What I'd like to do at this item is bring Item E-2 first, which is the vacating of the alleyway, and then we'll go ahead with Item E-1, and so forth. MR. TRIAS: Mr. Chairman, the Applicant for this request is the City. The project is the Public Safety Building, and part of the site is currently an alley. The request is to vacate the alley. It's a fairly logical and routine request, from my perspective. It was MR. COLLER: Could I just read in CHAIRMAN AIZENSTAT: Sorry. MR. COLLER: Do you want me to read in the title first? 1	instance, Section 8 or is it Block 8, and you	1	created this incentive to assemble larger
2	run that all of the way from Biltmore Way all	2	pieces and larger properties and then
3	of the way to Valencia, you're essentially	3	ultimately make a larger building, because in
4	making a large development in that area that's	4	order to go up above those 45 feet, you usually
5	going to impact the community.	5	had to assemble the 20,000 square feet.
6	MR. GARCIA-SERRA: You know, you touched	6	I think the more important issue, and an
7	upon something in your comments that I think is	7	issue to be looked at perhaps during the Zoning
8	very relevant. The maximum height and what is	8	Code Rewrite is, there should be different
9	permitted always seems to be a sort of	9	thresholds. You know, 5,000 gets you a certain
10	stumbling block in Coral Gables to having sort	10	height, 10,000 gets you a certain height,
11	of lower scale development, and what I mean by	11	15,000 gets you a certain height, 20,000 gets
12	lower scale development is that six, seven,	12	you a certain height. I think if that were to
13	eight story. Very rarely do you ever see	13	take place, you would see everywhere, including
14	buildings of that height being built. You	14	along Biltmore Way Biltmore Way perhaps not
15	usually see either a hundred feet or more or 45	15	the same exact situation, because of the Site
16	feet or less. You don't see anything really	16	Specifics, but nonetheless you would see a
17	between 45 feet and a hundred.	17	bigger incentive given to doing buildings that
18	And historically the reason for that has	18	are appropriate in scale or perhaps lower in
19	been, more than anything, the fact that there	19	scale and less objectionable to some others,
20	has been, in most areas of the City, it's long	20	you know, six, seven, eight stories, around
21	time been a threshold of 20,000 square feet.	21	there.
22	You need to have at least 20,000 feet and 200	22	Because, indeed, I think we could all agree
23	feet of frontage to go above those three	23	that one story or two-story height on a street
24	stories and 45 feet. That is the incentive	24	as prominent as Biltmore Way isn't necessarily
25	that has created or the situation that's	25	the best architectural design or planning

6	So lets say somebody is proposing to	6	also, like I said, I love the Gables the way it
7	utilize TDRs to increase, you know, the size of	7	is in many respects.
8	a building here along Biltmore Way. If it is	8	I have a few concerns. One is the timing
9	not compatible, really, with the rest of the	9	of this meeting. Most of the residents of
10	area, the City Commission is completely in its	10	Biltmore Way are elderly people, who go away
11	power and this Board is in its power to	11	for the summer. They're not in Coral Gables
12	recommend approval, in your case excuse me,	12	right how. They cannot be here for this
13	denial, in your case, and for the City	13	meeting. They may not even have seen the
14	Commission to actually deny the project.	14	newspaper or any of the advertisement for this
15	Thank you.	15	meeting. So I think they have not been given a
16	CHAIRMAN AIZENSTAT: Thank you.	16	chance to participate or give their opinion.
17	Next speaker.	17	Another concern I have is the fact that
18	THE SECRETARY: Marisa.	18	even though it sounds like possibly this
19	MS. CHISENA: Good evening.	19	building cannot be higher, but it can be
20	CHAIRMAN AIZENSTAT: We have two Marisas, I	20	larger, which I interpret as taking up more of
21	think. Do we know which one it is?	21	our little green space that we have on Biltmore
22	MS. CHINESA: Good evening, Commission	22	Way, so because it's larger, there's less
23	I'm sorry, Commissioner Chairman and ladies	23	garden, less possibility of having trees, and
24	and gentlemen. My name is Marisa Chisena. I	24	as it is, Biltmore Way is really sad looking,
25	live at 721 Biltmore Way. I'm also an owner at	25	lacking green trees and a canopy, which we, I
	Page 39		Page 40

