Main File No. 19-03002 Page #4

Assumptions, Limiting Conditions & Scope of Work File No : 19-03002

		THE NO.	10 00002
Property A	ddress: 3501 Granada Blvd	City: Coral Gables State: FL	Zip Code: 33134
Client:	The City of Coral Gables	Address: 405 Biltmore Way, Coral Gables, FL 33134	
Appraiser:	Matthew Kenny	Address: 10300 Sunset Drive, Suite 360, Miami, FL 33173	

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
- The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in guestion, unless specific arrangements to do so have been made beforehand.
- If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value, and should not be used as such.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner.
- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the
- The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.
- An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate.

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

Additional Comments (Scope of Work, Extraordinary Assumptions, Hypothetical Conditions, etc.):

GP Residential : Subject - Legal Description

18 54 41 PB10-52 Coral Gables Country Club Section Part 3 Lots 21 & 22 & W23Ft Lot 15 Block 31 Lot Size Irregular OR 18845-0007 1099 3 Dade, FL

GP Residential: Description of the Improvements - Additional Features

two entry gates with remote control access, circular brick paver driveway, impact windows and doors, crown moldings, plantation shutters, recessed lighting, ceiling fans, granite countertops, wood cabinets, stainless steel appliances, subway tile back splash, wine fridge, gas range, gas fireplace, wet bar, built-ins, sky lights, bay windows, mirrored wall, cedar lined closets, covered patio, open second floor terrace, generator, sprinkler system, guest apartment, fenced yard

GP Residential: Description of the Improvements - Property Condition

The subject property is a historically designated, two (2) story, Colonial style, single family home with three (3) bedrooms, two and a half (2.1) bathrooms and 4,065 square feet of living area in the main house. It was built in 1947 and is located on a dry lot that is 17,109 square feet in size.

In addition to the main house, there is a detached guest apartment adjacent to one of the garage spaces which apparently has a bedroom and bathroom. At the time of inspection, the appraiser was not able to gain access to the guest apartment. For the purposes of this report it is assumed that it does not have any functional inadequacies and conforms to the quality of construction of the house with no items in need of repair.

The first floor of the main house contains an entry foyer, 1/2 bath, living room, formal dining room, library, family room and the kitchen.

The second floor contains the master bedroom and bathroom, two guest bedrooms, a guest bathroom and a den.

The kitchen has been updated since the home was originally built but it is not known when. It has granite countertops, stainless steel appliances and subway tile back splash as well as a gas range. The master bathroom as well as the guest bathroom and 1/2 bath have also been updated. The subject property also has impact windows and doors as well as numerous other features (see above). At the time of inspection there were no physical, functional or external inadequacies noted in the main house. The overall condition of the subject property appeared to be good.

GP Residential: Sales Comparison Approach - Summary of Sales Comparison Approach

An extensive market analysis was conducted and analyzed in order to select transactions deemed comparable to the subject that have sold in the recent past and/or are currently available, that a prudent buyer would consider as comparisons to the subject for age, location, livable area, marketability/condition/appeal etc., Recent sales of comparable homes in the subject's market area that were similar to the subject property in age, design, livable area, lot size etc., were limited.

The GRE Group, Inc. has analyzed all relevant and non-relevant factors that a prudent buyer would consider in the purchase of the subject property. The sales analyzed were the most recent transactions of similar quality/condition homes available at the time of inspection.

Comparable sale No. 1 is an historically designated two story home that has also been updated. Features include new marble and wood floors, fireplace, exposed wood beam ceilings, new kitchen with quartz countertops and stainless steel appliances, new bathrooms, new roof, new plumbing, new electric, new LED lighting, covered patio, swimming pool and spa.

Comparable sale No. 2 is also an historically designated two story home. It is comprised of a main house with 3 bedrooms and 2 1/2 bathrooms as well as two separate guest suites/maid's

Client	The City of Coral Gables		

quarters. Additional features include crown moldings, formal dining room, ceiling fans, stainless steel appliances, built-ins, impact windows and doors, swimming pool, spa and covered patio with a summer kitchen.

Comparable sale No. 3 is a one and a half story home but does not have an historic designation. Features include a gated entry, impact windows and doors, new roof, marble and wood floors, fireplace, granite countertops and stainless steel appliances, covered patio and a swimming pool.

Comparable sale No. 4 is a smaller, (non-designated) two story home that was designed by Phineas Paist who was one of the most famous architects of the early era of Coral Gables. Features include a recently renovated kitchen with gas range, formal dining room, fireplace, wood ceilings, ceiling fans, updated bathrooms, separate guest quarters, covered patio and a swimming pool and spa.

Comparable sale No. 5 is a similar sized home on a larger lot, but located in close proximity to the subject and of similar design (Colonial). The residence is also in similar overall condition and has a pool as well as a two-car garage and an in-laws quarters (guest quarters).

Comparable No. 6 is an active listing of a two story home with an historic designation. This home had been commissioned by Coral Gables founder George Merrick and designed by L.D. Brumm in 1924. In 2017 it was extensively updated. The updated included a restored roof with handmade tiles, full painting and waterproofing, installation of impact windows and doors. This home also has a fireplace, hardwood floors, crown molding, ceiling fans, swimming pool and covered terrace.

