza and
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	spaces or cars from the park when you're looking at the project towards the east. I think it's also important to note, as you're going up in the diagram, you never see parking spaces from the roof, either. All of our parking spaces that top level of parking, whether you're on the north, mid or south parcel, is all covered by extensive or intensive green roofs, two of which are accessible to the public. This is Level 8. It's generally showing the typical layout for the guest rooms for the hotel and the typical footprint for the office building here in blue. It also shows the typical footprint for the residential buildings, and in orange is the cinema. I mentioned, it's 32,000 square feet, and it is a VIP cinema and I think best described by some of these images that describe the sense that you're able to It's still a stadium seating. You're able to eat at the chairs, you're able to order at your chair, and there is also a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	here, or in this garden area here, on top of the cinema, that is about a little over 40,000 square feet of publicly accessible parks. The remaining the remaining parks on the roofs of the project that are accessible are accessible to residents as well as hotel guests. This is just a blowup of the plaza and streets that we're suggesting around the

Page	43

Page 41 Page 41 1 Drive become a one-way, heading southeast, awy from Ponce, and that one-way street is allowing us to get a much greater depth between the historic structure and the edge of curb, and so we're planning that to be a great outdoor space that could provide outdoor dining or just seating amenities, to allow people to hang out the real. as, we changed the, I think, gold color to a green color. That's the only difference in the diagram. This is showing you the fast that we need to provide 20 percent minimum open space of the rould provide outloor dining or just seating amenities, to allow people to hang out the real. 9 And then just today we were meeting with the real. 7 10 Robert Parsley and City Staff. Robert Parsley is grooting soom peer review on our the that structure. 7 11 Index providing soom peer review on our mind, and essentially, it is the heart of our project, so if x yer junportant to us. We've 21 10 That's 21 percent of the site area. 19 mind, and essentially, it is the heart of our project, so if x yer junportant to us. We've 22 11 The residential horse, yer 23 20 24 This is a view – actually, the next – 1 apologize. The next passe over is looking down south. So we're or Palermo, looking south the treating passes that exist throughout the project. 24 Page 42 12 Farge 42 1 private access, if you will, rooftops. 14 This is a view –				
2 from Ponce, and that one-way street is allowing 2 3 us to gat a much greater deph between the 4 4 historic structure and the edge of curb, and so 5 5 we're planning that to be a great outdoor space 6 6 that could provide outdoor dining or just 5 7 scating amenities, to allow people to hang out 7 8 And then just today we were meeting with 7 9 And then just today we were meeting with 7 10 Robert Parsley and City Staff. Robert Parsley 10 11 fandscaping here in this location, to improve 14 12 there verivomment for the public. 14 13 bott approviding some peore review on our landscape 11 14 tandscaping here in this location, to improve 14 15 We're always going to be aware of kind of 16 16 We're always going to be aware of kind of 16 17 the visibility back to the historic 17 18 the visibility back to the historic 17 24 we're always tried to minimize the landscape in this 27		Page 41		Page 43
3 us to get a much greater depth between the historic structure and the edge of curb, and so we're planning that to be a great outdoor space that could provide outdoor dining or just 3 diagram. This is showing four the fact that we need to provide 20 percent minimum open space for the project. We are allowed to count rooftops that are accessible. We have 61,000 square feet of open space shown on the ground floor. 9 And then just today we were meeting with there. 10 That's 21 percent open space of open space shown on the ground floor. 11 Robert Parsley and City Staff. Robert Parsley design, and we were discussing this plaza and some suggestions on providing additional 10 12 some suggestions on providing additional 11 13 mind, and essentially, it is the heart of our project, so it's very important to us. We've an equabecause we wanted to kind of frame it, area, because we wanted to kind of frame it, area, because we wanted to kind of frame it, area, because we manted to kind of frame it, area, because we manted to kind of frame it, apologize. The next paseo over is looking down south. So we're on Patermo, looking south into the reali paseos that exist throughout the project. 11 Page 42 12 This is a tow or of the site. This is Malaga and this is Ponce de Leon, providing areats to access the residential loby here for building one of the residential loby her	1	Drive become a one-way, heading southeast, away		as, we changed the, I think, gold color to a
4 histone structure and the edge of curb, and so - 5 we're planning that to be a great outdoor space for the project. We are allowed to count 7 seating amenities, to allow people to hang out for the project. We are allowed to count 7 seating amenities, to allow people to hang out for the project. We are allowed to count 9 And then this calculation. We have 61,000 square feet for open space shown on the ground floor. 9 And then this is showing the roof plan. So we're providing another 26 percent open space 12 the areal static static structure. for the public. 13 some suggestions on providing additional for the sistonic structure. 14 landscaping here in this location, to improve fait 15 the risibility back to the historic structure. frame the historic structure, create a backdrop frame the historic structure, create a backdrop 24 with this landscape and allow the historic frame the site. This frame the fight greaces. 25 structure to shine as much as possible. frame the fight greaces. frame the fight greaces. 24 This is a view actually, the next1 apologize. The next paseo over is looking down fraw the site. This				
5we're planning that to be a great outdoor space5for the project. We' are allowed to count6that could provide outdoor dining or just6rooftops that are accessible. We haven', in7this calculation. We have 61,000 square feetof open space shown on the ground floor.9And then just today we were meeting with7this calculation. We have 60,000 square feet10Robert Parsley and City Staff. Robert Parsley10That's 12 percent of the site area.11some suggestions on providing additional13swell as the rooftops that are accessible to12the residents, to the office workers, to the16motoftop is 75,000 square feet of open space.13that environment for the public.16This' very critical and has always been on our14that server critical and has always been on our1815That's very critical and has always been on our1916We're always going to be aware of kind of1017trane the historic structure.1718rime the historic structure, create a backdrop2124with this landscape in this2224rea, because we wanted to kind of frame it,2225structure to shine as much as possible.2526structure to shine as much as possible.2527reage dal allow the historic2428the reali pascos the residential loby2129reage dal allow the historic2529reage dal allow the proce-cochere for the<	3			
6 that could provide outdoor dining or just 6 rooftops that are accessible. We have 61,000 square feet 7 seating amenities, to allow people to hang out 7 8 And then just today we were meeting with 7 9 And then just today we were meeting with 7 10 Robert Parsley and City Staff. Robert Parsley 7 11 some suggestions on providing additional 3 12 design, and we were discussing this plaza and 12 13 some suggestions on providing additional 3 14 handscaping here in this location, to improve 14 15 the visibility back to the historic structure. 17 16 We're always going to be aware of kind of 16 17 That's very critical and has always been on our 18 18 first very critical and has always been on our 18 19 mind, and essentially, it is the heart of our 19 10 project, so it's very important tous. We've 21 23 frame the historic structure, create a backdrop 23 24 this is a view actually, the next - 1 apologize. The next paseo over is looking down<		e	1	
7seating amenicies, to allow people to hang out there.7this calculation. We have 61,000 square feet of open space shown on the ground floor.10Robert Parsley and City Staff. Robert Parsley is providing some per review on our landscape design, and we were discussing this plaza and tas some suggestions on providing additional that anakscaping here in this location, to improve that environment for the public.10That's 21 percent of the site area. And then this is showing mother 26 percent open space on rooftops. Those include publicly accessible to a wave so fkind of the visibility back to the historic structure. That's very critical and has always been on our project, so if's very important to us. We've 2110Not be first area. 2121That's very critical and has always been on our project, so if's very important to us. We've 22111123frame the historic structure, create a backdrop structure to shine as much as possible.21access them I'm got a diagram later, but you're accessing them by elevators here and the residential one the residential by its the heart of ur 231124Fage 42Fage 427This is a view actually, the next I apologize. The next paseo over is looking down south. So we're on Palermo, looking south into the project.117This is a blowup of the north sorry, the southwest corner of the site. This is a blowup of the north for building one of the residential. We trail paseos the residential. We to for building one one here and shop during a dividing under statuse, you know, yor fountait the very trail paseos will be projected with the architecture, and we lowe that area	5		1	
a there. of open space shown on the ground floor. 9 And then just today we were meeting with of open space shown on the ground floor. 9 And then this is showing the roof plan. So 11 Robert Parsley and the vere discussing in this plaza and 13 12 design, and we were discussing in this plaza and 13 13 some suggestions on providing additional 13 14 landscaping here in this location, to improve 14 16 We're always going to be aware of kind of 16 17 the visibility back to the historic structure. 17 18 That's very critical and has always been on our 18 19 mind, and essentially, it is the heart of our 19 20 project, so i's very orimotant to N. We'e 20 21 always tried to minimize the landscape in this 21 22 area. the two publicly accessible roofs. You 22 23 frame the historic structure, create a backforp 23 24 This is a view - actually, the next - 1 23 25 structure to shine as much as possible.	6		1	
9 And then just today we were meeting with 9 That's 21 percent of the site area. 10 Robert Parsley and City Staff. Robert Parsley 9 And then this is showing the roof plan. So 11 some suggestions on providing and this landscapping here in this location, to improve 11 And then this is checking another 26 percent open space 12 design, and we were discussing this plaza and 12 and then roof tops. Those include publicly accessible to 13 some suggestions on providing additional 13 as well as the rooftops. Those include publicly accessible to 14 landscaping here in this location, to improve 14 the residential, to its heart of our 16 We're always going to be aware of kind of 15 hotel guests. So our total site area. 17 the visibility back to the historic structure. 17 Activate roofs If it wasn't clear from 18 that last illustrative diagram, the dark green and laways tried to minimize the landscape in this 22 access them Im got a diagram later, but 23 frame the historic structure, create a backrop 24 private access, if you will, rooftops. 24 ther exitight pascos that exist throughout the project. 17 private access, if you will, rooftops.	7	seating amenities, to allow people to hang out		
10 Robert Parsley and City Staff. Robert Parsley 10 And then this is showing the roof plan. So 11 is providing some peer review on our landscape 10 or rooftops. Those include publicly accessible 13 some suggestions on providing additional 13 as well as the rooftops that are accessible to 14 landscaping here in this location, to improve 14 the residents, to the office workers, to the 14 hat are vironment for the public. 16 we're always going to be aware of kind of 17 17 the visibility back to the historic structure. 17 our total to 137,000 square feet and that frings 18 That's very critical and has always been on our 18 It's 47 percent of our total site area. 19 project, so it's very important to us. We've 20 that last illustrative diagram, the dark green 2 area, because we wanted to kind of frame it, 22 area, because we wanted to kind of frame it, 2 frame the historic structure, create a backdrop 23 south. So we're on Palermo, looking south into 2 Fage 42 private access, if you will, rooftops. 1 2 south. So we're on Palermo, looking south into 3 3 <th>8</th> <th>there.</th> <th></th> <th></th>	8	there.		
11is providing some peer review on our landscape11we're providing another 26 percent open space12design, and we were discussing this plaza and13as well as the rooftops that are accessible to13some suggestions on providing additional13as well as the rooftops that are accessible to14landscaping here in this location, to improve14the residents, to the office workers, to the15that environment for the public.15hotel guests. So our total open space on this16We're always going to be aware of kind of16rooftop is 75,000 square feet and that brings17the visibility back to the historic structure.17rooftop is 75,000 square feet of open space.18Tha's very critical and has always been on our19Activated roofs If it wasn't clear from20project, so it's very important to us. We've20are the two publicly accessible roofs. You21always tried to minimize he landscape in this21are the two publicly accessible roofs. You22area, because we wanted to kind of frame it,2222access them I'm got a diagram later, but23frame the historic structure, create a backdrop24brev, and then the light green are those24the retail paseo sthat exist throughout the25rooftops. It mentioned the Art in Public Places25storture to shine as much as possible.25Imminue the landscape in this26This is a view - actually, the next - I30storturent minimum.3apologize. Th		· · ·		*
12design, and we were discussing this plaza and some suggestions on providing additional12on rooftops. Those include publicly accessible as well as the rooftops that are accessible to the residents, to the office workers, to the the rooftop is 75,000 square feet of open space. our total to 137,000 square feet of open space. If the visibility back to the historic structure. If the visibility back to the historic structure. and essentially, it is the heart of our immind, and essentially, it is the heart of our project, so it's very important to us. We've are hecause we wanted to kind of frame it, 22If it wasn't clear from that last illustrative diagram, the dark green access them I'm got a diagram later, but you're accessible roofs. You access them I'm got a diagram later, but you're accessible to ithe site from that last illustrative diagram later, but you're accessible to en essentially24Page 42Fage 42This is just a blowup of the north south. So we're on Palermo, looking south into the real pasco that exist throughout the sproject.1This is just a blowup of the north south. So we're on Palermo, looking from the sidewalk here on Ponce, looking into the pasco, so you to be a view actually looking from the sidewalk here on Ponce, looking into the pasco, so you ts see the two-level retail environment.1	10			And then this is showing the roof plan. So
13 some suggestions on providing additional 13 as well as the rooftops that are accessible to 14 landscaping here in this location, to improve 14 the residents, to the office workers, to the 15 that environment for the public. 15 the visibility back to the historic structure. 16 16 Were always going to be aware of kind of 16 rooftop is 75,000 square feet of open space on this 17 that's very critical and has always been on our 17 It's 47 percent of our total is to 137,000 square feet of open space. 19 mind, and essentially, it is the heart of our 18 Activated roofs If it wasn't clear from 20 project, so it's very important to us. We've 20 access them I'm got a diagram later, but 21 always tried to minimize the landscape in this access them I'm got a diagram later, but 22 area the two publicly accessible roofs. You access them I'm got a diagram later, but 23 storture to shine as much as possible. 25 rooftops that are accessible to essentially 24 with this landscapain the historic 24 1 private access, if you will, rooftops. 25 storture to shine as much asposeover is looking down 3				
14 Iandscaping here in this location, to improve 14 the residents, to the office workers, to the 15 that environment for the public. 15 nortogi so is 25,000 square feet of open space. 16 Were always going to be aware of kind of 16 nortogi so is 55,000 square feet of open space. 18 That's very critical and has always been on our 18 Ifs 47 percent of our total site area. 19 mind, and essentially, it is the heart of our 19 20 project, so it's very important to us. We've 20 21 adways tried to minimize the landscape in this 21 22 area, because we wanted to kind of frame it, 22 23 frame the historic structure, create a backdrop 23 24 with this landscape and allow the historic 23 25 structure to shine as much as possible. 25 26 This is a view actually, the next1 1 2 apologize. The next paseo over is looking south into 3 south. So we're on Palermo, looking south into 3 4 the reatil paseos that exist throughout the 4 5 project. 5	12	design, and we were discussing this plaza and		on rooftops. Those include publicly accessible
15 that environment for the public. 15 hotel guests. So our total open space on this 16 Were always going to be aware of kind of 16 rooftop is 75,000 square feet of open space. 18 That's very critical and has always been on our 19 number of open space. 19 mind, and essentially, it is the heart of our 19 Activated roofs If it wasn't clear from 10 project, so it's very important to us. We've 20 area, because we wanted to kind of frame it, 21 23 frame the historic 24 with this landscape and allow the historic 24 are the two publicly accessible roofs. You 24 with this landscape and allow the historic 24 you're accessing them by elevators here and 25 structure to shine as much as possible. 25 rooftops that are accessible to essentially Page 42 1 This is a view actually, the next I 1 private access, if you will, rooftops. 2 apologize. The next paseo over is looking down 3 south. So we're on Palerno, looking south into 4 the retail paseos that exist throughout the 5 suggesting those might coccur. If you notice, 6 This i	13	some suggestions on providing additional	13	as well as the rooftops that are accessible to
16 We're always going to be aware of kind of 16 rooftop is 75,000 square feet and that brings 17 the visibility back to the historic structure. 17 our total to 137,000 square feet and that brings 18 That's very critical and has always been on our 18 If's 47 percent of our total site area. 19 mind, and essentially, it is the heart of our 18 It's 47 percent of our total site area. 20 project, so it's very important to us. We've 20 that latillustrative diagram, the dark green 21 always tried to minimize the landscape in this 22 are the two publicly accessible roofs. You 22 area, because we wanted to kind of frame it, 22 are the two publicly accessible roofs. You 23 frame the historic structure, create a backdrop 24 here, and then the light green are those 24 with this landscape and allow the historic 25 struture to shine as much as possible. 26 25 structure to shine as much as possible. 27 private access, if you will, rooftops. 28 2 apologize. The next paseo over is looking down 3 project. 3 program and exceeding the current minimum. 4 tertail bestandialop t		landscaping here in this location, to improve	1	the residents, to the office workers, to the
17the visibility back to the historic structure.17our total to 137,000 square feet of open space.18That's very critical and has always been on our18It's 47 percent of our total site area.19mind, and essentially, it is the heart of our19Activated rofs. You20project, so it's very important to us. We've20that last illustrative diagram, the dark green21area, because we wanted to kind of frame it,21are the two publicly accessible roofs. You22area, because we wanted to kind of frame it,22access them Tm got a diagram later, but24with this landscape and allow the historic24here, and then the light green are those25structure to shine as much as possible.25rooftops that are accessible to essentially24This is a view actually, the next I1private access, if you will, rooftops.21This is a view actually, the next I12apologize. The next pasco over is looking down3south. So we're on Palermo, looking south into44the retail pascos that exist throughout the5ruentomed datos on sone of the public art not9arcades to access the residential lobby here7building, as well. City Staff had some great10for building one of the residential. We10pieces, but actually being incorporated into11This is a blowup of the porte-cochere for the16A lot of the pascos will be protected with13acades to access will be protected with1	15	that environment for the public.	1	hotel guests. So our total open space on this
18 That's very critical and has always been on our 18 It's 47 percent of our total site area. 19 mind, and essentially, it is the heart of our 19 Activated roofs If it wasn't clear from 20 project, so it's very important to us. We've 20 This is illustrative diagram, the dark green 21 always tried to minimize the landscape in this are the two publicly accessible roofs. You 23 area, because we wanted to kind of frame it, 22 access them I'm got a diagram later, but 23 frame the historic structure, create a backdrop 23 you're accessing them by elevators here and 24 with this landscape and allow the historic 25 rooftops that are accessible to essentially 25 structure to shine as much as possible. 25 rooftops that are access, if you will, rooftops. 2 apologize. The next pasco over is looking down 3 private access, if you will, rooftops. 3 south. So we're on Palermo, looking south into project. This is just a blowup of the north 6 This is a blowup of the porte-cochere for the 16 for building one of the residential loby here 10 for building one of the residential boby here 19 prices, but actuall	16	We're always going to be aware of kind of	16	rooftop is 75,000 square feet and that brings
19mind, and essentially, it is the heart of our19Activated roofs If it wasn't clear from20project, so it's very important to us. We've20that last illustrative diagram, the dark green21always tried to minimize the landscape in this21are the two publicly accessible roofs. You22area, because we wanted to kind of frame it,23frame the historic structure, create a backdrop24with this landscape and allow the historic24here, and then the light green are those25structure to shine as much as possible.25rooftops that are accessible to essentially24This is a view actually, the next I2private access, if you will, rooftops.2access the residential hose we're on Palermo, looking south into1private access, if you notice,3south. So we're on Palermo, looking south into4Here some general locations where we're5suggesting those might occur. If you notice,that we're suggesting that they occur on6This is just a blowup of the northsorr, states, so cess the residential loby here10for building one of the residential. We1011This is a blowup of the porte-cochere for the1112hotel, and the view the next slide is going13to be a view actually looking from the sidewalk14here on Ponce, looking into the pasco, so you15reads backed vantage of beautiful days like16A lot of the pascos will be protected with17a glass skylight that is	17	the visibility back to the historic structure.	17	our total to 137,000 square feet of open space.
20 project, so it's very important to us. We've 20 that last illustrative diagram, the dark green 21 area, because we wanted to kind of frame it, 21 are the two publicly accessible roofs. You 23 frame the historic structure, create a backdrop 24 with this landscape and allow the historic 23 24 with this landscape and allow the historic 24 24 access them I'm got a diagram, the dark green 24 with this landscape and allow the historic 24 you're accessing them by elevators here and 25 structure to shine as much as possible. 25 Page 42 Page 42 Page 44 1 This is a view actually, the next I 1 1 mentioned the Art in Public Places 3 grouped. project. 1 1 mentioned the Art in Public Places 1 6 This is just a blowup of the north 7 sourt, Bo we're on Palermo, looking south into 3 1 Here some general locations where we're suggesting that they occur on 9 arcades to access the residential lobby here 10 for building one of the residential. We 10 <	18	That's very critical and has always been on our	18	It's 47 percent of our total site area.
21 always tried to minimize the landscape in this 21 are the two publicly accessible roofs. You 22 area, because we wanted to kind of frame it, 23 23 frame the historic structure, create a backdrop 23 24 with this landscape and allow the historic 24 25 structure to shine as much as possible. 25 Page 42 1 This is a view actually, the next I 2 apologize. The next paseo over is looking down 3 south. So we're on Palermo, looking south into 4 the retail paseos that exist throughout the 1 5 project. 7 6 This is just a blowup of the north 5 7 sorry, the southwest corner of the site. This 8 8 is Malaga and this is Ponce de Leon, providing 9 9 arcades to access the residential loby here 9 10 for building one of the residential. We 10 11 This is a blowup of the porte-cochere for the 11 12 hotel, and the view the next slide is going 12 13 to be a view actually looking from the si	19	mind, and essentially, it is the heart of our	1	Activated roofs If it wasn't clear from
22area, because we wanted to kind of frame it,22access them I'm got a diagram later, but23frame the historic structure, create a backdrop2324with this landscape and allow the historic24here, and then the light green are those25structure to shine as much as possible.25rooftops that are accessible to essentially24Page 42Page 42Page 441This is a view actually, the next I1Imentioned the Art in Public Places2apologize. The next paseo over is looking down3program and exceeding the current minimum.4the retail paseos that exist throughout the5project.6This is just a blowup of the north5suggesting those might occur. If you notice,7sorty, the southwest corner of the site. This7buildings, as well. City Staff had some great8is Malaga and this is Ponce de Leon, providing9just being about statues, you know, or fountain9arcades to access the residential. We10pieces, but actually being incorporated into11This is a blowup of the porte-cochere for the11there and the viewthe next side is going13to be a view actually looking from the sidewalk1314here on Ponce, looking into the paseo, so you1415Just some examples of what that might be,16A lot of the paseos will be protected with17a glass skylight that is operable, so that17a glass skylight that is operable, so that </th <th>20</th> <th>project, so it's very important to us. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the	2 3 4 5 6 7 8 9 10 11 12	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I
2 3 4 5 6 7 8 9 10 11 12 13	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well	2 3 4 5 6 7 8 9 10 11 12 13	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan
2 3 4 5 6 7 8 9 10 11 12 13 14	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they	2 3 4 5 6 7 8 9 10 11 12 13 14	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're
2 3 4 5 6 7 8 9 10 11 12 13 14 15	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street. Mario can speak more about the alley	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop. That loop that it suggested is basically
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street. Mario can speak more about the alley vacation. We presented to the DRC, last week	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop. That loop that it suggested is basically four-sided, fairly simple. We're suggesting a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street. Mario can speak more about the alley vacation. We presented to the DRC, last week or the prior week, the idea behind the alley	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop. That loop that it suggested is basically four-sided, fairly simple. We're suggesting a small deviation to allow it to come down to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street. Mario can speak more about the alley vacation. We presented to the DRC, last week or the prior week, the idea behind the alley vacation in order to maintain access for the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop. That loop that it suggested is basically four-sided, fairly simple. We're suggesting a small deviation to allow it to come down to Sevilla and attach to our site, if you will.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street. Mario can speak more about the alley vacation. We presented to the DRC, last week or the prior week, the idea behind the alley vacation in order to maintain access for the private residence. We're doing that with	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop. That loop that it suggested is basically four-sided, fairly simple. We're suggesting a small deviation to allow it to come down to Sevilla and attach to our site, if you will. The red loop, as you all know, is the existing
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street. Mario can speak more about the alley vacation. We presented to the DRC, last week or the prior week, the idea behind the alley vacation in order to maintain access for the private residence. We're doing that with This is Page 69 of your book. We're doing that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop. That loop that it suggested is basically four-sided, fairly simple. We're suggesting a small deviation to allow it to come down to Sevilla and attach to our site, if you will. The red loop, as you all know, is the existing trolley line, that exists today.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 9 20 21 22	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street. Mario can speak more about the alley vacation. We presented to the DRC, last week or the prior week, the idea behind the alley vacation in order to maintain access for the private residence. We're doing that with This is Page 69 of your book. We're doing that with a public access easement, shown in the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop. That loop that it suggested is basically four-sided, fairly simple. We're suggesting a small deviation to allow it to come down to Sevilla and attach to our site, if you will. The red loop, as you all know, is the existing trolley line, that exists today. Along with the LEED-ND certification, we
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 9 20 21 22 23	we're actually exhausting and providing fresh air to the below-grade parking areas. The fresh air for those two garage levels below-grade are shown in the blue arrow. This is Page 65 of your set. And the red is air exhaust coming out of those areas. We tried to use the ramps as much as possible to do that, to avoid grilles that can sometimes be unsightly, and any grilles we do have are designed to happen along the alley, which is on the south and east sides of the project, and they're up at a third level, so people in the town homes won't be aware of them, as well as they won't impact the town homes and they won't impact anyone down on the street. Mario can speak more about the alley vacation. We presented to the DRC, last week or the prior week, the idea behind the alley vacation in order to maintain access for the private residence. We're doing that with This is Page 69 of your book. We're doing that with a public access easement, shown in the light green, as well as the alley vacation	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	there, and we've also suggested in the draft developer's agreement two options for enhancing the existing trolley system. That's shown on Page 85 of your book, and Option A is modifying the existing hours. That's shown on Page 85 of your book, and Option A is modifying the existing hours. I believe the existing hours are from 6:30 to 8:00, weekdays, and Option A proposes that we extend those hours to 10:00 p.m. And Option B is a completely different idea, that would suggest sorry for the light tones, but this light blue area is our proposal as Option B, for a second route, that was, I think, actually also proposed in a Master Plan that was done recently for the City. And we're suggesting a site adjustment to that loop. That loop that it suggested is basically four-sided, fairly simple. We're suggesting a small deviation to allow it to come down to Sevilla and attach to our site, if you will. The red loop, as you all know, is the existing trolley line, that exists today. Along with the LEED-ND certification, we

Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes
2 3 4 5 6 7 8 9	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is	2 3 4 5 6 7 8 9	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few
2 3 4 5 6 7 8 9 10	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop	2 3 4 5 6 7 8 9 10	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so
2 3 4 5 6 7 8 9 10 11	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the	2 3 4 5 6 7 8 9 10 11	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks
2 3 4 5 6 7 8 9 10 11 12	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with	2 3 4 5 6 7 8 9 10 11 12	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive
2 3 4 5 6 7 8 9 10 11 12 13 14	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it.	2 3 4 5 6 7 8 9 10 11 12 13 14	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive in our modal split, and that was with
2 3 4 5 6 7 8 9 10 11 12 13	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not	2 3 4 5 6 7 8 9 10 11 12 13	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive in our modal split, and that was with coordination with the City and their Staff.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not appropriate, given the spacing and the nature	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. We weren't very aggressive in our modal split, and that was with coordination with the City and their Staff. The traffic study only assumed a six percent
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not appropriate, given the spacing and the nature of that street. One potential idea was,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive in our modal split, and that was with coordination with the City and their Staff. The traffic study only assumed a six percent multi-modal split. So that would generate more
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not appropriate, given the spacing and the nature of that street. One potential idea was, there's a in the site plan, there's a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive in our modal split, and that was with coordination with the City and their Staff. The traffic study only assumed a six percent multi-modal split. So that would generate more vehicles than we would typically assume for an
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not appropriate, given the spacing and the nature of that street. One potential idea was, there's a in the site plan, there's a roundabout feature just to the west of it, that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive in our modal split, and that was with coordination with the City and their Staff. The traffic study only assumed a six percent multi-modal split. So that would generate more vehicles than we would typically assume for an area this urban, so that gave us a conservative
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not appropriate, given the spacing and the nature of that street. One potential idea was, there's a in the site plan, there's a roundabout feature just to the west of it, that kind of helps dropoff and valet operations.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive in our modal split, and that was with coordination with the City and their Staff. The traffic study only assumed a six percent multi-modal split. So that would generate more vehicles than we would typically assume for an area this urban, so that gave us a conservative analysis relative to the number of vehicles
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not appropriate, given the spacing and the nature of that street. One potential idea was, there's a in the site plan, there's a roundabout feature just to the west of it, that kind of helps dropoff and valet operations. One potential mitigation would be to move that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive in our modal split, and that was with coordination with the City and their Staff. The traffic study only assumed a six percent multi-modal split. So that would generate more vehicles than we would typically assume for an area this urban, so that gave us a conservative analysis relative to the number of vehicles this project would generate.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not appropriate, given the spacing and the nature of that street. One potential idea was, there's a in the site plan, there's a roundabout feature just to the west of it, that kind of helps dropoff and valet operations. One potential mitigation would be to move that or elongate that roundabout, so it can actually	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. We weren't very aggressive in our modal split, and that was with coordination with the City and their Staff. The traffic study only assumed a six percent multi-modal split. So that would generate more vehicles than we would typically assume for an area this urban, so that gave us a conservative analysis relative to the number of vehicles this project would generate. So, I don't know, did you want to answer
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	them, if the County permits us to do so. As I mentioned, all the other intersections, highlighted in green, met the acceptable levels of service. The one intersection internally that you can see yellow is right here, and that's internal parking garage entrance, right off Palermo, and that intersection initially in the study is just one-way stop control, so when you come out of the garage, you stop, and traffic on Palermo is free-flowing. The stop control, the stop approach, operates poorly, and that's the intersection that we'll continue to work with Staff on, and the best way to handle it. Signalizing the intersection is really not appropriate, given the spacing and the nature of that street. One potential idea was, there's a in the site plan, there's a roundabout feature just to the west of it, that kind of helps dropoff and valet operations. One potential mitigation would be to move that or elongate that roundabout, so it can actually serve the access point, so almost creating a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	meet the acceptable levels of service for the peak hours. Let me see if I missed anything. They covered a lot of the other multi-modal facets of the project, you know, the bike lockers, the bike parking, the trolley enhancements, things like that, so I won't be redundant. The site serves not only is it served by the trolley, but there are four Miami-Dade Transit routes that are within walking distance, within a few blocks, between either Douglas or LeJeune, so it's perfectly reasonable for, you know, folks to be using that. But that goes through it's got an extensive set of data that's been calculated at cinemas throughout the country, at retail facilities throughout the country, office uses throughout the country, et cetera, et cetera, where they've actually gone out and collected data to determine how that parking demands fluctuates throughout the day, and so you'll see, in the
8 9 10 11 12 13 14 15 16 17 18 19 20 21	will then start to see their demand, which is very low during the day a restaurant, you know, will have a peak during the lunchtime period, but that will start to rise in the evening hours, when the office uses are not occupied or not generating demand. Another way of thinking about this is, for example, in the City of Miami, those of you who have ever gone down to a Heat game, you may have parked in an office parking garage there, and if the Heat game starts at 7:30 at night, there's somebody out there at a nearby office garage who's saying, "Park here for \$20," because the whole garage is empty, and that's the concept of shared parking, that if it's	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	though, is, we started off with the Code requirements for each of these uses, but then we went to what's recognized as the nationwide standard, which is a book that's published by the Urban Land Institute, and the name of it is Shared Parking. Right now they're on the second edition of that publication. But that goes through it's got an extensive set of data that's been calculated at cinemas throughout the country, at retail facilities throughout the country, office uses throughout the country, et cetera, et cetera, where they've actually gone out and collected data to determine how that parking demands fluctuates throughout the day, and so you'll see, in the off hours, the office use at midnight will
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	will then start to see their demand, which is very low during the day a restaurant, you know, will have a peak during the lunchtime period, but that will start to rise in the evening hours, when the office uses are not occupied or not generating demand. Another way of thinking about this is, for example, in the City of Miami, those of you who have ever gone down to a Heat game, you may have parked in an office parking garage there, and if the Heat game starts at 7:30 at night, there's somebody out there at a nearby office garage who's saying, "Park here for \$20," because the whole garage is empty, and that's the concept of shared parking, that if it's full during the day, as the office workers are	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	though, is, we started off with the Code requirements for each of these uses, but then we went to what's recognized as the nationwide standard, which is a book that's published by the Urban Land Institute, and the name of it is Shared Parking. Right now they're on the second edition of that publication. But that goes through it's got an extensive set of data that's been calculated at cinemas throughout the country, at retail facilities throughout the country, office uses throughout the country, et cetera, et cetera, where they've actually gone out and collected data to determine how that parking demands fluctuates throughout the day, and so you'll see, in the off hours, the office use at midnight will generate zero parking demand, but then at ten
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	will then start to see their demand, which is very low during the day a restaurant, you know, will have a peak during the lunchtime period, but that will start to rise in the evening hours, when the office uses are not occupied or not generating demand. Another way of thinking about this is, for example, in the City of Miami, those of you who have ever gone down to a Heat game, you may have parked in an office parking garage there, and if the Heat game starts at 7:30 at night, there's somebody out there at a nearby office garage who's saying, "Park here for \$20," because the whole garage is empty, and that's the concept of shared parking, that if it's full during the day, as the office workers are all there, they leave during the day, but then	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	though, is, we started off with the Code requirements for each of these uses, but then we went to what's recognized as the nationwide standard, which is a book that's published by the Urban Land Institute, and the name of it is Shared Parking. Right now they're on the second edition of that publication. But that goes through it's got an extensive set of data that's been calculated at cinemas throughout the country, at retail facilities throughout the country, office uses throughout the country, et cetera, et cetera, where they've actually gone out and collected data to determine how that parking demands fluctuates throughout the day, and so you'll see, in the off hours, the office use at midnight will generate zero parking demand, but then at ten o'clock in the morning, eleven o'clock in the
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	will then start to see their demand, which is very low during the day a restaurant, you know, will have a peak during the lunchtime period, but that will start to rise in the evening hours, when the office uses are not occupied or not generating demand. Another way of thinking about this is, for example, in the City of Miami, those of you who have ever gone down to a Heat game, you may have parked in an office parking garage there, and if the Heat game starts at 7:30 at night, there's somebody out there at a nearby office garage who's saying, "Park here for \$20," because the whole garage is empty, and that's the concept of shared parking, that if it's full during the day, as the office workers are	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	though, is, we started off with the Code requirements for each of these uses, but then we went to what's recognized as the nationwide standard, which is a book that's published by the Urban Land Institute, and the name of it is Shared Parking. Right now they're on the second edition of that publication. But that goes through it's got an extensive set of data that's been calculated at cinemas throughout the country, at retail facilities throughout the country, office uses throughout the country, et cetera, et cetera, where they've actually gone out and collected data to determine how that parking demands fluctuates throughout the day, and so you'll see, in the off hours, the office use at midnight will generate zero parking demand, but then at ten