	Page 39		Page 40
1	know, have been somewhat promised for several	1	allowing us to speak.
2	years, it's in the Renaissance project, but we	2	I certainly want to second the speaker's
3	haven't seen anything happening, and we haven't	3	recommendation that this notice sent out in the
4	heard anything happening yet. And, again, it's	4	summertime, when most people are gone, is
5	a street with several elderly people, who might	5	probably a very poor idea, and we have moved
6	like to get out and walk to Miracle Mile, but	6	this TDR, which is a whole new term, that I
7	it's way too hot, because of all of the cement	7	didn't even know before, from industrial or
8	that we have.	8	business to residential, and I think that's
9	So these are some of my concerns. And	9	something that, you know, just as a resident,
10	then, of course, I also wonder if once this	10	I'd like to understand more about it, because
11	building have a little bit you know, they're	11	it has to do with density.
12	allowed to build a little higher, there may be	12	But one of my main concerns, because I've
13	other meetings where there's other requests to	13	lived in the Gables for forty years and just
14	build even higher, which we have seen	14	moved to Biltmore Way two years ago, you have a
15	happening. I don't know if I made it very	15	drainage problem. So I want to know, have you
16	clear, but there could be additional, later on,	16	done a consolidated drainage test in the
17	requests to make these buildings even higher,	17	Biltmore Section area, when did you do it, and
18	because I've seen it happening, as I said, in	18	what were the results, because it doesn't even
19	this neighborhood.	19	need to rain for us to have a drainage problem.
20	So I thank you for the time. Thank you for	20	The ground field drainage comes under the golf
21	looking into it.	21	course under this area, which that means that
22	CHAIRMAN AIZENSTAT: Thank you.	22	the water level is high where we are.
23	THE SECRETARY: Peggy Sapp.	23	It's okay that we have to have some pumps
24	MS. SAPP: Good evening. I'm Peggy Sapp,	24	to keep the water out. That's okay. I get it.
25	and I live at 700 Biltmore Way. Thank you for	25	But we do have a problem in that area that more
		1