Reconciliation

The comparables analyzed were considered to be good indicators of value. All six are two story homes located on large lots. Comparables No.1. No. 2, and No. 6 also have historical designations, as does the subject property. The adjusted sales prices of the closed sales (1-5) range from \$1,799,900 to \$2,369,900 and support the opinion of market value of the subject property in the mid range at \$1,925,000.

Marketing Time is the time it takes an interest in real property to sell on the market subsequent to the date of the appraisal. Reasonable marketing time is an estimate of the amount of time it might take to sell an interest in real property as its estimated market value during the period immediately after the effective date of the appraisal; the anticipated time required to expose the property to a pool of prospective purchasers and to allow appropriate time for negotiation, the exercise of due diligence and the consummation of a sale at a price supportable by concurrent market conditions. Marketing time for the subject residence is expected to be three to six months.

Exposure Time is defined as the estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal; a retrospective estimate based on an analysis of past events assuming a competitive and open market. The concept of reasonable exposure encompasses not only sufficient and reasonable time but also adequate, sufficient and reasonable effort. Exposure time is different for various types of real estate, and value ranges and under various market conditions. Exposure time for the subject in believed be less than six months.

TO:

Leonard Roberts

Assistant Director of Economic Development

City of Coral Gables 405 Biltmore Way Coral Gables, FL 33134

SUBJECT:

Single Family Residence 3501 Granada Boulevard Coral Gables, FL 33134 Folio No. 03-4118-005-0150

Mr. Roberts:

Upon your acceptance of this letter agreement, GRE Group, Inc. will prepare an appraisal report for the following described subject property with a current effective date for your use in an internal matter regarding the residence. The appraisal will develop an "as is" market value estimate in fee simple title. The terms and conditions of our proposal are as follows:

PROPOSAL

Subject Property:

Single Family Residence

3501 Granada Boulevard, Coral Gables, FL 33134

Folio No. 03-4118-005-0150

Property Rights Appraised:

Fee Simple Interest

Premise:

"As-Is" valuation; current effective date

Intended Use:

Intended Use of the Appraisal Reports is to determine an opinion of current market value of the subject property for client's use in an internal matter as it relates to the residence. No other intended use(s) noted. Reports are not to be used in any public offering and may not be used in whole or in part for

any marketing of the property.

Federal banking regulations require banks and other lending institutions to engage appraisers directly. Given that requirement, this appraisal may not

be accepted by a federally regulated financial institution.

Intended User(s):

The City of Coral Gables; no other intended user(s) noted.

Scope of Work:

To conclude an opinion of market value of the subject property noted with a current effective date, in fee simple title, and in "as is" condition. The appraisal report will be completed on general purpose residential report

form, solely developing the applicable approach(es) to value.

Special Instructions:

None noted.

Report Type:

Appraisal Report; General Purpose Form; Residential

Appraisal Standards:

Uniform Standards of Professional Appraisal Practice (USPAP), Code of Professional Ethics & Standards of Professional Appraisal Practice of the

Appraisal Institute

9415 SUNSET DRIVE, SUITE 125 MIAMI, FLORIDA 33173 PHONE: 305-595-4485 • FAX: 888-559-7220

PROFESSIONAL QUALIFICATIONS

CARLOS D. GOBEL, MBA, SRA

EXPERIENCE

Carlos D. Gobel, SRA, is Executive Director at GRE Group, a real estate valuation and consulting firm based in Miami, FL that services the South Florida market (Miami-Dade, Broward, Palm Beach, and Monroe counties). Before founding GRE Group in 2011, Mr. Gobel was the Residential Director at Integra Realty Resources - Miami/Palm Beach and, prior to Integra, was Managing Director of Florida Appraisal Services (Miami, FL). In the more than seven years since its founding, GRE Group has completed over 3,500 assignments, representing more than \$4.5 Billion in South Florida real estate. Mr. Gobel has fifteen years of real estate valuation and consulting experience that includes valuing vacant land, single family residences, manufactured homes, condominiums, co-operatives, multi-million dollar estates, 2 to 4 unit multi-family dwellings, office and apartment buildings, warehouses, and retail centers. Mr. Gobel has completed, reviewed, supervised, or consulted on more than 10,000 assignments in his career, representing approximately \$8 billion in South Florida real estate. These assignments include appraisals, research and-or analyses for lending purposes, feasibility studies, tax appeals, divorces, estate planning, investment and land uses, and expert witness testimony. Mr. Gobel has also served as an appointed Special Magistrate for Broward County's Valuation Adjustment Board and is a past-president of the Appraisal Institute's South Florida Chapter and still serves on its board of directors.

Mr. Gobel is a designated member of the Appraisal Institute (AI), and was invited to participate in the Institute's annual Leadership Development and Advisory Council (LDAC) in Washington, DC in '09, '10, and '12, satisfying the AI's three year commitment to LDAC. He has served as a guest speaker on topics and issues related to real estate and real estate valuation on numerous occasions to audiences ranging from a half dozen to more than 200.

Mr. Gobel received his undergraduate degrees (Finance, Real Estate) from Florida International University (Miami, FL) and his graduate degree (MBA) from the University of Florida (Gainesville, FL). Mr. Gobel has also been awarded an Executive Certificate in Leadership and Management from the University of Notre Dame (South Bend, IN) and is a graduate of the FBI's Citizens Academy.