Page	67

1day.1layered on top of that.2So we applied the factors that areAgain, because these uss. Buctuate over3published by the Urban L and Institute to your34own City Cole requirement, would be 2,809 spaces, and5that, we did add a modal adjustment, consistent6with the traffic analysis, to account for the7fact that given the context here, there are a8number of trips that are going to be able to be9coming to and from the site, using the trolley,10via pedestrian, bicycle using bicycles, et11factor that was adde on top of the analysis.13This graph then shows the application of14the actual - of the patking variation based on15ULI standards. So, starting off at the bottom,16again, that dark blue is representing the17retail and how that sort of grows into its patk20in the morning, because typically the cinemas21down top of that, we layer other22grow around midday, and then its peak is in the23evening, Because typically the cinemas24clearly shows a lunchtime peak and thea25the custulity effect of all of those uses26uses, until the top blue line is the hotel use,27apreeing towns' alunchtime peak and thea28shows that for that set of uses, the peak29The consignet is the site and thea20in the consignet is the hotel use,3shows that for that set of use		rage 03		rage 07
3published by the Urban Land Institute to your own City Code requirements, and then on top of that, we did add a modal adjustment, consistent that we showed that shared parking, the shared parking requirement, would be 2,869 spaces, and then on top of that we added a modal reduction that use added a nodal reduction that the traffic analysis, to account for the spaces on top of what we added a modal reduction that use added on top of the analysis, application of retail and how that sus on additional fact that was also an additional fact that was the application of retail and how that sort of grows into its peak for evaning the late morning and through the sprivate development 1 mits City, we are also agree for evening hours. The cinema use is nothing for evening hours. The cinema statis in the for evening hours.		day.		
4 fown City Code requirements, and then of top of that, we did add a modal adjustment, consistent for that use did add a modal adjustment, consistent for that that analysis, to account for the fact that given the context here, there are a number of trips that are going to be able to be coming to and from the site, using the trolley, variation for the start are going to be able to be is coming to and from the site, using the trolley, variation for the start are going to be analysis. that we showed that shared parking requirement, would be 2,869 spaces, and then on top of that we added a modal reduction that took it down to the 2,653 spaces that's shows that pathet shows the application of the analysis. 11 cetera, and so that that was also an additional factor that was added on top of the analysis. is 2,691. So we are providing a few extra 12 requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be 2,869 spaces, and the shared parking requirement, would be applicated to the shared parking requirement, would be applicated parking requirement, would		So we applied the factors that are	2	Again, because these uses fluctuate over
5that, we did ad a modal adjustment, consistent5parking requirement, would be 2,869 spaces, and7fact that given the context here, there are a7that took it down to the 2,653 spaces, and8number of trips that are going to be able to be7that took it down to the 2,653 spaces, that's9shown in the final documents. Again, there's a810via pedestrian, bicycle using bicycles, et101011cetera, and so that that was also an additional11spaces on top of what we showed the minimum12factor that was added on top of the analysis.12requirement would be, based on the shared13This graph then shows the application of1311thack over to Mario now.14that extual of the parking variation based on1311thack over to Mario now.15ULL standards. So, starting off at the botton,1611thack over to Mario now.16again, that dux blue is representing the1616that what we are proxiling to do are not just17retail and how that sort of grows into its peak17reing regering to memorialize all the commutiment agreement with the City. This development20in the morning, because typically the cinemas10provises that we are making is a development21grow around midday, and then its peak is in the22grow around midday. You see it start to22grow around midday, and then its peak is in the24factor that was ado an adoff the23evening beak. On top of that, an	3	published by the Urban Land Institute to your	3	the course of the day, the ultimate result was
6with the traffic analysis, to account for the fact that given the context here, there are a number of trips that are going to be able to be coming to and from the site, using the trolley, via pedestrian, bicycle - using bicycles, et factor that was added on top of the analysis.in the final documents. Again, there's a surplus of supply that is being provided, which is 26-91. So we are providing a few extra spaces on top of what we showed the minimum requirement would be, based on the shared parking analysis.12factor that was added on top of the analysis.1213This graph then shows the application of the actual of the parking variation based on again, that dark blue is representing the again, that dark blue is representing the early evening hours. The cinema use is nothing 211114the morning, because tyrically the cinemas early shows a lunchtime peak and then a later evening neak. On top of that, well have or top evening peak. On top of that, well aver othat shows that for that sc of uses, the peak occurs in the early verning hours, 7:00, 8:00, 9:00 p.m., and that's consistent, if you start to thok of your reall, restaurants, et to think of your reall, restaurants, et to certer, that that's going to be a peak for thos types of uses.113represents the office use, and you see that that use is up and i started to tail off at that use is up and i started to all offar that use is up and i started to tail offar that the office use, and you see that that the different peaks, the retail, read, grows from nothing at 6:00 a.m., up to that use is up and i started to any the first such as the different that that at and thow the the that that at a different that use is up and i started to tail offar that use is up	4	own City Code requirements, and then on top of	1	that we showed that shared parking, the shared
7fact that given the context here, there are a number of trips that are going to be able to be coming to and from the site, using the trolley, via pedestrian, bicycle using bicycles, et actual of the parking variation based on the added on top of the analysis.that took it down to the 2,653 spaces that's shown in the final documents. Again, there's a shown in the show the avaing is added on top of the analysis.13This graph then shows the application of again, that dark blue is representing the early evening hours. The cirema use is nothing a ory open until midday. You see it start to 27 evening nours. The cirema use is nothing 28 evening. Restaurant on top of that, and that clearly shows a lunchtime peak and then alter 29 evening peak. On top of that, we layer other10 provided, the quality of office space that's going to be provided, but also public benefits, souch and that set of uses, the peak occurs in the early evening hours, 7:00, 8:00, 9:000 µm, and that's consistent, if you start to think of your retail, restaurants, et to think of your cretail, estaurant, et certa way ono the actinal so they the to	5	that, we did add a modal adjustment, consistent	5	parking requirement, would be 2,869 spaces, and
8 number of trips that are going to be able to be coming to and from the site, using the trolley, via pedestrian, bicycles, et 11 shown in the final documents. Again, there's a surplus of supply that is being provided, which is spaces on top of what we showed the minimum represent that was also an additional factor that was added on top of the analysis. spaces on top of what we showed the minimum represent the hotten use, additional during the late morning and through the early evening hours. The cinema use is nothing in the morning. Because typically the cinemas don't open until midday. You see it start to evening neak. On top of that, we havelopment agreement, which is one of the items that evening. Restaurant on top of that, and that evening neak. On top of that, we lavelopment agreement, which is one of the items that evening neak. On top of that, we laver other 2 Page 66 1 uses, until the top blue line is the hottel use, shows that for that set of uses, the peak do occurs in the early evening hours, 7:00, 8:00, 9:00 µm, and that's consistent, if you start to think of your retail, restaurants, et to think of your retail, restaurants, et to think of your retail, restaurants, et that time of the day. So the office use, and the cumulative effect of all of the subset shows that for that set of uses, the peak for the day going to be apeak for that that use is up and it started to tail off at that use is up and it started to tail off the project which honors this grazet City's past, that time of the day. So the office use, for the use of evening of all fits, that as the different shifts the whole curve in terms of when the shifts the whole curve in terms of when the shave affreent peaks, and there and are included in the package. 9 The orange part of the curve, however; really driven by the off	6	with the traffic analysis, to account for the	6	then on top of that we added a modal reduction
9coming to and from the site, using the trolley, via pedestrian, bicycle using bicycles, et cetera, and so that that was also an additional factor that was added on top of the analysis.9surplus of supply that is being provided, which is 2,691. So we are providing a few extra spaces on top of what we showed the minimum requirement would be, based on the shared parking analysis.13This graph then shows the application of again, that dark blue is representing the eraty evening hours. The cinema use is nothin 20111121don't open until midday, and then its peak is in the cle evening beak. On top of that, and that 22111123evening hours. The cinema use is nothin 2424agreement, which is one of the items that 2025evening hours. The cinema 2520provided, bur also public benefits, 326uses, until the top blue line is the hotel use, and the cumulative effect of all of those uses 32027provided, bur also public and and attared to think of your retail, restaurants, et to think of wole curve in outing a 6(s00 a.m., up to 161126The orange part of the curve, however, represents the office use, and you see that that ture of the day. So the office use, and preased, grows from nothing a 6(s00 a.m., up to the parking and algentance are inspired by the vision of Merrick and the subacy and themat the provided, which it is a projocit's that that use is up and it stared to tail off at the provided, which it is a provided, bur also public benefits, such as that bur that s	7	fact that given the context here, there are a	7	that took it down to the 2,653 spaces that's
10via pedestrian, bicycle using bicycles, et cetera, and so that that was also an additional factor that was added on top of the analysis.10is $2,691$. So we are providing a few extra spaces on top of what we showed the minimum requirement would be, based on the shared parking analysis.13This graph then shows the application of the actual of the parking variation based on ULI standards. So, starting off at the bottom, again, that dark blue is representing the early evening hours. The cinema use is nothing in the morning, because typically the cinemas 21 don't open until midday. You see it start to evening. Restaurant on top of that, and that early evening hours. The cinema use is nothing arrous mithe early evening hours. The cinema use is nothing 	8	number of trips that are going to be able to be	8	shown in the final documents. Again, there's a
11cetera, and so that that was also an additional factor that was added on top of the analysis.11spaces on top of what we showed the minimum requirement would be based on the shared parking analysis.12This graph then shows the application of again, that dark blue is representing the adain, that dark blue is representing the retail and how that sort of grows into its peak d damad during the late morning and through the line morning, because typically the cinemas grow around midday, and then its peak is in the 22 grow around midday, and then its peak is in the 2311spaces on top of what we showed the minimum requirement would be based on the shared parking analysis.20in the morning, because typically the cinemas don't open until midday. You set is start to corus in the top blue line is the hotel use, and the cumulative effect of all of those uses 3 shows that for that set of uses, the peak coccurs in the early evening hours, 7:00, 8:00, 9:00 µm, and that's consistent, if you start to think of your retail, restaurants, et to think of your retail, restaurants, et to think of your retail, restaurants, et to think of your retail, restaurants, et in the sat grows from nothing at 6:00 µm, yot line stad grows from nothing at 6:00 µm, yot line the started to tail off at line peak occurs in the late evening. Office demand. line shaw different peaks, the retail, restaurant, et cetra west end to have their so, again, you can kind of see by the line shaw different peaks, the retail, restaurant, et cetra was the different line shaw the late evening. Office does an on have as high a peak at that time of the 24 day. So th	9	coming to and from the site, using the trolley,	9	surplus of supply that is being provided, which
12 factor that was added on top of the analysis. 12 requirement would be, based on the shared parking analysis. 13 This graph then shows the application of the parking variation based on the start of again, that dark blue is representing the again, that dark blue is representing the the morning, because typically the cinemas adon't open until midday. You see it start to agreeing to memorialize all the commitments and promises. Unique in the history of private development this City. This development agreement with the City. This d	10	via pedestrian, bicycle using bicycles, et	10	is 2,691. So we are providing a few extra
13 This graph then shows the application of the actual - of the parking variation based on UL standards. So, starting off at the bottom again, that dark blue is representing the retail and how that sort of grows into its peak demand during the late morning and through the early evening hours. The cinema use is nothing in the morning, because typically the cinemas do open until midday. You see it start to grow around midday, and then its peak is in the evening. Restaurant on top of that, and that 22 clearly shows a lunchtime peak and then a later evening peak. On top of that, and that 23 Page 66 Page 66 1 uses, until the top blue line is the hotel use, and that set of uses, the peak occurs in the early evening hours. 7/00, 8:00, 5 1 provided, the quality of office space that's going to be 2 wese, until the top blue line is the hotel use, and that's consistent, if you start to think of your retail, restaurants, et ectera, that that's going to be a peak for those types of uses. 1 provided, the quality of office space that's and on what terms, public art and at what cost and in what locations, and so again, we are willing to put in writing and bheld to all the promises that you've heard to night or that are included in the package. 10 prevents the office use, instead, grows from nothing at 6:00 a.m., up to instead, gr	11	cetera, and so that that was also an additional	11	spaces on top of what we showed the minimum
14the actual - of the parking variation based on ULI standards. So, starting off at the bottom, again, that dark blue is representing the retail and how that sort of grows into its peak demand during the late morning and through the early evening hours. The cinema use is nothing 1914TIl turn it back over to Mario now. MR GARCIA-SERA: It's important to note that what we are promising to do are not just empty promises. Unique in the history of private development in this City, we are also agreeing to memorialize all the commitments and promises that we are making in a development agreement with the City. This development agreement, which is one of the items that 20 our reviewing this evening, is going to revening peak. On top of that, we layer other 25The commitments and promises that we are making in a development agreement with the City. This development agreement, which is one of the items that 23 you're reviewing this evening, is going to memorialize such things as our commitment on the quality of hotel that's going to be reage 6610reage for provided, the quality of office space that's going to be provided, but also public benefits, such as what park space we're going to provide and on what terms, public art and at what cost and in what locations, and so again, we are willing to put in writing and be held to all the promises that you ve heard tonight or that are included in the package.10represents the office use, shifts the whole curve in terms of when the shifts the whole curve	12	factor that was added on top of the analysis.		requirement would be, based on the shared
15ULI standards. So, starting off at the bottom, again, that dark blue is representing the again, that dark blue is representing the arry evening, heat and through the arry evening, because typically the cinemas arry enving. Restaurant on top of that, and that clearly shows a lunchtime peak and then a later 2515MR. GARCIA-SERRA: It's important to note that what we are promising to do are not just empty promises. Unique in the history of private development in this City, we are also agreement with the City. This development agreement with the City. This development agreement, which is one of the items that you're reviewing this evening, is going to the quality of hotel that's going to bePage 66Page 68Page 66Page 68Page 66Page 68Page 66Page 689Page 6810Page 689Page 689Page 689Page 689Page 689Page 689Page 689Page 689Page 689Page 68<	13	This graph then shows the application of	13	parking analysis.
16again, that dark blue is representing the retail and how that sort of grows into its peak and during the late morning and through the early evening hours. The cinema use is nothing in the morning, because typically the cinemas and the type the late morning and through the arry evening hours. The cinema use is nothing and the grow around midday, and then its peak is in the evening peak. On top of that, and that evening peak. On top of that, we layer other16that what we are promising to do are not just empty promises. Unique in the history of private development in this City, we are also agreeing to memorialize all the commitments and promises that we are making in a development agreement which is cone of the items that agreement, which is one of the items that you're reviewing this evening, is going to memorialize such things as our commitment on the quality of hotel that's going to bePage 66Page 66Page 66Page 6810Page 66Page 6810Page 66Page 6810Page 66Page 6810Page 689The orange part of the curve, however, 99The orange part of the curve, however, 99The orange part of the curve, however, 10111112that tatize of the curve, however, 13	14	the actual of the parking variation based on	14	I'll turn it back over to Mario now.
17retail and how that sort of grows into its peak demand during the late morning and through the generation to port until midday. You see it start to grow around midday, and then its peak is in the clearly shows a lunchtime peak and then a later evening peak. On top of that, and that clearly shows a lunchtime peak and then a later evening peak. On top of that, and that clearly shows a lunchtime peak and then a later evening peak. On top of that, and that action the cumulative effect of all of those uses shows that for that set of uses, the peak docurs in the early evening hours, 7:00, 8:00, 9.00 p.m., and that's consistent, if you start to think of your retail, restaurants, et to think of your retail, restaurants, et that time of the day. So the office use, and the dual. 200 pr.m., and that's consistent, if you start that tates is up and it started to tail off at that time of the day. So the office use, instead, grows from nothing at 6:00 a.m., up to layering of all this, that as the different so, again, you can kind of see by the uses have different peaks, the retail, so the overall curve is shifts the whole curve in terms of when the feak occurs, to around 2:00 p.m., so that's such as the Biltmore Hotel, City Hall, and the various themed villages throughout the City. Treally driven by the office demand. the alway. So the overall, curve is shifted to the deage and the alway. So the overall, curve is shifted to the core is shift to the lays. So the overall, curve is shift to the thighest peak in the late evening. Office does and the alway. So the overall curve is shift to the core is shift to the is the different the peak in the late evening. Office does and thave as h	15	ULI standards. So, starting off at the bottom,	15	MR. GARCIA-SERRA: It's important to note
18demand during the late morning and through the early evening hours. The cinema use is nothing18private development in this City, we are also agreeing to memorialize all the commitments and promises that we are making in a development agreement with the City. This development agreement with the City. This development agreement with the City. This development agreement with the City. This development agreement with the City. This development agreement with the City. This development agreement with the City	16	again, that dark blue is representing the	16	that what we are promising to do are not just
19early evening hours. The cinema use is nothing in the morning, because typically the cinemas don't open until midday. You see it start to grow around midday, and then its peak is in the evening. Restaurant on top of that, and that clearly shows a lunchtime peak and then a later tearly shows a lunchtime peak and then a later evening peak. On top of that, we layer other19 agreement, which is one of the items that agreement, which is one of the items that uses, until the top blue line is the hotel use, and the cumulative effect of all of those uses shows that for that set of uses, the peak occurs in the early evening hours, 7:00, 8:00, 9:00 p.m., and tha's consistent, if you start to think of your retail, restaurants, et tectera, that that's going to be a peak for those stypes of uses.1Page 6810represents the office use, and you see that that use is up and it started to tail off at shifts the whole curve in terms of when the peak occurs, to around 2:00 p.m., so that's listead, grows from nothing at 6:00 a.m., up to liop peak occurs, to around 2:00 p.m., so that's listead, grows from nothing at 6:00 a.m., up to listead, grows f	17	retail and how that sort of grows into its peak	17	empty promises. Unique in the history of
19early evening hours. The cinema use is nothing in the morning, because typically the cinemas don't open until midday. You see it start to grow around midday, and then its peak is in the evening. Restaurant on top of that, and that clearly shows a lunchtime peak and then a later 2519agreeing to memorialize all the commitments and promises that we are making in a development agreement with the City. This development agreement, which is one of the items that you're reviewing this evening, is going to memorialize such things as our commitment on the quality of hotel that's going to bePage 66Page 66Page 681Uses, until the top blue line is the hotel use, and the cumulative effect of all of those uses shows that for that set of uses, the peak occurs in the early evening hours, 7:00, 8:00, 9:00 p.m., and that's consistent, if you start to think of your retail, restaurants, et cetera, that that's going to be a peak for those types of uses.10Page 16810represents the office use, and you see that that use is up and it started to tail off at shifts the whole curve in terms of when the peak occurs, to around 2:00 p.m., so that's consistent that time of the day. So the office use, instead, grows from nothing at 6:00 a.m., up to 100 percent of its needs and demand, and that shifts the whole curve in terms of when the peak occurs, to around 2:00 p.m., so that's that time of all this, that as the different uses have different peaks, the retail, really driven by the office demand.1711It is looking towards its future. The project's design and appearance are inspired by the vision of Merrick and the subsequent planning of the City, which ga			1	
20in the morning, because typically the cinemas don't open until midday. You see it start to grow around midday, and then its peak is in the 23 evening. Restaurant on top of that, and that clearly shows a lunchtime peak and then a later evening peak. On top of that, we layer other20promises that we are making in a development agreement, which is one of the items that 23 you're reviewing this evening, is going to the quality of hotel that's going to bePage 66Page 66Page 68Page 68

That is very clearly labeled, right here. The owner of that single-family house has provided comments, and they are printed, in front of you, and he has provided comments in the past, expressing his concerns about some of the aspects of the project.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Staff, if you'd do your presentation, please. MR. TRIAS: Thank you, Mr. Chairman. I wanted to start the presentation by showing the different materials that you have before you, and also for the benefit of the people watching, so they understand that there is a variety of documents that were provided. This very thick document right here is the complete packet that we have. All of these documents, by the way, are posted on the web, and they're available for everybody. The document that is shown in the image is this Staff Report binder, which has all the background materials, and I think it's fairly easy to go through. In addition to that, we have a list of the different items that are in that Staff Report. There is an Executive Summary that is available for public view, which has two pages, one page of text, one page of images. I think it's a very clear summary of what the very complicated	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the people listed on that panel you may know, Elizabeth Plater-Zyberk, for example, was the chairperson of that panel. She used to be the Dean of the School of Architecture. We also had a retail consultant, to review the applicant's numbers and opinions about the design of the project. We have a traffic consultant, Tim Plummer, who's here, and he can answer any questions you may have, and we also had a landscape consultant, Mr. Parsley, who met with the applicant today. The project, as you can see and the applicant has described the scope of the project fairly clearly does not include a single-family house that is right in the middle. That is very clearly labeled, right here. The owner of that single-family house has provided comments, and they are printed, in front of you, and he has provided comments in the past, expressing his concerns about some of the aspects of the project. The location of the project, as has been
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Staff, if you'd do your presentation, please. MR. TRIAS: Thank you, Mr. Chairman. 2 3 4	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at	2 3 4	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations.
2 3 4 5	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to	2 3 4 5	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee
2 3 4 5 6	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody	2 3 4 5 6	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which
2 3 4 5 6 7	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken	2 3 4 5 6 7	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself.
2 3 4 5 6 7 8	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant	2 3 4 5 6 7 8	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and
2 3 4 5 6 7 8 9 10	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a	2 3 4 5 6 7 8 9	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting.
2 3 4 5 6 7 8 9 10 11	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts.	2 3 4 5 6 7 8 9 10 11	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a
2 3 4 5 6 7 8 9 10 11 12	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts.	2 3 4 5 6 7 8 9 10 11 12	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board,
2 3 4 5 6 7 8 9 10 11 12 13	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was	2 3 4 5 6 7 8 9 10 11 12 13	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards.
2 3 4 5 6 7 8 9 10 11 12 13 14	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in	2 3 4 5 6 7 8 9 10 11 12 13 14	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is
2 3 4 5 6 7 8 9 10 11 12 13 14 15	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas	2 3 4 5 6 7 8 9 10 11 12 13 14 15	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project. Then there was a meeting of the Development	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials have been posted at the web site many times,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project. Then there was a meeting of the Development Review Committee in April.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials have been posted at the web site many times, multiple times, including all the materials
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project. Then there was a meeting of the Development Review Committee in April. Then there was another workshop with the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials have been posted at the web site many times, multiple times, including all the materials that are here before you, and they're very
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project. Then there was a meeting of the Development Review Committee in April. Then there was another workshop with the Commission in June.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials have been posted at the web site many times, multiple times, including all the materials that are here before you, and they're very easily accessible. In fact, it's probably
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project. Then there was a meeting of the Development Review Committee in April. Then there was another workshop with the Commission in June. Then the project went before the Board of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials have been posted at the web site many times, multiple times, including all the materials that are here before you, and they're very easily accessible. In fact, it's probably better than the big box of material that we
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project. Then there was a meeting of the Development Review Committee in April. Then there was another workshop with the Commission in June. Then the project went before the Board of Architects in July, and this is important,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials have been posted at the web site many times, multiple times, including all the materials that are here before you, and they're very easily accessible. In fact, it's probably better than the big box of material that we delivered to your house, probably easier just
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project. Then there was a meeting of the Development Review Committee in April. Then there was another workshop with the Commission in June. Then the project went before the Board of Architects in July, and this is important, because projects when they get to you have	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials have been posted at the web site many times, multiple times, including all the materials that are here before you, and they're very easily accessible. In fact, it's probably better than the big box of material that we delivered to your house, probably easier just to look at the links in the web site, and I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	of the project, and then a variety of land, a significant area of land that is vacant, and this is also part of the project. The review of the project has taken at least a year. In the past year I wanted to list, for the public's benefit, for anybody watching at home and for people here in this room, some of the meetings that have taken place, similar to this one, where the applicant has shown the project and there has been a chance to discuss the impacts. The first item here is a Commission meeting that happened in January last year, which was the first discussion of the Form-Based Code in a public setting, and some of the general ideas about the project. Then there was a meeting of the Development Review Committee in April. Then there was another workshop with the Commission in June. Then the project went before the Board of Architects in July, and this is important,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the center of the project. Then the Traffic Advisory Board, in January, looked at the project and made some recommendations. Then the Development Review Committee looked at the alley vacation separately, which is fairly small, but it's a significant decision that needs to be made by itself. And here we are with the Planning and Zoning Board meeting. Then there will be a second meeting in a few days with the Historic Preservation Board, and we'll see what happens afterwards. In a nutshell, what I want to point out is that there have been 15 public meetings that have been posted at City Hall. The materials have been posted at the web site many times, multiple times, including all the materials that are here before you, and they're very easily accessible. In fact, it's probably better than the big box of material that we delivered to your house, probably easier just

	Page 77		Page 79
1	that. And in fact, the different meetings have	1	get under the Code that is possible with
2	been televised five times.	2	Mediterranean level benefits. There is a
3	So I think there has been a significant	3	possibility of 4.375 under the Code with TDR,
4	amount of discussion and awareness of the	4	but only within the Downtown area. So, in
5	project as proposed.	5	relation to that, some of the public benefits
6	Now, the applicant's request is a very	6	are the high-quality architecture and
7	complex project, and I think that the applicant	7	materials.
8	has done a very good job explaining it. I	8	The third request is a reduced step-back
9	won't go into any details, but what I will	9	from the residential, 50 to 70 feet, instead of
10	encourage you to do is to think in terms,	10	a hundred feet. The sustainable LEED-ND design
11	first, of big picture, whether it makes sense	11	has been identified as a benefit related to
12	in terms of the size, the massing, the type of	12	that.
13	architecture, and in terms of the effect of the	13	Another request is the vehicular curb cuts
14	public space. That would be very helpful, I	14	on Ponce de Leon, which is currently not
15	think, for the Commission, once they get a	15	permitted, but will be part of the Form-Based
16	chance to review the project. And then	16	Code legislative package this evening and may
17	ultimately, the overall impact. In fact, I	17	be recommended to go forward. Related to that,
18	think it's very valid to think in terms of the	18	the multi-modal transportation contributions,
19	traffic impact and all of those discussions. I	19	which have been explained in detail by the
20	would encourage you to have those	20	applicant.
21	conversations.	21	Residential use in the commercial land use
22	What I would do at this point is, I would	22	category. Currently your Comp Plan calls for
23	ask Susan, if you could come up and explain	23	residential only if it's in the MXD. The
24	some of the different requests in the Comp	24	nature of this plan changes to allow the
25	Plan, and then I will continue with the	25	residential. Another benefit that comes is the

So, moving from this kind of high level view of what the requests are involved, let's move through each of them, one by one. So first we have a Comprehensive Plan map
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MS. TREVARTHEN: Thank you, Ramon. Susan Trevarthen, Weiss Serota Helfman, 2525 Ponce. So, picking up where Ramon left off, this slide was prepared by Staff to depict the relationship between the applicant's requests and the proposed public benefits involved with the project. So, on the left, we have a request for additional height for public uses, and that's that two-story restaurant at the top of the hotel. The proposed public benefit, Staff has identified as the regional mixed-use destination that comes with the project. There's also a request for measuring the intensity of this project by using the Form-Based Code approach, rather than by FAR, and to help you understand what that actually means in terms that the City is customarily using to review projects, we've calculated the FAR with the applicant's input, and if this were judged by FAR, if we did not go with the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	rooftop public parks and the rooftop restaurant, which have been described by the applicant. Additional height for architectural features. This is the non-occupied space. It's not a place where people are making money or living, it's just architectural features, currently limited to 25 under your Code. Under these plans, they go up to 78 feet in certain areas. The applicant is offering the enhanced Art in Public Places contribution. Finally, the shared parking and modal split reductions that reduce the amount of parking provided. As described by the consultants or the applicant, we have the two levels of underground parking and the complete internalization of loading that they've done to take that off of City streets. So, moving from this kind of high level view of what the requests are involved, let's move through each of them, one by one. So first we have a Comprehensive Plan map amendment, and what that map amendment does, in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MS. TREVARTHEN: Thank you, Ramon. Susan Trevarthen, Weiss Serota Helfman, 2525 Ponce. So, picking up where Ramon left off, this slide was prepared by Staff to depict the relationship between the applicant's requests and the proposed public benefits involved with the project. So, on the left, we have a request for additional height for public uses, and that's that two-story restaurant at the top of the hotel. The proposed public benefit, Staff has identified as the regional mixed-use destination that comes with the project. There's also a request for measuring the intensity of this project by using the Form-Based Code approach, rather than by FAR, and to help you understand what that actually means in terms that the City is customarily using to review projects, we've calculated the FAR with the applicant's input, and if this	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	rooftop public parks and the rooftop restaurant, which have been described by the applicant. Additional height for architectural features. This is the non-occupied space. It's not a place where people are making money or living, it's just architectural features, currently limited to 25 under your Code. Under these plans, they go up to 78 feet in certain areas. The applicant is offering the enhanced Art in Public Places contribution. Finally, the shared parking and modal split reductions that reduce the amount of parking provided. As described by the consultants or the applicant, we have the two levels of underground parking and the complete internalization of loading that they've done to take that off of City streets. So, moving from this kind of high level view of what the requests are involved, let's move through each of them, one by one. So first we have a Comprehensive Plan map

	Page 81		Page 83
1	this site has three commercial categories and	1	entertainment, retail, and hotel, and as
2	the main difference, really the only	2	mentioned, the parking spaces are proposed at
3	difference, is height. So that's why we	3	2691.
4	describe it this way.	4	The fifth application is the alley
5	There's also a Comprehensive Plan text	5	vacation. It is an 85-foot approximately long
6	amendment, which adds the additional stories	6	portion of a 20-foot alleyway, and finally, the
7	for public uses over the hotel. Also, the	7	development agreement in order to ensure the
8	switch from the FAR control to the use of the	8	high-quality design, construction and
9	PAD plan, using Form-Based Code principles.	9	maintenance of the project, and to memorialize
10	Finally, the addition of residential to	10	the public benefits and ensure that they are
11	commercial.	11	delivered in the manner in which is understood
12	In the Zoning Code text amendment, the	12	by the City and offered by the applicant.
13	third application before you, we have the	13	
14	· · ·	14	So Application Request Number 1, this is
15	creation of the Form-Based Code, and the attributes of that include the control of the	15	the reorganization of the commercial land use
		16	categories. The dark red that you see is
16	intensity through the location, the design, the		high-rise, the bright red you see is mid-rise,
17	form, all aspects of the Form-Based Code and	17	and the pink that you see is low-rise. So you
18	the proposal.	18	can see there's three colors on the left and
19	The integrated Mediterranean architectural	19	there's three colors on the right. We're just
20	standards, which are important to note are	20	moving around where they are, based on the
21	significantly more detailed and demanding of	21	applicant's proposal, and you can see those
22	the applicant than we have under our existing	22	changes there, and of course, the excluded
23	Mediterranean level design review, or the Level	23	parcel, which remains a residential property
24	2 design review. There's also clear design	24	with a single-family home.
25	standards for pedestrian open space, that go	25	The Comp Plan text amendment affects all
	Page 82		Page 84
1	above and beyond what your baseline Code would	1	three commercial categories, and in all three
2	require, the LEED-ND requirements, enhanced	2	categories, it creates the possibility of
3	public space and off-site improvements,	3	residential use, the control of intensity by
4	transit, optimizing the parking requirements	4	Form-Based Codes, and the additional height
5	based on the context, and then removing the	5	only applies to the high-rise and to the
6	site specifics. Like we have on most	6	mid-rise application. It is not a change to
7	properties in Coral Gables, there's a set of	7	the low-rise intensity commercial category.
8	site-specific restrictions that will become no	8	So, looking specifically at what that says,
9	longer relevant if this project is approved.	9	commercial high-rise use and intensity, you can
10	So the fourth application before you is for	10	see where currently it says residential use may
11	the approval of the Planned Area Development	11	be provided only as part oh, dear, I should
12	site plan. That's the site plan that the	12	not have done that, pardon me as part of a
13	applicant has just presented to you in detail	13	mixed-use development, and we're adding "or as
14	and which you've received much documentation	14	a Mediterranean Village," and then talking
15	on. That has the 4.375 FAR, if it were	15	about how the intensity of the project located
16	measured on that basis. The heights are	16	in the Mediterranean Village is not controlled
17	summarized here. The low land uses are the	17	by FAR, but instead by the Form-Based
18	townhouse, the gym and the ballroom podium, the	18	Mediterranean Village PAD plan.
19	mid-rise at the residential, amenity and	19	The second change to the high-rise
20	cinema, and the high-rise the three residential	20	intensity category of commercial is the height,
21	towers and office tower and hotel towers.	21	and we add this language about, the heights of
22	Those detailed heights have already been	22	structures located in projects in a
23	described; I won't go through that again.	23	Mediterranean Village may exceed the applicable
24	The program, as mentioned, we have	24	maximum only to the extent that's approved by
25	residential use units, office, restaurant,	25	the City so it's not as-of-right, it's as
	restautantia use antis, ornee, restaurant,	1	City = 50 it 5 not as 01-11gm, it 5 as

	Tage 00		Iage 07
1	approved by City and for those areas that	1	going to take place, whatever that project may
2	are either architectural embellishment or a top	2	be, has to follow very strict criteria. So,
3	floor, one or two-level dining, entertainment	3	from that point of view, I think it's very
4	or other similar destination use that's open to	4	beneficial, from the point of view of review.
5	the public, or three, a top floor containing an	5	In addition to that, the Form-Based Code, I
6	activated rooftop, such as the roof level parks	6	think, has allowed us to propose some items
7	that are being proposed.	7	that are not currently available in the Zoning
8	In the mid-rise category, we have the same	8	Code. So there's some additional information
9	change that allows residential and allows for	9	that the applicant has provided already, the
10		10	requirements for, let's say, LEED-ND, the
11		11	shared parking methodology. Those kinds of
12	0	12	issues, we have the opportunity to review now,
13	0	13	and if it makes sense for the City and if it's
14		14	the right thing that the City wants to do, then
15		15	I think it's one approach to do it effectively.
16	11	16	So, as I said, the maps give precision.
17		17	Then, in addition to that, there's a
18		18	variety of sections and plan drawings that are
19	1 5 / 5	19	fairly specific in terms of the setbacks that
20		20	are required, the places where parking may be
21		21	located, the fact that there are requirements
22	,	22	for liner buildings in front of parking in
23	\mathcal{O} 1	23	order to enhance the quality of the
24		24	architecture. So all of that is very precise
25	∂	25	regulatory language that I think could be
	6 6 6

In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very
2 3 4 5 6 7 8 9 10 11	public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. It also involves removing site-specific text, as mentioned previously. So, with that, I'll turn it over back to Ramon, to present the remainder of the Staff Report. MR. TRIAS: Thank you, Susan.	2 3 4 5 6 7 8 9 10 11	helpful for the City when reviewing projects. In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very significant is the architecture. The quality
2 3 4 5 6 7 8 9 10 11 12	 public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. It also involves removing site-specific text, as mentioned previously. So, with that, I'll turn it over back to Ramon, to present the remainder of the Staff Report. MR. TRIAS: Thank you, Susan. I think that the best way to look at the 	2 3 4 5 6 7 8 9 10 11 12	helpful for the City when reviewing projects. In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very significant is the architecture. The quality of the architecture that is required by this
2 3 4 5 6 7 8 9 10 11 12 13	 public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. It also involves removing site-specific text, as mentioned previously. So, with that, I'll turn it over back to Ramon, to present the remainder of the Staff Report. MR. TRIAS: Thank you, Susan. I think that the best way to look at the proposed Zoning Code amendment is that it truly 	2 3 4 5 6 7 8 9 10 11 12 13	helpful for the City when reviewing projects. In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very significant is the architecture. The quality of the architecture that is required by this proposed Code is much higher than anything that
2 3 4 5 6 7 8 9 10 11 12 13 14	 public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. It also involves removing site-specific text, as mentioned previously. So, with that, I'll turn it over back to Ramon, to present the remainder of the Staff Report. MR. TRIAS: Thank you, Susan. I think that the best way to look at the proposed Zoning Code amendment is that it truly benefits the City, from the point of view of 	2 3 4 5 6 7 8 9 10 11 12 13 14	helpful for the City when reviewing projects. In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very significant is the architecture. The quality of the architecture that is required by this proposed Code is much higher than anything that is in the current Code. The current Code is
2 3 4 5 6 7 8 9 10 11 12 13 14 5	 public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. It also involves removing site-specific text, as mentioned previously. So, with that, I'll turn it over back to Ramon, to present the remainder of the Staff Report. MR. TRIAS: Thank you, Susan. I think that the best way to look at the proposed Zoning Code amendment is that it truly benefits the City, from the point of view of being able to control development and having a 	2 3 4 5 6 7 8 9 10 11 12 13 14 15	helpful for the City when reviewing projects. In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very significant is the architecture. The quality of the architecture that is required by this proposed Code is much higher than anything that is in the current Code. The current Code is very good. It has absolutely outstanding
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. It also involves removing site-specific text, as mentioned previously. So, with that, I'll turn it over back to Ramon, to present the remainder of the Staff Report. MR. TRIAS: Thank you, Susan. I think that the best way to look at the proposed Zoning Code amendment is that it truly benefits the City, from the point of view of being able to control development and having a very predictable outcome, and that is done in 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	helpful for the City when reviewing projects. In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very significant is the architecture. The quality of the architecture that is required by this proposed Code is much higher than anything that is in the current Code. The current Code is very good. It has absolutely outstanding architectural suggestions. This goes beyond
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. It also involves removing site-specific text, as mentioned previously. So, with that, I'll turn it over back to Ramon, to present the remainder of the Staff Report. MR. TRIAS: Thank you, Susan. I think that the best way to look at the proposed Zoning Code amendment is that it truly benefits the City, from the point of view of being able to control development and having a very predictable outcome, and that is done in at least two ways. One of them is the 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	helpful for the City when reviewing projects. In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very significant is the architecture. The quality of the architecture that is required by this proposed Code is much higher than anything that is in the current Code. The current Code is very good. It has absolutely outstanding architectural suggestions. This goes beyond it. This really takes it to a level that I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. It also involves removing site-specific text, as mentioned previously. So, with that, I'll turn it over back to Ramon, to present the remainder of the Staff Report. MR. TRIAS: Thank you, Susan. I think that the best way to look at the proposed Zoning Code amendment is that it truly benefits the City, from the point of view of being able to control development and having a very predictable outcome, and that is done in at least two ways. One of them is the regulating plan, which are the drawings that 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	helpful for the City when reviewing projects. In addition to that, there's some very particular numbers and very serious data that is attached to the Code, and also, this Form-Based Code overlay deals with the space between buildings, the streets. Right now, the Zoning Code doesn't do that. So it's an additional level, layer of review, that the City may have at its disposal. The last section that I think is very significant is the architecture. The quality of the architecture that is required by this proposed Code is much higher than anything that is in the current Code. The current Code is very good. It has absolutely outstanding architectural suggestions. This goes beyond it. This really takes it to a level that I think is very beneficial for the public and the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 public benefits requirements, as shown in your packets. It's eligible to be applied for the geographic area that's before you, so it's eligible for the excluded property as well as everything that's in the project before you. 	Page 90		Page 92
1	have any questions, they're here to help you	1	Finalize the landscaping. As I said, we
2	through the process.	2	worked on that today.
3	And then the development agreement, as the	3	Finalize the signage plan. They have some
4	attorney mentioned, memorializes a lot of the	4	work on that in the package that you have
5	language that has been described today.	5	before you, but I think that there were some
6	Staff has reviewed all of these different	6	requests that we needed to review a little bit
7	applications and has found that the	7	further.
8	requirements of the Code are satisfied, and I	8	Finalize the transit improvement plan.
9	say that in general, but specifically, I want	9	There are two options right now. The options
10	to say that we are making some recommendations	10	are not explained completely. There were some
11	for conditions of approval, should you choose	11	questions about the actual impact, in terms of
12	to forward this application further. But each	12	the numbers of riders and so on, and I think
13	of the requests has been reviewed. The Zoning	13	all of that can be resolved and should be
14	Code text amendment also has been reviewed,	14	resolved.
15	according to the standards of the Code, which	15	Finalize the Art in Public Places
16	were satisfied. The PAD, which is also a very	16	requirement. It's going to be more than any
17	strict review process, with criteria, was also	17	other requirement in any other project. Let's
18	satisfied. The alley vacation, the fact that	18	figure out how much more. That still has to be
19	there are some reasonable public benefits to	19	finalized.
20	this request, that also the criteria is also	20	Finalize the Arts Center Building plan,
21	satisfied. And the development agreement is	21	what exactly is going to happen. They have
	satisfied, in terms of the criteria that the	22	said that they want to preserve the building.
22			
22 23	Code requires.	23	Very good. They also are making some
22			