2	So those are things that I want to know,	2	amendment to the Biltmore Way area, I noticed
3	and so when you say you have met all of the	3	that in the report it indicated that that area
4	requirements, I'm not sure that you have met	4	was solely a receiving site, and from my
5	all of the requirements, because requirements	5	understanding, as a historically designated
6	mean, is it safe, what's going to happen, what	6	landmark, we are designated as a sending site.
7	if we build more area, and I'm especially	7	So because of that designation, it will
8	concerned about the 700 block of Valencia.	8	change the total parcel area available to be a
9	CHAIRMAN AIZENSTAT: Thank you.	9	receiving site. So, from my calculations and
10	MS. SAPP: That is now two-story buildings.	10	from what I understand, is that the total
11	I believe it could go up much higher. And my	11	amount of TDRs calculated in the Staff Report
12	question to you is, can the ground absorb it	12	may be a little excessive, because our historic
13	and how do you know that the ground can absorb	13	status was not accounted for in that
14	it?	14	calculation. So I wanted the Board to be aware
15	So I just would like to see those reports	15	of that.
16	before you pass a TDR or and, also, if you	16	Thank you.
17	all could explain that jargon when you send out	17	CHAIRMAN AIZENSTAT: No more speakers?
18	a notice, I think that would be helpful for	18	Okay. At this time, I'd like to go ahead
19	people. Thank you.	19	and close the floor for public comment and open
20	CHAIRMAN AIZENSTAT: Thank you.	20	it up.
21	THE SECRETARY Carolyn.	21	Rhonda, would you like to continue?
22	MS. BADO: Good evening. My name is	22	MS. ANDERSON: Yes, I would like to
23	Carolyn Bado, and I'm a member of the Junior	23	continue.
24	League, as well, at 713 Biltmore Way. I'm also	24	Block A, you had it highlighted, Ramon,
25	the building's manager. And when I was	25	from the front of Biltmore Way all of the way
	Page 43		Page 44
1	to Valencia, and my question is, if that block	1	there was no support for that.
2	is designated as being included as a receiving	2	So what happens is that, first of all, this
3	site for TDRs, the fact that the language	3	is a very rare thing that needs to happen.
4	restricts it to properties that face Biltmore	4	I've only seen it once. Mario has never worked
5	Way, if someone purchased the property facing	5	on a project, right? So I think that the best
6	Biltmore Way and asked for the alley to be	6	way to look at this is that it's simply one
7	vacated, could they run it all of the way	7	tool, among many, and, frankly, I would prefer
8	through to Valencia?	8	to deal with the issues of the right-of-way,
9	MR. TRIAS: No. I think that's the short	9	planting some trees on Biltmore Way, maybe
10	answer to that. I mean, I no.	10	dealing with the drainage and so on that was
11	MS. ANDERSON: Then my next question is,	11	raised, that, to me that is a much more
12	why did you highlight the entire block?	12	effective use of our time, in terms of
13	MR. TRIAS: Yeah, the text is what rules	13	improving that area.
14	here, and, you know, we could spend the next	14	This is really a very minor request. It's
15	ten hours talking about the theory of this	15	a very minor request that came from the Mayor.
16	thing, and I'm just going to tell you that that	16	He requested that we look at this. And this is
17	is not a good use of anybody's time.	17	the best approach that we can have, in terms of
18	The practical application of this is very	18	providing that option.
19	limited, very limited. It's something that	19	So I would prefer to take a more realistic

requires, first of all, having a sending site,

are not part of the sending sites. So that's

to this meeting, but that wasn't -- I guess

one of the things that I tried to change prior

which is difficult enough, and, unfortunately,

the historic buildings that are not Downtown

19So I would prefer to take a more realistic20look at this, in the sense that it has to be a21parcel that is -- Number One, it has to be22multi-family high-density or commercial23high-density. So, for example, MFSA parcels24that are row houses, those don't qualify. So25that's the first thing. And, Number Two, it

10	MS. MENENDEZ: No, I understand. I just	10	MR. TRIAS: Now, the recent development is

MENENDEZ: The reason I say it, because maybe there would be a benefit to trying to educate the area on TDRs with a Workshop or something, but, you know, I don't know if it's a time sensitive matter.</li> <li>CHAIRMAN AIZENSTAT: Ramon, let me ask you, the Junior League building is both a receiving and a donor site at the same time. So given that, can you explain use that as an example of what would happen with the TDRs on that site?</li> <li>MR. TRIAS: Yeah. What happens on that site is that it's not part of the process, because it's designated as a historic landmark.</li> <li>CHAIRMAN AIZENSTAT: Okay.</li> </ul>	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	<ul> <li>building. So it's not a receiving even though it may be in the receiving area, it's not. It's just there. It's not a realistic MS. VELEZ: But it can send?</li> <li>MS. MENENDEZ: Yeah.</li> <li>MR. TRIAS: Well, that is the problem. It cannot send, either, because it is not part of the sending sites, which are limited to Downtown and North Ponce. Now, that may change. I mean, my opinion was that any building that was historic should be a sending site, but that is not what the Code says right now.</li> <li>CHAIRMAN AIZENSTAT: But that's not what we're discussing MR. TRIAS: We're not doing that right now.</li> <li>CHAIRMAN AIZENSTAT: Okay. So basically the individuals that spoke in fear with that site, for example, it does not play into anything with the TDRs?</li> <li>MR. TRIAS: Right. That's not an issue for that site.</li> <li>CHAIRMAN AIZENSTAT: And I think that's</li> </ul>

