PLANTING - DETAILS AND CALCS

GENERAL NOTES:

-The Landscape Contractor is to locate and verify all underground and overhead utilities prior to beginning work. Contact proper utility companies and / or General Contractor prior to digging for field verification. The Owner and the Landscape Architect shall not be responsible for any damages to utility or irrigation lines (see Roadside Plans for more utility details).

Landscape Contractor is to verify all current drawings and check for discrepancies and bring to the attention of the Landscape Architect prior to commencing with the work.

-All understory and unmarked tree pits are to be properly harvested and tagged during collection.

All planting plans are issued as directions for site layout. Any deviations, site changes, omissions are to be brought to the attention of the Landscape Architect for clarification prior to installation.

PLANTING NOTES:

All plant material is to be Florida Number 1 or better pursuant to the Florida Department of Agriculture's Grades and Standards for Nursery Plants.

All plants are to be top dressed with a minimum 2" layer of Mulch or mulch. Eucalyptus mulch is equal.

Planting plans shall take precedence over plant list in case of discrepancies.

No changes are to be made without the prior consent of the Landscape Architect and Owner. Additions and omissions are prohibited.

Landscape Contractor is responsible for providing their own square footage takeoffs and bid verification for 100% bid coverage for all areas specified.

-All landscape areas are to be provided with automatic irrigation system which provide 100% coverage, and 50% overlap.

All trees in test areas are to receive a 24" diameter mulched canopy at the base of the trunk.

- Trees are to be planted within parking islands after seal is brought up to grade. Do not seal parking islands.

*Planting soil for topsoil and fertilizer shall be 3000 mc, nematode free. Planting soil for annual beds to be 100% Canadian peat moss, 20% soil free coarse sand and 20% perlite.

† Tree and shrub pits will be supplemented with "Agilum Pail", 21 gallon size with a 30-10-0 analysis, or suitable equivalent accepted by Landscape Architect. Deliver in manufacturer's standard containers showing weight, analysis and name of manufacturer.