1	Page 93		Page 95
1	restoration need to be finalized.	1	happened about a week ago, so that's in the
2	Make sure that the grading of the project	2	works, and then any additional comments that
3	is just right. I mean, I had some concerns	3	you may have or may result from the public
4	about some sidewalks that were not exactly at	4	discussion.
5	the right level and so on. With two levels of	5	The conditions of approval basically deal
6	underground parking, this is critical. It has	6	with typical requirements that you would find,
7	to be just perfect. In fact, if you look at	7	in terms of making sure that all the supporting
8	the arcade across the street, the arcade on the	8	documents are in the application, that there's
9	Regions Bank building, at one end, it's at	9	a restrictive covenant that deals with any
10	grade; at another end, it has two or three	10	encroachments, et cetera, within 30 days of
11	steps. We don't want to have those kinds of	11	approval, that the development agreement is
12	conditions. Everything should be flush and	12	properly recorded, that there's a bond in case
13	perfectly accessible for people.	13	there's some issues with the implementation of
14	Make sure that the parking garage works	14	the project.
15	well. There were some concerns about the	15	We are requesting specifically additional
16	internal layout and circulation and dimensions	16	reviews by the Board of Architects, and maybe
17	that Staff identified, and the applicant is	17	even by the Planning & Zoning Board if the
18	working on that.	18	project were to change in a significant way,
19	Demonstrate that the single-family	19	that the traffic study issues be resolved, that
20	residence is going to be able to survive this	20	the encroachment plan be prepared. There's
21	construction process, in the form of a staging	21	significant encroachments, as you know,
22	plan and a feasibility plan that explains that	22	below-grade, at-grade, above-grade. It's a
23	a little bit better.	23	complex proposal that we're dealing with.
24	The architect talked about LEED-ND. We	24	That the historic Arts Center Building have
25	recommended that they complete Stage 1. They	25	a structural report, a plan that explains how

I have no problem with conditions. What I do have a major problem is with Staff recommending, with issues still pending to be resolved before going to the Commission. I understand the Commission's role, but frankly, I'm going to tell you something. I don't trust them to evaluate parking garages, traffic analysis, parking analysis, valet operations, and many are the very same things that have made this project an issue. Frankly, I trust you all more, and frankly, I have to say, based on the three years that Staff has had it, and it ranges between 18 months and three years, I frankly don't trust Staff to do that.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	since 2002, the Charrette am I correct, Mr. Trias? That is correct, thank you to do any master planning. So we take every little project individually, one by one. Oh, 600 parking spaces here, 300 there, and the next thing you know, as the applicant calls himself, they are a community within a community. Well, there's a saying in Cuba called, "We're trying to put Havana in Guanabacoa." We're undoubtedly trying to put New York City into Coral Gables. And by the way, I want this project, but a very downsize-scaled project. The parking, traffic and transit. The study by Kimley-Horn and by the City consultant requires that we at least have five to six trolleys. Ladies and gentlemen, that's double the size, and all we hear is, "Oh, we will,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	If I were to call If I had a title for the recommendation by Staff, I would call it neglect of duty, and let me share with you why. I have no problem with conditions. What I do have a major problem is with Staff recommending, with issues still pending to be resolved before going to the Commission. 9       MR. PENNY: Good evening. Im Paul Penny.       9       eliminate that, which is stoday a big problem         10       Im a homeowner at 30 Palemo, and I'd like to       10       in 99, and that dead-end street is crime,         12       City very well, and i's dealt with an issue       12       10       in 99, and that dead-end street is crime,         14       is a transition from one new project to the       14       14       14       16       17       16       larger than what hab been planned before in the       16       16       17       The only condition that we have for the       16         16       larger than what hab been planned before in the       16       16       17       Spanish Vilage, and it looks to me like it's       17       The only condition that we have for the eighborhoods, and that's what I have to ask.       19       recently done by the City. We want shade         20       Short enough?       20       Short enough?       21       We want traffic mitigation, that's being       discussed         21       CHAIRMAN AIZENSTAT: Thank you, sir.       22       discussed, for: who knows how many years now.       12       Lighting has been an issue, a big issue, and continues to be an issue, a big issue, and continues to be an issue, a big issue, and continues to be an issue. And of course, the developer will doss, because they do have the residents be included in the process of choosing what's going to you know, very body		•		
10       Fm a homeowner at 30 Palerno, and I'd like to       10       for us, due to the fact that it was closed off         11       say that the existing City Code has served the       11       in '99, and that dead-end street is crime,         12       City very well, and it's dealt with an issue       12         13       that I haven't heard mentioned yet. The issue       13         14       is a transition from one new project to the       14         15       adjacent neighborhoods. This unit is so much       15         16       larger than what had been planned before in the       16         17       reighborhoods, and that's what I have to ask.       19         19       neighborhoods, and that's what I have to ask.       10         21       CHAIRMAN AIZENSTAT: Thank you, sir.       21         23       MR. BERGER: Good evening, Mr. Chairman and       23         24       Board. I'm Georges Berger.       24         25       Coconut Grove Drive, you know, up and down, no         26       CHAIRMAN AIZENSTAT: Could you state you:       3         3       and I       10         2       MR. BERGER: And I love this project. I       11         4       MR. BERGER: And I love this project. I       12         6       MR. BERGER: And				
11       say that the existing City Code has served the       11       in '99, and that dead-end street is crime,         12       City very well, and it's deal with an issue       12       in '99, and that dead-end street is crime,         12       that haven't hear menioned yet. The issue       13       The only condition that we have for the         14       is a transition from one new project to the       14       The only condition that we have for the         15       adjacent neighborhoods. This unit is so much       16       which we not only expect but believe that the         16       larger than what had been planned before in the       16       which we not only expect but believe that the         17       Spanish Village, and it looks to me like it's       17       recently done by the City. We want shade         18       neighborhoods, and that's what I have to ask.       19       recently done by the City. We want shade         20       Short enough?       21       We want traffic mitigation, that's being         23       MR. BERGER: God evening, Mr. Chairman and       24       The sidewalks, for who knows how many years now.         24       The diverse present in the resident and for the City, for the evening time, for       2       sidewalks, for who knows how many years now.         26       CHAIRMAN AIZENSTAT: Thank you.       17       the residents on bincut	-	÷ .		
12       City very well, and it's dealt with an issue       12       Iotering and all kinds of problems.         13       that I haven't heard mentioned yet. The issue       13       The only condition that we have for the         14       is a transition from one new project to the       14       In only expect but believe that the         16       larger than what had been planned before in the       16       which we not only expect but believe that the         19       neighborhoods, and that's what I have to ask.       19       recently done by the City. We want shade         19       neighborhoods, and that's what I have to ask.       19       recently done by the City. We want shade         21       CHAIRMAN AIZENSTAT: Thank you, sir.       21       We want traffic miligation, that's being         22       MS. MENENDEZ: Georges Berger.       22       We want traffic miligation, that's being         23       MR. BERGER: Good evening, Mr. Chairman and       23       24       The sidewalks, we've been living with       25         24       Board. I'm Georges Berger.       24       Stown and all times to be an issue. And of course, and continues to be an issue. And of course, and continues to be an issue. And of course, and continues to be an issue. And of course, and for the City, for the evening time, for       3       sidewalks, for who knows how many years now.         24       MR. BERGER: And I love this pr				
13       that I haven't heard mentioned yet. The issue       13       The only condition that we have for the         14       is a transition from one new project to the       14       project is the improvements, the improvements that are being offered for the neighborhood,         16       larger than what had been planned before in the       16         17       going to just be jarring to the local       18         18       neighborhoods, and that's what I have to ask.       19         20       Short enough?       20         21       CHAIRMAN AIZENSTAT: Thank you, sir.       21         22       MS. MENENDEZ: Georges Berger.       22         23       MR. BERGER: Good evening, Mr. Chairman and       23         24       Board. Tm Georges Berger. Have two       24         25       businesses in Coral Gables, Chocolate Fashion,       25         26       CHAIRMAN AIZENSTAT: Could you state you       24         3       address, please?       34         4       MR. 1	MR. LEEN: Mr. Chair	1	MS. MENENDEZ: Kirk Menendez.
2	CHAIRMAN AIZENSTAT: Yes.	2	MR. MENENDEZ: Good evening. Kirk
3	MR. LEEN: I'd just like to put on the	3	Menendez, 346 Malaga Avenue.
4	record that we met about the dead-end street.	4	Perhaps, out of anyone here in this room, I
5	I know, I met with you. Please have Laura	5	have a history with the Crafts Section. I've
6	contact me directly. I know that the City is	6	lived in the Crafts Section since 1962, so I've
7	concerned about that and the issues that you've	7	seen the transformation, not only of the City,
8	raised. I just wanted to put that on the	8	but of the Crafts Section, where the
9	record.	9	Mediterranean Village project will be located,
10	MS. MENENDEZ: Larry Rentz.	10	and I'm here today not only on behalf of myself
11	MR. RENTZ: Good evening, everybody. I'm	11	and my family, but other residents on the
12	Larry Rentz. I'm with the Allen Morris	12	Malaga Avenue, 346, 333, 323, 341, and my
13	•	13	
$14^{13}$	Company, for 42 short years, with offices at	14	neighbor, Julio Webel, who's here, 309 Malaga
	121 Alhambra Towers. Allen personally sends	15	Avenue.
15	his regrets. He had a prior commitment. We're		We've spoken with our neighbors for several
16	building an apartment building in	16	years, and I could say that between Catalonia
17	St. Petersburg, so	17	Avenue and Malaga Avenue, the majority of them,
18	Mediterranean Village used to be Old	18	the ones that we've been able to speak to, are
19	Spanish Village, and Allen and I spent hours	19	in support of this project moving forward.
20	and hours with Ralph Sanchez, may he rest in	20	Now, the interesting part, based on the 52
21	peace, but that was 10 years ago when Ralph	21	years that I've lived in the Crafts Section, I
22	assembled this seven acres, and it's still	22	know the history of that specific area, because
23	vacant. So we believe, and all our experts	23	I lived on 109 Sevilla, which actually, you try
24	We tried to We also tried to buy the	24	to look it up, it doesn't exist, because there
25	property, and the Agave people won first prize.	25	were single-family homes there and in 1980,
	Page 114		Page 116
1	It is important to the City, Mediterranean	1	'81, they tore them down to make parking for
2	Villages. It will attract new residents. It	2	one of the banks at the corner of Ponce. But
3	will provide needed retail of a larger scale in	3	at the time that I was living there, as a small
4	the Downtown area. Many retailers have told us	4	child, the 2801 building was erected, and that
5	that they don't locate in Coral Gables because	5	was erected right next to single-family homes.
6	they need 10,000, 20,000, 30,000 square feet,	6	In fact, that was mostly single-family homes.
7	and you can't find it anywhere. And it will	7	The wall was separating the residential
8	help Coral Gables compete nicely, so with	8	single-family from the actual building, which I
9	Brickell Avenue, off Brickell, Swire, Coconut	9	think at the time was the tallest building in
10	Grove, and I am sure the Agave people will put	10	Coral Gables at that time. So that area has a
11	in tenants that complement and don't compete	11	history of change, and the change is Coral
12	with Merrick Park.	12	Gables moving to the next level.
13	Allen and I are familiar with the Agave	13	I agree with some people, we're in
14	association and its executives, who have	14	competition with Midtown Brickell. I, for
15	demonstrated their capabilities as a developer	15	example, like to think of Flagler, where the
16	here in Coral Gables, building the beautiful	16	courthouse is. That area is going to be very
17	office building at 396 Alhambra Plaza. Agave	17	difficult to move to the next level. Why?
18		18	•
19	and its people are first class. Mediterranean	19	Because it's a hodgepodge of owners, hodgepodge
20	Village will be also first class, when it's	20	of stores. There's no continuity. You look at
	built by Agave, and it will be an asset to the	1	that area, it's hodgepodge. Coral Gables is
21	residents, to the City, and to the visitors	21	famous, well known, well received, because of
22	here in Coral Gables. We support Agave and	22	the continuity.
23	Mediterranean Village, a hundred percent.	23	This project, I personally believe, will
24	CHAIRMAN AIZENSTAT: Thank you.	24	connect the Miracle Mile area to an area which
25	MR. RENTZ: Thank you.	25	has, in reality, been sort of blighted for

Page	119
Luge	

	Page 117		Page 119
1	several years. Not only did the 2801 building	1	adjustments, will forever change our Central
2	get demolished or imploded, but that whole	2	Business District, a Downtown that has for
3	area, the area businesses are struggling	3	decades been associated and viewed by our
4	because there isn't activity. People like to	4	residents and by the South Florida community as
5	walk, but that area, as a resident said, the	5	being primarily composed of Miracle Mile and a
6	crime rate I walk with my family to Miracle	6	few other blocks in its surrounding area.
7	Mile. When I get to that area, I'm a little	7	This is not meant to be a negative comment;
8	concerned, because there's nothing going on.	8	however, economic forces are driving all of
9	We'd like to bring movement. We'd like to	9	South Florida, and Miami in particular, which
10	bring culture. We'd like to bring society into	10	is on a very fast track to being a world-class
11	the area, make it a lively place for residents	11	city. Coral Gables should not and cannot be
12	to be able to enjoy themselves.	12	left behind. We, too, should stay competitive
13	I know traffic is a concern, but traffic's	13	and reach for the greatness for our Downtown.
14	been a concern for the last 10 years and	14	However, it is precisely the transformative
15	traffic is going to be a concern for the next	15	nature of this project that demands that we use
16	30 years in Coral Gables, regardless of whether	16	this unique moment to, one, consider how we can
17	the project moves forward or doesn't.	17	protect our quality of life and at the same
18	I do want to thank Agave for reaching out	18	time enhance it; two, how this project can
19	to Banyan Day School on the 300 block. They've	19	bring with it positive changes while keeping
20	been working with the small school. They've	20	true to George Merrick's original urban core
21	had traffic issues before and are trying to	21	principles and mostly his vision.
22	rectify it.	22	The Business Improvement District is
23	At the end of the day, the key point is,	23	dedicated to the responsible growth and
24	this is a dream-come-true project for Coral	24	development in Downtown Coral Gables, with the
25	Gables. You will never have a higher quality	25	goal of keeping a historic City Beautiful CBD

With all the best intentions and predictions, there is no guarantee that the solutions studied and provided will work. Cohesive and unified Downtown. As a result
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	square feet on two floors. The developer should be obligated to leave no stone unturned in securing one tenant to occupy each of the large spaces as anchor tenants, as this size space can currently not be accommodated within the BID. Further, in the event that the project's second floor of the retail space cannot be successfully leased, the developer shall convert all of the large-scale second floor space to professional use, and not be able to cut the space into smaller tenant spaces. In addition, the quality of the tenant mix the developer leases needs to be as defined in the presentation previously given to us and to others, that is, aspirational fashion, tenants in active and global markets, emerging global tenants, contemporary experiential retailers not duplicated in our trade area. Defining the quality and caliber of the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	start of their operations, or until the City has put in place a mechanism to do so. Convention space. We appreciate the developer has listened to our group and has committed to creating conference facilities which can accommodate 350 guests for a sit-down dinner and 700 guests for a cocktail reception. We urge the developer to continue working ways to increase the capacity, as size convention space within our Downtown is noticeably absent. The BID also encourages that the developer agree to be bound by a plan that requires it to adapt to future worsening traffic conditions that may arise and provide alternate solutions, should they be required, in the future. With all the best intentions and predictions, there is no guarantee that the solutions studied and provided will work. Cohesive and unified Downtown. As a result of this project, and as our Downtown business

To recap, characterization of the retail component, continuity with the streetscape, connectivity for consumers and transit, convention and gala meeting space, and most important, a cohesive and unified Downtown. Mr. Chair, thank you for your time, and I apologize for the length. CHAIRMAN AIZENSTAT: Thank you. MS. MENENDEZ: Enrique Bernal. MR. BERNAL: Good evening. My name is Enrique Bernal. I live at 1607 Ponce de Leon Boulevard, and I'm the president of the Ponce de Leon Condominium Association, a mixed community in the north side of the Downtown area. In addition to all the very, very eloquent comments that have been made about the benefits of this project, one of the considerations for us is that, you know, we feel the need to establish an extended Ponce de Leon Boulevard as a viable retail area, which it's not right	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	say. MR. CASAS: Ray Casas, 461 San Juan Drive, Coral Gables. Mr. Welch was here earlier today. He had to go back to the hospital. He asked me to put on the record the fact that he was here, in support of the project. Thank you. CHAIRMAN AIZENSTAT: Thank you. MS. MENENDEZ: Frank Kelly. MR. KELLY: Good evening, Mr. Chairman and Members of the Board. My name is Frank Kelly. I'm a resident of 314 Catalonia. I'm also a filmmaker and a local producer, so I think it's only fitting I tell you a story. I moved to this part of Coral Gables about 12 years ago, and when people ask us, "Why did you move to that area," just west of the Ponce de Leon Circle, I tell them it's because it's the closest we can get to an urban lifestyle experience in Coral Gables. We're able to walk to the Gables on a weekday night, on a weekday afternoon, or even on weekends, to enjoy this
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	development agreement. 1 2	Starbucks, and, you know, the trend is urban	1	MR. KIRK: No problem. Mr. Chairman,
3	lifestyle across the country, across the world, and I think that the addition of this	23	Members of the Board, my name is Joseph Kirk. I live at 117 Santander Avenue. That is the
4	incredible project, the Mediterranean Village,	4	street immediately south of the project, and
5	allows us to have more of this urban lifestyle,	5 6	the cross street is Ponce de Leon. I'm here on
6 7	this urban experience.	0 7	behalf of myself and my neighbors.
8	You know, right now, we have two daughters,		I've lived in the neighborhood since before
° 9	a two-year-old and a one-year-old, and we have	8	Old Spanish Village was approved, and as you
10	a bicycle. We ride them on bike. But it's sad to see the trek home from Ponce de Leon and	9 10	know, a lot of the Old Spanish Village property
11		11	was single-family homes. This project is much
12	Miracle Mile, as we go through the Ponce Circle and we see the wasteland that is currently the	12	larger than Old Spanish Village. It has a
13	•	13	hotel, which Old Spanish Village did not. It
14	space east of the park, and as many people have		has a movie theater. The density is much
$14 \\ 15$	brought up before, we're tired of seeing that	14 15	greater, much more retail. This is going to
16	wasteland. We're tired of seeing that vacant		bring a lot of traffic onto Ponce de Leon
	space. So I, as well as my other fellow	16 17	Boulevard, and we already get traffic on our
17 18	neighbors do, we support the Mediterranean	18	street, on Santander, because of people looking
19	Village, and I look forward to the day where I		for parking in the commercial area near our
20	can take my little daughter to go see a movie	19 20	homes. There's also an alleyway behind
21	at the theater. Thank you very much. CHAIRMAN AIZENSTAT: Thank you.	20	Christie's Restaurant that a lot of cars take
22	•	22	to cut through, to go from Ponce to Malaga.
23	MS. MENENDEZ: Joseph Kirk. CHAIRMAN AIZENSTAT: Come on up, but before	23	It's a hazard to pedestrians because there's a
24	Mr. Kirk speaks, we need to look at extending	24	blind spot. So this is going to be substantial, the amount of traffic on Ponce.
25	our time from nine o'clock. Is there a motion?	24	
2.5	our time from time o clock. Is there a motion?	23	It's very nice, the fact that the developer
	Page 130		Page 132
1	MR. FLANAGAN: I'll move to extend to 9:30.	1	1 1 1 1 1 1 1 1
			has looked and is making streetscape
2	MS. ALBERRO MENENDEZ: I'll second.	2	improvements and traffic calming to the
2 3	MS. ALBERRO MENENDEZ: I'll second. CHAIRMAN AIZENSTAT: To 9:30, or should we	2	improvements and traffic calming to the single-family homes to the east of the project.
		2 3 4	improvements and traffic calming to the single-family homes to the east of the project. We're immediately south, one block south, and
3	CHAIRMAN AIZENSTAT: To 9:30, or should we go a little bit longer so we don't have to interrupt?	2 3	improvements and traffic calming to the single-family homes to the east of the project.
3 4	CHAIRMAN AIZENSTAT: To 9:30, or should we go a little bit longer so we don't have	2 3 4	improvements and traffic calming to the single-family homes to the east of the project. We're immediately south, one block south, and there's been no accommodation for us. There's been no consideration for streetscape

1	220, where Starbucks is.	1	also an enormous amount of retail deep into the
2	I certainly appreciate the complexity of	2	project that will be tough to lease, too, and I
3	this undertaking. I sit in development	3	have shared this with Agave, and I think
4	meetings and review plans every single day, for	4	they're still listening, and I appreciate that.
5	the last 30 plus years, and for you to sit here	5	Great streets great cities have great
6	and review this and these kinds of books and to	6	streets, and great streets are active, with
7	switch from a Code that you're familiar with to	7	people walking and umbrellas and tables and
8	a Form-Based Code, as requested, is a daunting	8	chairs. Dragging the retail activity to the
9	task that I don't quite understand myself.	9	second floor and deep in the street violates
10	So, the Agave people are wonderful. They	10	those principles and won't be in the best
11	are honest. They care. They have done their	11	interest of our community, and so I've
12	best to come up with a project that works. The	12	encouraged Agave to eliminate the deep retail
13	sheer mass and scale of it scares me, and I	13	and eliminate the second-floor retail and
14	wonder about how it fits within the	14	consider other uses, and I would encourage you
15	neighborhood, so I would encourage your great	15	to make that part of the development order, for
16	caution. I have shared with them all my	16	the best interest of the entire City.
17	concerns. They have hosted me twice, as	17	The idea that this piece of land is a scar
18	recently as last week, and I appreciate their	18	on the community, we all agree with. But that
19	openness to hear other opinions.	19	doesn't mean our options are this exact
20	The stacking at the hotel entrance along	20	project, with its height and great density and
21	Ponce scares me. I worry that it holds up	21	retail in places that won't lease. That's not
22	traffic all over the street. I've proposed to	22	the only option. They can make changes and
23	them alternate ways to stack the traffic in the	23	they can make this project still better, and
24	center of the project, so that it doesn't stop	24	it's wonderful today but it can be a lot
25	traffic on that street when everyone is trying	25	better, and I think it's incumbent upon you to
	Page 134		Page 136
1	to get in.	1	make those recommendations and incorporate
2	Second-floor retail just doesn't work.	2	these kinds of ideas into into your approval.
3	Agave has a wonderful list of very smart and	3	Thank you.
4	highly paid consultants, many of whom are in	4	CHAIRMAN AIZENSTAT: Thank you.
5	the room, filling the room, and they have lots	5	MS. MENENDEZ: The last speaker is Luis de
6	of good opinions in support of their project,	6	la Vega.
7	which is their job, to support the project, but	7	DR. DE LA VEGA: There are two of us. I'm
8	second-floor retail doesn't work all over	8	just going to introduce my son.
9	Miami, it fails all over South Florida, it	9	CHAIRMAN AIZENSTAT: If you can each
10	fails all over the country, and I worry that it	10	take one mike no, I'm just kidding and do
11	will fail here, and in so doing, create a drag	11	it in stereo.
12	on the value of the retail on Miracle Mile,	12	DR. DE LA VEGA: I've been a resident of
13	especially at a moment in time when the City	13	Coral Gables
14	boldly has decided to move forward on a very	14	CHAIRMAN AIZENSTAT: State your name and
15		15	
	wonderful streetscape project, of which I'm on	1	address, please.
16	the steering committee, and delighted that it's	16	DR. DE LA VEGA: Dr. Luis de la Vega, 1624
17	the steering committee, and delighted that it's going forward, which is a big shift, because 11	16 17	DR. DE LA VEGA: Dr. Luis de la Vega, 1624 Granada Boulevard. I've been a resident of

	Page 137		Page 139
1	438 Alcazar, and five years ago, we moved our	1	project, that's more self-sustaining, that is
2	business, as my father said, to 2850 Douglas	2	still in keeping with the community. There is
3	Road. We've been there for roughly five years,	3	a transition in height, going from Ponce to the
4	and during those five years, we have employed	4	single-family residences, and remember, that
5	several hundred people in Miami-Dade, many of	5	FAR number that we so often use can sometimes
6	whom live and work in Coral Gables.	6	be a bit deceiving, because when you look at
7	My employees are excited to be in Coral	7	the Zoning Code of Coral Gables, FAR doesn't
8	Gables, and the few of them who have heard	8	count parking, and parking is one of the
9	about this project have come up to us	9	biggest contributors to mass of a building.
10	personally, to tell us how excited they are at	10	In this project, this developer is doing
11	the prospect of being able to walk two blocks	11	the unique effort of going two levels
12	instead of eight blocks to lunch. Many of my	12	underground of parking, at a cost of over 100
13	employees run to lunch, to then run back to the	13	million dollars, in order to help control the
14	office, and many of my employees would love the	14	mass of the of building, and as you may
15	amenities that are being offered by this	15	remember from an exhibit that we showed you at
16	project, and I wanted to give a special thanks	16	the last meeting, if you were to factor in the
17	to the Agave Group, who went out of their way	17	parking garage space, this is roughly
18	over the past two weeks to come to our office	18	equivalent in size, the building that we're
19	and kindly and patiently walk us through	19	proposing today, than what would be proposed
20	numerous documents, answer all of our	20	under the existing Code when you factor in the
21	questions, and we are strongly in favor of the	21	amount of parking that there is.
22	project, and I think that's it. Thank you very	22	You know, the other issues, sort of, there
23	much.	23	was briefly raised there's too many open issues
24	DR. DE LA VEGA: Thank you very much.	24	here. Quite the contrary. Has this Board ever
25	CHAIRMAN AIZENSTAT: Thank you.	25	seen a submittal before of this size, of this

1	justified for that area.	1	background. We've been involved in projects
2	Lastly, on the point of retail, I'm going	2	across the United States and in 48 countries
3	to ask Stan Eichelbaum, our retail expert, to	3	around the world. We have been leaders in
4	come up here and give sort of his conclusions	4	evolvement, to lifestyle retail, urban retail,
5	and studies and analysis that he has done,	5	festival marketplaces, outlet, and all other
6	which are very similar to the study	6	kinds of other retail. We've also been heavily
7	commissioned by the City and done by	7	involved in mixed-use projects. We also have
8	Mr. Lambert, and indeed, at the end of the day,	8	been advisory to a number of cities, including
9	what both of those studies are acknowledging is	9	Portland, Oregon; Pensacola, Florida; and a
10	the changing marketplace in South Florida and	10	number of others that have had great
11	the fact that we're having projects like	11	transformation of their downtowns.
12	Brickell City Center and Miami World Center	12	So we represent both sides and we tell
13	coming on. These projects are somewhere in the	13	developers, we care greatly about community. I
14	vicinity of 600,000 to 900,000 square feet in	14	come out of the Rouse Company roots, which are
15	size.	15	the roots of turnaround in Boston, Philadelphia
16	If you look at the amount of retail that	16	and others, where we learned not to build
17	there is on Miracle Mile today, it's roughly in	17	parcels, but to build city improvement at every
18	the 300,000 range. What we're proposing in	18	turn. It was a commitment we took for our
19	this project is roughly around 300,000. By	19	company, that has stayed with us throughout our
20	putting them together, by doing the connections	20	careers, I think, I hope.
21	that we're doing, by trolley and by	21	In the case of this, we looked at it, and
22	streetscape, we're going to have a business	22	the first words out of our mouths were the need
23	district that's going to be able to compete	23	to make sure that this was all about Miracle
24	with these and attract the tenants that we want	24	Mile, Downtown, the connectivity, that it all
25	in the City. It's that critical mass that we	25	had to end up being one project, and that's how
	Page 142		Page 144
1	need, and we need it done correctly.	1	we've envisioned it, from Day One.
2	On other issues, such as, what do we do	2	We went through a feasibility study, the
3	with the second level, we're the first ones	3	economics of the project. In fact, that has
4	that want to have a successful project. If	4	been studied by Lambert Associates, your peer
5	there are any issues with retail on the second	5	group, at the University of Miami, with a
6	level, then of course, what makes sense is for	6	prominent competitor of ours, Bob Gibbs. They
7	us to convert that to an office use, perhaps,	7	both verified the need for 300,000 square feet
8	or something else that will work. But	8	of retail to make the acceleration of space.
9	remember, that sort of sweet spot number, the	9	We did a second study of the impact that it
10	600,000 square feet that we're looking for in	10	would have on Miracle Mile, which I am
11	total retail between Miracle Mile and the	11	impressed with Agave Ponce that they were
12	project, requires that we be at somewhere	12	concerned that we are right, that it was a
13	around 300,000 with the project right now, and	13	positive impact.
14	to sort of back up that conclusion, I'll ask	14	We did an analogy study across the country,
15	Stan to come up here and sort of give a	15	what is happening to districts like Miracle
16	five-minute or less presentation, and with	16	Mile. We studied it very intensely, looking at
17	that, we will be concluding.	17	places like Birmingham, Michigan, outside of
18	MR. EICHELBAUM: Thank you. Stan	18	Detroit, Georgetown, Kansas City, the Country
19	Eichelbaum, Marketing Developments/Planning	19	Club Plaza, Rodeo Drive, and other urban
20	Developments, Inc., Downtown Fort Lauderdale.	20	districts. We looked at ones that have malls
21	We've been involved in this project now for	21	near them and how they fight off. We've been
22	several years, and when we got involved, we	22	slowly watching the process evolve here,
23	went through extensive study of the	23	realizing the competitiveness that you are up
24	feasibility, and it started with, as we do with	24	against as a district, up against World
25	all projects and I should give you	25	Center's development, up against Brickell City
		÷	· ·

	Page 145		Page 147
1	Center. We've been navigating that and making	1	look at 2020, where is retail heading, and
2	sure that the project would have the	2	we're analyzing and we're watching what's
3	prominence.	3	happening in Latin America, we're watching
4	We did a second impact study and we	4	what's happening in Europe and Asia and
5	realized that communities that, as many of the	5	throughout the United States.
6	speakers have acknowledged, don't come forward	6	With all due respect, there are a number of
7	and expand have been left behind. They become	7	concepts, now, that if you shape your pro forma
8	a service district. There's a need to get to a	8	right, you put your land costs into the grade
9	certain threshold. Approximately 600,000 feet	9	level and then reduce your costs for the second
10	seems to be the minimal level. And as we	10	level. Retailers are looking at that price
11	studied the feasibility of it, we found that if	11	advantage passed on, as an enlargement of their
12	you stayed as a service district and remained	12	mid-size boxes. They're gaining that space and
13	as a service district, and I think you can look	13	they're using it very effectively in many parts
14	at the retailers today with great appreciation,	14	of the world, including several experimenting
15	that Coral Gables is a prominent retail	15	within the United States. Even groceries in
16	community, but it does not have a lot of	16	some spots are looking at that concept. So we
17	prominent retail, because it doesn't have the	17	are watching that.
18	build-to-suit, the larger box capability that	18	We have studied the inventory from Day One.
19	we could bring to that district, and it would	19	One of the things we do when we look at this
20	probably stagnate sales with a 10 percent hit,	20	type of thing is, we will not recommend a
21	with the opening of each of these projects. So	21	project unless we have a depth chart. We have
22	it would stay probably in the mid 300s to high	22	a group that fortunately is in a board room of
23	300s per square foot. With the acceleration	23	what kind of new concepts are coming out in
24	following the districts that have gotten more	24	retail right now. They hear what people are
25	prominent, you go to 600 plus a square foot.	25	envisioning. Obviously, this project has taken
	Page 146		Page 148

The combining with the district is very prominent to this, there's a few other studies, when you can make sure that you're creating a cohesive district. From Day One, we've said, the key is the connectivity of Ponce de Leon. We need to make that a connective retail corridor. The improvements talked about were something we believe in very, very much, a lot of other issues like that. There have been comments about the	2 3 4 5 6 7 8 9 10 11 12	a period of time. We've seen some of those retailers go by the wayside. But we still see enough activity that we are still pretty deep in the inventory of retail as a universe, that we have confidence in it. Would we recommend going back to office if there was a problem? Yes, we would. If there was a paradigm change totally in retail, we could agree with that, but right now, we're pretty comfortable. We can give you the 300,000 feet that Gibbs, Lambert and we all have advised is necessary to give you the girth
2 3 4 5 6 7 8 9 10 11 12 13	City, where there's a respect for the architecture. The combining with the district is very prominent to this, there's a few other studies, when you can make sure that you're creating a cohesive district. From Day One, we've said, the key is the connectivity of Ponce de Leon. We need to make that a connective retail corridor. The improvements talked about were something we believe in very, very much, a lot of other issues like that. There have been comments about the internalization, which Lambert also, in your	2 3 4 5 6 7 8 9 10 11 12 13	a period of time. We've seen some of those retailers go by the wayside. But we still see enough activity that we are still pretty deep in the inventory of retail as a universe, that we have confidence in it. Would we recommend going back to office if there was a problem? Yes, we would. If there was a paradigm change totally in retail, we could agree with that, but right now, we're pretty comfortable. We can give you the 300,000 feet that Gibbs, Lambert and we all have advised is necessary to give you the girth of retail to be a prominent, continuing retail
2 3 4 5 6 7 8 9 10 11 12 13 14	City, where there's a respect for the architecture. The combining with the district is very prominent to this, there's a few other studies, when you can make sure that you're creating a cohesive district. From Day One, we've said, the key is the connectivity of Ponce de Leon. We need to make that a connective retail corridor. The improvements talked about were something we believe in very, very much, a lot of other issues like that. There have been comments about the internalization, which Lambert also, in your advisory to the City made that comment, and the	2 3 4 5 6 7 8 9 10 11 12 13 14	a period of time. We've seen some of those retailers go by the wayside. But we still see enough activity that we are still pretty deep in the inventory of retail as a universe, that we have confidence in it. Would we recommend going back to office if there was a problem? Yes, we would. If there was a paradigm change totally in retail, we could agree with that, but right now, we're pretty comfortable. We can give you the 300,000 feet that Gibbs, Lambert and we all have advised is necessary to give you the girth of retail to be a prominent, continuing retail district, in fact, a well improved retail
2 3 4 5 6 7 8 9 10 11 12 13 14 15	City, where there's a respect for the architecture. The combining with the district is very prominent to this, there's a few other studies, when you can make sure that you're creating a cohesive district. As far as the internalization of space, we are working with that space. The layout you've seen, we have said will change a lot. Retail changes throughout the development. We realize that our equity is on Ponce de Leon. It is that frontage. We want to make as much of that frontage connect to the retail space as