15	MS. VELEZ: Okay. So it has to face	15	CHAIRMAN AIZENSTAT: In the area of
16	MR. TRIAS: Yeah.	16	Biltmore Way, you have buildings that are

7	MR. TRIAS: Theoretically, if they have not	7	then adapt lifts to it or start to create
8	maxed out their FAR, they could. A more	8	tandem spaces?
9	realistic scenario would be that they could	9	0MR. TRIAS: Clearly, we would have to look
10	in-fill in their parking lot, for example, and	10	at the specifics, but generally speaking, that
11	enlarge in a more realistic way the building,	11	may give you one additional unit. I mean,
12	in theory, if the numbers are not to the	12	we're not talking about a meaningful change.
13	maximum.	13	CHAIRMAN AIZENSTAT: Okay. Okay. Any
14	Now, it's very unlikely that that's the	14	other
15	case, and why I'm saying that is that	15	MR. GRABIEL: Well
16	generally, when you see a building, it's the	16	CHAIRMAN AIZENSTAT: Go ahead.
17	maximum development that you can do in that	17	MR. GRABIEL: Biltmore Way is basically
18	site, for one other reason, which has nothing	18	a short street that runs from Le Jeune to
19	to do with FAR or even height, it has to do	19	Anderson. It's very wide. It has a very wide
20	with parking. The answer to Ms. Anderson's	20	right-of-way. It is right now not one of the
21	question, at the end of the day, is that what	21	nicest streets in Coral Gables. It is lacking,
22	can you build on this site? Well, however many	22	as we all talked about, landscaping and edges.
23	units you can park, and that has been the	23	There are a lot of open spaces, which are
24	limit, the realistic limit in terms of density,	24	parking lots, which don't add anything to the

And assuming you act today on this, whether you approve it or deny it or whatever recommendation you make, you can include recommendations such as, you know, additional information to be given to the public on TDRs and the impact of TDRs. I think that could be included as part of your recommendation. CHAIRMAN AIZENSTAT: As a Workshop. MR. COLLER: Or as a Workshop. You could recommend that. You could also include, you know, your suggestion about planning for Biltmore Way, and whatever action you take, you can include those recommendations as part of your action, and that way you're informing the City Commission of what you're interested in. So I might suggest that as an opportunity for the Board to consider. MR. And those are the people that are opposing this. And, again, they're wonderful people. I know them. They have their own docks. They have ocean access. We don't. The hundred people that live in Hammock Oaks, they don't have ocean access. We have lake access. Only those seven people have access to the ocean. So we had many meetings with David. I sat down and went to lunch with him, and I said, "Explain to me in detail what you plan to do, because I have three children that are going to grow up here." And I said, "It's not good	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	down, so there's not going to be cars. And, then, most importantly, you have to live in Hammock Oaks to get a slip. That wasn't in there originally. So you have to live there to use these slips, like the people who currently have the docks, and one of them is opposing it, who's a wonderful person, but they have their own docks already with ocean access, and many of these developments, like Gables by the Sea, Gables Estates, Cocoplum, only have few people that have ocean access and they don't want the lakes to connect to the ocean, like us. So I thought, after hearing him out, you know what, I would support this plan, because I think that this is a wonderful development. I think it's a reasonable, small little development. It's not a marina. There's no lunch room or anything. It's just six docks. It's beautifully landscaped. There's going to be security. There's going to be restrictions there. Only people who live there can get

I am in favor of this project. I personally own a boat, which I keep at Miami Yacht Club, which is Downtown by the Parrot Jungle. Basically, drive 45 minutes to be able to use my boat, load up the car with the fishing rods, coolers and so on and so on. It will be a great opportunity that I can acquire a dock at Hammock Oaks. Currently there's approximately a hundred homes, and I think between 18 or 20 have waterfront or dock. So the rest of 80 homes don't have access or a dock. So I think it will be a great opportunity for a few to be able to acquire a dock. And whoever acquires one, it will increase their property value. So definitely I'm in favor of this project. I've seen the presentation, security, gate, access code, so all of those things are basically for the resident who lives close by, limited view. I personally own a golf cart already, so that will be a plus already. And I think that's it. Thank you.

