19	May I have the PowerPoint, please?	19	In addition to that, I would note that now
20	CHAIRMAN AIZENSTAT: Is that unusual?	20	there's a body of statutory law that says that
21	MR. TRIAS: I don't think it's unusual for	21	charter schools are to be treated the same or

15	MS. MENENDEZ: Yeah. The Public School	15	that position as to the School Board, there's a
16		16	A
	System has always viewed Zoning as not		good argument that we can't take that position
17 10	something that they have to go through. You	17	as to charter schools anymore. So we take that
18	know, they'll adhere to the Building Codes, but	18	position as to all other government entities
19	Zoning has always been a challange for them to	19	operating in Coral Gables. I just want to be
20	agree to present these changes.	20	clear about that.
21	MR. LEEN: Yes. I was going to talk about	21	And what we do is, we apply a balancing of
22	this a little bit more later, but we've had a	22	interests standard. That's different than a
23	dispute with the School Board, which is going	23	strict application of the Zoning Code.
24 25	to be before the Commission on August 29th, on	24	So, let's say, in a situation where there

We applied our Zoning Code to the School Board, and we argued and we took the position that our Historic Preservation Ordinance applies to Coral Gables Preparatory Academy. The School Board took the position that it does not. And we ended up balancing the interests and reaching a resolution of that. But even today, that issue is still percolating, and, in fact, it's going to be	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	know, there could be a different School Board in the future, there could be a different administrator, a different superintendent, and we just have to be aware, Coral Gables has a very strict Historic Landmark provision. We apply that to the schools. If they want to touch that building, they've got to go through our Historic Preservation regulations and our administrative officers. We take that position. We're going to continue taking that position, even if the School District says that they don't believe that they should have to. And if they don't follow our Code, and they're going to do something that we think is not appropriate, we will go to court and seek an injunction and we will initiate Chapter 164 proceedings. And what that is, Chapter 164 is when two government entities have a dispute, there's a proceeding under the State Law that allows us to get in basically have a meeting between

MR. TRIAS: Yeah, our position is that this 15 is a review like any other. I have a 16 17 PowerPoint that explains the project and we 18 expect comments from you and then it will be 19 forwarded to the City Commission. 20 MR. LEEN: The only difference is that 21 you're not strictly bound to the Zoning Code. 22 You're allowed to balance the interests between 23 what's in the Building Code and what the School 24 Board is trying to achieve.

So you're allowed to consider the public

of Miami Campus, right at the edge. The block right in front, that has all of those lot lines, is actually not built right now, so it's vacant. It's that grassy area. So you're familiar with the context.

The building itself is relatively small, in terms of impact. There's a lot of landscape around. It was a project from the 1950s. It hasn't changed significantly since that time. It doesn't have any parking. The parking occurs right on the street, which I think is very good, in terms of keeping some of the

12	And what happens is that the Land Use and	12	somebody representing that Applicant. So I
13	the Zoning are the same, so, therefore are	13	believe that there were no objectionable issues
14	the same as the rest of the campus, for reasons	14	in terms of aesthetics about the building, most
15	that I don't know, and, therefore, the process	15	of the objections had to do with the lack of a

23	courts for sports. So that's it.	23	a chance to provide comments.
24	And as you can see, the existing buildings	24	The most significant comments probably came

12	the City Attorney was explaining, that in some	12	that as a condition, if everyone else is in
13	other projects, they didn't do that at the	13	agreement.
14	right time, so that created some problems.	14	MS. MENENDEZ: Can I ask him something?
15	Then we're also recommending that a pick-up	15	CHAIRMAN AIZENSTAT: Please.
16	and drop-off circulation plan be prepared to	16	MS. MENENDEZ: I had some similar
17	make sure that the traffic circulation works	17	questions. I wanted to ask Staff, is there a

21	So those are the three conditions. You can	21	submit the if we were to say how no, I
22	obviously propose as many conditions as you	22	agree. I mean, the frustrating thing is that
23	think are appropriate. That's the purpose of	23	we're missing a lot of data, and that that was
24	the Conditional Use. And that's the end of my	24	the same level of comments that we got from the

	Page 46		Page 48
1	If you have any questions, I'll try to	1	Yeah?
2	answer them for you.	2	MS. MENENDEZ: But I noticed in the DRC,
3	MS. VELEZ: I have a question. I noticed	3	the concurrency, this information would
4	that they did not submit a Traffic Impact	4	typically be in the concurrency, and I didn't
5	Analysis.	5	see any comments from
6	MR. TRIAS: That's correct.	6	MR. BEHAR: Because this is an incomplete
7	MS. VELEZ: Is that not a requirement?	7	application.
8	MR. TRIAS: It is a requirement, but, as I	8	MR. TRIAS: Right. Right.
9	said, the Applicant is not here and they did	9	MR. BEHAR: That's the problem.

12	information they had submitted for DRC,	12	MS. MENENDEZ: So the reason I ask about
13	Development Review Committee.	13	the cap is, obviously, as Ms. Velez has
14	MS. VELEZ: And that was not imposed by the	14	mentioned, there is additional classrooms;
15	City department as a requirement?	15	therefore, there will be an increase of student
16	MR. TRIAS: They have been informed of all	16	population, and I'm not sure, you know, if we
17 10	of this, but, as I said, they're not	17 18	imposed some type of cap or they're supposed to
18 19	participating in the process. The City	18	maintain some type I mean, it is a public
20	Attorney explained that clearly.	20	school, but it would be nice to know, you know,
20	MS. VELEZ: Well, I think it's important,	20	at what capacity they're at, and how much more they're going to be bringing in to that area
22	because they're looking to, Number One, add six classrooms and convert to K through 8, which	22	they're going to be bringing in to that area. And then I had a question concerning the
23	means they're looking to bring more students	23	existing drop-off, pick-up, if, in fact, it's
24	and more traffic to the area, and I think	24	working or do we have problems with it. Can

6 7	wasn't really relevant to this location.	7	that area for the drop-off and pick-up, and
	2	8	
8 9	MR. TRIAS: Right.	9	then try to go by those guidelines? MR. SANTAMARIA: One of our comments was

14	MR. SANTAMARIA: Good evening, Members of	14	CHAIRMAN AIZENSTAT: But they haven't done
15	the Board. Ed Santamaria, Director of Public	15	it. So then does the City undertake it and
16	Works.	16	say, this is what the traffic study shows?
17	There are no major conditions that give us	17	MR. SANTAMARIA: That's a good question. I
18	any cause for concern, in terms of drop-off	18	don't know if that's been discussed in the
19	operations. They're handled by West Lab for	19	Department, because
20	their students.	20	MR. TRIAS: Yeah. I mean, the
21	MS. MENENDEZ: As it exists today, is there	21	recommendation is that a pick-up, drop-off