	Page 149		Page 151
1	to make the rest of the space work, or else we	1	ask the questions related to traffic, comment
2	wouldn't even try it, but we're seeing enough.	2	about parking I'm assuming there's comments,
3	I'm pretty confident there.	3	maybe there isn't ask the questions about
4	Irregular space, yes, we have to work with	4	parking, get them out of the way you know,
5	the Right now, you are charged with the	5	in other words, phase it so that we can keep
6	footprint. We have to divide it and get the	6	the comments together, so that we're not
7	build-to-suit to the retailers, and make it all	7	jumping around? At least at this time of the
8	work. So we're cognizant and we agree pretty	8	night, after sitting through so many public
9	much with all the comments, but we believe	9	comments, I would love to have it structured in
10	we're well on the way to the right prominence,	10	a way where we can focus on each component of
11	based on the fact of the great heritage of	11	the site or of the project, if that's
12	Coral Gables as a retail district. Now we've	12	acceptable to you all.
13	got to match the retail to that heritage and	13	CHAIRMAN AIZENSTAT: Is everybody okay with
14	move it towards a future, which we're always	14	that?
15	trying for.	15	MR. BELLIN: How do you propose to do that?
16	I'm available for questions.	16	MS. ALBERRO MENENDEZ: We start, like
17	CHAIRMAN AIZENSTAT: Thank you.	17	saying I have questions concerning parking.
18	MR. GARCIA-SERRA: Thank you very much,	18	I have questions concerning traffic, I have
19	Stan.	19	questions concerning the site plan, I have
20	I will just conclude now by saying, I think	20	questions concerning Form-Based Code, and I
21	it was communicated through all the comments	21	have questions concerning the massing of the
22	that the public gave, the majority of the	22	project, so
23	comments, at least, that both residents who	23	MR. PEREZ: How I would suggest we do it
24	live around this project and the business	24	is, maybe your questions drive our agenda, and
25	community are supportive. The comments and	25	as you go one by one, by
	Page 150		Page 152
1	suggestions that we've gotten from other	1	MS. ALBERRO MENENDEZ: If you guys want.
2	elements of the business community, such as the	2	MR. PEREZ: your items, we can chime in
3	BID and Mr. Bittel, we are more than open to	3	on it, at least of her
4	continue considering those and to incorporate	4	CHAIRMAN AIZENSTAT: There seems to be five
5	them so that their to address their concerns	5	items, correct? Parking, traffic, site plan,
6	within the development agreement or any other	6	massing, and what was the last one?
7	document that's here.	7	MS. ALBERRO MENENDEZ: Parking, traffic,
8	And so it's been a long road, I think that	8	site plan, massing and the Form-Based Code.
9	this proposal is ready for your review, and I	9	CHAIRMAN AIZENSTAT: And the Form-Based
10	think it's one that merits the Staff	10	Code.
11	recommendation and your support, and I would	11	MS. ALBERRO MENENDEZ: And some of those
12	ask that you act upon all the items that are	12	will go together.
13	before you tonight. Thank you.	13	CHAIRMAN AIZENSTAT: Which in general is
14	CHAIRMAN AIZENSTAT: Thank you.	14	the scope of the project.
15	At this point, since we've closed the floor	15	MS. ALBERRO MENENDEZ: Right. I'd say
16	for public comment, let's go ahead and open it	16	Form-Based Code, the site plan and massing
17	up for Board discussion.	17	probably will go together, but I mean, that's
18	MS. ALBERRO MENENDEZ: Can I make a	18	how I would love
19 20	suggestion?	19 20	CHAIRMAN AIZENSTAT: Why don't you start?
20	CHAIRMAN AIZENSTAT: Go ahead, please. MS. ALBERRO MENENDEZ: For the purposes of	20	MR. LEEN: Mr. Chair? CHAIRMAN AIZENSTAT: Yes, go ahead.
22	our discussions, if you all agree, of course,	22	MR. LEEN: Based on how you proposed to
23	you know, there's so many different topics that	23	proceed, I would recommend that you address the
24	have to do with this development, could we take	24	time now, because you're going to run into the
25	like maybe comments about the traffic together,	25	time probably in the first or second category.
	,		1

	Page 153		Page 155
1	I have looked at the Code, and my	1	part of the shared use. It's more, right, the
2	interpretation of the Code is, if you do an	2	overall supply.
3	express vote, you can go beyond 10:00, although	3	MR. HAGAN: Uh-huh.
4	the Code generally calls for it ending at	4	MS. ALBERRO MENENDEZ: You're also taking
5	10:00, but it says "unless otherwise approved	5	into account the on-street parking that's
6	by the Commission," so I've always My	6	adjacent to perhaps other commercial areas?
7	interpretation has been that you can go beyond	7	So, in other words, I notice on Sevilla, you're
8	10:00 if you wish, but I want to put that out	8	counting those, you're counting some on Malaga.
9	there now, because, you know, ultimately you're	9	MR. HAGAN: Yeah. I mean, in terms of the
10	going to have to decide. I don't want you to	10	overall supply and I think the architect may
11	have to rush it, but I also know that it's now	11	be able to help determine the supply of the
12	before you and you've heard everything and this	12	2,691 spaces, the bulk of that is in the
13	is the best time to discuss it.	13	garage, but it does include some of the
14	CHAIRMAN AIZENSTAT: Is there a motion to	14	on-street.
15	go to 10:00?	15	MR. FREED: There's 58 spaces that surround
16	MS. ALBERRO MENENDEZ: I'll make the	16	our site, as on-street parking.
17	motion.	17	MS. ALBERRO MENENDEZ: Right. So that's
18	MR. GRABIEL: Second.	18	part of mostly the Form-Based Code, as far as a
19	CHAIRMAN AIZENSTAT: First and second. Any	19	component of it, allowing you to do that; is
20	comments?	20	that correct?
21	Call the roll, please.	21	MR. FREED: That's my understanding.
22	MS. MENENDEZ: Maria Menendez?	22	MS. ALBERRO MENENDEZ: Okay.
23	MS. ALBERRO MENENDEZ: Yes.	23	CHAIRMAN AIZENSTAT: What percentage would
24	MS. MENENDEZ: Alberto Perez?	24	that 58 be, out of your total parking?
25	MR. PEREZ: Yes.	25	MR. FREED: It's late.
	Page 154		Page 156
-			
1	MS. MENENDEZ: Marshall Bellin?	1	MS. ALBERRO MENENDEZ: Yes.
2	MR. BELLIN: Yes.	2	MS. ALBERRO MENENDEZ: Yes. MR. HAGAN: It's just slightly over two
	MR. BELLIN: Yes. MS. MENENDEZ: Anthony Bello?		MR. HAGAN: It's just slightly over two percent.
2 3 4	MR. BELLIN: Yes. MS. MENENDEZ: Anthony Bello? MR. BELLO: Yes.	2 3 4	MR. HAGAN: It's just slightly over two
2 3 4 5	MR. BELLIN: Yes. MS. MENENDEZ: Anthony Bello? MR. BELLO: Yes. MS. MENENDEZ: Jeff Flanagan?	2 3 4 5	MR. HAGAN: It's just slightly over two percent. CHAIRMAN AIZENSTAT: Okay. So it's a small amount.
2 3 4 5 6	MR. BELLIN: Yes. MS. MENENDEZ: Anthony Bello? MR. BELLO: Yes. MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes.	2 3 4 5 6	MR. HAGAN: It's just slightly over two percent. CHAIRMAN AIZENSTAT: Okay. So it's a small amount. MR. HAGAN: Uh-huh.

ALBERRO MENENDEZ: Can I have the parking consultant? I'm familiar Hi, how are you? I'm familiar with shared-use parking. I'm not as familiar with the one that you introduced, although I read about it in your reports. The shared-use parking, I know that you also have a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MR. HAGAN: It's just slightly over two percent. CHAIRMAN AIZENSTAT: Okay. So it's a small amount. MR. HAGAN: Uh-huh. MR. BELLIN: Maria, I'd like to ask a question, to clarify. MS. ALBERRO MENENDEZ: Sure. MR. BELLIN: How is the parking related to the Form-Based Code? MR. FREED: There's certain I'm not sure I'm the right person to speak to the Form-Based Code, but there's certain requirements of any code that provide requirements for parking, and so the Form-Based Code also has its requirements, because its intention is to replace the City Code for this district. So it has to define what our parking requirements are and what can be counted and what can't be
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	MR. BELLIN: Yes. MS. MENENDEZ: Anthony Bello? MR. BELLO: Yes. MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Eibi Aizenstat? CHAIRMAN AIZENSTAT: Yes. Why don't we go ahead and start by looking at the parking, which was the first item. Maria? MS. ALBERRO MENENDEZ: Can I have the parking consultant? I'm familiar Hi, how are you? I'm familiar with shared-use parking. I'm not as familiar with the one that you introduced, although I read about it in your reports. The shared-use parking, I know that you also have a component where you're taking into account the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	MR. HAGAN: It's just slightly over two percent. CHAIRMAN AIZENSTAT: Okay. So it's a small amount. MR. HAGAN: Uh-huh. MR. BELLIN: Maria, I'd like to ask a question, to clarify. MS. ALBERRO MENENDEZ: Sure. MR. BELLIN: How is the parking related to the Form-Based Code? MR. FREED: There's certain I'm not sure I'm the right person to speak to the Form-Based Code, but there's certain requirements of any code that provide requirements for parking, and so the Form-Based Code also has its requirements, because its intention is to replace the City Code for this district. So it has to define what our parking requirements are and what can be counted and what can't be counted.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MR. BELLIN: Yes. MS. MENENDEZ: Anthony Bello? MR. BELLO: Yes. MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Eibi Aizenstat? CHAIRMAN AIZENSTAT: Yes. Why don't we go ahead and start by looking at the parking, which was the first item. Maria? MS. ALBERRO MENENDEZ: Can I have the parking consultant? I'm familiar Hi, how are you? I'm familiar with shared-use parking. I'm not as familiar with the one that you introduced, although I read about it in your reports. The shared-use parking, I know that you also have a component where you're taking into account the on-street parking. Is that correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MR. HAGAN: It's just slightly over two percent. CHAIRMAN AIZENSTAT: Okay. So it's a small amount. MR. HAGAN: Uh-huh. MR. BELLIN: Maria, I'd like to ask a question, to clarify. MS. ALBERRO MENENDEZ: Sure. MR. BELLIN: How is the parking related to the Form-Based Code? MR. FREED: There's certain I'm not sure I'm the right person to speak to the Form-Based Code, but there's certain requirements of any code that provide requirements for parking, and so the Form-Based Code also has its requirements, because its intention is to replace the City Code for this district. So it has to define what our parking requirements are and what can be counted and what can't be counted. MR. GARCIA-SERRA: Dan, if I might, I think
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MR. BELLIN: Yes. MS. MENENDEZ: Anthony Bello? MR. BELLO: Yes. MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Eibi Aizenstat? CHAIRMAN AIZENSTAT: Yes. Why don't we go ahead and start by looking at the parking, which was the first item. Maria? MS. ALBERRO MENENDEZ: Can I have the parking consultant? I'm familiar Hi, how are you? I'm familiar with shared-use parking. I'm not as familiar with the one that you introduced, although I read about it in your reports. The shared-use parking, I know that you also have a component where you're taking into account the on-street parking. Is that correct? MR. HAGAN: Well, it's taken into account	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MR. HAGAN: It's just slightly over two percent. CHAIRMAN AIZENSTAT: Okay. So it's a small amount. MR. HAGAN: Uh-huh. MR. BELLIN: Maria, I'd like to ask a question, to clarify. MS. ALBERRO MENENDEZ: Sure. MR. BELLIN: How is the parking related to the Form-Based Code? MR. FREED: There's certain I'm not sure I'm the right person to speak to the Form-Based Code, but there's certain requirements of any code that provide requirements for parking, and so the Form-Based Code also has its requirements, because its intention is to replace the City Code for this district. So it has to define what our parking requirements are and what can be counted and what can't be counted. MR. GARCIA-SERRA: Dan, if I might, I think the most direct answer is that the Form-Based
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MR. BELLIN: Yes. MS. MENENDEZ: Anthony Bello? MR. BELLO: Yes. MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Eibi Aizenstat? CHAIRMAN AIZENSTAT: Yes. Why don't we go ahead and start by looking at the parking, which was the first item. Maria? MS. ALBERRO MENENDEZ: Can I have the parking consultant? I'm familiar Hi, how are you? I'm familiar with shared-use parking. I'm not as familiar with the one that you introduced, although I read about it in your reports. The shared-use parking, I know that you also have a component where you're taking into account the on-street parking. Is that correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MR. HAGAN: It's just slightly over two percent. CHAIRMAN AIZENSTAT: Okay. So it's a small amount. MR. HAGAN: Uh-huh. MR. BELLIN: Maria, I'd like to ask a question, to clarify. MS. ALBERRO MENENDEZ: Sure. MR. BELLIN: How is the parking related to the Form-Based Code? MR. FREED: There's certain I'm not sure I'm the right person to speak to the Form-Based Code, but there's certain requirements of any code that provide requirements for parking, and so the Form-Based Code also has its requirements, because its intention is to replace the City Code for this district. So it has to define what our parking requirements are and what can be counted and what can't be counted. MR. GARCIA-SERRA: Dan, if I might, I think

	Page 157		Page 159
1	order to provide the amount of parking that	1	and you know, to bring them into the trolley
2	we're proposing to provide.	2	and take them down
3	Perhaps there's some other things, such as,	3	MR. GARCIA-SERRA: Sure.
4	permit you to count the on-street spaces, but	4	MS. ALBERRO MENENDEZ: it's going to
5	the big answer, I think, is, it permits us to	5	take time. You're going to have people stacked
6	use the shared-parking methodology.	6	up. It happens now.
7	CHAIRMAN AIZENSTAT: Let me let Maria	7	MR. GARCIA-SERRA: Yeah.
8	continue.	8	MS. ALBERRO MENENDEZ: I mean, I love our
9	MS. ALBERRO MENENDEZ: You also have the	9	trolley system. Don't get me wrong. Some of
10	trolley stops. Are you planning to on	10	us were part of it, when it first came in, but
11	Ponce. Are you planning to provide a proper	11	I'm trying to see if we can take advantage of
12	trolley stop, a physical one, where you go in	12	the fact that we're redoing all of the
13	and out, or are you just dependent on the	13	sidewalks and maybe there's a way of doing it
14	street? My concern, if you're going to manage	14	where it works.
15	that the way we manage our current trolley	15	MR. GARCIA-SERRA: And our answer on that
16	stops, it's going to interfere with traffic and	16	is, what the City wants, and this Board is part
17	add to the traffic congestion. So how are you	17	of that process, we will provide. So, if the
18	planning to do your trolley stops?	18	conclusion is separate areas where they can
19	MR. FREED: We have not proposed lay-bys	19	pull off, we'll do it.
20	for the trolley.	20	MS. ALBERRO MENENDEZ: Well, they're
21	MS. ALBERRO MENENDEZ: You have not?	21	listening, so maybe they will
22	MR. FREED: We have not.	22	MR. TRIAS: Mr. Chairman, if I could
23	MS. ALBERRO MENENDEZ: So you're going to	23	explain.
24	do it on the street?	24	CHAIRMAN AIZENSTAT: Yes, Ramon.
25	MR. FREED: As all of the other trolley	25	MR. TRIAS: The Public Works Department,
	Page 158		Page 160
1	Page 158 stops do.	1	Page 160 who runs the trolley, said that they prefer
1 2	-	1 2	
	stops do.		who runs the trolley, said that they prefer
2	stops do. MS. ALBERRO MENENDEZ: I understand, but	2	who runs the trolley, said that they prefer MS. ALBERRO MENENDEZ: I heard that, yes.
2 3	stops do. MS. ALBERRO MENENDEZ: I understand, but we're doing a new development. We're doing a	2 3	who runs the trolley, said that they prefer MS. ALBERRO MENENDEZ: I heard that, yes. MR. TRIAS: Okay, so that's the reason.
2 3 4	stops do. MS. ALBERRO MENENDEZ: I understand, but we're doing a new development. 1 2	Page 161		Page 163
	MS. ALBERRO MENENDEZ: Talk to me about	1	2.15 percent of our parking is on-street.
-	this modal split, because it's an additional	2	CHAIRMAN AIZENSTAT: Thank you.
3	actually, it's an additional seven percent	3	MR. GRABIEL: I have a question.
4	reduction, for a total, in addition to the	4	CHAIRMAN AIZENSTAT: Yes, go ahead.
5	shared parking, of 529 spaces.	5	MR. GRABIEL: When you consider reduction
6	MR. HAGAN: Uh-huh.	6	of parking, did you take into consideration the
7	MS. ALBERRO MENENDEZ: Can you just share	7	internal population of the development, in
8	with me what that bicycles, I imagine. Can	8	other words, the office users and the
9	you just	9	residential? Are those considered to be
10	MR. HAGAN: Pedestrian activity, et cetera,	10	used to walk, obviously, down to the retail
11	yes, and it is exactly that, and part of it is,	11	and therefore do not need additional parking,
12	a lot of the data is predicated on suburban	12	or is that added on top of it?
13	style development where, you know, everyone	13	MR. HAGAN: It's not added on top. We
14	would be driving to a site, parking and	14	mentioned in the report that we did not take an
15	leaving, and given the and you've heard it	15	internal capture reduction, so that is sort of
16	tonight in some of the public comment, of	16	reflected more in the multi-modal capture that
17	people who came up here and said that they	17	we did take, and that is one aspect of shared
18	really look forward to having this place to	18	parking that I'll note. For example, an office
19	walk to and to grab Starbucks and visit it, and	19	user, a tenant in the office space, may walk to
20	that's exactly what this is accounting for, is	20	where the restaurant's there on site for lunch,
21	just the fact that with the trolley service,	21	and in the shared parking methodology, what
22	the bicycle ability and the pedestrian	22	happens is, that car never moves, but in our
23	amenities, et cetera, that there are a lot of	23	graph it kind of goes from the office category
24	opportunities for people to come here without	24	to the restaurant category, because that's
25	driving a car at all, and so that's just taking	25	where the person is going. So it sort of
	Page 162		Page 164
1	that aspect into account, and the reductions	1	you know, and again, that gets taken into
2	were based on data that was in the let me	2	account in the time of day variation. So the
3	make sure I get the exact name on the record	3	capture is sort of taken into account in two
4	the American Community Survey for Miami-Dade	4	different ways, sort of the way in which it
5	County, that data set that was provided in	5	goes from that the person gets assigned from
6	there, and that was included as an exhibit in	6	one use to another, but also the fact that
7	the report. But again, it's just taking into	7	they're walking internally, and we take you
8	account the urban nature of this and that it	8	know, consider that as modal, you know, as a
	lends itself to being served by a lot of other	9	modal trip.
9		10	
10	modes, other than people everyone driving		CHAIRMAN AIZENSTAT: As part of the City's
10 11	their car and parking.	11	review process of the parking, done by Plummer,

Have you taken a look at that? MR. FREED: Actually, since those City comments, we have made a lot of adjustments to those areas. CHAIRMAN AIZENSTAT: Okay. MR. FREED: The project is in schematic design. We have many months ahead of us, in order to get through our design process and ultimately to our documentation process,

	Page 165		Page 167
1	project, by doing those areas that you need to	1	and the direction of Staff was concern about
2	turn around, that you can't, currently?	2	the neighborhood to the east. So we collected
3	MR. FREED: Most of them are Josh is	3	an extensive amount of data, including daily
4	reminding me that we've resolved all of the	4	volumes in the neighborhood to the east, to
5	dead ends, so the count is up-to-date and	5	better understand the current conditions on
6	current.	6	those roadways, relative to the thresholds to
7	CHAIRMAN AIZENSTAT: Okay.	7	implement traffic-calming measures. Miami-Dade
8	Questions about parking? Marshall?	8	County has very specific rules about when you
9	MR. BELLIN: One of the things that	9	can
10	concerns me excuse me. One of the things	10	MS. ALBERRO MENENDEZ: Correct.
11	that concerns me is, how many parking spaces	11	MR. McWILLIAMS: Right, and they're based
12	will you end up losing when you provide the	12	upon some daily criteria. So we had collected
13	landscape that's going to be required? Because	13	that additional data for the purpose of
14	you're going to put mature trees in, and	14	determining whether those corridors would be
15	obviously you can't put those on top of a slab.	15	eligible. It was in the report because it was
16	You've got to have some depth.	16	collected, although in the traffic impact
17	MR. FREED: Correct, and what we've	17	analysis, in this report, this was focused
18	previously mentioned is that the depth of the	18	strictly on a peak hour analysis.
19	garage is going to accommodate those tree pits,	19	With your question to the west,
20	so we normally provide about a four-foot pit	20	essentially, that issue has not We had
21	for the root ball, in depth, and that pit is	21	public meetings and we didn't have a lot of
22	continuous, covering multiple trees, as much as	22	public input relative to traffic-calming
23	possible, in order for the trees to have as	23	measures to the west, but if you look at the
24	much area for roots to grow as possible, and so	24	condition, and I believe it was suggested by
25	there's no tree loss there's no parking loss	25	Tim Plummer, and we've agreed to this
	Page 166		Page 168
			Idge 100
1	based on that. The project is designed with a	1	condition, is that we're going to conduct
1 2	depth to that B1 level that already	2	
	depth to that B1 level that already accommodates tree pits.	2 3	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and
2 3 4	depth to that B1 level that already accommodates tree pits. MR. BELLIN: Okay.	2 3 4	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and then we'll have to go ahead and implement some
2 3 4 5	depth to that B1 level that already accommodates tree pits. MR. BELLIN: Okay. CHAIRMAN AIZENSTAT: Jeff, comments on	2 3 4 5	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and then we'll have to go ahead and implement some traffic-calming to the west
2 3 4 5 6	depth to that B1 level that already accommodates tree pits. MR. BELLIN: Okay. CHAIRMAN AIZENSTAT: Jeff, comments on parking?	2 3 4 5 6	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and then we'll have to go ahead and implement some traffic-calming to the west MS. ALBERRO MENENDEZ: Right.
2 3 4 5 6 7	depth to that B1 level that already accommodates tree pits. MR. BELLIN: Okay. CHAIRMAN AIZENSTAT: Jeff, comments on parking? MR. FLANAGAN: Not on parking.	2 3 4 5 6 7	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and then we'll have to go ahead and implement some traffic-calming to the west MS. ALBERRO MENENDEZ: Right. MR. McWILLIAMS: if it's determined
2 3 4 5 6 7 8	depth to that B1 level that already accommodates tree pits. MR. BELLIN: Okay. CHAIRMAN AIZENSTAT: Jeff, comments on parking? MR. FLANAGAN: Not on parking. CHAIRMAN AIZENSTAT: Any comments?	2 3 4 5 6 7 8	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and then we'll have to go ahead and implement some traffic-calming to the west MS. ALBERRO MENENDEZ: Right. MR. McWILLIAMS: if it's determined warranted.
2 3 4 5 6 7 8 9	depth to that B1 level that already accommodates tree pits. MR. BELLIN: Okay. CHAIRMAN AIZENSTAT: Jeff, comments on parking? MR. FLANAGAN: Not on parking. CHAIRMAN AIZENSTAT: Any comments? Maria?	2 3 4 5 6 7 8 9	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and then we'll have to go ahead and implement some traffic-calming to the west MS. ALBERRO MENENDEZ: Right. MR. McWILLIAMS: if it's determined warranted. MS. ALBERRO MENENDEZ: The issue that I
2 3 4 5 6 7 8 9 10	depth to that B1 level that already accommodates tree pits. MR. BELLIN: Okay. CHAIRMAN AIZENSTAT: Jeff, comments on parking? MR. FLANAGAN: Not on parking. CHAIRMAN AIZENSTAT: Any comments? Maria? MS. ALBERRO MENENDEZ: No, no more.	2 3 4 5 6 7 8 9 10	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and then we'll have to go ahead and implement some traffic-calming to the west MS. ALBERRO MENENDEZ: Right. MR. McWILLIAMS: if it's determined warranted. MS. ALBERRO MENENDEZ: The issue that I think you have now is that the existing volume,
2 3 4 5 6 7 8 9 10 11	<ul> <li>depth to that B1 level that already</li> <li>accommodates tree pits.</li> <li>MR. BELLIN: Okay.</li> <li>CHAIRMAN AIZENSTAT: Jeff, comments on</li> <li>parking?</li> <li>MR. FLANAGAN: Not on parking.</li> <li>CHAIRMAN AIZENSTAT: Any comments?</li> <li>Maria?</li> <li>MS. ALBERRO MENENDEZ: No, no more.</li> <li>CHAIRMAN AIZENSTAT: Go ahead and move on</li> </ul>	2 3 4 5 6 7 8 9 10 11	condition, is that we're going to conduct after-studies, both on the east and the west, to better understand what the impacts are, and then we'll have to go ahead and implement some traffic-calming to the west MS. ALBERRO MENENDEZ: Right. MR. McWILLIAMS: if it's determined warranted. MS. ALBERRO MENENDEZ: The issue that I think you have now is that the existing volume, daily volumes on the west, are high. And I
2 3 4 5 6 7 8 9 10 11 12	<ul> <li>depth to that B1 level that already accommodates tree pits.</li> <li>MR. BELLIN: Okay.</li> <li>CHAIRMAN AIZENSTAT: Jeff, comments on parking?</li> <li>MR. 	Page 169		Page 171
1	tell you, because for the most part, I hear	1	CHAIRMAN AIZENSTAT: Jeff?
2	that a lot of people are excited about the	2	MR. FLANAGAN: Yeah, can I just
3	project, but we also need to address the	3	I think, following up on that, one of the
4	impact.	4	Staff conditions, I think it's Number 9, it
5	MR. McWILLIAMS: Understood. I can tell	5	says the traffic calming studies will be done,
6	you that just one issue that did come out of	6	what I read it to say is, six to 12 months
7	the public meetings was the Banyan Day School,	7	following the project opening. And it lists
8	which is a	8	some very specific streets and areas where the
9	MS. ALBERRO MENENDEZ: That's on Palermo.	9	calming studies will be performed.
10	It's commercial	10	I would suggest that multiple studies be
11	MR. McWILLIAMS: Yeah. It's to the west,	11	required at defined intervals maybe that's
12	yes, and we actually met with the school and we	12	six, 12 and 18 months and that the area be
13	worked with the County to get some	13	expanded, because when you're talking east of
14	improvements. So we didn't ignore the west.	14	
15	We addressed the issues that came up.	15	LeJeune, you're talking Malaga and Catalonia
16	I would say that, you know, the condition's	16	only. I begin to worry, there's been no focus
$10 \\ 17$	• •	17	on the residential section south of University
18	going to require us to do it if there's	18	between LeJeune and Ponce. And as you're
	something you know, and I don't want to		coming up LeJeune, if you have the slightest
19	speak for the team, but if it's something we	19	inkling of Coral Gables and the grid pattern,
20	need to do prior to CO, prior to, you know,	20	it's very easy and extremely convenient to hop
21	building permit, it's something we could study	21	through that residential neighborhood. So,
22	earlier.	22	basically, between University and Bird Road on
23	MS. ALBERRO MENENDEZ: I just would like it		the south, LeJeune on the east I'm sorry, on
24	to be part of the study, as I mentioned, I	24	the west, Ponce on the east, it should include
25	think, the last time we met, because I noticed	25	that entire section, because those are very
	5 150		
	Page 170		Page 172
1	-	1	Page 172 convenient and I think relatively high-
1 2	that that was missing. I think it needs to be	1 2	
2	that that was missing. I think it needs to be part of the study because it does serve as a		convenient and I think relatively high- traveled, pass-through traffic for people

	Page 173		Page 175
1	two decades, has been the peak hour. So that	1	eat and they continue on, that's a pass-by
2	was the focus of the study, because that's	2	trip. That's not a new trip on the network.
3	where you can look at the microscopic	3	MS. ALBERRO MENENDEZ: Right.
4	intersection operations. You can't really do	4	MR. McWILLIAMS: So we take a reduction for
5	that from a daily basis.	5	it. Similarly, the internalization that you
6	MS. ALBERRO MENENDEZ: Right.	6	started to talk about with parking, well, if
5 7	MR. McWILLIAMS: But based upon the same	7	someone visits two uses, you know, in one
8	assumptions we used to develop the peak hour	8	visit, the car doesn't move, we actually do
9	trip generation, the volume is expected to be	9	take a credit for that in the traffic study,
10	around 14,000 a day, total.	10	because that car never went out on the street.
11	MS. ALBERRO MENENDEZ: Let me ask you, in	11	
12	the concurrency statement that the City issued,	12	It stayed there for multiple use visits. So we take an internalization.
13	it says site demand for trips is 27,266. Who	13	
$13 \\ 14$	-	14	If you go and back up in this calculation,
$14 \\ 15$	came up with that number? MR. McWILLIAMS: You'd have to speak to	15	all the way back to before we take any of these
	*	16	reductions for these different captures, we
16	Staff.		actually are around 22,800 trips a day, which
17	MS. ALBERRO MENENDEZ: Staff, does anybody	17	is probably more consistent with the 27. My
18	know who came up with the 27,266?	18	guess is, that's the concurrency system that
19	Where is Ramon when we need him?	19	the City probably uses. It probably uses some
20	MR. TRIAS: Here. Your question is, who in	20	different trip generation rates that may be a
21	the Staff	21	little older than the most recent version of
22	MS. ALBERRO MENENDEZ: In this	22	the trip generation rates, which we used here.
23	concurrency	23	My experience is, most of the concurrency
24	MR. TRIAS: Yeah, that is	24	systems around Dade County typically use the
25	MS. ALBERRO MENENDEZ: statement, it	25	fifth edition of trip generation. We're using
	Page 174		Page 176
1	says trips, 27,266.	1	the ninth in this study.
2	MR. TRIAS: That was prepared by Sebrina	2	MS. ALBERRO MENENDEZ: Ninth? Okay.
3	Brown, who works in my division.	3	MR. BELLIN: I'd like to ask a question.
4	MS. ALBERRO MENENDEZ: So you don't know	4	MR. McWILLIAMS: Sure.
5	how it came up? You don't know how it was	5	MR. BELLIN: You've done studies to
6	determined?	6	determine traffic impact and so on. What
7	MR. TRIAS: I don't know the details at	7	happens if your studies are not correct? What
8	this point	8	kinds of remedies are there if it turns out
9	MS. ALBERRO MENENDEZ: Okay.	9	that there is a big traffic problem?
10	MR. TRIAS: but certainly I can review	10	MR. McWILLIAMS: Well, I guess I can speak
11	that.	11	to one of the reasons, for instance, Miami-Dade
12	MS. ALBERRO MENENDEZ: All right.	12	County, with the issues of We've identified
13		13	come intersections in the study beard upon
13	MR. McWILLIAMS: Yeah, I can shed a little	110	some intersections in the study, based upon
14	bit of light on it. I just looked here. You	14	projections that we'll fail to meet the level
14 15			• •
14	bit of light on it. I just looked here. You	14	projections that we'll fail to meet the level
14 15	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day,	14 15	projections that we'll fail to meet the level of service standard, and what the County is
14 15 16 17 18	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day, that accounts for reductions for pass-by	14 15 16 17 18	projections that we'll fail to meet the level of service standard, and what the County is going to likely tell us is that that's based upon your projections. When you actually build the project and you actually can go see
14 15 16 17 18 19	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day, that accounts for reductions for pass-by capture, which is, for instance, for retail, if	14 15 16 17	projections that we'll fail to meet the level of service standard, and what the County is going to likely tell us is that that's based upon your projections. When you actually build
14 15 16 17 18	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day, that accounts for reductions for pass-by capture, which is, for instance, for retail, if someone is driving by the site, stops at a	14 15 16 17 18	projections that we'll fail to meet the level of service standard, and what the County is going to likely tell us is that that's based upon your projections. 14 15 16 17 18 19	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day, that accounts for reductions for pass-by capture, which is, for instance, for retail, if someone is driving by the site, stops at a retail establishment and continues down the	14 15 16 17 18 19 20 21	projections that we'll fail to meet the level of service standard, and what the County is going to likely tell us is that that's based upon your projections. When you actually build the project and you actually can go see traffic, you know, out on the street, go ahead
14 15 16 17 18 19 20	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day, that accounts for reductions for pass-by capture, which is, for instance, for retail, if someone is driving by the site, stops at a retail establishment and continues down the road, if they were already on that street but	14 15 16 17 18 19 20	projections that we'll fail to meet the level of service standard, and what the County is going to likely tell us is that that's based upon your projections. When you actually build the project and you actually can go see traffic, you know, out on the street, go ahead and count them again and then we'll consider
14 15 16 17 18 19 20 21	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day, that accounts for reductions for pass-by capture, which is, for instance, for retail, if someone is driving by the site, stops at a retail establishment and continues down the road, if they were already on that street but they stopped at the site	14 15 16 17 18 19 20 21	projections that we'll fail to meet the level of service standard, and what the County is going to likely tell us is that that's based upon your projections. When you actually build the project and you actually can go see traffic, you know, out on the street, go ahead and count them again and then we'll consider what the appropriate measure will be,
14 15 16 17 18 19 20 21 22	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day, that accounts for reductions for pass-by capture, which is, for instance, for retail, if someone is driving by the site, stops at a retail establishment and continues down the road, if they were already on that street but they stopped at the site MR. FREED: And normally driving by the	14 15 16 17 18 19 20 21 22	projections that we'll fail to meet the level of service standard, and what the County is going to likely tell us is that that's based upon your projections. When you actually build the project and you actually can go see traffic, you know, out on the street, go ahead and count them again and then we'll consider what the appropriate measure will be, potentially signalization.
14 15 16 17 18 19 20 21 22 23	bit of light on it. I just looked here. You know, when I mentioned the 14,000 trips a day, that accounts for reductions for pass-by capture, which is, for instance, for retail, if someone is driving by the site, stops at a retail establishment and continues down the road, if they were already on that street but they stopped at the site MR. FREED: And normally driving by the site.	14 15 16 17 18 19 20 21 22 23	projections that we'll fail to meet the level of service standard, and what the County is going to likely tell us is that that's based upon your projections. When you actually build the project and you actually can go see traffic, you know, out on the street, go ahead and count them again and then we'll consider what the appropriate measure will be, potentially signalization. Given that this is not This is what I

1 going to keep the property for a long period of	Page 179
	1 the peak, so that would be the typical way to
2 time, instead of a developer who may sell the	2 approach it, these days, in a very urbanized
3 property after it's entitled or built. It	<ul> <li>area, because obviously we're not going to</li> </ul>
4 really behoves us to make sure traffic flows	4 widen the road to six lanes or anything like
5 well after the project is built, because the	5 that.
6 project won't be successful. So I think you're	6 MR. BELLIN: No.
7 going to see a different standard of care	7 CHAIRMAN AIZENSTAT: I wanted to ask you a
8 relative to any congestion or any issues that	8 little bit about valets.
9 would occur in and around the site, because the	9 MR. McWILLIAMS: Okay.
10 site is just not going to perform well, from a	10 CHAIRMAN AIZENSTAT: The numbers that I see
11 business standpoint, if the traffic conditions	11 in the report about valets, it's a large number
12 are poor.	12 of valets at one time that are needed, whether
13 MR. GARCIA-SERRA: And if I may add, also,	13 it's for the hotel or for certain areas.
14 two important things to note. The City	14 MR. FREED: It's the worst case scenario.
15 required that we use very conservative	15 CHAIRMAN AIZENSTAT: That's what I wanted
16 assumptions in doing the traffic study so as to	16 to ask you.
17 minimize the sort of risk of what happens if	17 MR. FREED: The valet system was designed
18 the study is wrong.	18 at its peak. It wouldn't
19 And secondly, the Staff recommendation is	19 CHAIRMAN AIZENSTAT: The hotel has a I'm
20 also recommending, as a condition of approval,	20 sorry to interrupt you, but let's say the hotel
21 these after-CO traffic studies, follow-up	21 has a function, which if you're having the
22 traffic studies, so that if it wasn't right,	22 ballrooms, the hotel is going to have functions
23 the original studies weren't right and the	and so forth. I think your numbers were like
2.4 generation is greater in a different area, we	24 23 to 29 valets, or somewhere in that area.
25 can address it then with improvements	25 MR. McWILLIAMS: The actual hotel valet was
Page 178	Page 180
1 recommended by those studies.	1 between five and six attendants. That actually
2 MR. BELLIN: I mean, it seems like the	2 was one of the lowest ones. On some of the
3 problem is, after the project is built, there	3 other mixed
4 ain't a whole lot you can do about alleviating	4 CHAIRMAN AIZENSTAT: The north valet
5 the traffic problem. Are there remedies? You	5 station.
6 say signalization, but are there any other	6 MR. McWILLIAMS: Yeah, the north valet,
7 things that you can do to as a backup plan?	7 which would serve some retail and serve the
8 MR. McWILLIAMS: In an urbanized, built-out	8 residential, was a higher number.
8 MR. McWILLIAMS: In an urbanized, built-out 9 area, obviously, there's very little room to	9 Just to explain the assumptions we have to
<ul> <li>8 MR. McWILLIAMS: In an urbanized, built-out</li> <li>9 area, obviously, there's very little room to</li> <li>10 expand roadways, add turn lanes, things like</li> </ul>	<ul> <li>9 Just to explain the assumptions we have to</li> <li>10 use</li> </ul>
<ul> <li>MR. McWILLIAMS: In an urbanized, built-out</li> <li>area, obviously, there's very little room to</li> <li>expand roadways, add turn lanes, things like</li> <li>that. Really, what most of the movement is now</li> </ul>	<ul> <li>Just to explain the assumptions we have to</li> <li>use</li> <li>CHAIRMAN AIZENSTAT: Okay.</li> </ul>
8 MR. McWILLIAMS: In an urbanized, built-out 9 area, obviously, there's very little room to 10 expand roadways, add turn lanes, things like 11 that. Really, what most of the movement is now 12 going towards for improving traffic flow is	<ul> <li>Just to explain the assumptions we have to</li> <li>use</li> <li>CHAIRMAN AIZENSTAT: Okay.</li> <li>MR. McWILLIAMS: in the valet analysis,</li> </ul>
8 MR. McWILLIAMS: In an urbanized, built-out 9 area, obviously, there's very little room to 10 expand roadways, add turn lanes, things like 11 that. Really, what most of the movement is now 12 going towards for improving traffic flow is 13 more about the computerized traffic control	<ul> <li>Just to explain the assumptions we have to</li> <li>use</li> <li>CHAIRMAN AIZENSTAT: Okay.</li> <li>MR. McWILLIAMS: in the valet analysis,</li> <li>we do two different numbers. We do what we</li> </ul>
8 MR. McWILLIAMS: In an urbanized, built-out 9 area, obviously, there's very little room to 10 expand roadways, add turn lanes, things like 11 that. Really, what most of the movement is now 12 going towards for improving traffic flow is 13 more about the computerized traffic control 14 system. It's the system that tries to make the	<ul> <li>Just to explain the assumptions we have to</li> <li>use</li> <li>CHAIRMAN AIZENSTAT: Okay.</li> <li>MR. McWILLIAMS: in the valet analysis,</li> <li>we do two different numbers. We do what we</li> <li>call the average demand, which is consistent</li> </ul>