So a property owner could be somebody that just owns an empty piece of land in Hammock Oaks and they want to have a boat slip. So they might not treat the community as well as somebody that lives there. So that gives me some concerns. I also feel like there might be a little bit of a loophole there, and I'm sorry, David, this might actually affect you, but if you own a slip, does that make you a property owner? So if you own a slip, now you sell your home, you're considered a property owner? I think that needs to be addressed. I think that needs to be tightened a little bit, because technically you can sell that slip to someone that no longer lives in the community. So that's one issue that I hope you guys will look at and tighten up. Thank you. CHAIRMAN AIZENSTAT: Thank you. THE SECRETARY: Rene Arencibia. MR. ARENCIBIA: Good evening. So, in a residential neighborhood, in a sliver of land, we have an eight-unit condominium and ten parking spaces. I would like you to consider that this is not practical, not in continuity with the residential neighborhood. It will have an impact. In parting, I would like to mention that some of you probably have friends that bought condominiums from developers who said this is what's going to happen, and, then, when the developer turned it over to the owners, different things happened. So I'm sure David's intent is to do everything he says. It is like adding a homestead     6       7     you qualify for homestad, so therefore you get     6       6     10     60       7     MS. RUSSO: And he's coming in. Ite already       9     CHARMAN AZENSTAT: Yeah, you know. I       11     is -       12     MS. RUSSO: I can write it our. What       13     you're saying is, if you lease the boxes,       14     either that lease is going to use the dock or       15     he's no, hut modey dock can.       16     CHAIRMAN AZENSTAT: Not even the owner.       17     MS. RUSSO: So that would be the only time       18     ac, qot, creant, would be allowed to use the       19     dock, is if he were the trann of the homes, as       21     MR. RUSSO: So that would be the only time       22     CHAIRMAN AZENSTAT: Not event the owner.       23     MS, RUSSO Co ti.       24     MR. 4     MS. MERENDEZ: I see. Okay.     4     either?       5     MS. ANDERSON: It's like adding a homestead     5     MS. MENENDEZ: From what I'm heating is, you qualify for homestead, so therefore you get       7     you qualify for homestead, so therefore you get     5     MS. MENENDEZ: From what I'm heating is, you how now or fire does does slips.       10     don't know how to write it up, but my point     10     MS. RUSSO: And he's coming in. He already       11     is -     MS. RUSSO: Can write it ou. What     10       12     MS. RUSSO: Can write it ou. What     12     reveak it, it says that you can lease it to       13     you're saying is, if you base the house,     13     somebody who is a Harmnock Ouks -       14     either that lesset is going to use the dock or     14     MS. RUSSO: Who's in'mg there.       15     he's not, but nobody else can.     15     CHAIRMAN ALZENSTAT: Not even the owner.       16     CHAIRMAN ALZENSTAT: Correct.     20     MS. RUSSO: Woo's in the owner heating of the losse, as       19     dock, if the were the tenam of the house, as     10     MS. RUSSO: We could make that, leasing       21     th.     21     officult thing to enforce for the City. I     18       22     CHAIRMAN ALZENSTAT: Correct.     22     words - because you could make that, leasing       23     MK. RUASSO: So that would be adding a home becada.<	3	-				
5     MS. ANDERSON: It's like adding a housestead     5     MS. MENENDEZ: From what I'm hearing is, you probably would permit it, because he lives       6     you quilt's for homesetad, so therefore you get     in the area.       7     you quilt's for homesetad, so therefore you get       10     don't know how to write it up, but my point     is       11     is -     MS. RUSSO: Can write it out. What       12     MS. RUSSO ic can write it out. What     10       13     your easing is if you lease the house,     13       14     either that lesses is going to use the dack or     14       15     he's hou but modely else can.     16       16     CHARMAN AIZENSTAT: Not even the owner.     16       17     MS. RUSSO: So that would be allowed to use the     16       18     a, que's, tenant, would be allowed to use the     16       19     dock, is if he were the tenant of the house, as     19       20     well. Even the owner cannot continue to use     19       21     it.     21     only to someone who is residing. In other       22     CHARMAN AIZENSTAT: Correct.     23     MS. RUSSO: You day may the day of the City. I       23     MS. RULER: So if a property owner that     25     MR. COLLER: So i have one question with       24     difficult thing to enforce the City. If you live in the home, you qualify for homestead, so therefore you get     6     you probably would permit it, because he lives in the area.       7     you moof those does kisps.     7     in the area.       8     to orw one of those does kisps.     7     in the area.       9     CHAIRMAN ALZENSTAT. Yeah, you know, I     9     7     MR. COLLER: Because the way the condition       10     don't know how to write it up, but my point     10     MR. COLLER: So it you lease the house,     11       11     is -SSO: I can write it out. What     12     tweak it, it says that you can lease it to       11     serving sign is, if you lease the house, a     13     somedody who is a Harmonck Oaks -       12     MS. RUSSO: So that would be the only time     16     CHAIRMAN ALZENSTAT. Not even the owner.       13     you're agoing it you be allowed to use the     16     Owner there that doesn't have a dock slip.       14     ether than obody else can.     17     MS. 2	why the ADA makes this recommendation that it	2	MS. RUSSO: And I'll just add also all of
3	be more than the 60 inches. So if it is	3	the other conditions that I've proffered that
4	permissible to go out further, whether it be	4	are not amended by this.
5	four inches or twelve inches, that's my	5	CHAIRMAN AIZENSTAT: And all of the other
6	recommendation.	6	conditions that Staff recommended correct.
7	CHAIRMAN AIZENSTAT: Just keeping it within	7	Julio has a second.
8	Code and DERM approval.	8	MR. GRABIEL: Yes.
9	MS. MENENDEZ: Any other suggestions?	9	CHAIRMAN AIZENSTAT: Any discussion?
10	CHAIRMAN AIZENSTAT: So we have a motion.	10	MR. COLLER: This is on E-4. We're taking
11	Is there a second?	11	E-4 first.
12	MR. COLLER: So we're doing	12	CHAIRMAN AIZENSTAT: One at a time, yes.
13	MR. GRABIEL: I'll second it.	13	We have a first, second, no discussion.
14	MR. COLLER: Okay. So we have two votes.	14	Call the roll, please.
15	CHAIRMAN AIZENSTAT: The first one.	15	THE SECRETARY: Maria Velez?
16	MR. COLLER: The first one.	16	MS. VELEZ: Yes.
17	MR. TRIAS: The first one is, let's say,	17	THE SECRETARY: Rhonda Anderson?
18	the conditional use and those are the	18	MS. ANDERSON: Yes.
19	conditions for the conditional use. How about	19	THE SECRETARY: Julio Grabiel?
20	that?	20	MR. GRABIEL: Yes.
21	CHAIRMAN AIZENSTAT: And the other	21	THE SECRETARY: Maria Menendez?
22	conditions	22	MS. MENENDEZ: Yes.
23	MR. COLLER: Okay. We'll do the	23	THE SECRETARY: Eibi Aizenstat?
24	conditional use first and then we copy those	24	CHAIRMAN AIZENSTAT: Yes.
25	conditions into the Site Specifics.	25	Now that was E-3 well, okay
	Page 155		Page 156

1	MR. COLLER: No, that was E-4, because we	1	Good luck.
2	took the conditional use first. Now we're	2	Before you adjourn, Julio you wanted to say
3	going to go E-3, where all of the conditions	3	something?
4	that were put in E-4, we're going to put in	4	MR. GRABIEL: Yeah. I have a point of
5	E-3, so can we use the same person that made	5	discussion. I just wanted to get my fellow
б	the motion and the seconder for this one?	6	member's opinions on it. As you know, one of
7	MS. MENENDEZ: I'll make the motion.	7	my concerns in the City of Coral Gables is how
8	MR. GRABIEL: I second it.	8	parking garages are seen at night. And
9	CHAIRMAN AIZENSTAT: Any discussion?	9	whenever there's been a project coming to this
10	MS. ANDERSON: No.	10	Board, we have requested that verbally, but I
11	CHAIRMAN AIZENSTAT: Having heard none,	11	have noticed that the results have not been
12	call the roll, please.	12	what I truly thought would happen, that no
13	THE SECRETARY: Rhonda Anderson?	13	light and no noise would come from the parking
14	MS. ANDERSON: Yes.	14	garage to the outside.
15	THE SECRETARY: Julio Grabiel?	15	So if my fellow members are agreeable, I
16	MR. GRABIEL: Yes.	16	would like to ask Staff to come up with a
17	THE SECRETARY: Maria Menendez?	17	verbal description of what is our intent on
18	MS. MENENDEZ: Yes.	18	that, so that it can be included into the City
19	THE SECRETARY: Maria Velez?	19	Code.
20	MS. VELEZ: Yes.	20	MS. MENENDEZ: Absolutely. I agree with
21	THE SECRETARY: Eibi Aizenstat?	21	Julio.
22	CHAIRMAN AIZENSTAT: Yes.	22	MS. ANDERSON: I agree.
23	Before we adjourn, Julio you wanted	23	CHAIRMAN AIZENSTAT: Yes.
24	MS. RUSSO: Thank you all very much.	24	MS. VELEZ: Yes.
25	CHAIRMAN AIZENSTAT: Thank you very much.	25	MR. GRABIEL: Okay. That's it.