1	that the retail is peaking, that the movie	1	Enforcement, for certain types of violations.
2	theater is peaking, and those may not actually	2	We can also pull back certain approvals because
3	coincide within one single hour.	3	they're not meeting a condition of approval.
4	Now, I can tell you, I know there was some	4	So there's multiple ways that we can enforce
5	concern that the numbers were in the 20s. We	5	something like that.
6	studied numerous valet operations throughout	6	CHAIRMAN AIZENSTAT: Thank you.
7	South Florida. Just to give you some ideas, I	7	MR. McWILLIAMS: I just want to reiterate,
8	don't know if any of you have been to the Rusty	8	there's even more assumptions in that analysis
9	Pelican restaurant. They consistently staff 25	9	that make it very conservative, in my opinion.
10	to 30 valets during their peak times. We were	10	We had to use a confidence interval, which is,
11	actually out there, counting, several years	11	what percent of the time would the valet queue
12	ago, on that.	12	ever exceed the storage. The City requested
13	A lot of the larger Muvicos Boynton	13	that we use 95 percent, which is the highest
14	Beach, we've actually observed Muvicos in	14	I've ever used in a valet analysis. I've
15	Boynton Beach and Pembroke Pines, also Icon	15	typically used 90, 85, something like that. So
16	Brickell. Boynton Beach has 30 attendants	16	every assumption in that analysis, we pushed to
17	during their peak time, the Muvico. The Muvico	17	the limit of being conservative. So, again,
18	in Pembroke Pines has 25 to 35 attendants	18	it's kind of like what Mario said before. All
19	during their peak time. Icon Brickell,	19	of our analysis, we tried to create a margin of
20	Downtown Miami, has 22 to 30 attendants we	20	error by using very conservative assumptions.
21	observed during their peak time, so and I	21	Yes, sir?
22	can go on. I have several other hotels at	22	MR. GRABIEL: A question on valet. You
23	Miami Beach that staff that level of valets.	23	have valet serving the north tower, residential
24	So I know the number seems high, but you	24	tower, and you have a valet in the center,
25	don't really see the back-of-house operation	25	serving the retail, and you have a valet for
	• •		
	Page 182		Page 184
1	that goes on with the valet. Half of those	1	the hotel, but I don't see a valet for the
2	valets are down in the garage, because it's	2	southern tower. Why is that?
3	more efficient to actually put some valets	3	MR. FREED: Staff asked us to remove that.
4	down, some valets up, so when a car gets	4	I think it was their traffic consultant that
5	called, they don't have to run down and pull it	5	suggested we don't have valet there.
6	and bring it up. So what you may think of as a	6	MR. McWILLIAMS: Given the location
7	lot, you may see 15 valets out there, and that	7	MR. FREED: The intention now would be to
8	may be half of the valets that are actually at	8	serve that property with the hotel valet,
9	the building.	9	because that building is also intended to be a
10	CHAIRMAN AIZENSTAT: Okay.	10	serviced condominium, meaning the hotel would
11	Craig, let me ask you a question.	11 12	actually provide services to that, so it's
12	MR. LEEN: Yes.		logical to assume that that connectivity and
13	CHAIRMAN AIZENSTAT: Going on that, is	13	functionality could occur.
14	there How does the City make sure that the	14	MR. GRABIEL: So a user or a guest going to
15	project has enough valet on staff?	15 16	that tower uses the hotel valet, but then has
16 17	MR. LEEN: For example, if they don't have	17	to walk on the sidewalk around the corner to
18	the valet, how do we enforce it?	18	get into their lobby?
19	CHAIRMAN AIZENSTAT: Yes.	19	MR. FREED: There's actually an interior
20	MR. LEEN: Well, there's different ways we	20	connection through paseos.
21	can enforce it. Obviously, there will be	21	MR. GRABIEL: There's a passage between the
22	certain requirements, for example, in the development agreement or in the Code, and those	22	lobby of the hotel and that office and that other tower?
23	can be enforced in multiple ways. One, we can	23	MR. FREED: Correct.
24	seek specific performance of the development	24	MR. McWILLIAMS: And just to be clear, our
	seek specific performance of the development		mix. Internalizionalis. Ante just to de ciear, dui
25	agreement. We can cite people under Code	25	analysis for the hotel valet included the south

1         tower, so that request to remove the south         1         essentially another - 25? 25 units that are           2         tower yale when it was stand-alone, and         3         going to be sold as condos, with service being           4         included in our report.         3         going to be sold as condos, with service being           4         included in our report.         advantage of the valet service of the hotel,         advantage of the valet service of the hotel,           6         and then every other residential unit in the         advantage of the valet service of the hotel,           7         MiR, and I was meeting with Kevin Kinney, our         9         MiR, FALANGAN: Serviced by the hotel?           10         parking Director, about it. And we will fine         10         one has the opportunity to be serviced by the hotel?           11         supposed to do that. They! Ig et asignificant         11         one has the opportunity to be serviced by the hotel?           11         supposed to do that. They! Ig et asignificant         11         MiR, FLANGAN: Building can or will be serviced by the hotel?           12         hotel, because of the proximity.         MiR, FLANGAN: Right, so the condos in the southern building can or will be serviced by the hotel?           13         MiR, LEEN: The valet company gets the fine.         17           14         MiR, FLANGAN, Night, so the condos in		Page 185		Page 187
2         tower valet when it was stand-alone, and         2         going to be agartment-like units, that are           3         consolidate it with the hotel, that was         3         going to be sold as condos, with service being           4         included in our report.         3         going to be sold as condos, with service being           5         MR, LEEN: Mr. Chair, also, I should add         5         advantage of the valet service of the hotel,           6         that enforcement of valet has actually been an         5         advantage of the valet service of the hotel,           7         that, came up recently regarding Miracle         7         other towers is a standard condominum.           9         MR, transpire towers is a standard condominum.         10         RR FLANAGAN. Serviced by the hotel?           10         Parking Director, about it. And we will fine         10         MR, FLANAGAN. Serviced by the hotel?           11         woold otherwise be available. They're not         13         MR, FLANAGAN. Serviced by the hotel?           14         supposed to do that. They'll get a significant         14         MR, FLANAGAN. Right, solt eondos in the souther motion of poetnisity fine the valet         19           16         they dorta, ad -         16         MR, FLANAGAN. Right, solt eondos in the souther motion of poetnisity fine the valet         19 <t< th=""><th>1</th><th>tower, so that request to remove the south</th><th>1</th><th>essentially another 25? 25 units that are</th></t<>	1	tower, so that request to remove the south	1	essentially another 25? 25 units that are
3       consolidate it with the hotel, that was       3       going to be sold as condos, with service being provided by the hotel, you know, you have the advantage of the valet service of the hotel, and then every other residential unit in the rint is use of late, where the City has been quite         4       min. LEPN: Mr. Char, also, I should add that enforcement of valet has actually been an issue of late, where the City has been quite       and then every other residential unit in the order other valet service of the hotel, and then every other residential mut in the southermonos, on Malaga.         10       Parking Director, about it. And we will fine:       min. FREED: No., I believe only the building one has the opportunity to be serviced by the hotel?         11       someone significantly, like for example, if       10       MR. FREED: The southermonost, on Malaga.         15       fine if they do that, and       13       MR. FLANAGAN: Building one being         16       the hotel?       MR. FLEN: The valet company gets the fine.       16         18       because we could potentially fine the valet       18       MR. FLEN: The valet company gets the fine.         18       because we could potentially fine the valet       18       MR. FLEN: The valet company gets the fine.         19       company, but also the actual property owner       10       MR. FLEN: The valet company gets the fine.         10       more, both of which have committed a       10       MR. FREED: The solut sevence of				
44provided by the hotel, you know the advantage of the valet service of the hotel, advantage of the valet service of the service of the hotel, advantage of the valet service of the hotel, advantage of the hotel, advantage of the hotel, advantage of the valet service of the hotel, advantage of the valet service of the hotel, advantage of the valet service of th				
5       MR. LEEN: Mr. Chair, also, I should add that enforcement of valet has actually been an issue of late, where the City has been quite strict. It came up recently regarding Miracle Mile, and I was meeting with Kevin Kinney, our Parking Director, about it. And we will fine they park a valet car in a parking spot that would othervise be available. They'ne not someone significantly, like for example, if       11       MR. FLANAGAN: Serviced by the botel?         13       would othervise be available. They'ne not someone significantly, like for example, if       11       12       MR. FLANAGAN: Serviced by the botel?         14       MR. FLANAGAN: Serviced by the botel?       12       Note, LEEN: The valet company gets the fine.         15       fine if they do that, and supposed to do that, and some we could potentially fine the valet 20       13       MR. FLANAGAN: Buy the 20 units on top of the hotel?         16       CHAIRMAN AIZENSTAT: Who gets the fine.       17       MR. FLANAGAN: Right, so the condos in the souther molid ling can or will be serviced by the hotel?         20       company, but also the actual property owner to othe book -       21       MR. FLANAGAN: Right, so the condos in the souther molid so possible, yes.         21       obligations. So, you know, in parallel 2       24       Anthony?         25       situations, where we have a tenant and an stricter with Code Enforcement, but we have the ability to cite both.       1       fall under traffic?         3       owner, both of which have cormmitted a the thotel, at				
6       that enforcement of valet has actually been an       and then every other residential unit in the         7       issue of late, where the City has been quite       and then every other residential unit in the         8       strict. It came up recently regarding Mirade       file         9       Mile, and I was meeting with Kevin Kinney, our       file         10       Parking Director, about it. And we will fine       file         11       someone significantly, like for example, if       file         12       they park avalet car in a parking spot that       file         14       supposed to do that. They'll get a significant       file         16       CHAIRMAN AIZENSTAT: Who gets the fine.       file         17       MR, LEEN: The valet company gets the fine.       file         18       Now, this might be something different,       file         19       because we could potentially fine the valet       file         20       company, but also the actual property owner       file         21       here is on the hook –       file       file         22       chAIRMAN AIZENSTAT: Right.       fall under traffic?         3       MR, LEEN: - for these types of       file       fall under traffic?         24       obtho of which have committed a <td< th=""><th></th><th></th><th></th><th></th></td<>				
7       issue of late, where the City has been quite       7       other towers is a standard condominium unit.         8       Mile, and I was meeting with Kevin Kinney, our       10       Parking Director, about it. And we will fine       10         10       parking Director, about it. And we will fine       10       MR. FLANAGAN: Serviced by the hotel?         11       one has the opportunity to be serviced by the       hotel, because of the proximity.         12       they park a valet car in a parking spot that       12         13       would otherwise be available. They're not       13         14       MR. FREED: The southermost, on Malaga.       MR. FLANAGAN: Building one being         14       MR. PREED: The southermost, on Malaga.       MR. FLANAGAN: Right.         15       fine if they do that, and       15         16       CHAIRMAN ALZENSTAT: Who gets the fine.       17         18       Now, this might be something different,       18         19       because we could potentially fine the valet       19         20       company, but also the actual property owner       16         14       MR. PEREJ: That option is possible, yes.       21         21       obligations. So, you know, in paralel       24       Anthony?         22       stratera with Code Enforcement,				5
8       strict. It came up recently regarding Miracle       8       If's going to be for-sale condominiums.         9       Mile, and I was meeting with Kevin Kinney, our       9       MR. FIZANAGAN: Serviced by the botol?         11       someone significantly, like for example, if       10       MR. FIZANAGAN: Building one being         12       they park a valet car in a parking spot that       12       hotel, because of the proximity.         13       would otherwise be available. They're not       13       MR. FIZANAGAN: Plus the 20 units on top of         16       CHAIRMAN AIZENSTAT: Who gets the fine.       14       MR. So I would like or ask that you guys consider
21MR. GARCIA-SERRA: Yeah, okay. 184 is the number of hotel units, and those are not going to be in the condominium form of ownership.21Village, I understand that there's already a designer that's been selected by the City and those designs are ongoing, so I would ask that you look into perhaps speak with that	15 16 17 18	top of the condominium, approximately, that are intended to be residential, serviced as well by the hotel, and those units, those residential units, are counted in our 229 number, as part of the condos.	15 16 17 18	upgraded, it just seems to me that not paying attention to those four or five blocks on the west side doesn't seem or look right. So I would like or ask that you guys consider enhancing the west side, as well.
22number of hotel units, and those are not going22designer that's been selected by the City and23to be in the condominium form of ownership.23those designs are ongoing, so I would ask that24That's going to be under one ownership, those24you look into perhaps speak with that	15 16 17 18 19	top of the condominium, approximately, that are intended to be residential, serviced as well by the hotel, and those units, those residential units, are counted in our 229 number, as part of the condos. MR. FLANAGAN: I'm sorry, Mario, just	15 16 17 18 19	upgraded, it just seems to me that not paying attention to those four or five blocks on the west side doesn't seem or look right. So I would like or ask that you guys consider enhancing the west side, as well. And then on the topic of connectivity
23to be in the condominium form of ownership.23those designs are ongoing, so I would ask that24That's going to be under one ownership, those24you look into perhaps speak with that	15 16 17 18 19 20	top of the condominium, approximately, that are intended to be residential, serviced as well by the hotel, and those units, those residential units, are counted in our 229 number, as part of the condos. MR. FLANAGAN: I'm sorry, Mario, just clarify that. What units are where?	15 16 17 18 19 20	upgraded, it just seems to me that not paying attention to those four or five blocks on the west side doesn't seem or look right. So I would like or ask that you guys consider enhancing the west side, as well. And then on the topic of connectivity between Miracle Mile and the Mediterranean
24 That's going to be under one ownership, those 24 you look into perhaps speak with that	15 16 17 18 19 20 21	top of the condominium, approximately, that are intended to be residential, serviced as well by the hotel, and those units, those residential units, are counted in our 229 number, as part of the condos. MR. FLANAGAN: I'm sorry, Mario, just clarify that. What units are where? MR. GARCIA-SERRA: Yeah, okay. 184 is the	15 16 17 18 19 20 21	upgraded, it just seems to me that not paying attention to those four or five blocks on the west side doesn't seem or look right. So I would like or ask that you guys consider enhancing the west side, as well. And then on the topic of connectivity between Miracle Mile and the Mediterranean Village, I understand that there's already a
	15 16 17 18 19 20 21 22	top of the condominium, approximately, that are intended to be residential, serviced as well by the hotel, and those units, those residential units, are counted in our 229 number, as part of the condos. MR. FLANAGAN: I'm sorry, Mario, just clarify that. What units are where? MR. GARCIA-SERRA: Yeah, okay. 184 is the number of hotel units, and those are not going	15 16 17 18 19 20 21 22	upgraded, it just seems to me that not paying attention to those four or five blocks on the west side doesn't seem or look right. So I would like or ask that you guys consider enhancing the west side, as well. And then on the topic of connectivity between Miracle Mile and the Mediterranean Village, I understand that there's already a designer that's been selected by the City and
25 184 units. In the hotel tower, there are 25 designer or perhaps study their plans and have	15 16 17 18 19 20 21 22 23	top of the condominium, approximately, that are intended to be residential, serviced as well by the hotel, and those units, those residential units, are counted in our 229 number, as part of the condos. MR. FLANAGAN: I'm sorry, Mario, just clarify that. What units are where? MR. GARCIA-SERRA: Yeah, okay. 184 is the number of hotel units, and those are not going to be in the condominium form of ownership.	15 16 17 18 19 20 21 22 23	upgraded, it just seems to me that not paying attention to those four or five blocks on the west side doesn't seem or look right. So I would like or ask that you guys consider enhancing the west side, as well. And then on the topic of connectivity between Miracle Mile and the Mediterranean Village, I understand that there's already a designer that's been selected by the City and those designs are ongoing, so I would ask that
	15 16 17 18 19 20 21 22 23 24	top of the condominium, approximately, that are intended to be residential, serviced as well by the hotel, and those units, those residential units, are counted in our 229 number, as part of the condos. MR. FLANAGAN: I'm sorry, Mario, just clarify that. What units are where? MR. GARCIA-SERRA: Yeah, okay. 184 is the number of hotel units, and those are not going to be in the condominium form of ownership. That's going to be under one ownership, those	15 16 17 18 19 20 21 22 23 24	upgraded, it just seems to me that not paying attention to those four or five blocks on the west side doesn't seem or look right. So I would like or ask that you guys consider enhancing the west side, as well. And then on the topic of connectivity between Miracle Mile and the Mediterranean Village, I understand that there's already a designer that's been selected by the City and those designs are ongoing, so I would ask that you look into perhaps speak with that

	Page 189		Page 191
1	synergies between what's being improved on	1	wants to be CO'd, all the off-site has to be
2	Miracle Mile and the entire drive from Miracle	2	done.
3	Mile south to University.	3	MR. PEREZ: And I would assume that How
4	MR. FREED: With Cooper Robertson	4	is this being I mean, every phase has a
5	identified as the designer for Miracle Mile,	5	permit or how is that being conducted?
6	it's my understanding that Robert Paisley is	6	MR. WU: Whenever the first phase comes in,
7	also assisting with some peer review on that.	7	possibly it's the office building, and if
8	He's assisting with us on our peer review.	8	that's ready to go, to be occupied, we'll ask
9	It's our intention to coordinate heavily and	9	for the off-site improvements to be completed,
10	make it as cohesive as possible.	10	as well.
11	We have the same intent with Fred B.	11	MR. FREED: I think it's important to note
12	Hartnett Park, which I believe is under another	12	that it's the owner's intention to build the
13	City development proposal, and our intention is	13	project as one phase. In an ideal world, we'd
14	to be as cohesive as possible.	14	be getting the north parcel moving ahead as
15	I can't speak to the Certainly the	15	quickly as possible, because there is a new
16	development agreement is going to will	16	potential tenant for a good portion of that
17	ultimately decide and be agreed upon by the	17	office building that would like to be in by a
18	developer, as far as development on the east	18	certain time, and so but it's always been
19	side or west side of	19	the owner's intent of not phasing the project.
20	MR. PEREZ: And I understand the	20	There's certainly staging that's involved in
21	development agreement is ongoing, and that	21	the construction, so a novice eye, looking at
22	leads me to my second question. The timing on	22	the site, might see development happening in
23	these enhancements, obviously, not knowing what	23	different stages, but the intent is for the
24	the schedule looks like for the construction of	24	project to be built at one time. And your nine
25	this project I'm not sure if it's going to	25	to 10-year assuming the power of this Board,
		20

2 3 4	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way	2 3 4	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But
2 3 4 5	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO?	2 3 4 5	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't
2 3 4 5 6	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be	2 3 4 5 6	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the
2 3 4 5 6 7	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture	2 3 4 5 6 7	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be.
2 3 4 5 6 7 8	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one,	2 3 4 5 6 7 8	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you
2 3 4 5 6 7 8 9	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one, wouldn't want to see those enhancements occur	2 3 4 5 6 7 8 9	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you a question. We're getting close to the ten
2 3 4 5 6 7 8 9 10	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one, wouldn't want to see those enhancements occur towards the latter part of the project, because	2 3 4 5 6 7 8 9 10	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you a question. We're getting close to the ten o'clock.
2 3 4 5 6 7 8 9 10 11	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one, wouldn't want to see those enhancements occur towards the latter part of the project, because once again, not knowing how long this project	2 3 4 5 6 7 8 9 10 11	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you a question. We're getting close to the ten o'clock. MR. LEEN: Yes.
2 3 4 5 6 7 8 9 10 11 12	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one, wouldn't want to see those enhancements occur towards the latter part of the project, because once again, not knowing how long this project is going to take, to wait five, six, seven,	2 3 4 5 6 7 8 9 10 11 12	<ul> <li>we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you a question. We're getting close to the ten o'clock. MR. LEEN: Yes. CHAIRMAN AIZENSTAT: Explain to us our</li> </ul>
2 3 4 5 6 7 8 9 10 11 12 13	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one, wouldn't want to see those enhancements occur towards the latter part of the project, because once again, not knowing how long this project is going to take, to wait five, six, seven, eight, nine, 10 years for these enhancements to	2 3 4 5 6 7 8 9 10 11 12 13	we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you a question. We're getting close to the ten o'clock. MR. LEEN: Yes. CHAIRMAN AIZENSTAT: Explain to us our options.
2 3 4 5 6 7 8 9 10 11 12 13 14	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one, wouldn't want to see those enhancements occur towards the latter part of the project, because once again, not knowing how long this project is going to take, to wait five, six, seven, eight, nine, 10 years for these enhancements to be put in place is not something that I	2 3 4 5 6 7 8 9 10 11 12 13 14	<ul> <li>we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you a question. We're getting close to the ten o'clock. MR. LEEN: Yes. CHAIRMAN AIZENSTAT: Explain to us our options. MR. LEEN: So what the Code says is, at ten</li> </ul>
2 3 4 5 6 7 8 9 10 11 12 13 14 15	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one, wouldn't want to see those enhancements occur towards the latter part of the project, because once again, not knowing how long this project is going to take, to wait five, six, seven, eight, nine, 10 years for these enhancements to be put in place is not something that I personally would like to see, so	2 3 4 5 6 7 8 9 10 11 12 13 14 15	<ul> <li>we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you a question. We're getting close to the ten o'clock. MR. LEEN: Yes. CHAIRMAN AIZENSTAT: Explain to us our options. MR. LEEN: So what the Code says is, at ten o'clock, there must be a motion made to</li> </ul>
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	happen all at once or phased out, et cetera, but as far as you guys know, the timing for the streetscape enhancements, once again, from the area towards Miracle Mile, working its way south, is that going to be a condition of CO? Is that going to be work that's going to be done on the onset? Just to get a clear picture as to what timing is, because I, for one, wouldn't want to see those enhancements occur towards the latter part of the project, because once again, not knowing how long this project is going to take, to wait five, six, seven, eight, nine, 10 years for these enhancements to be put in place is not something that I personally would like to see, so MR. WU: Mr. Chair, it's conditioned upon	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	<ul> <li>we hope that the nine and 10-year That's not part of our vocabulary. We're assuming a MR. PEREZ: No, I understand. I was putting a worst case scenario time frame. But my point is that I just don't I wouldn't want to see those improvements happen at the very end of the project, whenever that may be. CHAIRMAN AIZENSTAT: Craig, let me ask you a question. We're getting close to the ten o'clock. MR. LEEN: Yes. CHAIRMAN AIZENSTAT: Explain to us our options. MR. 1 MS. ALBERRO MENENDEZ: I move to extend it 1 basically from it's above the ei	
	ghth story.
2 to 10:30. 2 which seems to differ in height, t	•
3 MR. PEREZ: I second. 3 massing seems to decrease. Do v	
4 CHAIRMAN AIZENSTAT: We have a second. 4 you have the square footage of all	
5 Call the roll, please. 5 floor plates above the eighth floor	
6 MS. MENENDEZ: Marshall Bellin? 6 that it's like the floor plan for I	
7 MR. BELLIN: Yes. 7 to 13 of the north office, the plate	
8 MS. MENENDEZ: Anthony Bello? 8 the north residential tower, Level	
9 MR. BELLO: Yes. 9 same for tower two, residential -	,
10 MS. MENENDEZ: Jeff Flanagan? 10 residential are one, two, three. C	
11 MR. FLANAGAN: Yes. 11 Levels 8 to 13. Hotel, 8 to 19, at	
12 MS. MENENDEZ: Julio Grabiel? 12 like cinema, while it technically	
13 MR. GRABIEL: Yes. 13 the eighth level, that's actually, w	
14 MS. MENENDEZ: Maria Menendez? 14 feet versus, give or take, 80 feet	
15 MS. ALBERRO MENENDEZ: Yes. 15 other buildings?	
16 MS. MENENDEZ: Alberto Perez? 16 MR. FREED: Correct. The c	inema is at 116.
17 MR. PEREZ: Yes. 17 MR. FLANAGAN: Okay.	
18 MS. MENENDEZ: Eibi Aizenstat? 18 MR. FREED: And it's 32,000	square feet.
19 CHAIRMAN AIZENSTAT: Yes. 19 Unfortunately, I don't have the so	1
20 We were talking about parking. Alberto, 20 by level for each individual towe	
21 Tony, any comments? 21 MR. FLANAGAN: Or not ev	
22 MR. BELLO: No. 22 don't know, once we hit, effectiv	•
23 CHAIRMAN AIZENSTAT: No? Anything else on 23 floor, what the dimension is of ea	
24 parking, while we're on the subject? 24 structures?	
25 MR. BELLIN: Traffic. 25 MR. FREED: It hasn't been d	ocumented in
Page 194	Page 196
1 CHAIRMAN AIZENSTAT: I'm sorry, traffic. I 1 the set that we've given you, and	I don't have
2 apologize. No? 2 it in front of me.	I don't have
3 Maria, let's move on. 3 MR. FLANAGAN: All right.	I'm just trying
4 MR. McWILLIAMS: Thank you. 4 to get a better idea in my mind of	
5 MS. ALBERRO MENENDEZ: You know, the rest 5 square footage or building mass i	
6 of my I don't have any more questions. I 6 feet, versus what do we have from	
7 really just have comments and perhaps, you 7 zero to 116. So maybe we'll get	
8 know 8 and look at that.	8
9 CHAIRMAN AIZENSTAT: As far as traffic? 9 Part of my comment goes back	k to the
10 MS. ALBERRO MENENDEZ: No, comments to 10 traffic, although I think it's more	
11 deliberate among ourselves. 11 related. I have a very serious con	
12 CHAIRMAN AIZENSTAT: Let's 12 the hotel entrance. I have a conc	
13 MS. ALBERRO MENENDEZ: Those types of 13 hotel entrance, in and of itself, be	eing on
14 things, but I don't have any more questions 14 Ponce. I have a bigger concern v	•
15 MR. FLANAGAN: I have some questions. 15 proximity to the University Drive	
16 MS. ALBERRO MENENDEZ: for the 16 of Ponce, which is further exace	rbated by the
17developer, but I'm sure others have.17location of the trolley stop, becau	
18 CHAIRMAN AIZENSTAT: Does anybody have any 18 these correctly, the trolley stop is	
19questions specific to site plan?19northbound travel lane of Ponce,	
20MR. FLANAGAN: I do.20southern entrance of the hotel value	let, so there
21 CHAIRMAN AIZENSTAT: Let's take up site 21 are significant conflicts already w	with the
22plan right now. Jeff?22City's trolley service, and I agree	with Maria,
23 MR. FLANAGAN: If I understand the plans 23 I think the trolley service in this	
24 correctly, most buildings go up to eight 24 amazing, it works wonderfully.	
25stories, in the whole project, and it's25don't have more trolleys going and	ound so we

Page	1	9	7

-	100
Page	T 3 3

Page 197	7	Page 199
1 have a shorter wait time, but it happens	1	of the timing. There's a timing with the
2 constantly, because they stop in the travel	2	trolley. They're trying to meet certain times
3 lane, traffic does back up. Traffic in the	3	to get everyone along the route. However, I
4 right-hand lane now starts to try and quickly	4	would tell them, and they're here, that I think
5 jut over and merge into the pass-through	5	they're going to have a lot more passengers
6 traffic in the left lane. Then you get people	6	getting on that trolley, and as a result of
<ul> <li>who then maybe they want to take a</li> </ul>	7	that at that area, at that area. So, as a
8 right-hand turn into one of the side streets.	8	result of that, that delay is going to occur on
9 The trolley is stopped at a trolley stop. It's	9	the street, which is a less preferable delay.
10 like, do they go for it and hope they're not	10	In other words, if you have five, six
11 going to get broadsided by the trolley, or are	11	people, which is not typical of our trolley,
12 they now holding up traffic, in the left travel	12	our trolley picks up three, maybe at max four,
13 lane. So you've got somebody wanting to make a		unless you're at the Metrorail, that's where
14 turn, holding up traffic, and the trolley	14	they get the bulk of their ridership If they
15 holding up traffic. So it happens all the	15	have more than three, four, and you have a lot
16 time, as it is, and when I see the trip	16	more at that corner of the development, it's
17 generation and the location of all of this,	17	going to delay it at that point. So I really
18 there's no question I don't have a question	18	think perhaps a new location, perhaps an area
19 about it. I just have a very serious concern	19	maybe not particularly on the site, but
20 about its location.	20	somewhere where they can safely get on and off
21 It has As the talk went on tonight about	21	without interfering with traffic, I really
22 concerns about the depth of the retail, and I	22	think that would win I mean, that would work
23 think I heard your retail consultant say	23	and be a better win for everyone.
24 there's concern about that I know it was the	24	MR. GARCIA-SERRA: Understood, and we've
25 gentleman from Terranova who was concerned	25	made the commitment, whatever the conclusion is
Page 198	3	Page 200
1 about that, that it may not work. I would	1	or the collective wisdom of the City and
2 suggest, and I'm not the site plan architect,	2	whatever our team can help with, we will go by
3 and you've spent plenty of time and money and I	3	that conclusion and that recommendation
4 know that, but why would you not consider	4	regarding the trolley stop and the location of
5 putting the retail on Ponce? You then wouldn't	5	it.
6 have any curb cuts on Ponce. You are going to,	6	Addressing the issue of the hotel driveway
7 I think, at that point, limit or inhibit any	7	and where it is right now, fronting Ponce, it's
8 conflicts, and you could put the hotel entrance	8	interesting because indeed that same
9 on the side street, which some of the other	9	conversation, we were having three days ago,
10 hotels in town have done, and that way you do	10	after we had had a meeting with some of the
11 activate the Ponce streetfront with the retail,	11	representatives of the BID, and indeed, it's a
12 you've taken the traffic off, and you've put	12	tug and pull between, well, does a hotel want
13 that somewhere deeper in the project, where	13	to have frontage and the grand entrance on
14 it's not going to be a problem.	14	Ponce? Would it prefer it somewhere
15So I'd just put that out there for thought	15	internalized and we prefer to have more retail
16 and discussion.	16	there? And it is something that, you know, I
17 MS. ALBERRO MENENDEZ: But I would think	x 17	guess could be further studied, and if we come
18 that they would want that hotel to be on Ponce,		
	18	to another conclusion, relocate it, but the
19 because that's like a very nice, prominent	19	sort of issues that you identified are indeed
<ul> <li>because that's like a very nice, prominent</li> <li>entry, but let me just let me just add on</li> </ul>	19 20	sort of issues that you identified are indeed the issues on our plate, and it's hard, I
<ul> <li>because that's like a very nice, prominent</li> <li>entry, but let me just let me just add on</li> <li>the comment related to the trolley again,</li> </ul>	19 20 21	sort of issues that you identified are indeed the issues on our plate, and it's hard, I guess, to identify, okay, what really does a
<ul> <li>because that's like a very nice, prominent</li> <li>entry, but let me just let me just add on</li> <li>the comment related to the trolley again,</li> <li>because I sit here and I kind of like</li> </ul>	19 20 21 22	sort of issues that you identified are indeed the issues on our plate, and it's hard, I guess, to identify, okay, what really does a hotel operator want, until we have the hotel
<ul> <li>because that's like a very nice, prominent</li> <li>entry, but let me just let me just add on</li> <li>the comment related to the trolley again,</li> <li>because I sit here and I kind of like</li> <li>remembered I'm sure, and Public Works is</li> </ul>	19 20 21 22 23	sort of issues that you identified are indeed the issues on our plate, and it's hard, I guess, to identify, okay, what really does a hotel operator want, until we have the hotel operator on board, or, you know, specific
<ul> <li>because that's like a very nice, prominent</li> <li>entry, but let me just let me just add on</li> <li>the comment related to the trolley again,</li> <li>because I sit here and I kind of like</li> </ul>	19 20 21 22	sort of issues that you identified are indeed the issues on our plate, and it's hard, I guess, to identify, okay, what really does a hotel operator want, until we have the hotel

1we're willing to continue to MR. FLANAGAN: But, Mario, you know, I mean, if you travel there a lot, that intersection, during the rush hour question about floor areas, if you use - if you go to - lifs Tab 6 of the big binder and to or - lifs Tab 6 of the big binder and guestion about floor areas, if you use - if you go to - lifs Tab 6 of the big binder and dispenditumersection, and think it does answer your question about floor areas, if you use - if you go to - lifs Tab 6 of the big binder and dispenditumersection, and then they want to go and especially morning with people coming and especially morning, with people coming and especially morning with people coming and the they want to go that is start of 12. If you got together all three bindings, and also, when I see1 know at this point and also, when I see1 know at this point throwing in people trying to get into the valet and also, when I see1 know at this point and also, when I see1 know at this point and also, when I see1 know at this point that a couple of these are candidates 22 for signalization, one of them, is that1 Fage 202 Fage 202 Fage 204 MR. FLANAGAN: So it's basically just at 23 this ki's Palermo and Ponce 24 MR. FLANAGAN: So it's basically just at 25 was part of your question or not.Image and also, when you was a provide and the they was a provide and the field was a so and base out to frag. Fage 204 MR. FLANAGAN: No.Image and also, when you was a provide and the field was a so they so it's basically just at 26 the beginning of Hartnett Circle. Another one 27 to finder that a couple of these are candidates 28 to reas and date for it. because I can't even that should ne		Page 201		Page 203
2       MR. FLÁNAGAN: But, Mario, you know, I       2       MR. FREED: And I'm sort, you answer your         3       mean, if you travel there a lot, that       3       question, and I think it does answer your         4       intersection, during the rush hour       4       question about floor arcas, if you use - if         5       MR. FLANAGAN: - both morning and p.m.,       1       it's A-0.15.1 and 2, we have two sheets of FAR         7       and especially morning, with people coming       7       diagrams that define by level the total         9       approaching the Christie's and the US Century       9       MR. FREED: Tab 6, and then it's A-0.15.1,         10       north, you've got two lanes where you can take       9       MR. FREED: Tab 6, and then it's A-0.15.1,         12       roportacing, a lot of conflicts, and when you       12       10       and 2. So these are defining         14       start throwing in people trying to get into the valet       15       the office separately by level, and the hotel         15       and also, when S see - I know at this point       14       it's 41,000 square feet of area. We do define         16       and also, when S see - I know at this point       19       that we're both on the same page, which is, as         17       really becomes a terrible possible situation,       17       MR. GARCIA-SERRA: Mr. FIleaga	1	we're willing to continue to	1	MR. FLANAGAN: Thank you.
3mean, if you travel there a lot, that3question, and I think it does arisver your4intersection, during the rush hour4question about floo rareas, if you use - if5MR, FLANAGAN: both morning and p.m.,and especially morning, with people comingit's A-0.15.1 and 2, we have two sheets of FAR6mortheast on University, so that they're7diagrams that define by level the total7approaching the Christie's and the US Century9MR, FLANAGAN: Tab 8 at what?10bank intersection, and then they want to go10morth, you've got two lanes where you can take11left turns, and there's just at lot of1112left turns, and there's just at lot of1213confusion, a lot of conflicts, and when you1314it's 41,000 square fleet of area. We do define15throwing in people trying to get into the valet16and also, when I see - I know at this point18and also, when I see - I know at this point19nothig is planned to be signalized, but when I20for signalization, one of them, is that -121start three Chriec. Another one22for signalization, one of them, is that -123think it's Palermo and Ponce24MR. FLANAGAN: So it's basically just at25MR. FLANAGAN: So it's basically just at26MR. FLANAGAN: So it's basically just at27Fage 20228MR. FLANAGAN: So it's basically just at29southoound traffic - You'	2	-	2	•
4       intersection, during the rush hour       4       question about floor areas; if you usb if         5       MR, FLANAGAN: both moming and p.m.,       7       you go to It's Tab 6 of the big binder and         7       and especially morning, with people corning       7       diagrams that define by level the total         9       approaching the Christic's and the US Century       9       MR, FLANAGAN: Tab 8 at what?         10       and theresction, and then they wart to go       10       and 2. So these are defining         11       Unfortunately, we group all of the residential Level       12       by level. So, for instance, residential Level         12       confusion, a lot of conflicts, and when you       13       12, if you put foeder all three buildings,         14       start throwing in proble stiguation,       14       15       theoring is planned to be signalized, but when I         19       nothing is planned to be signalized, but when I       16       by individual levels, as well.         12       sheet, that a couple of these are candidates       21       designated Commercial High now and it's going         22       for signalization, one of them, is that - I       22       for signalization, one of them, is that - I         23       sheet, that a couple of these are candidates       21       MR. FLANAGAN: Sto is' basically just 4 </td <th>3</th> <td></td> <th>3</th> <td></td>	3		3	
5       MR. GARCIA-ŠERRA: Sure.       5       you go to - It's Tab 6 of the big binder and         7       and especially morning, with people coming       7       diagrams that define by level the total -         8       mortheast on University, so that they're       9       MR. FLANAGAN: Tab 8 at what?         9       Bank intersection, and then they want to go       10       MR. FREED: Tab 6, and then it's A-0.15.1, and 2. So these are defining -         11       north, you've got two lanes where you can take       11       WR. FREED: Vere the big big inder and         12       by level. So, for instance, residential Level       12       by level. So, for instance, residential Level         13       confusion, a lot of conflicts, and when you       13       12, if you put together all three buildings,         14       it's A-100 square feet of area. We do define       14       14       14         16       throwing in rolley stops and you start       17       MR GARCIA-SERRA: MR. Flanagan, I just         18       and also, when I see - I know at this point       18       18       want to make sure that - MR flanagan, I just         19       nothing is planned to be signalized, on no of them, is that - I       19       the wer's both on the same page, which is, as         21       see on the traffic report, the traffic summary       20       for signalization, on		•		-
6       MR. FLANAGAN: both morning and p.m.,       its Å_0.15.1 and 2. we have two sheets of FAR         7       and especially morning, with people coming       its Å_0.15.1 and 2. we have two sheets of FAR         9       northeast on University, so that they're       approaching the Christie's and the US Century       MR. FLANAGAN: Tab 8 at what?         9       approaching the Christie's and the US Century       mR. FLANAGAN: Tab 8 at what?         11       north, you're got two lanes where you can take       mR. FLANAGAN: Tab 8 at what?         12       left turns, and there's just a lot of       10       ad. 2. So these are defining         12       left turns, and there's just a lot of       11       Level       12         14       start throwing in people trying to get into the valet       11       It's 41,000 square feet of area. We do define         15       the origin is planned to be signalized, but when I       13       12       it's 41,000 square feet of area. We do define         16       and also, when I sec I know at this point       18       want to make gen Ponce, which is, as         17       really becomes a terrible possible situation,       14       MR. FlaanAGAN: Stare MF. Flaana, I just         18       was to main designated Commercial High now and it's going       14       to real as the fontage on Ponce, which is, is         19				
7       and especially morning, with people coming       7       diagrams that define by level the total         8       mortheast on University, so that they're       8       MR. FLANAGAN: Tab 8 at what         9       Bank intersection, and then they want to go       MR. FREED: Tab 6, and then it's A-0.15.1,         10       morth, you've got woo lanes where you can take       MR. FREED: Tab 6, and then it's A-0.15.1,         12       left turms, and there's just a lot of       11         13       confusion, a lot of conflicts, and when you       13         14       it's 41,000 square feet of area. We do define       the office separately by level, and the hotel         15       throwing in propole trying to get into the valet       17         16       and back out of the valet, just think that       16         17       really becomes a terrible possible situation,       17         18       and also, when 1 see I know at this point       19         19       nothing is planned to be signalized, but wen I       19         10       really becomes a terrible possible situation,       17         12       for signalization, one of them, is thatI       22         13       really becomes a terrible possible situation,       17         14       fifts, RFEED: Correct.       24       14				
8         northeast on Úniversity, so that they're         8         MR. FLANAGAN: Tab 8 at what?           9         approaching the Christic's and the US Century         9         MR. FREED: Tab 6, and then it's A-0.15.1, and 2.3 to these are defining           11         north, you've got two lanes where you can take         10         and 2.3 to these are defining           12         left turns, and there's just a lot of         12         by level. So, for instance, residential Level           12         cortusion, a lot of conflicts, and when you         13         12, if you put together all three buildings,           14         start throwing in propher trying to get into the valet         14         it's 41,000 square feet of area. We do define           15         thowing in propher trying to get this that         16         mothing is planned to be signalized, but when I         17           16         and also, when 1 see I know at this point         18         want to make sure that - There's one thing,           17         see on the traffic report, the traffic summary         16         far as the frontage on Ponce, which is, as           24         MR, FREED: Correct.         24         MR, FREED: Correct.         23           24         MR, FREED: Correct.         24         190 feet and six inches. Fm not sure if that           25         indicate for it, because		• •		
9     approaching the Christie's and the ÚS Century     9     MR.FREED: Tab 6, and then it's A-0.15.1,       10     Bank intersection, and then they want to go     10       11     Unfortunately, we group all of the residential       12     left turns, and there's just a lot of       13     confusion, a lot of conflicts, and when you     11       14     it's 41,000 square feet of area. We do define       15     throwing in propel trying to get into the valet       16     and back out of the valet, I just think that     16       17     really becomes a terrible possible situation,     17       18     and also, when 1 see I know at this point     18       20     see on the traffic report, the traffic summary     20       21     for signalization, one of them, is that1     21       23     MR. FREED: Correct.     22       24     MR. FREED: Correct.     23       25     MR. FLANAGAN: So it's basically just at     25       26     readidate for it, because I can't even     1       3     acandidate for it, because I can't even     1       4     acandidate for it, because I can't even     1       5     magine northbound traffic - You've got     5       6     soatibbound traffic - You've got     5       7     around to try and go bac	8		8	с .
10       Bank intersection, and then they want to go       10       and 2. So these are defining         11       north, you've got two lanes where you can take       11       Unfortunately, we group all of the residential         13       confusion, a lot of conflicts, and when you       13       12       by level. So, for instance, residential Level         14       start throwing in people trying to get into the valet       14       it's 41,000 square feet of area. We do define         16       throwing in people trying to get into the valet       15       the office separately by level, and the hotel         16       and also, when I see I know at this point       18       want to make sure that There's one thing,         19       nothing is planned to be signalized, but when I       20       far as the frontage on Ponce, which is is         21       sheet, that a couple of these are candidates       21       designated Commercial High now and it's going         22       for signalization, one of them, is that I       23       proposal, the maximum height permitted there is         24       MR. FREED: Correct.       24       MR. FLANAGAN: So:       25         25       MR. FLANAGAN: So it's basically just at       25       Page 204         26       southound traffic or the circle that comes       7       MR. GARCIA-SERRA: Okay. <tr< td=""><th></th><td></td><th>9</th><td></td></tr<>			9	
11       north, you've got two lanes where you can take       11       Unfortunately, we group all of the residential Level         12       left turns, and there's just a lot of       12       ly bevel. So, for instance, residential Level         13       confusion, a lot of conflicts, and when you       13       12, if you put together all three buildings,         14       start throwing in people trying to get into the valet       15       the office separately by level, and the hotel         15       and back out of the valet, J just think that       16       the office separately by level, and the hotel         16       and back, own I see I know at this point       18       want to make sure that There's one thing,         17       real by individual levels, as well.       17       MR. GARCIA-SERA: Mr. Flanagan, J just         20       see on the traffic report, the traffic summary       20       for signalization, one of them, is thatI         21       for signalization, one of them, is thatI       22       to remain designated Commercial High under our         23       MR. FLANAGAN: So it's basically just at       25       Was part of your question or not.         24       MR. FLANAGAN: So it's basically just at       25       MR. FLANAGAN: No.         25       machida hard have to say, you know, wow,       acandidate for it, because I can teven       4				
12       left turns, and there's just a lot of confusion, a lot of conflicts, and when you       12       by level. So, for instance, residential Level         13       throwing in people trying to get into the valet and back out of the valet, I just think that       14       15       it's 41,000 square feet of area. We do define         16       throwing in people trying to get into the valet and back out of the valet, I just think that       16       by level, and the hotel         17       really becomes a terrible possible situation, and also, when I see I know at this point       17       MR, GARCIA-SERRA: Mr. Flanagan, I just         18       and also, when I see I know at this point       18       realty becomes a terribte possible situation, nothing is planned to be signalized, but when I       19       that we're both on the same page, which is far as the frontage on Ponce, which is         21       sheet, that a couple of them, is that1       12       that we're both on the same page, which is far as the frontage on Ponce, which is         22       for signalization, one of them, is that1       22       the designated Commercial High under our proposal, the maximum height permitted there is         24       MR, FREED: Correct.       23       190 feet and six inches. I'm not sure if that         25       MR, FLANAGAN: So it's basically just at       25       was part of your question or not.         24       Acadidate for it, because I cant even	11			ũ là chí
13       confusion, a lot of conflicts, and when you       13       12, if you put together all three buildings,         14       start throwing in people trying to get into the valet       14       if's 41,000 square feet of area. We do define         16       and back out of the valet, I just think that       16       if's 41,000 square feet of area. We do define         17       really becomes a terrible possible situation,       17       MR. GARCIA-SERA: Mr. Flanagan, I just         18       and also, when I see - I know at this point       18       want to make sure that There's one thing,         19       nothing is planned to be signalized, but when I       19       the we're both on the same page, which is, as         20       see on the traffic report, the traffic summary       20       far as the frontage on Ponce, which is         21       designated Commercial High now and it's going       to remain designated Commercial High now and it's going         22       for signalization, one of them, is that1       22         23       MR. FLANAGAN: So it's basically just at       25         24       MR. FLANAGAN: So it's basically just at       25         25       MR. FLANAGAN: So it's basically just at       25         26       readidate for it, because I can't even       4         3       andidate for it, becauseI can't even       <				
14       start throwing in trolley stops and you start       14       it's 41,000 square feet of area. We do define         15       into back out of the valet, 1 just think that       16       the office separately by level, and the hotel         17       really becomes a terrible possible situation,       17       mand also, when I see I know at this point         19       nothing is planned to be signalized, but when I       18       want to make sure that There's one thing,         20       see on the traffic report, the traffic summary       20       far as the frontage on Ponce, which is, as         21       sheet, that a couple of these are candidates       21       designated Commercial High now and it's going         23       think it's Palermo and Ponce       23       proposal, the maximum height permitted there is         24       MR. FREED: Correct.       24       190 feet and six inches. I'm not sure if that         25       MR. FLANAGAN: So it's basically just at       Page 202       Page 204         14       the beginning of Hartnett Circle. Another one       1       MR. FLANAGAN: No.       2         2       of those that I have to say, you know, wow,       3       MR. FLANAGAN: Mat it's 190 feet now?       3         3       acandidate for it, because I can't even       4       MR. FLANAGAN: Mat it's 190 feet now?       4     <				
15       throwing in people trying to get into the valet       15       the office separately by level, and the hotel         16       and back out of the valet, I just think that       16       by individual levels, as well.         17       really becomes a terrible possible situation,       17       MR GARCIA-SERRA: Mr. Flanagan, I just         18       and also, when I see I know at this point       17       MR GARCIA-SERRA: Mr. Flanagan, I just         19       that we're both on the same page, which is, as       16       by individual levels, as well.         20       see on the tarffic report, the traffic summary       18       far as the frontage on Ponce, which is, as         21       think it's Palermo and Ponce       23       proposal, the maximum heigh permitted there is         23       MR. FLEED: Correct.       24       MR. FLEED: Correct.       24         24       MR. FLANAGAN: So it's basically just at       25       was part of your question or not.         24       magine northbound traffic - You've got       1       MR. FLANAGAN: And you want to go,         3       acandidate for it, because I can't even       4       MR. GARCIA-SERRA: Okay.         3       around to try and go back north, because       7       MR. We all have that.

	Page 209		Page 211
1	these conditions of approval, I said, some of	1	it's going to be no less than a 16-foot
2	these tell me that we're trying to get this to	2	ceiling. So, as minor as they may be, these
3	a finish line as fast as possible, and that's	3	things cause me concern, based on, how is the
4	great, but that there's so many outstanding	4	entirety of the project going to be developed,
5	questions that I think are substantive	5	because if you have That may bring If
6	questions, based on Staff's comments about what	6	it's going to have a building over that, that
7	needs to be done, resolved or answered before	7	may bring building mass closer to the residents
8	it gets to the City Commission level, and I've	8	to the east. There's a single-family home in
9	always appreciated the fact that we basically	9	the middle of all this, that there's only so
10	get the full package. We may have some	10	much that anybody can do for it, if anything,
11	recommendations, comments, concerns. That gets	11	but is it a right-of-way? Is it an easement?
12	transmitted to counsel, also. But we don't get	12	Is it open to the sky above? Is it covered?
13	them in this stage.	13	That was one the questions that I had, still.
14	And, Mario, I know you said before, to the	14	MR. GARCIA-SERRA: If I may, just to sort
15	contrary to what somebody else said, that this	15	of state what our position is on some of those
16	may be I'll use the word premature. You	16	issues. With regards to the development
17	said, this thing has been sliced, diced and	17	agreement, and I would say the application in
18	vetted so many times more than any other	18	its entirety, we feel that it is at a point of
19	application, but I think that's going to happen	19	sufficient elaboration that it's ready for a
20	because of the complexity, and there's only one	20	vote, you know, by this Board, and to be taken
21	application previously, since I've been on this	21	forward to City Commission.
22	Board, that I thought wasn't ripe or ready for	22	You know, I would characterize the
23	us to decide, and that was some property over	23	development agreement in particular as issues
24	off of U.S. 1 and Grand Avenue, and I think	24	that are sufficiently elaborated for this point
25	that got pushed because of some grant money	25	in the zoning approval, maybe not for execution
	Page 210		Page 212
1	that was maybe set to expire.	1	of that document, but there's always, you know,
2	So, based on Staff's recommendation, based	2	subsequent changes that happen, at least in the
3	on their conditions of the recommendation,	3	context of other development agreements that
4	personally, I feel that this is not in a state	4	the City has done on City-owned property.
5	where it's ready for our full recommendation to	5	We have to be careful that this project
6	the City Commission, and especially when I tie	6	doesn't die the death of a thousand paper cuts.
7	in the development agreement, which I think	7	Although it is big, it is complicated, we've
8	both parties, both the City and the applicant,	8	elaborated more than probably any other private
9	have agreed has too many issues outstanding in	9	sector project that's come forward, and we just
10	order for anybody to make a recommendation on	10	need to make progress on the zoning approval
11	it, so that's where I'm coming from.	11	stage in order to justify putting more time,
12	And so, in the process, I'm just trying to	12	resources and effort into working out the
13	figure out in my mind some answers to things	13	details that might remain
14	that I see as inconsistencies. One of those is	14 15	CHAIRMAN AIZENSTAT: Jeff, let me ask you a
15 16	the alleyway that's going to be created, and I	16	question. There are six items on the agenda. MR. FLANAGAN: Right.
10 17	don't know where I read it, at this point. I think it was in Staff's report. In one place,	17	CHAIRMAN AIZENSTAT: Are there any of those
18	it says it's going to be an easement. Another	18	six items that, at this point, you feel
19	place, I read that the condition is that it has	19	comfortable with the information that you have,
20	to be a dedicated right-of-way. Right there, I	20	in order to vote on any of those six items?
21	have a conflict. I don't know if we're getting	21	MR. FLANAGAN: See, I think when I see
22	an easement or we're going to have a dedicated	22	Staff recommend some of the Staff conditions
23	0 0	23	involve, I think, flushing out some details and
	ngnt-ol-way		
	right-of-way. In one place, it says it's going to be open		-
24 25	In one place, it says it's going to be open to the sky above. In another place, it says	24 25	inconsistencies in the site plan and the analysis, and so I really think it's beneficial

	Page 213		Page 215
1	to us no, because they all tie together.	1	MS. ALBERRO MENENDEZ: Right. So, if we
2	MR. LEEN: Mr. Chair, can I add one point	2	were to have amended the ordinance to
3	on that, just for Mr. Flanagan's consideration?	3	accommodate because some of the amenities
4	CHAIRMAN AIZENSTAT: Yes, please.	4	from the Form-Based Code are good.
5	MR. LEEN: The Comprehensive Plan	5	MR. TRIAS: Yes.
6	amendments and the Zoning Code amendments, you	6	MS. ALBERRO MENENDEZ: Rooftop parks,
7	cannot place any conditions on those. Those	7	pedestrian amenities what else? I mean,
8	are legislative changes	8	there's a whole bunch of great things, a green
9	MR. FLANAGAN: Right.	9	building. If we would get the mixed-use
10	MR. LEEN: and I've also already given	10	ordinance and had provided a lot more items
11	an opinion that whether you vote on those today	11	that a developer would be required to
12	or not, this is not going to go to the	12	incorporate in their project and still have an
13	Commission on second reading without all of	13	FAR requirement, whether it's 3.5, whether it's
14	them being together. So, I do think that you	14	where it is now, whether it's a little more, a
15	could Even though they're related, I don't	15	little less, I'm not telling you where it is,
16	think we can say they're tied together, because	16	but couldn't we have accomplished a development
17	one is legislative and one is quasi-judicial,	17	that would have also been sensitive because
18	and the legislative item is before you now in	18	the biggest problem I have with the Form-Based
19	two meetings. I do think you should consider	19	Code, I don't think it works next to a
20	that.	20	neighborhood, single-family neighborhood. But
21	MR. FLANAGAN: That's fair.	21	I love the project.
22	MS. ALBERRO MENENDEZ: I really need to ask	22	MR. TRIAS: Yeah.
23	Staff something, if I may. Who from Staff	23	MS. ALBERRO MENENDEZ: I think it works in
24	knows about mixed-use ordinance, the mixed-use	24	a commercial, purely commercial setting, where
25	ordinance we have?	25	everything is urban. I mean, that's how I view
	Page 214	1	Page 216
1	Page 214 MR TRIAS: Yes	1	Page 216
1 2	MR. TRIAS: Yes.	1	it. I think it works when there's commercial
2	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you	2	it. I think it works when there's commercial surrounding it, but I think that an intensity
	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR	2 3	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the
2 3 4	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects?	2 3 4	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize
2 3 4 5	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you	2 3 4 5	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's
2 3 4	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do.	2 3 4 5 6	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the
2 3 4 5 6	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in	2 3 4 5 6 7	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic
2 3 4 5 6 7	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the	2 3 4 5 6	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with
2 3 4 5 6 7 8	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in	2 3 4 5 6 7 8	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use,
2 3 4 5 6 7 8 9	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be	2 3 4 5 6 7 8 9	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was,
2 3 4 5 6 7 8 9 10	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5?	2 3 4 5 6 7 8 9 10	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use,
2 3 4 5 6 7 8 9 10 11	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med	2 3 4 5 6 7 8 9 10 11	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood
2 3 4 5 6 7 8 9 10 11 12	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes.	2 3 4 5 6 7 8 9 10 11 12	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to
2 3 4 5 6 7 8 9 10 11 12 13	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these	2 3 4 5 6 7 8 9 10 11 12 13	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A
2 3 4 5 6 7 8 9 10 11 12 13 14	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the	2 3 4 5 6 7 8 9 10 11 12 13 14	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in
2 3 4 5 6 7 8 9 10 11 12 13 14 15	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code	2 3 4 5 6 7 8 9 10 11 12 13 14 15	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code MR. TRIAS: Code, yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the townhouses to the residential, but it's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code MR. TRIAS: Code, yes. MS. ALBERRO MENENDEZ: couldn't that have been done through the mixed-use ordinance? MR. TRIAS: Some of them, yes. Not all of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the townhouses to the residential, but it's intense.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code MR. TRIAS: Code, yes. MS. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the townhouses to the residential, but it's intense. You know, you are gaining, as a result of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code MR. TRIAS: Code, yes. MS. ALBERRO MENENDEZ: couldn't that have been done through the mixed-use ordinance? MR. TRIAS: Some of them, yes. Not all of them, but some of them. MS. ALBERRO MENENDEZ: Which ones could not	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the townhouses to the residential, but it's intense. You know, you are gaining, as a result of going with a Form-Based Code, which gives you an FAR of 4.375, as compared to 3.5 if that's the FAR, you're gaining over 250,000
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code MR. TRIAS: Code, yes. MS. ALBERRO MENENDEZ: couldn't that have been done through the mixed-use ordinance? MR. TRIAS: Some of them, yes. Not all of them, but some of them. MS. ALBERRO MENENDEZ: Which ones could not be done?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the townhouses to the residential, but it's intense. You know, you are gaining, as a result of going with a Form-Based Code, which gives you an FAR of 4.375, as compared to 3.5 if
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code MR. TRIAS: Code, yes. MS. ALBERRO MENENDEZ: couldn't that have been done through the mixed-use ordinance? MR. TRIAS: Some of them, yes. Not all of them, but some of them. MS. ALBERRO MENENDEZ: Which ones could not be done? MR. TRIAS: Well, there are some things	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the townhouses to the residential, but it's intense. You know, you are gaining, as a result of going with a Form-Based Code, which gives you an FAR of 4.375, as compared to 3.5 if that's the FAR, you're gaining over 250,000 square feet, you know? Again, I just think that next to a neighborhood, I think it's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code MR. TRIAS: Code, yes. MS. ALBERRO MENENDEZ: couldn't that have been done through the mixed-use ordinance? MR. TRIAS: Some of them, yes. Not all of them, but some of them. MS. ALBERRO MENENDEZ: Which ones could not be done? MR. TRIAS: Well, there are some things that are not in the ordinance, like the shared	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the townhouses to the residential, but it's intense. You know, you are gaining, as a result of going with a Form-Based Code, which gives you an FAR of 4.375, as compared to 3.5 if that's the FAR, you're gaining over 250,000 square feet, you know? Again, I just think that next to a neighborhood, I think it's challenging for any Form-Based Code that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MR. TRIAS: Yes. MS. ALBERRO MENENDEZ: Okay, can you explain to me how that works? What's the FAR on mixed-use ordinance, on mixed-use projects? MR. TRIAS: 3.5 would be the maximum you can do. MS. ALBERRO MENENDEZ: Right, and then in that ordinance, does it basically require the developer to do certain things, in order to be able to take advantage of the 3.5? MR. TRIAS: Yes. That would be the Med Bonus Level 2, yes. MS. ALBERRO MENENDEZ: Right. So all these things that we're considering through the Form-Based Code MR. TRIAS: Code, yes. MS. ALBERRO MENENDEZ: couldn't that have been done through the mixed-use ordinance? MR. TRIAS: Some of them, yes. Not all of them, but some of them. MS. ALBERRO MENENDEZ: Which ones could not be done? MR. TRIAS: Well, there are some things	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	it. I think it works when there's commercial surrounding it, but I think that an intensity of this nature does impact the residents to the east, primarily, and I don't think they realize it now. I think it's a Again, I think it's beautiful, what they're doing for them, the landscaping. It's warranted. The traffic calming is warranted. I'm just concerned with the intensity. When you look at the land use, we've gone from what Old Spanish Village was, which was very sensitive to the neighborhood it was, I think, mid or low intensity to some more commercial high-rise intensity. A beautiful project. They've done a great job in transitioning from the high intensity to the townhouses to the residential, but it's intense. You know, you are gaining, as a result of going with a Form-Based Code, which gives you an FAR of 4.375, as compared to 3.5 if that's the FAR, you're gaining over 250,000 square feet, you know? Again, I just think that next to a neighborhood, I think it's

	Page 217		Page 219
1	successfully done in our City, which is	1	applicant.
2	maximize a 3.5.	2	MS. ALBERRO MENENDEZ: I understand.
3	If you look at the Village of Merrick Park,	3	MR. TRIAS: And you have the option or you
4	that's at a 1.27, but I wouldn't even go there.	4	could recommend to the Commission that it be
5	That's a different project itself. This is not	5	something different. Now, the form-based
6	in a purely commercial area.	6	component to that discussion gives the City
7	MR. TRIAS: If I could clarify	7	more control, not less.
8	MS. ALBERRO MENENDEZ: It's got residents	8	Now, in addition to that, just like the
9	to the east and it's got residents to the west	9	MS. ALBERRO MENENDEZ: But I'm sorry to
10	and it's got residents to the south.	10	interrupt you. In what way do we get control?
11	CHAIRMAN AIZENSTAT: But, Maria, one thing,	11	MR. TRIAS: In the way that things are very
12	though, is, the residents that you speak about	12	clearly delineated, with sections and plans,
13	to the east, they all came up here	13	the fact that we now have
14	MS. ALBERRO MENENDEZ: Because they	14	MS. ALBERRO MENENDEZ: You can achieve that
15	don't	15	through just modifying the mixed-use ordinance.
16	CHAIRMAN AIZENSTAT: in great favor.	16	MR. TRIAS: No, I don't believe you can, at
17	MS. ALBERRO MENENDEZ: Right. Right,	17	that level of detail. Now, you can do some
18	because the development is a beautiful	18	things to make it better, but certainly the
19	development. It's a beautiful development, but	19	form-based component is in the interest of the
20	the impact of the development is going to be	20	City being able to control things here.
21	tested in the future, with traffic	21	MS. ALBERRO MENENDEZ: No, I find there's a
22	CHAIRMAN AIZENSTAT: But are we to tell	22	lot of great things in the form-based
23	those residents that they're wrong?	23	component, but the liberty of allowing a
24	MS. ALBERRO MENENDEZ: No, not at all. I	24	development next to a single-family residence
25	think the project is going to move forward.	25	to build at whatever you know, and I know
	Page 218		Page 220
1	The question is, at what intensity? Do we	1	that the objective is to achieve the design,
2	allow it to go forward with the Form-Based	2	but at what cost, as it relates to a
3	Code, which is at a 4.375, or do you try to	3	single-family residence right next door?
4	bring it down a little bit as far as intensity,	4	MR. TRIAS: Yeah, and that's a policy call,
5	to reduce a little bit of the parking	5	in terms of FAR and massing, not the technique
6	requirements, to reduce a little bit of what	6	of Form-Based There's a distinction.
7	else? Parking, traffic, impact, to reduce I	7	MS. ALBERRO MENENDEZ: No, no, I
8	mean, those are the things I wanted to talk to	8	understand, but my whole The whole concept
9	you about, but I wanted to know a little bit	9	of form-based does not cap I know that Craig
10	more of how we're managing the mixed-use	10	said a little while well, a few hours ago,
11	ordinance.	11	that we could cap it
12	MR. BELLIN: Maria, what	12	MR. TRIAS: Yes.
13	MR. TRIAS: May I just make one comment?	13	MS. ALBERRO MENENDEZ: but in reality,
14	MR. BELLIN: Go ahead.	14	that's not the objective of the Form-Based
15	MR. TRIAS: The issue of the FAR and the	15	Code. The Form-Based Code
16	issue of Form-Based Code are really unrelated.	16	CHAIRMAN AIZENSTAT: Well, then you may as
17	In fact, the City Attorney mentioned earlier	17	well not do the Form-Based Code if you
18	MS. ALBERRO MENENDEZ: I know that, but	18	MS. ALBERRO MENENDEZ: That's my point. I
19	what you in one of your Staff reports, you	19	mean, that's my point. You can
20	gave us a sheet that clearly demonstrates the	20	CHAIRMAN AIZENSTAT: But supposedly, from
21	results of the amount of square footage that	21	what I understand, the Form-Based Code allows
22	the proposed project is requesting, as compared	22	for a specific type of design. If we weren't
23	to the mixed-use, which is a 3.5. Their FAR	23	using the Form-Based Code and we were going
24	results in a 4.375.	24	back to what you're saying, they would have to
25	MR. TRIAS: And that is the request of the	25	go through variance and variance and variance

	Page 221		Page 223
1	to achieve	1	MS. ALBERRO MENENDEZ: The massing.
2	MS. ALBERRO MENENDEZ: No, no, they could	2	MR. BELLIN: But what happens is, the
3	do it through a PAD, is my understanding. They	3	massing has to do really with height. What you
4	could do it	4	could do on a site that's 250,000 square feet
5	CHAIRMAN AIZENSTAT: Mario?	5	is do a six-story building and cover the whole
6	MR. LEEN: Mr. Chair, I would be concerned	6	site, and you've got the same FAR, so
7	with just using the mixed-use ordinance,	7	MR. FREED: And over a million square feet
8	because that applies throughout the City, but	8	of retail, if we choose to use that 3.5 as in
9	you could do it as a PAD. You could do it as a	9	the current Code.
10	PAD	10	MR. BELLIN: And I think your objection is
11	MS. ALBERRO MENENDEZ: You could do it as a	11	more the height of the buildings than it is the
12	PAD.	12	intensity.
13	MR. LEEN: but you have to make	13	MR. FREED: We're providing 500,000 square
14	exceptions in the best interest of the City.	14	feet of residential. It's the largest
15	You'd have to make a number of them.	15	component of the project, and I think the
16	MS. ALBERRO MENENDEZ: And they could move	16	diversity of this project is sort of to the
17	forward they could move forward as it is.	17	benefit of the City, and no one's acknowledging
18	MR. LEEN: I should I don't mean to	18	that.
19	interrupt. I'm sorry.	19	MS. ALBERRO MENENDEZ: My concern is the
20	CHAIRMAN AIZENSTAT: No, no, I just want	20	size
21	to	21	CHAIRMAN AIZENSTAT: Maria, let me stop you
22	MR. LEEN: I should say, though, that, you	22	a second, I'm sorry, because of the time.
23	know, the request, in fairness, although you	23	Is there a motion to extend?
24	are not bound to it, and you could definitely	24	MS. ALBERRO MENENDEZ: I'll move
25	recommend against a Form-Based Code you	25	MR. FLANAGAN: We can extend to 10:45.
	Page 222		Page 224
1	know, the City asked them to look at doing this	1	MS. ALBERRO MENENDEZ: I'll second it.
2	Form-Based Code and putting it together and	2	CHAIRMAN AIZENSTAT: First and second.
3	going through all this review, so	3	Call the roll, please.
4	MS. ALBERRO MENENDEZ: Oh, the City did?	4	MS. MENENDEZ: Anthony Bello?
5	The City did?	5	
6			MR. BELLO: Yes.
	MR. LEEN: The City. My understanding is,	6	MS. MENENDEZ: Jeff Flanagan?
7	City Staff did.	6 7	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes.
7 8	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that.	6 7 8	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel?
7 8 9	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I	6 7 8 9	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes.
7 8 9 10	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I mean, there was a But I do think that at	6 7 8 9 10	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez?
7 8 9 10 11	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I mean, there was a But I do think that at some point, the Commission has to decide that,	6 7 8 9 10 11	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez? MS. ALBERRO MENENDEZ: Yes.
7 8 9 10 11 12	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I mean, there was a But I do think that at some point, the Commission has to decide that, but perhaps your recommendation would be not to	6 7 8 9 10 11 12	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez? MS. ALBERRO MENENDEZ: Yes. MS. MENENDEZ: Alberto Perez?
7 8 9 10 11 12 13	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I mean, there was a But I do think that at some point, the Commission has to decide that, but perhaps your recommendation would be not to do the Form-Based Code.	6 7 8 9 10 11 12 13	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez? MS. ALBERRO MENENDEZ: Yes. MS. MENENDEZ: Alberto Perez? MR. PEREZ: Yes.
7 8 9 10 11 12 13 14	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I mean, there was a But I do think that at some point, the Commission has to decide that, but perhaps your recommendation would be not to do the Form-Based Code. MS. ALBERRO MENENDEZ: I'm just one vote.	6 7 8 9 10 11 12 13 14	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez? MS. ALBERRO MENENDEZ: Yes. MS. MENENDEZ: Alberto Perez? MR. PEREZ: Yes. MS. MENENDEZ: Marshall Bellin?
7 8 9 10 11 12 13 14 15	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I mean, there was a But I do think that at some point, the Commission has to decide that, but perhaps your recommendation would be not to do the Form-Based Code. MS. ALBERRO MENENDEZ: I'm just one vote. MR. LEEN: No, no, I understand that. I	6 7 8 9 10 11 12 13 14 15	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez? MS. ALBERRO MENENDEZ: Yes. MS. MENENDEZ: Alberto Perez? MR. PEREZ: Yes. MS. MENENDEZ: Marshall Bellin? MR. BELLIN: Yes.
7 8 9 10 11 12 13 14 15 16	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I mean, there was a But I do think that at some point, the Commission has to decide that, but perhaps your recommendation would be not to do the Form-Based Code. MS. ALBERRO MENENDEZ: I'm just one vote. MR. LEEN: No, no, I understand that. I understand that.	6 7 8 9 10 11 12 13 14 15 16	MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez? MS. ALBERRO MENENDEZ: Yes. MS. MENENDEZ: Alberto Perez? MR. PEREZ: Yes. MS. MENENDEZ: Marshall Bellin? MR. BELLIN: Yes. MS. MENENDEZ: Eibi Aizenstat?
7 8 9 10 11 12 13 14 15 16 17	City Staff did. MS. ALBERRO MENENDEZ: I didn't know that. MR. LEEN: So the It was mutual. I mean, there was a But I do think that at some point, the Commission has to decide that, but perhaps your recommendation would be not to do the Form-Based Code. MS. ALBERRO MENENDEZ: I'm just one vote. MR. LEEN: No, no, I understand that. I understand that. CHAIRMAN AIZENSTAT: Craig, let me ask you	6 7 8 9 10 11 12 13 14 15 16 17	<ul> <li>MS. MENENDEZ: Jeff Flanagan?</li> <li>MR. FLANAGAN: Yes.</li> <li>MS. MENENDEZ: Julio Grabiel?</li> <li>MR. GRABIEL: Yes.</li> <li>MS. MENENDEZ: Maria Menendez?</li> <li>MS. MENENDEZ: Jeff Flanagan? MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez? MS. ALBERRO MENENDEZ: Yes. MS. MENENDEZ: Alberto Perez? MR. PEREZ: Yes. MS. MENENDEZ: Marshall Bellin? MR. BELLIN: Yes. MS. MENENDEZ: Eibi Aizenstat? CHAIRMAN AIZENSTAT: Yes. Now, Maria MS. ALBERRO MENENDEZ: My biggest CHAIRMAN AIZENSTAT: If I may, just going back on that, I remember at the last meeting that we were here, we took a straw poll that had to do with extending that height, whether

	Page 225		Page 227
1	CHAIRMAN AIZENSTAT: And what the developer	1	massing
2	told us is that they would do the restaurant at	2	MS. ALBERRO MENENDEZ: Well, that's what I
3	the 200 and so forth, or they would go to the	3	thought. That's what I said, massing, but
4	190 or whatever that height would be, without a	4	they're saying that I have a problem with the
5	restaurant.	5	height.
6	MS. ALBERRO MENENDEZ: Right.	6	MR. BELLIN: I think that's the problem.
7	MR. FERNANDEZ: Right.	7	You're talking about the massing, but it's
8	MS. ALBERRO MENENDEZ: But that's	8	really the It's not the mass of the
9	CHAIRMAN AIZENSTAT: I mean, that's what we	9	building, it's the height. It's 218 feet.
10	spoke about. So now are we going back on that?	10	MS. ALBERRO MENENDEZ: Well, I think it's
11	MS. ALBERRO MENENDEZ: No. From my	11	the size that's driving so much impact into the
12	perspective I can only speak for myself I	12	area. It's the size. Whichever way you want
13	never have No, that's a nice component of	13	to say, whether it's the height, the massing,
14	the project. It's a significant component.	14	it's the size that's driving so much traffic,
15	CHAIRMAN AIZENSTAT: So you'd be okay at	15	that's driving so much, you know, parking
16	the 218	16	demands, that's driving so much, that I'm
17	MS. ALBERRO MENENDEZ: Right.	17	concerned that it's going to have an adverse
18	CHAIRMAN AIZENSTAT: with that	18	impact in an area that has residents.
19	restaurant?	19	MR. BELLIN: What's driving all these
20	MS. ALBERRO MENENDEZ: Well, but remember,	20	things is the intensity.
21	the 218 is not a block. It's not	21	MS. ALBERRO MENENDEZ: Right.
22	CHAIRMAN AIZENSTAT: I understand. It's	22	MR. BELLIN: It's not the height, it's the
23	just that	23	intensity.
24	MS. ALBERRO MENENDEZ: It's not It's a	24	MS. ALBERRO MENENDEZ: Okay, I'll take
25	component of the design.	25	the
	Page 226		Page 228
1	CHAIRMAN AIZENSTAT: I understand.	1	MR. BELLIN: You know, at some point, if
2	MS. ALBERRO MENENDEZ: Now, someone might	2	you don't want the project to move ahead as it
3	have a different view. That's simply my view.	3	is, then you deny.
4	CHAIRMAN AIZENSTAT: But the reason I	4	I'd like to make a motion, the one that I
5	mention it to you is because you're talking	5	started
6	about height.	6	CHAIRMAN AIZENSTAT: If you may, just,
7	MS. ALBERRO MENENDEZ: No, I	7	Julio wanted to say something.
8	CHAIRMAN AIZENSTAT: Where that	8	MR. BELLIN: Oh, okay.
9	restaurant where that feature doesn't offset	9	MR. GRABIEL: I've been trying just to jump
10	mass.	10	in. Okay, let me start with saying that I like
11	MS. ALBERRO MENENDEZ: I didn't say height.	11	the project very much.
12	I don't think I said height. I said massing.	12	The Form-Based Code, I think it's a benefit
13	MR. BELLIN: Yeah, but I think your	13	to the City. The elements that we're getting
14	objection is the height. That's what the	14	in this project because of that, it would be
15	bottom line is.	15	very difficult to get otherwise. Everything's
16	CHAIRMAN AIZENSTAT: That's what I'm	16	possible
17	hearing, also.	17	MS. ALBERRO MENENDEZ: Right.
18 19	MS. ALBERRO MENENDEZ: The height?	18 19	MR. GRABIEL: but the probability of
20	MR. BELLIN: It's the height. MS. ALBERRO MENENDEZ: Well, because of the	20	getting the quality of design that we're
20	Commercial Intensity Low, versus Is that	20	getting with this project, without this approach, would be very, very difficult.
22	what you're talking about? My reference to the	22	The liner of offices in front of the
23	land use, is that what you're talking about,	23	parking garage. I'm so sick and tired at
24	that you went from here to here?	24	looking at all the buildings in Downtown Coral
25	MR. PEREZ: With reference to the	25	Gables, where all we see is parking, and
1 7		_ <b>_</b>	cucies, micre un ne see is purking, und