	Page 157		Page 158
1	MR. TRIAS: We can certainly do that.	1	So that's my thinking. Hopefully you
2	Mr. Chairman, when you're done, I have	2	agree.
3	MR. GRABIEL: I'm done.	3	CHAIRMAN AIZENSTAT: That's fine.
4	MR. TRIAS: The next meeting tonight is	4	MS. VELEZ: Unfortunately, I will not be
5	the last meeting that we can actually use this	5	here September 20th. So if you have any
6	room for the next month and a half. It's not	6	materials I leave the day before, so if you
7	going to be usable. So that is why the next	7	have any materials, I will be grateful. Thank
8	meeting is scheduled for August 29th, and my	8	you.
9	thinking is, we probably should combine the	9	CHAIRMAN AIZENSTAT: Thank you.
10	items for September and August for that	10	Is there motion to adjourn?
11	meeting, since we're also scheduling a meeting	11	MS. VELEZ: So moved.
12	on September 20th with you to deal with the	12	MS. ANDERSON: Second.
13	Zoning Code update.	13	MS. MENENDEZ: Second.
14	So basically what I'm recommending is a	14	CHAIRMAN AIZENSTAT: Thank you. We're
15	regular meeting for August 29th and then a	15	adjourned. Thank you very much everybody for
16	Workshop for September 20th.	16	coming.
17	CHAIRMAN AIZENSTAT: That's fine.	17	C
18	MR. TRIAS: Now, the consultant has had	18	(Thereupon, the meeting was adjourned at 8:45 p.m.)

21	on some of the ideas. I think they're going be		
22	ready to give you a very good Workshop, and,	22	
23	then, depending on how that Workshop proceeds,	23	
24	we may decide to take certain steps and do more	24	
25	or less, depending on how you feel.	25