	Page 229		Page 231
1	somewhere above, there is activity of people,	1	you again, on this project.
2	you know. Luckily, we've eliminated parking	2	MS. ALBERRO MENENDEZ: Let me ask you
3	coming down to the ground, that's no longer	3	something. You don't have a problem with the
4	acceptable, but I think that's one of those	4	location of the form-based project being next
5	issues. The arcades, the streetscape, the	5	door to residential?
6	ability of getting retail all the way around	6	MR. GRABIEL: No, not at all. The City of
7	the block. The developer is doing an	7	Coral Gables, and I think I mentioned this
8	incredible project, of synching two levels of	8	before, has Look at the Biltmore. The
9	parking underneath the street, and that is	9	Biltmore is sitting in single-family
10	reducing the bulk and mass of the project.	10	residential and it's a tower that is huge, and
11	MS. ALBERRO MENENDEZ: That's true.	11	it's a huge mass, and it's there.
12	MR. GRABIEL: Okay? If you look at one of	12	I mean, George Merrick located down in
13	the sketches, I don't remember which page it	13	South Dade, where the Edgewater. They have
14	was, if we were to do the parking above-grade,	14	towers sitting down to single-family
15	the building would be bulkier, and still	15	residential. For some reason, it works within
16	acceptable within the parameters of our Zoning	16	the City of Coral Gables.
17	Code, but it would be a much taller building.	17	And then, if we had gotten all of the
18	I think they've actually been able to reduce	18	neighbors in that neighborhood coming here and
19	the massing of the project by taking the	19	complaining about it, I would then have had
20	parking and putting two levels underneath.	20	serious doubt about it. But when we get a
21	That's probably an incredible cost. I've done	21	response from those residents that they like
22	buildings with parking, and they're going to be	22	the project and they're encouraging the
23	building a swimming pool. That's going to have	23	project, I don't have a problem.
24	to be inspected by people with underwater fins,	24	Now, I do want to put a condition that as
25	to be able to do the structural inspection.	25	the project goes into construction I know
	Page 230		Page 232
1	All of those things, I think, will benefit	1	that you put an individual to be the liaison
1 2	All of those things, I think, will benefit the City. There might be minutia that we need	2	
			that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis
2 3 4	the City. There might be minutia that we need	2 3 4	that you put an individual to be the liaison between the developer and the residents, but I
2 3 4 5	the City. There might be minutia that we need to look at, but I understand that the developer	2 3 4 5	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no
2 3 4 5 6	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and	2 3 4 5 6	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential
2 3 4 5 6 7	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely.	2 3 4 5 6 7	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood.
2 3 4 5 6 7 8	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want	2 3 4 5 6 7 8	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course.
2 3 4 5 6 7 8 9	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous	2 3 4 5 6 7 8 9	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to
2 3 4 5 6 7 8 9 10	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile	2 3 4 5 6 7 8 9 10	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought
2 3 4 5 6 7 8 9 10 11	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the	2 3 4 5 6 7 8 9 10 11	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that.
2 3 4 5 6 7 8 9 10 11 12	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to	2 3 4 5 6 7 8 9 10 11 12	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code
2 3 4 5 6 7 8 9 10 11 12 13	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk,	2 3 4 5 6 7 8 9 10 11 12 13	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction
2 3 4 5 6 7 8 9 10 11 12 13 14	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the	2 3 4 5 6 7 8 9 10 11 12 13 14	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So
2 3 4 5 6 7 8 9 10 11 12 13 14 15	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It	2 3 4 5 6 7 8 9 10 11 12 13 14 15	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if we could do that. So that's one of the things	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that construction staging plan will take into
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if we could do that. So that's one of the things that I would encourage both the City and the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that construction staging plan will take into consideration minimizing impacts on the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if we could do that. So that's one of the things that I would encourage both the City and the developer, to try to make those not just	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that construction staging plan will take into consideration minimizing impacts on the residential areas.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if we could do that. So that's one of the things that I would encourage both the City and the developer, to try to make those not just talk to each other, not just take it to Cooper	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that construction staging plan will take into consideration minimizing impacts on the residential areas. CHAIRMAN AIZENSTAT: Alberto, you had
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if we could do that. So that's one of the things that I would encourage both the City and the developer, to try to make those not just talk to each other, not just take it to Cooper Robertson, but actually work it out so all of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that construction staging plan will take into consideration minimizing impacts on the residential areas. CHAIRMAN AIZENSTAT: Alberto, you had Alberto had a comment that you wanted to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if we could do that. So that's one of the things that I would encourage both the City and the developer, to try to make those not just talk to each other, not just take it to Cooper Robertson, but actually work it out so all of the materials on all of them are the same.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that construction staging plan will take into consideration minimizing impacts on the residential areas. CHAIRMAN AIZENSTAT: Alberto, you had Alberto had a comment that you wanted to make?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if we could do that. So that's one of the things that I would encourage both the City and the developer, to try to make those not just talk to each other, not just take it to Cooper Robertson, but actually work it out so all of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that construction staging plan will take into consideration minimizing impacts on the residential areas. CHAIRMAN AIZENSTAT: Alberto, you had Alberto had a comment that you wanted to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the City. There might be minutia that we need to look at, but I understand that the developer and the City feel that they can come to terms with all those issues that have been put on the table, you know, and MR. FERNANDEZ: Absolutely. Absolutely. MR. GRABIEL: The only thing I would want to suggest is that there's a tremendous opportunity in this City since the Miracle Mile study is being made, and you're taking the development and the landscaping all the way to there, that it must be the same. The sidewalk, the texture, the fabric, the planting, the material, it should be flow completely. It would be an incredible benefit to the City if we could do that. So that's one of the things that I would encourage both the City and the developer, to try to make those not just talk to each other, not just take it to Cooper Robertson, but actually work it out so all of the materials on all of them are the same. But I think it's a great project, and I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that you put an individual to be the liaison between the developer and the residents, but I think, beyond that, there should be an analysis and study of how to minimize the impact of the construction on the site, in other words, no concrete trucks running through the residential neighborhood. MR. GARCIA-SERRA: Of course. MR. GRABIEL: Okay, and I would like to have that plan address those issues and brought into the City so they have control of that. MR. WU: Mr. Chair, that's a Code requirement, that they have a construction staging plan, in advance of construction. So that's already codified, City-wide. MR. GARCIA-SERRA: We can emphasize that construction staging plan will take into consideration minimizing impacts on the residential areas. CHAIRMAN AIZENSTAT: Alberto, you had Alberto had a comment that you wanted to make? MR. PEREZ: Yeah, I just have a question

	raye 200		raye 255
1	have put a ton of work into this, and going	1	flux at this point, or certainly not anymore.
2	back, you know, the past year that you guys	2	MR. PEREZ: And basically I'm sorry,
3	started this process, I mean, I'm of the	3	Marshall, but I guess the timing on that
4	opinion that, you know, the ownership has heard	4	would be arrived to or set from the development
5	all our comments, and I know the work and the	5	agreement or the overall PAD or at what point
6	commitment that's goes to undertaking a project	6	in time does Staff truly determine where you
7	such as this, and I mean, I want to commend	7	arrived at, size-wise, of the project?
8	these guys for doing a lot of good work in	8	MR. TRIAS: Well, at the approval level,
9	this, and I feel confident it's going to be a	9	certainly it's at the site plan level approval,
10	great project in the future.	10	which is what we're going through right now.
11	My question is for Ramon. Going back to	11	Then, when they submit a building permit,
12	your earlier slide, and this is just from my	12	that's further reviewed and verified by the
13	personal knowledge, and walking away with the	13	zoning technicians, to make sure that they are
14	comfort that this would be the case, I know	14	complying with the approved site plan, so
15	there's been sort of inconsistencies, or	15	there's a two-stage
16	internal inconsistencies that are still being	16	MR. PEREZ: But, again, the benchmark, once
17	worked through between ownership and the City,	17	it goes through zoning analysis, the benchmark
18	et cetera, but with having to do with total	18	that we're setting is basically what's being
19	FAR, and obviously not knowing yet what that	19	shown in that.
20	total FAR is, and going back to Mr. Leen's	20	MR. TRIAS: Whatever is approved, that's
21	comment earlier on, is there the FAR that's	21	the benchmark.
22	being shown currently, is that the cap that	22	MR. BELLIN: I'd like to say something.
23	it's going to be, or is that FAR still going to	23	CHAIRMAN AIZENSTAT: Marshall?
24	fluctuate over and above what's being shown	24	MR. BELLIN: To put it in perspective,
25	now? Because, again, I want to kind of leave	25	let's say that the zoning didn't change. It's
	Dama 224		
	Page 234		Page 236
1	here with the fact that the cap is what's being	1	a "C" zoning and it's high intensity. So you
2	shown now, and I get it, I understand there's	2	could go to 190 feet or a little more, under
3	still work to be done, but that we're not going	3	that present zoning.
4	to sit here, X amount of months from now, and	4	I don't think they're going any higher than
5	the project has grown.	5	that, up to the single-family residence. In
6	MR. TRIAS: That's the cap, and it's a	6	fact, I think one of the towers was changed
7	reduction from a prior design that they had.	7	because of some of the comments that were made.
8			
	So that was the result of discussion, and my	8	MR. FREED: Of course, we eliminated one.
9	intent is that that if you think that's a	9	MR. FREED: Of course, we eliminated one. MR. BELLIN: Eliminated one of the towers.
9 10	intent is that that if you think that's a good number and if the Commission agrees, that	9 10	MR. FREED: Of course, we eliminated one. MR. BELLIN: Eliminated one of the towers. So, basically, there isn't a whole lot of
9 10 11	intent is that that if you think that's a good number and if the Commission agrees, that that certainly is reasonable.	9 10 11	MR. FREED: Of course, we eliminated one. MR. BELLIN: Eliminated one of the towers. So, basically, there isn't a whole lot of difference between what they have under this
9 10 11 12	intent is that that if you think that's a good number and if the Commission agrees, that that certainly is reasonable. MR. PEREZ: Okay, and then I	9 10 11 12	MR. FREED: Of course, we eliminated one. MR. BELLIN: Eliminated one of the towers. So, basically, there isn't a whole lot of difference between what they have under this ordinance or what they would have, just as the
9 10 11 12 13	intent is that that if you think that's a good number and if the Commission agrees, that that certainly is reasonable. MR. PEREZ: Okay, and then I MR. LEEN: Let me add something to that.	9 10 11 12 13	MR. FREED: Of course, we eliminated one. MR. BELLIN: Eliminated one of the towers. So, basically, there isn't a whole lot of difference between what they have under this ordinance or what they would have, just as the allowable from the Zoning Code.
9 10 11 12 13 14	intent is that that if you think that's a good number and if the Commission agrees, that that certainly is reasonable. MR. PEREZ: Okay, and then I MR. LEEN: Let me add something to that. When we did the trolley building case, it	9 10 11 12 13 14	MR. FREED: Of course, we eliminated one. MR. BELLIN: Eliminated one of the towers. So, basically, there isn't a whole lot of difference between what they have under this ordinance or what they would have, just as the allowable from the Zoning Code. MS. ALBERRO MENENDEZ: I'm just hoping
9 10 11 12 13 14 15	intent is that that if you think that's a good number and if the Commission agrees, that that certainly is reasonable. MR. PEREZ: Okay, and then I MR. LEEN: Let me add something to that. When we did the trolley building case, it became very clear at the Commission level that	9 10 11 12 13 14 15	MR. FREED: Of course, we eliminated one. MR. BELLIN: Eliminated one of the towers. So, basically, there isn't a whole lot of difference between what they have under this ordinance or what they would have, just as the allowable from the Zoning Code. MS. ALBERRO MENENDEZ: I'm just hoping that, at the end of the day, that all that's
9 10 11 12 13 14 15 16	intent is that that if you think that's a good number and if the Commission agrees, that that certainly is reasonable. MR. PEREZ: Okay, and then I MR. LEEN: Let me add something to that. When we did the trolley building case, it became very clear at the Commission level that 4.375 was a precedent, in the sense that we	9 10 11 12 13 14 15 16	MR. FREED: Of course, we eliminated one. MR. BELLIN: Eliminated one of the towers. So, basically, there isn't a whole lot of difference between what they have under this ordinance or what they would have, just as the allowable from the Zoning Code. MS. ALBERRO MENENDEZ: I'm just hoping that, at the end of the day, that all that's been promised to the area residents, we come
9 10 11 12 13 14 15 16 17	<ul> <li>intent is that that if you think that's a good number and if the Commission agrees, that that certainly is reasonable.</li> <li>MR. PEREZ: Okay, and then I MR. 1	on-street parking for the uses that are in	1	fail anybody in this City.
2	there. So	2	MS. ALBERRO MENENDEZ: Thank you. I
3	MR. GARCIA-SERRA: And everything that	3	appreciate that.
4	we've	4	MR. BELLIN: Before we run out of time, I'd
5	MR. FERNANDEZ: Can I speak? I'm sorry,	5	like to make my motion.
6	I'm Hector Fernandez, CEO of Agave Holdings.	6	CHAIRMAN AIZENSTAT: Before you do that, is
7	What I just want to say is that we are really	7	there
8	committed. We will comply with whatever we	8	MS. ALBERRO MENENDEZ: Timing is
9	have to comply.	9	everything.
10	I don't know why there were some two years	10	CHAIRMAN AIZENSTAT: We have to extend if
11	and a half like erased before, but we had tens	11	we're going to make some motions.
12	or maybe dozens of meetings with Pat Salerno,	12	MR. GRABIEL: It's better than a minute a
13	and we have been working on this project for	13	motion?
14	two years and a half. We have, in that piece	14	CHAIRMAN AIZENSTAT: I'd rather not cut it
15	of land, a hundred million dollars invested,	15	that
16	and we're going to invest another 500 million	16	MS. ALBERRO MENENDEZ: Let's just play it
17	dollars, and we are committed with the City and	17	safe and go to 11:00. We're not going to go to
18	you will be proud of the project that we are	18	11:00. I'll make the motion.
19	going to build there. Your grandsons and I are	19	MR. GRABIEL: Second.
20	going to walk there every day, being really	20	CHAIRMAN AIZENSTAT: We have a motion and
21	proud of what we are we have been planning	21	we have a second. Call the roll, please.
22	to do and what we did.	22 23	MS. MENENDEZ: Jeff Flanagan?
23 24	And what we did with Alhambra 396	24	MR. FLANAGAN: Yes. MS. MENENDEZ: Julio Grabiel?
24	Alhambra, you can see that project. That is only an example of what we're going to do.	25	MR. GRABIEL: Yes.
2.5		2.5	
	Page 238		Page 240
1	We're going to improve that project. We invest	1	MS. MENENDEZ: Maria Menendez?
2	more millions than no other developer are	2	MS. ALBERRO MENENDEZ: Yes.
3	willing to invest, because these properties are	3	MS. MENENDEZ: Alberto Perez?
4	for our family for the next generations. This	4	MR. PEREZ: Yes.
5	is a patrimonial investment for the next	5	MS. MENENDEZ: Marshall Bellin?
6	hundred years. Our family our company is a	6	MR. BELLIN: Yes.
7	13 generations company, since 1857, and these	7	MS. MENENDEZ: Anthony Bello?
8 9	investments are for our next generations, and we choose Coral Gables because we knew the high	9	MR. BELLO: Yes. MS. MENENDEZ: Eibi Aizenstat?
10	standards to approve the projects and we wanted	10	CHAIRMAN AIZENSTAT: Yes.
11	to compete just with the best developers. We	11	MR. FLANAGAN: Marshall, I know you want to
12	were tired to compete with developers who were	12	get there, but one quick question, Mario. The
13	willing to invest small money and bringing down	13	single-family house in the middle of the
14	the prices of the rent for the tenants and for	14	project
15	selling the residential.	15	MR. GARCIA-SERRA: Right.
16	My only point is, we were committed with	16	MR. FLANAGAN: Are they on septic or sewer,
17	that building and during the crisis, the worst	17	do you know?
18	crisis in this century, we commit with the	18	MR. GARCIA-SERRA: That's on sewer.
19	Mayor and with the Commissioners to build that	19	MR. FLANAGAN: They're on sewer?
20	building, and we did it. We were the only	20	MR. GARCIA-SERRA: Right.
21	crane during the crisis in Miami. We put all	21	MR. FLANAGAN: Okay.
22	equity, all equity in that building, 140	22	MR. GARCIA-SERRA: Yeah, and if I could
23	million dollars, because we were committed.	23	just conclude, I think that if there's any
24	This is going to be better than that. Thank	24	lingering concern left, it's perhaps on scale
	you very much. We are committed. I will not	25	of the building. We sincerely believe that the
25	you very much. We are committed. I will not	-	of the building. We shieldery believe that the

60 (Pages 237 to 240) Page K.61

	Page 241		Page 243
1	scale is appropriate, that the transition to	1	approve
2	the single-family residence is appropriate,	2	MR. WU: The Comprehensive Plan amendment.
3	also, too, and that the Form-Based Code is the	3	MR. BELLIN: The Comprehensive Plan
4	way to get the quality of design and the amount	4	Amendment Number 1.
5	of public benefits that were proposed.	5	MS. ALBERRO MENENDEZ: Is it safe to follow
6	CHAIRMAN AIZENSTAT: And you still have to	6	this little Is this consistent with the
7	go through all the processes for each building?	7	ordinances, this little thing that Staff had as
8	MR. GARCIA-SERRA: Sure. Yeah, Board of	8	part of their presentation? There's six items.
9	Architects review, building permit review, and	9	Is that six items?
10	so forth, Art in Public Places review.	10	MR. FLANAGAN: There's six, but it differs.
11	CHAIRMAN AIZENSTAT: With the money that's	11	The language differs.
12	given for Art in Public Places, how is that	12	MS. ALBERRO MENENDEZ: It differs?
13	decided? What do we do?	13	MR. FLANAGAN: The language is different
14	MR. GARCIA-SERRA: Well, standard projects	14	than that.
15	are required one percent of hard construction	15	MS. ALBERRO MENENDEZ: All right.
16	costs.	16	CHAIRMAN AIZENSTAT: We should go by the
17	CHAIRMAN AIZENSTAT: Right.	17	sheet.
18	MR. GARCIA-SERRA: We are proffering 1.25	18	MR. BELLIN: So my motion is to approve
19	percent of construction costs, which in this,	19	Amendment Number 1.
20	considering the large amount of construction	20	MR. GRABIEL: Second.
21	costs that are involved here, is an extra	21	MS. ALBERRO MENENDEZ: And which is Your
22	million dollars. Normally, it would be five	22	motion is to which one, this first one?
23	million, the commitment. We're making a	23	CHAIRMAN AIZENSTAT: That's Item Number 5
24	commitment of six million.	24	on our list.
25	CHAIRMAN AIZENSTAT: And who decides what	25	MS. ALBERRO MENENDEZ: Okay, I know which
	Page 242		Page 244
1	art and so forth?	1	Page 244 one it is. It's this one.
1 2		1 2	
	art and so forth?	1	one it is. It's this one.
2	art and so forth? MR. GARCIA-SERRA: After we obtain zoning	2	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5.
2 3	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public	2 3	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution
2 3 4	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art	2 3 4	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item
2 3 4 5	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural	2 3 4 5 6	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is.
2 3 4 5 6	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in	2 3 4 5 6 7 8	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item
2 3 4 5 6 7 8 9	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in Public Places?	2 3 4 5 6 7 8 9	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item Number 5.
2 3 4 5 6 7 8 9 10	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in Public Places? MR. GARCIA-SERRA: It's a work-in-progress.	2 3 4 5 6 7 8 9 10	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item Number 5. MR. LEEN: It's been requested It's
2 3 4 5 6 7 8 9 10 11	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in Public Places? MR. GARCIA-SERRA: It's a work-in-progress. It depends on what adaptive re-use we think we	2 3 4 5 6 7 8 9 10 11	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item Number 5. MR. LEEN: It's been requested It's listed as Applicant's Request Number 1, which
2 3 4 5 6 7 8 9 10 11 12	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in Public Places? MR. GARCIA-SERRA: It's a work-in-progress. It depends on what adaptive re-use we think we can bring to the historic building. The	2 3 4 5 6 7 8 9 10 11 12	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item Number 5. MR. LEEN: It's been requested It's listed as Applicant's Request Number 1, which is the Comprehensive Plan Map Amendment.
2 3 4 5 6 7 8 9 10 11 12 13	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in Public Places? MR. GARCIA-SERRA: It's a work-in-progress. It depends on what adaptive re-use we think we can bring to the historic building. The historic building may very well end up being	2 3 4 5 6 7 8 9 10 11 12 13	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item Number 5. MR. LEEN: It's been requested It's listed as Applicant's Request Number 1, which is the Comprehensive Plan Map Amendment. That's the map amendment.
2 3 4 5 6 7 8 9 10 11 12 13 14	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in Public Places? MR. GARCIA-SERRA: It's a work-in-progress. It depends on what adaptive re-use we think we can bring to the historic building. The historic building may very well end up being indeed some sort of art installation or	2 3 4 5 6 7 8 9 10 11 12 13 14	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item Number 5. MR. LEEN: It's been requested It's listed as Applicant's Request Number 1, which is the Comprehensive Plan Map Amendment. That's the map amendment. MS. ALBERRO MENENDEZ: Which is the
2 3 4 5 6 7 8 9 10 11 12 13 14 15	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in Public Places? MR. GARCIA-SERRA: It's a work-in-progress. It depends on what adaptive re-use we think we can bring to the historic building. The historic building may very well end up being indeed some sort of art installation or exhibition.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item Number 5. MR. LEEN: It's been requested It's listed as Applicant's Request Number 1, which is the Comprehensive Plan Map Amendment. That's the map amendment. MS. ALBERRO MENENDEZ: Which is the redistribution?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	art and so forth? MR. GARCIA-SERRA: After we obtain zoning approvals, we go through the Art in Public Places approval, which is reviewed by the Art in Public Places Advisory Panel, Cultural Development Board, and the City Commission. CHAIRMAN AIZENSTAT: And you've looked at the historic building as a part of the Art in Public Places? MR. GARCIA-SERRA: It's a work-in-progress. It depends on what adaptive re-use we think we can bring to the historic building. The historic building may very well end up being indeed some sort of art installation or exhibition. MS. ALBERRO MENENDEZ: A little museum or	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	one it is. It's this one. CHAIRMAN AIZENSTAT: So Item Number 5. MS. ALBERRO MENENDEZ: It's redistribution of permitted height on site. That's what Item 5 is. CHAIRMAN AIZENSTAT: It's the first item MS. ALBERRO MENENDEZ: Right. CHAIRMAN AIZENSTAT: which is Item Number 5. MR. LEEN: It's been requested It's listed as Applicant's Request Number 1, which is the Comprehensive Plan Map Amendment. That's the map amendment. MS. ALBERRO MENENDEZ: Which is the redistribution? MR. LEEN: Yes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	<ul> <li>art and so forth?</li> <li>MR. 62 (Pages 245 to 248) Page K.63

	Page 249		Page 251
1	on-street parking, where there's other	1	design the project differently.
2	commercial, do you have any objections in the	2	MS. ALBERRO MENENDEZ: All right.
3	Form-Based Code not allowing that to be used	3	CHAIRMAN AIZENSTAT: We have a motion.
4	when there's commercial across from it? In	4	Maria, we have a motion; we have a second.
5	other words, that other commercials are	5	MS. ALBERRO MENENDEZ: No, no, I'm seeing
6	dependent also on that parking; therefore, it	6	if No?
° 7	shouldn't be exclusive to the development, in	7	MR. HAGAN: Again, Chris Hagan, from
8	the calculations.	8	Kimley-Horn. Our surplus, including our
9	MR. GARCIA-SERRA: So not counting	9	total surplus, when we include the on-street
10	on-street parking towards required parking when	10	parking, is 38 spaces, I believe, and so there
11	you have commercial uses	11	are 58 on-street that we were counting. I
12	MS. ALBERRO MENENDEZ: Across from it.	12	would say, you know, if we're looking at being
13	MR. GARCIA-SERRA: also on the street?	13	equitable, at least some of them should count.
14	MS. ALBERRO MENENDEZ: I mean, what are	14	I mean, ideally, we think that all should
15	your thoughts on it? Is that a big thing? I	15	count, but you're saying
16	mean, it's just the whole thought process of	16	MS. ALBERRO MENENDEZ: Okay, so you
17	allowing them to get credit for parking spaces	17	
18	that they're not the only ones using.	18	have wiggle room there, that some you might
19	MR. TRIAS: It's not a big thing.	19	need or some you don't It's just the whole
	MR. GARCIA-SERRA: Yeah.	20	thought process. Other Form-Based Codes will
20			be coming before us, maybe, maybe not, and this
21	MS. ALBERRO MENENDEZ: It's not a what?	21	is already setting a precedent that they can
22	MR. TRIAS: It's not a big thing.	22	use on-street parking for their parking
23	MS. ALBERRO MENENDEZ: Well, I think I need	23	calculations, and I just If there's other
24	to hear from the developer if it's a big thing.	24	commercial establishments depending on that,
25	MR. FREED: Our current requirement, we're	25	because some of that area does not have
	Page 250		Page 252
1	already over the required.	1	parking, I feel kind of funny saying, "Yeah,
2	MS. ALBERRO MENENDEZ: So you're okay?	2	sure, take it all." I mean, it should be all
3	MR. FREED: So and we're already	3	yours. So it's more of a philosophical thing,
4	building 1.3 million square feet of parking	4	but
5	area. So ultimately it's a big deal to add	5	CHAIRMAN AIZENSTAT: Is the 20 going to
6	additional space. We have a very efficient	6	matter to the City?
7	parking garage, and so we would prefer not to	7	MS. ALBERRO MENENDEZ: Well, it's mostly
8	have to do that. It wasn't our idea to include	8	the Form-Based Code.
9	on-street parking. It was Staff's idea to	9	CHAIRMAN AIZENSTAT: I understand, but
10	include on-street parking. And so our	10	MS. ALBERRO MENENDEZ: So let's just move
11	preference as designed would be not to have to	11	forward, you know.
12	include additional parking in the current	12	CHAIRMAN AIZENSTAT: I would just be
13	design.	13	concerned that then
14	MS. ALBERRO MENENDEZ: Right, but aren't	14	MS. ALBERRO MENENDEZ: I don't have a
15	you using the on-street parking to help you get	15	problem. I'm not going to kill the project for
16	to the numbers that you need to come to get	16	some parking spaces.
17	the numbers of on-street parking?	17	MR. LEEN: Based on your comment, they can
18	MR. FREED: Our difference is We're	18	look at that. I mean, they certainly can look
19	over, but we're not over by 58 spaces. So we	19	at that before the Commission.
20	do need some on-street parking in order to meet	20	CHAIRMAN AIZENSTAT: Yeah.
21	that number.	21	MS. ALBERRO MENENDEZ: The objective is
22	MS. ALBERRO MENENDEZ: Okay, so you're not	22	you know, if the parking spaces are being
23	over? You need it?	23	shared by other commercial next to it and
	CHAIRMAN AIZENSTAT: They need it, is what	24	they're also dependent on those spaces, that we
24	CIT III III A ALZEA STATE. They held it, is what		don't just call it that we don't just

1	Page 253		Page 255
	calculate it as part of their parking	1	MR. WU: It is the site plan.
2	requirements.	2	CHAIRMAN AIZENSTAT: Okay.
3	MR. GARCIA-SERRA: We can word it as,	3	MR. PEREZ: Does the site plan include the
4	decrease or eliminate reliance on any on-street	4	streetscape enhancements?
5	parking spaces that may be required by other	5	MR. WU: Yes, it includes all the
6	or maybe in front of other properties.	6	conditions
7	MS. ALBERRO MENENDEZ: Right. I mean, it's	7	CHAIRMAN AIZENSTAT: And what about looking
8	not all of them. It's just those that are	8	at the west side, which
9	impacted by some of them being in front,	9	MR. GARCIA-SERRA: You know, that's
10	just	10	something that we could clarify easily. Our
11	CHAIRMAN AIZENSTAT: Will you make a	11	most recent commitment is indeed to do the west
12	friendly amendment?	12	side of Ponce, as indicated on the off-site
13	MR. BELLIN: If they can.	13	streetscape plan that was provided.
14	MS. ALBERRO MENENDEZ: They said yes.	14	MR. WU: I believe the off-site is more
15	MR. BELLIN: Okay, fine.	15	pertaining to the development agreement. I'm
16	MS. ALBERRO MENENDEZ: Okay. Let's move	16	turning to Staff to clarify that.
17	forward.	17	The off-site improvements is more for the
18	CHAIRMAN AIZENSTAT: So we'll go ahead and	18	development agreement, as opposed to the PAD?
19	amend it as such?	19	MS. TREVARTHEN: I'm sorry?
20	MR. FLANAGAN: Sure.	20	MR. WU: The off-site improvements pertain
21	CHAIRMAN AIZENSTAT: Jeff seconded.	21	more to the development agreement, as opposed
22	MR. BELLIN: Now I'll make a motion to	22	to the PAD?
23	CHAIRMAN AIZENSTAT: Wait. We haven't	23	MR. TRIAS: Yes. The answer is yes, and it
24	called a vote.	24	could be defined according to your
25	Any comments or questions?	25	recommendation.
	Page 254		Page 256
1	Call the roll, please.	1	MR. WU: So we'll hold that thought for the
2	MS. MENENDEZ: Alberto Perez?	2	very last item, which is
3	MR. PEREZ: Yes.	3	CHAIRMAN AIZENSTAT: Okay.
4	MS. MENENDEZ: Marshall Bellin?	4	MR. WU: the development agreement.
5	MR. BELLIN: Yes.	5	MR. LEEN: Mr. Bellin, so your motion
6	MS. MENENDEZ: Anthony Bello?	6	includes all of the conditions recommended by
7	MR. BELLO: Yes.	7	Staff?
8	MS. MENENDEZ: Jeff Flanagan?	8	MR. FLANAGAN: But I would like to suggest
Ŭ			
9	MR. FLANAGAN: Yes.	9	a slight amendment to a Staff condition.
9 10	ms. MENDENDEZ: Julio Grabiel?	10	And, Albert, it goes with yours.
9 10 11	ms. MENDENDEZ: Julio Grabiel? MR. GRABIEL: Yes.	10 11	And, Albert, it goes with yours. Everything in here talks about prior to a CO
9 10 11 12	ms. MENDENDEZ: Julio Grabiel? MR. GRABIEL: Yes. MS. MENENDEZ: Maria Menendez?	10 11 12	And, Albert, it goes with yours. Everything in here talks about prior to a CO being issued. I would prefer it say prior to a

Because that's where this would probably fall into. Remember, we talked about the trolley, the in and out? MR. GARCIA-SERRA: Yeah. MS. ALBERRO MENENDEZ: Okay, thank you.

	Page 257		Page 259
1	MR. BELLIN: Yeah, and I also want to make	1	We have a motion, and who seconded that,
2	an amendment to the Art in Public Places, the	2	please?
3	Staff recommendations. I think the wording is	3	MR. PEREZ: I did.
4	wrong. They used the word "may," where it	4	CHAIRMAN AIZENSTAT: Alberto? Okay, thank
5	should be "shall."	5	you.
6	CHAIRMAN AIZENSTAT: "Shall," correct.	6	Call the roll, please.
7	MR. LEEN: Are you okay with that, Mario?	7	MS. MENENDEZ: Marshall Bellin?
8	MR. GARCIA-SERRA: Let me take a look.	8	MR. BELLIN: Yes.
9	MR. BELLIN: It's Number 7 in the Staff	9	MS. MENENDEZ: Anthony Bello?
10	recommendations.	10	MR. BELLO: Yes.
11	MR. GARCIA-SERRA: What page are you on?	11	MS. MENENDEZ: Jeff Flanagan?
12	MR. LEEN: I prefer them to agree.	12	MR. FLANAGAN: Yes.
13	MR. BELLIN: 20, under Tab 2.	13	MS. MENENDEZ: Julio Grabiel?
14	MR. GARCIA-SERRA: Okay, but note that that	14	MR. GRABIEL: Yes.
15	is Those are the proffered conditions of	15	MS. MENENDEZ: Maria Menendez?
16	approval that I gave for the development	16	MS. ALBERRO MENENDEZ: Yes.
17	agreement. The actual condition of approval	17	MS. MENENDEZ: Alberto Perez?
18	for Art in Public Places, you've got to go	18	MR. PEREZ: Yes.
19	further in the package, and it is at Number 13,	19	MS. MENENDEZ: Eibi Aizenstat?
20	on Page 43. "Prior to the issuance of a	20	CHAIRMAN AIZENSTAT: Yes.
21	Temporary Certificate of Occupancy, the	21	MR. BELLIN: I'd like to make a motion to
22	applicant/property owner, its successors or	22	approve the
23	assigns shall comply with all City requirements	23	MR. WU: Abandonment.
24	for Art in Public Places," and so where we	24	MR. BELLIN: alley vacation.
25	really want to put that is in the development	25	CHAIRMAN AIZENSTAT: Say it again.
	Page 258		Page 260
1	agreement, which is going to be next, I think.	1	MR. BELLIN: I'd like to make a motion to
2	CHAIRMAN AIZENSTAT: Correct.	2	approve the alley vacation.
3	MR. GARCIA-SERRA: And you're right, I	3	MR. BELLO: Second.
4	don't know how it's worded there right now, but	4	MS. ALBERRO MENENDEZ: Can I ask for a
5	we'll make sure it's "shall," the 1.25 percent.	5	friendly condition?
6	MR. BELLIN: You know, "may" implies it's	6	MR. BELLIN: Okay.
7	up to them, and "shall" you know, is mandatory,	7	MS. ALBERRO MENENDEZ: That the portion of
8	so I'd like to see that as "shall."	8	the alley that provides access to the resident,
9	MR. GARCIA-SERRA: For the 1.25 percent.	9	you know, always gets maintained. I haven't
10	CHAIRMAN AIZENSTAT: Right.	10	seen the details of the conditions of the
11	MR. BELLIN: Yes.	11	alley, I'll be honest with you. So, if that
12	MR. LEEN: So, Mr. Chair, just to clarify,	12	can just be ensured, as long as that resident's
13	so the motion is to include all of Staff's	13	there.
		14	MR. GARCIA-SERRA: Okay, I see what you're
14	conditions, including the point about the		
14 15	conditions, including the point about the trolley, and there was one other point. What	15	saying. The remaining portion of the alley
	trolley, and there was one other point. What	15 16	
15	<b>U</b>		saying. The remaining portion of the alley
15 16	trolley, and there was one other point. What was that, again?	16	saying. The remaining portion of the alley that leads to his property
15 16 17	trolley, and there was one other point. What was that, again? MR. FLANAGAN: The TCO.	16 17	saying. The remaining portion of the alley that leads to his property MS. ALBERRO MENENDEZ: Yes.
15 16 17 18	trolley, and there was one other point. What was that, again? MR. FLANAGAN: The TCO. CHAIRMAN AIZENSTAT: The TCO.	16 17 18	saying. The remaining portion of the alley that leads to his property MS. ALBERRO MENENDEZ: Yes. MR. GARCIA-SERRA: We'll take care of it.
15 16 17 18 19	trolley, and there was one other point. What was that, again? MR. FLANAGAN: The TCO. CHAIRMAN AIZENSTAT: The TCO. MR. LEEN: The TCO instead of CO.	16 17 18 19	<ul> <li>saying. The remaining portion of the alley</li> <li>that leads to his property</li> <li>MS. ALBERRO MENENDEZ: Yes.</li> <li>MR. GARCIA-SERRA: We'll take care of it.</li> <li>MS. ALBERRO MENENDEZ: Yes.</li> </ul>
15 16 17 18 19 20	trolley, and there was one other point. What was that, again? MR. FLANAGAN: The TCO. CHAIRMAN AIZENSTAT: The TCO. MR. LEEN: The TCO instead of CO. MR. GARCIA-SERRA: Fine.	16 17 18 19 20	<ul> <li>saying. The remaining portion of the alley</li> <li>that leads to his property</li> <li>MS. ALBERRO MENENDEZ: Yes.</li> <li>MR. ALBERRO MENENDEZ: Yes. MR. GARCIA-SERRA: And make sure it's in good shape.
15 16 17 18 19 20 21 22	trolley, and there was one other point. What was that, again? MR. FLANAGAN: The TCO. CHAIRMAN AIZENSTAT: The TCO. MR. LEEN: The TCO instead of CO. MR. GARCIA-SERRA: Fine. MR. PEREZ: To do it on the first phase. MR. LEEN: Yes, and then the one about the	16 17 18 19 20 21 22	<ul> <li>saying. The remaining portion of the alley</li> <li>that leads to his property</li> <li>MS. ALBERRO MENENDEZ: Yes.</li> <li>MR. GARCIA-SERRA: We'll take care of it.</li> <li>MS. ALBERRO MENENDEZ: Yes.</li> <li>MR. GARCIA-SERRA: And make sure it's in</li> <li>good shape.</li> <li>MS. ALBERRO MENENDEZ: No, take care that</li> </ul>

17gets abandoned, but there's also a dedication17also pay taxes on the property, on that part?18of a public access easement over the new18MR. KEPHART: Of course, yes.19internal driveway which is going to be created.19MR. GARCIA-SERRA: Yes.20MS. ALBERRO MENENDEZ: This one.20CHAIRMAN AIZENSTAT: So it's an easement21MR. FLANAGAN: I know, but my question21and it's incorporated, which is a benefit to23easement or is it going to be dedicated as a23MR. LEEN: Correct.24right-of-way?24MR. GARCIA-SERRA: And provides better25Ramon or Jane?25Would say, also.Page 262Page 262MR. FLANAGAN: The item is advertised as ana easement, but Mario?MR. GARCIA-SERRA: We're proffering it as6MR. FLANAGAN: Somewhere, it might be part6wouldn't have used the word dedication in7that8MR. FLANAGAN: Somewhere, it might be part9of the development agreement		Page 261		Page 263
2       of the development, that resident needs to ensure that (MR, GARCIA-SERRA: Sure. That's already been done.       2       MS. MENENDEZ: Albert Perez? (MR, GARCIA-SERRA: Sure. That's already been done.         3       MR, GARCIA-SERRO MENENDEZ: he can get in and out of the back of his house.       3       MR. BELLIN: Yes.         4       MR, CARCIA-SERRA: No, that's our intent.       6       MS. MENENDEZ: Libi Aizenstat?         9       MR, LEEN: So you agree?       9       MR. KEPHART: Thank you, Chair, Board         9       MR, GARCIA-SERRA: Yes.       10       MR MR, GARCIA-SERRA: Yes.         10       MR, GARCIA-SERRA: Yes.       10       MR methers. Yeah, just as clarification, it is         11       MR. BELLIN: Yes.       11       our intent that it would be a public access         12       Is that okay? Is that part of your motion, alko pa blic access a easement ore the new       15       right-of-way, but it's not ours to maintain.         13       of a public access easement ore the new       18       MR. KEPHART: Of course, yes.         14       right-of-way?       18       MR. EPHART: Of course, yes.         15       internal driveway which is going to be created.       19       MR. KEPHART: Of course, yes.         16       mMR. FLANAGAN: I know, but my question       21       and it's incorporated, which is a benefit to         16 <th></th> <th>MS. ALBERRO MENENDEZ: Because in that mix</th> <th>1</th> <th>MS. ALBERRO MENENDEZ: Yes.</th>		MS. ALBERRO MENENDEZ: Because in that mix	1	MS. ALBERRO MENENDEZ: Yes.
3       ensure that -       3       MR. PEREZ: Si.         4       MR. GARCIA-SERRA: Sure. That's already       5         5       been done.       6       MS. ALBERRO MENENDEZ: - he can get in and out of the back of his house.       6       MS. MENENDEZ: Eibi Aizenstat?         7       out of the back of his house.       7       CHAIRMAN AIZENSTAT: Yes.       6         9       MR. CARCIA-SERRA: No, that's our intent.       8       Go ahead, please.       9         9       MR. GARCIA-SERRA: Yes.       10       Members. Yeah, just as a clarification, it is our intent that it would be a public access our intent that it would be a public access our intent that it would be a public access our intent that it would be a public access and the our set is as if it were a public interest also ad eddication         14       MR. BELLIN: Yes.       11       12       if that okay? Is that part of your motion,       13       developers to maintain, although we maintain         14       MR. BELLIN: Yes.       13       developers to maintain, although we maintain       14         15       MR. FLANAGAN: Can I just ask for I need       17       also pay taxes on the property, on that part?       17         16       of a public access easement over the new       18       MR. CARCIA-SERA: Yes.       20       CHAIRMAN AIZENSTAT: So it's an easement and it's incoroprated, which is a benefit to				
4       MR. GARCIA-SERRA: Sure. That's already       4       MS. MENENDEZ: Marshall Bellin?         5       been done.       5       MR. BELLIN: Yes.         6       MS. ALBERRO MENENDEZ: - he can get in and       7       CHAIRMAN AIZENSTAT: Yes.         7       out of the back of his house.       7       CHAIRMAN AIZENSTAT: Yes.         8       MR. GARCIA-SERRA: No, that's our intent.       8       Go ahead, please.         9       MR. LEEN: So you agree?       9       MR. KEPHART: Thank you, Chair, Board         10       MR. GARCIA-SERRA: Yes.       10       members. Yeah, just as a clarification, it is our intent that it would be a public access         11       MR. BELLIN: Yes.       11       our intent that it would be a public access         14       MR. BELLIN: Yes.       14       rights orway, but it's not ours to maintain.         15       MR. FLANAGAN: Can Just ask for I need       15       rights orway, but it's not ours to maintain.         16       clarification. The item says it's the alley       16       CHAIRMAN AIZENSTAT: So the developer         16       abuilic access assement over the new       18       MR. GARCIA-SERRA: Yes.       17         18       of a public access assement over the new       18       MR. GARCIA-SERA: Yes.       17         19 <td< th=""><th>3</th><th>-</th><th></th><th></th></td<>	3	-		
5       been done.       5       MR. BELLIN: Yes.         6       MS. ALBERRO MENENDEZ: he can get in and       6       MS. MENEDDEZ: Eibi Aizenstat?         7       out of the back of his house.       MS. MENEDEZ: Eibi Aizenstat?       MS. MENEDEZ: Eibi Aizenstat?         8       MR. GARCIA-SERRA: No, that's our intent.       9       MR. KEPHART: Thank you, Chair, Board         9       MR. GARCIA-SERRA: Yes.       10       MR. KEPHART: Thank you, Chair, Board         10       MR. GARCIA-SERRA: Yes.       10       Members: Yeah, just as a clarification, it is         11       MR. BELLIN: Yes.       11       our intent that it would be a public access         12       Is that okay? Is that part of your motion,       12       easement, may sit's th alley         14       MR. BELLIN: Yes.       13       developers to maintain, although we maintain         14       MR. BELLIN: Yes.       13       developers to maintain, although we maintain         15       inght-of-way, but it's not ours to maintain.       CHAIRMAN AIZENSTAT: So the developer         16       clarification. The item says it's th alley       16       CHAIRMAN AIZENSTAT: So it's an easement         17       gets abandoned, but there's also a dedication       17       MR. KEPHART: Of course, yes.       18         18       of a				
6       MS. ALBERRO MENENDEZ: he can get in and out of the back of his house.       6       MS. MENENDEZ: Eibi Aizenstat?         8       MR. GARCIA-SERRA: No, that's our intent.       9       MR. GARCIA-SERRA: Yes.       9         9       MR. LEEN: So you agree?       9       MR. KEPHART: Thank you, Chair, Board         10       MR. GARCIA-SERRA: Yes.       10       Members. Yeah, just as a clarification, it is         11       MR. LEEN: Okay.       11       our intent that it would be a public access         13       MR. Bellin?       13       developers to maintain, although we maintain         14       MR. BELLIN: Yes.       14       right-of-way, but it's not ours to maintain.         16       clarification. The item says it's the alley       16       CHAIRMAN AIZENSTAT: So the developer         17       gets abandoned, but ther's also a dedication       17       also pay taxes on the property, on that part?         18       of a public access easement ore the new       18       MR. KEPHART: To course, yes.         19       internal driveway which is going to be created.       10       MR. KEPHART: Ad provides better         21       is - I still like clarification. Is it an       22       math is incorporated, which is a benefit to         22       MS. ALBERRO MENENDEZ: This one.       23       MR. LANAGAN: Th		-	5	
7       out of the back of his house.       7       CHAIRMAN AIZENSTAT: Yes.         8       MR. GARCIA-SERRA: No, that's our intent.       8       Go abead, please.         9       MR. LEEN: So you agree?       9       MR. KEPHART: Thank you, Chair, Board         10       MR. GARCIA-SERRA: Yes.       10       Members. Yeah, just as a clarification, it is         11       MR. LEEN: Okay.       11       our intent that it would be a public access         12       Is that okay? Is that part of your motion,       12       easement, and so it's clear, it's the         13       MR. BELLIN: Yes.       11       our intent that it would be a public       access         14       MR. BELLIN: Yes.       14       rights to use it as if it were a public       rights to use it as if it were a public         15       MR. FLANAGAN: Can I just ask for I need       15       right-of-way, but it's not ours to maintain.         16       clarification. The item says it's the alley       16       CHAIRMAN AIZENSTAT: So the developer         17       gets abandoned, but there's also a dedication       17       also pay taxes on the property, on that part?         18       of a public access easement or is it going to be created.       19       MR. GARCIA-SERRA: Yes.         20       MR. FLANAGAN: I know, but my question       21				
9       MR. LEEN: So you agree?       9       MR. KEPHART: Thank you, Chair, Board         10       MR. GARCIA-SERRA: Yes.       10       Members. Yeah, just as a clarification, it is         11       MR. LEEN: Okay.       11       our intent that it would be a public access         12       Is that okay? Is that part of your motion,       12       easement, and so it's clear, it's the         13       Mr. Bellin?       13       developers to maintain, although we maintain         14       MR. BLLIN: Yes.       14       rights to use it as if it were a public         15       MR. FLANAGAN: Can I just ask for – I need       15       right-of-way, but it's not ours to maintain.         16       clarification. The item says it's – the alley       16       CHAIRMAN AIZENSTAT: So the developer         17       gets abandoned, but there's also a dedication       17       also pay taxes on the property, on that part?         18       of a public access easement over the new       18       MR. GARCIA-SERRA: Yes.         20       MS. ALBERO MENENDEZ: This one.       20       CHAIRMAN AIZENSTAT: So it's an easemet         21       MR. FLANAGAN: I know, but my question       21       and it's incorporated, which is a benefit to         22       is I'd still like clarification. Is it an       22       MR. GARCIA-SERRA: And provides better	7	-	7	
9       MR. LEEN: So you agree?       9       MR. KEPHART: Thank you, Chair, Board         10       MR. GARCIA-SERRA: Yes.       10       Members. Yeah, just as a clarification, it is         11       MR. LEEN: Okay.       11       our intent that it would be a public access         12       Is that okay? Is that part of your motion,       12       easement, and so it's clear, it's the         13       Mr. Bellin?       13       developers to maintain, although we maintain         14       MR. BLLIN: Yes.       14       rights to use it as if it were a public         15       MR. FLANAGAN: Can I just ask for – I need       15       right-of-way, but it's not ours to maintain.         16       clarification. The item says it's – the alley       16       CHAIRMAN AIZENSTAT: So the developer         17       gets abandoned, but there's also a dedication       17       also pay taxes on the property, on that part?         18       of a public access easement over the new       18       MR. GARCIA-SERRA: Yes.         20       MS. ALBERO MENENDEZ: This one.       20       CHAIRMAN AIZENSTAT: So it's an easemet         21       MR. FLANAGAN: I know, but my question       21       and it's incorporated, which is a benefit to         22       is I'd still like clarification. Is it an       22       MR. GARCIA-SERRA: And provides better	8	MR. GARCIA-SERRA: No, that's our intent.	8	Go ahead, please.
10       MR. GARCIA-SERRA: Yes.       10       Members. Yeah, just as a clarification, it is         11       MR. LEEN: Okay.       11       our intent that it would be a public access         12       Is that okay? Is that part of your motion,       12       easement, and so it's clear, it's the         13       Mr. Bellin?       13       developers to maintain, although we maintain         14       MR. BELLIN: Yes.       14       right-of-way, but it's not ours to maintain.         16       clarification. The item says it's the alley       16       CHAIRMAN AIZENSTAT: So the developer         18       of a public access easement over the new       18       MR. KEPHART: Of course, yes.         19       internal driveway which is going to be created.       19       MR. GARCIA-SERRA: Yes.         20       MS. ALBERO MENENDEZ: This one.       20       CHAIRMAN AIZENSTAT: So it's an easement and it's incorporated, which is a benefit to         21       isId still like clarification. Is it an       22       the City which it did not have before.         23       easement or is it going to be dedicated as a       23       MR. GARCIA-SERRA: And provides better         23       easement, but Mario?       MR. GARCIA-SERRA: We're proffering it as       3         34       easement, but Mario?       MR. GARCIA-SERRA: Emergency vehicles. </th <th>9</th> <th></th> <th>9</th> <th>-</th>	9		9	-
11       MR. LEEN: Okay.       11       our intent that it would be a public access         12       Is that okay? Is that part of your motion,       12       easement, and so it's clear, it's the         13       Mr. Bellin?       13       developers to maintain, although we maintain         14       MR. BELLIN: Yes.       14       rights to use it as if it were a public         15       MR. FLANAGAN: Can I just ask for I need       15       right-of-way, but it's not ours to maintain.         16       clarification. The item says it's the alley       16       CHAIRMAN AIZENSTAT: So the developer         19       internal driveway which is going to be created.       19       MR. GARCIA-SERRA: Yes.         20       MS. ALBERO MENENDEZ: This one.       20       CHAIRMAN AIZENSTAT: So it's an easement         21       MR. FLANAGAN: I know, but my question       21       and it's incorporated, which is a benefit to         23       easement or is it going to be dedicated as a       23       MR. GARCIA-SERRA: And provides better         25       Ramon or Jane?       24       MR. GARCIA-SERRA: And provides better         25       easement. I see where you're coming from. I       4       MR. GARCIA-SERRA: We're proffering it as         3       easement. I see where you're coming from. I       5       access and so forth, yes.	10		10	
12       Is that okay? Is that part of your motion,       12       easement, and so it's clear, it's the         13       Mr. BelLIN? Yes.       13       developers to maintain, although we maintain         14       MR. BELLIN: Yes.       14       rights to use it as if it were a public         15       MR. FLANAGAN: Can I just ask for I need       15       right-of-way, but it's not ours to maintain.         16       clarification. The item says it's the alley       16       CHAIRMAN AIZENSTAT: So the developer         19       internal driveway which is going to be created.       19       MR. GARCIA-SERRA: Yes.         20       MS. ALBERRO MENENDEZ: This one.       20       CHAIRMAN AIZENSTAT: So it's an easement         21       MR. FLANAGAN: I know, but my question       21       and it's incorporated, which is a benefit to         21       is Id still like clarification. Is it an       22       MR. LEEN: Correct.         25       Ramon or Jane?       25       MR. GARCIA-SERRA: And provides better         25       Ramon or Jane?       26       MR. GARCIA-SERRA: And provides better         2       access, I would say, also.       Page 262         1       CHAIRMAN AIZENSTAT: Bit's all easement.       1       CHAIRMAN AIZENSTAT: Right. And it ha         2       MR. FLANAGAN: Somewhere, it might	11	MR. LEEN: Okay.	11	
13       Mr. Bellin?       13       developers to maintain, although we maintain         14       MR. BELLIN: Yes.       14       rights to use it as if it were a public         15       MR. FLANAGAN: Can I just ask for I need       15       rights to use it as if it were a public         16       clarification. The item says it's the alley       16       CHAIRMAN AIZENSTAT: So the developer         17       gets abandoned, but there's also a dedication       17       also pay taxes on the property, on that part?         18       of a public access easement over the new       18       MR. KEPHART: Of course, yes.         19       internal driveway which is going to be created.       19       MR. GARCIA-SERRA: Yes.         20       MS. ALBERRO MENENDEZ: This one.       20       CHAIRMAN AIZENSTAT: So it's an easement and it's incorporated, which is a benefit to         21       is I'd still like clarification. Is it an       22       charcias and as a ad it's incorporated, which is a benefit to         23       easement or is it going to be dedicated as a       23       MR. GLANGAN: The item is advertised as an       24         24       right-of-way?       24       MR. GARCIA-SERRA: And provides better       access, I would say, also.         25       Ramon or Jane?       3       CHAIRMAN AIZENSTAT: Right. And it hat'         26 <th>12</th> <th>Is that okay? Is that part of your motion,</th> <th>12</th> <th>*</th>	12	Is that okay? Is that part of your motion,	12	*
14       MR. BELLIN: Yes.       14       rights to use it as if it were a public         15       MR. FLANAGAN: Can I just ask for I need       15       right-of-way, but it's not ours to maintain.         16       clarification. The item says it's the alley       16       CHAIRMAN AIZENSTAT: So the developer         17       gets abandoned, but there's also a dedication       17       also pay taxes on the property, on that part?         18       of a public access easement over the new       18       MR. MENENDEZ: Julio Grabiel?</li> </ul>	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	<ul> <li>meet all fire</li> <li>MR. GARCIA-SERRA: Emergency vehicles.</li> <li>CHAIRMAN AIZENSTAT: Emergency vehicles' access and so forth, yes.</li> <li>MR. FLANAGAN: Ramon Ramon, there's a condition somewhere that says the applicant will dedicate the right-of-way.</li> <li>MR. TRIAS: Yeah, and if it says that, that's incorrect. It's an easement, and Public Works is the department that handles the requirements.</li> <li>MR. WU: Mr. Chair, just for the record, finally, on Page 4 of the abandonment ordinance, it states that, "The applicant/owner of record, by proper instrument, shall grant a public access easement." That is, quote, unquote, from the ordinance.</li> <li>MR. FLANAGAN: It's there, but it's elsewhere in my packet Elsewhere in my Staff Report is a condition that the applicant will</li> </ul>

Page 26	5	Page 267
1 to make sure that I'm not confused when I vote	1	MS. MENENDEZ: Marshall Bellin?
2 on it and that we have consistency. So, if the	2	MR. BELLIN: Yes.
3 answer is, it's an access easement, then	3	MS. MENENDEZ: Anthony Bello?
4 MR. GARCIA-SERRA: Right.	4	MR. BELLO: Yes.
5 MR. FLANAGAN: And anything else that's	5	MS. MENENDEZ: Eibi Aizenstat?
6 inconsistent will be	6	CHAIRMAN AIZENSTAT: Yes.
7 MR. TRIAS: That is the answer.	7	MR. BELLIN: Okay.
8 MR. FLANAGAN: will be	8	CHAIRMAN AIZENSTAT: Last.
9 MR. TRIAS: That's the only answer we've	9	MR. BELLIN: I'd like to make a motion to
10 ever worked under.	10	approve the development agreement.
11 MR. LEEN: So that condition will not be	11	MR. WU: Pursuant to Staff's conditions?
12 part of this approval.	12	MR. BELLIN: Yeah.
13 MR. WU: It's already in the ordinance.	13	MR. WU: And there was discussion about the
14 MR. FLANAGAN: Yeah, got it. Thank you.		off-site improvements west of Ponce. I just
15 MR. TRIAS: Thank you.		wanted to bring that to the table.
16 MR. BELLIN: I make a motion to approve	16	MS. ALBERRO MENENDEZ: Yeah.
17 Number 6, which is the development agreement.	17	CHAIRMAN AIZENSTAT: That will be in there,
18 MR. PEREZ: I second.	18	and also, I think, Art in Public Places
19MS. ALBERRO MENENDEZ: Can I make a	19	MR. GARCIA-SERRA: Shall be 1.25 percent.
20 friendly amendment?	20	CHAIRMAN AIZENSTAT: "Shall," in this part.
21 MR. BELLIN: Yes.		I would encourage for the developer to look at
22 CHAIRMAN AIZENSTAT: Wait.		the historic site as part of the Art in Public
23 MS. MENENDEZ: We didn't vote on it.		Places. It does have quite a bit of
24 CHAIRMAN AIZENSTAT: We didn't vote. W		significance in our City.
25 didn't vote.	25	MR. GARCIA-SERRA: That's our intent, also.
Page 26	6	Page 268
1 MR. LEEN: There's been no vote on the	1	MS. ALBERRO MENENDEZ: Can you also In
2 alley.		the development agreement, the rooftop parks
3 MS. ALBERRO MENENDEZ: On the alley.	3	MR. GARCIA-SERRA: Uh-huh.
4 CHAIRMAN AIZENSTAT: On the alley vacatin		MS. ALBERRO MENENDEZ: that the City
5 MR. BELLIN: Okay.		have input or certain requirements to make sure
6 CHAIRMAN AIZENSTAT: So you made the		that that's open to the public?
7 motion. Who seconded?	7	MR. GARCIA-SERRA: Indeed. No, in the
8 MR. BELLO: I seconded.		development agreement, we're already providing
9 CHAIRMAN AIZENSTAT: And it was seconde		for it to be open
10 MR. LEEN: And there was an additional	10	MS. ALBERRO MENENDEZ: Okay.
11 MS. ALBERRO MENENDEZ: There was a 12 condition.	11 12	MR. GARCIA-SERRA: you know, generally,
		throughout the day, to the public, only perhaps
<ul><li>13 MR. LEEN: Which everyone agreed to, it</li><li>sounded like.</li></ul>		closed at certain late night hours, you know, just to avoid any sort of negative uses, and
14 sounded like. 15 CHAIRMAN AIZENSTAT: Correct.		indeed we want it to be a public park, just
16 Any questions, comments?		like Ponce Circle Park is, you know, people to
		ince i once chere i ark is, you know, people to
5 1		he all over up there
17 Call the roll.	17	be all over up there. MS. ALBERRO MENENDEZ: And then if we

<ul> <li>7 MR. BELLIN: No, v</li> <li>8 Commission, whatever t</li> <li>9 want to make sure we kit</li> <li>10 enforce the agreements</li> <li>11 MR. LEEN: You knot</li> <li>12 City Manager.</li> <li>13 MR. BELLIN: Whote</li> <li>14 like to know that.</li> <li>15 MR. LEEN: But it's</li> <li>16 Enforcement, acting with</li> <li>17 City Manager. That's</li> <li>18 MR. BELLIN: All ri</li> <li>19 MR. LEEN: The Con</li> <li>20 oversight authority, obv.</li> <li>21 that, and as I mentioned</li> <li>22 enforce all these provisi</li> <li>23 MR. BELLIN: Okay</li> <li>24 MR. WU: Mr. Chair</li> </ul>	they've agreed to, I just now who is going to that they made. ow, ultimately, it's the ever it is, I just would generally Code th the authority of the ght. mmission has certain iously, but it would be before, the City would ons.	<ul> <li>MR. TRIAS: Right. So you've done that</li> <li>already.</li> <li>MR. LEEN: And you're agreeing Mario,</li> <li>are you agreeing to that, the 4.375?</li> <li>MR. GARCIA-SERRA: Sure. That site plan</li> <li>that we've proposed, we're living by, and</li> <li>indeed, it has a 4.375 FAR.</li> <li>MR. LEEN: Understood.</li> <li>MR. GRABIEL: May I make an amendment</li> <li>also?</li> <li>CHAIRMAN AIZENSTAT: Yes.</li> <li>MR. GRABIEL: I thought Mr. Flanagan's</li> <li>comment about the neighborhood between Pond</li> <li>and LeJeune and south of University, could be</li> <li>impacted by traffic in the future, it's a very</li> </ul>	,

Page 273 1 MR. GARCIA-SERRA: Okay.	Page 275
	1 together very quickly, so I'm sure Staff will
2 MS. ALBERRO MENENDEZ: As well as San	2 go over all of that. So I vote yes in concept,
3 Sebastian, which also, the gentleman that spoke	<ul> <li>3 but it needs a lot of work.</li> </ul>
4 earlier had a	4 CHAIRMAN AIZENSTAT: Okay.
5 MR. GARCIA-SERRA: Let me make sure I'm	5 MS. MENENDEZ: Eibi Aizenstat?
6 clear, because I thought we already talked	6 CHAIRMAN AIZENSTAT: Yes.
<ul> <li>7 about that with Maria, but</li> </ul>	7 MR. GARCIA-SERRA: Thank you so much. I
8 MS. ALBERRO MENENDEZ: No, they're talking	<ul> <li>assure you that this is going to be a project</li> </ul>
<ul> <li>about that area, but also the area to the south</li> </ul>	<ul> <li>assure you that this is going to be a project</li> <li>that you'll be very proud of your vote today</li> </ul>
10 of University.	10 and your involvement in it, and hold us to it,
11 MR. GARCIA-SERRA: Okay.	11 if there's ever any doubts. Thank you very
12MR. GRABIEL: University between Ponce and	12 much.
13 LeJeune.	13 CHAIRMAN AIZENSTAT: Thank you. When is
14 MS. ALBERRO MENENDEZ: Because that area	14 our next
15 has If you look at the traffic distribution,	15 Jill, when's our next meeting?
16 it says it's going to receive 18 percent.	16 MS. MENENDEZ: March 11th.
10It says it's going to receive 18 percent.17MR. GARCIA-SERRA: Okay, between Ponce and	17 CHAIRMAN AIZENSTAT: March 11th?
18 LeJeune	18 (Thereupon, the hearing was adjourned at
19 MS. ALBERRO MENENDEZ: Because they're	19 11:08 p.m.)
20 going straight towards the development.	20
21 MR. GARCIA-SERRA: south of University,	21
22 north of Bird Road. Okay. Now I know what	22
23 you're talking about, okay.	23
24 CHAIRMAN AIZENSTAT: So we've added that,	24
25 also. Are you okay with that?	25
Page 274	Page 276

BAILEY, RDR, FPR</li> </ul>

My name is Orlando Capote. Lucia Capote and I are property owners of and have resided at 2915 Coconut Grove Drive since 1989. The following are our comments to the changes proposed by the applicant to the City's Comprehensive Plan and Zoning Code. It is our understanding that the proposed changes will be considered by the City's Planning and Zoning Board on February 11, 2015. As such we respectfully request that our comments be incorporated as part of the formal record for the February 11, 2015 Public Hearing.

We object to any Comprehensive Plan, Zoning Code language changes and proffered development agreements that will allow any of the following:

- 1) Structures higher than 36 feet, and/or non-residential structures of any size, to surround and be across our property. Such structures will block sunlight, impede air flow and create uninhabitable conditions. Our property is zoned single family residential. The current Code does not allow any structures higher than 36 feet and non-residential use to surround and be across properties zoned single family residential. This requirement ensures a single family residential quality of life with open, unrestricted air space around our property for air flow and sunlight to reach all parts of our home and property. In our humid and hot climate, sunlight and airflow are required to maintain healthy living conditions.
- 2) A change to the current use of, and access to, our property. We object to any language change that allows the development to remove the direct alley connection from the back of our property.on Block 23 to Galiano Street. This open direct alley to the back of our property is the only open source of direct fresh ground level air flow to the back of our property. This alley gives us, emergency and police vehicles a short, direct linear and safe access from the back of our property to Galiano Street.
- 3) Remove public streets and alleys, which serve a public purpose, and turn them over to a private development for private use. The alleys in Block 20, 21, 22, 23 and 30 were set in place by the original City design. These alleys are aligned with corresponding alleys on the surrounding blocks. The alleys are used regularly by service and maintenance vehicles. The alleys also provide alternate access routes during emergencies and street closures.
- 4) Allow increased densities above those allowed by the original Zoning Code. The requested increase in the density of the proposed development will increase vehicular traffic into the tens of thousands of vehicle trips per day. This will impact city traffic for miles around the development.
- 5) Change the traffic flow on any block along Coconut Grove Drive, which is the most direct route from the Coral Gables Hospital to the Fire and Police Station. We rely on this two way street to access the front of our property. Police, Fire Trucks and Fire Rescue vehicles frequently travel both directions along this two way street. Check the number of Fire Rescue trips to the Coral Gables Hospital. On average, at least once per day a Fire Rescue vehicle uses Coconut Grove Drive to take patients to the Hospital or return from the Hospital to the Fire Station. Any change in this traffic flow will result in longer travel routes for police and emergency vehicles leading to longer response times thereby creating a public safety issue.

We object to the Form Based Code proposed by the applicant and any proffered development agreement that attempts to increase the Floor to Area Ratios. Form Based Codes are less restrictive than the City's conventional Zoning Code. When projects are not allowed under local zoning laws, new urbanists seek other approval techniques, such as Form Based Codes, which result in a more dense development. These alternate approval techniques may not ensure compatibility with the surrounding single family residential community. If the City Beautiful truly intends to stay Beautiful, then the City must make certain that the City maintains the current Conventional Zoning Code.

Respectfully submitted,

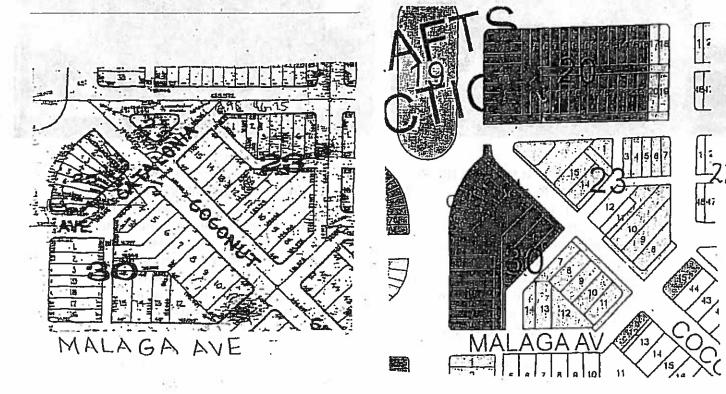

Orlando Capote,

February 9, 2015

## Page 1 of 2

We are Lucia Capote and Orlando Capote, long term residents and property owners at 2915 Coconut Grove Drive. The back of our property is adjacent to the original City owned alley to Galiano Street. This alley gives us, emergency vehicles and the police a short, linear, direct and safe access from the back of our property to and from Galiano Street. Vacating the alley would result in an unreasonable access route to the back of our property. We ask that the request made by Application No. PW-15-01-0142 to vacate the alley be denied.

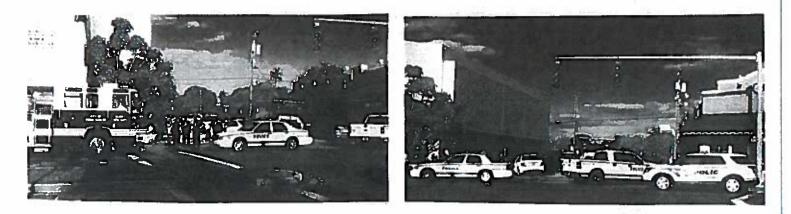

Below on the left is the original City layout design for Blocks 30 and 23. Please note the original City design intended to have the alleys to be located at mid-block and aligned with the alleys on the adjacent blocks. On the right is the Future Land Use Map dated July 2013, as posted on the City's web site, depicting the alley layout as it should have been built by the Old Spanish Village project. The original alleys were to be vacated, but new replacement alleys were to be built in close proximity. An alley section was added NW of our property on Block 23, which provided new direct alley connection from Coconut Grove Drive to Galiano Street. This new alley was part of an alley swap for the vacated alley on Block 20. The alley adjacent at the back of our property, which gives us direct access to Galiano Street and is aligned with the alley on Block 22, was to remain as per the original City design.

Page 2 of 2

The Old Spanish Village project took out Catalonia Court on Block 23, vacated the alley to Palermo Avenue on Block 23 and vacated the alley to Malaga Avenue in Block 30. Yet none of the replacement alleys for the vacated alleys on Block 30 and Block 23 were ever built. The alley section NW of our property on Block 23 was partially built but was not completed and never opened to the public. This alley section was taken out when the townhomes were demolished in October 2014. This demonstrates why the City must require private developers to have performance bonds when working on projects that impact public right of ways. The bond can be used to complete any work that is left unfinished by the developer.

The importance of keeping the original City Street and Alley design was demonstrated by the accident that took place on April 2, 2014, at the intersection of Malaga Avenue and Ponce de Leon Boulevard. Refer to the pictures below. The police isolated the accident area by closing Malaga and re-directing traffic. Westbound vehicles on Malaga Avenue used the alley north to the privately owned parking lot on Bock 30, then out to Ponce de Leon Boulevard. If the replacement alley on Block 30 had been built, there would have been an alternate alley route from Malaga Avenue to Coconut Grove Drive.

We ask that the request to vacate the alley adjacent at the back of our property to Galiano Street be denied. The alley must remain open and under the ownership and jurisdiction of the City of Coral Gables. Then any alley work required to maintain access to the back of our property can be quickly done by the City. Property owners need to have access to the back of their properties as they have always had since the community was originally platted. Property owners rely on this access as part of the ownership of their property. The City also needs to keep this alley open so that someday the alley connection between Malaga Avenue, Coconut Grove Drive and Galiano Street can be completed. This will provide an alternate route for police and rescue vehicles to reach the residents east of the Ponce Circle in the event of emergencies and street closures.

We respectfully request that this correspondence be made part of the public record for the February 11, 2015 public hearing on Application No. PW-15-01-0142.

## Letter in Support of Mediterranean Village

Dear Mr. Trias:

Re:

3101 Ponce De Leon Blvd Coral Gables, FL 33134 Tel 305-446-1400 Fax 305-446-3257 www.christysrestaurant.com

As a resident and Coral Gables business owner, I am writing to express support for the proposed Mediterranean Village project.

I am one of the original owners of Christy's Restaurant which has continuously operated at the same location, the corner of Ponce de Leon Boulevard and Malaga, since 1978. Christy's is immediately adjacent to the proposed project and a property that will be significantly impacted by the development and construction of Mediterranean Village. It is literally at "ground zero". From a purely parochial perspective, we wish to avoid any construction that would interfere with or inconvenience our customers, employees, and suppliers. That said, we recognize that we operate in an urban environment and that change can be healthy, if not essential, to sustain economic activity and enhance and rejuvenate the City. After serving the community and operating at the same location for over 35 years, it is our hope that our customers will remain loyal and help us financially bridge the period of construction. In that regard, it is our hope, too, that reasonable measures can be taken during the planning process to condition the predictable impact on our operations.

As a Coral Gables resident and homeowner, however, I have a somewhat different perspective; namely, the mixed use character of Mediterranean Village will revitalize the neighborhood and make the downtown Coral Gables area even more attractive and important as a living, shopping, eating and entertainment destination.

My view in this regard is informed by my work several years ago with the Pennsylvania Avenue Development Corporation ("PADC") in Washington, DC, which I had the privilege of serving as chairman. The PADC was charged with and was responsible for the revitalization of the north side of Pennsylvania Avenue between the Capitol and the White House. By all accounts, the efforts of the PADC were hugely successful in restoring life to Pennsylvania Avenue and stimulating approximately \$1.3 billion of private development of commercial, residential, arts, and retail uses in the downtown. Mediterranean Village has the potential, in my view, for a similar stimulative effect for the prominent north-south axis of Ponce de Leon Boulevard. Mediterranean Village will create an economic anchor on the south that will promote activity and responsible, quality growth along Ponce de Leon. The Project's mix of uses and quality architecture will enliven this area, which has been neglected far too long.

In closing, I support the Mediterranean Village project and respectfully urge Planning & Zoning and the City Commission to approve it. This is a great opportunity for the City.

Sincerely yours,

Rebard A. Klauser

Richard A. Hauser

cc: The Honorable Mayor and Commissioners of the City of Coral Gables
