| 2 | You're muted. | 2 | get resolved by Tuesday morning. So I'm very |
| 3 | CHAIRMAN AIZENSTAT: Sorry about that. | 3 | pleased, you know, with the progress that was |
| 4 | Well, there isn't much of a presentation so | 4 | made and the effort that it was you know, |
| 5 | far. Is there anything that has been Ramon, | 5 | that Staff made to accomplish this. |
| 6 | is there anything that has been changed, that | 6 | CHAIRMAN AIZENSTAT: Okay. I think one of |
| 7 | you can go over, since our last meeting? | 7 | the major concerns that the Board as a whole |
| 8 | MR. BEHAR: Mr. Chair, may I, for a second, | 8 | had was the taking of any rights with the new |
| 9 | because you know, since Ramon mentioned it? | 9 | Zoning Code Re-Write. |
| 10 | I want to commend Ramon and Staff, that for | 10 | Ramon, you can say safely that that has |
| 11 | the last three weeks, between the, for lack of | 11 | been accomplished? |
| 12 | a better word, the little subcommittee that was | 12 | MR. TRIAS: Yes. That is my professional |
| 13 | created between Mario Garcia-Serra and Jorge | 13 | opinion, and that's my recommendation. |
| 14 | Navarro, Willy Bermello and Hamed Rodriguez and | 14 | CHAIRMAN AIZENSTAT: Okay. Thank you. |
| 15 | myself, we have been working closely with Ramon | 15 | What I'd like to do, then, is, let's open |
| 16 | and Staff, and we probably came up with about | 16 | it up to the public. |
| 17 | 35, 38 items, of which we've been going back | 17 | Jill, has anybody gone ahead and sent you |
| 18 | and forth, and I'm very pleased to say that, as | 18 | any request that they would like to comment? |
| 19 | of this morning, we only had two or three left, | 19 | THE SECRETARY: No, no request. |
| 20 | that I had a conversation with Ramon this | | • • |
| 21 | morning, and those are being implemented for | 20 | CHAIRMAN AIZENSTAT: No request at all? |
| 22 | the submittal to Commission on Tuesday. | 21 | Okay. Then, at that time, let's go ahead and |
| 23 | So, everything that were brought up by this | 22 | close the floor to the public and I'll open it |
| 24 | group has been addressed, and we like | 23 | for Board discussion. |
| 25 | compromised in both ways, but I think I feel | 24 | It's a little quicker than usual. |
| | | 25 | Venny, I'd like to ask you to go first, if |
| | Page 11 | | Page 12 |
| 1 | you don't mind. | 1 | some extent, because I'm trying to focus on the |
| 2 | MR. TORRE: Mr. Chair, I really don't have | 2 | recommendations which is Attachment B, and that |
| 3 | much to comment on. I have a few questions | 3 | one has a list of amendments that are in the |
| 4 | regarding Amendment A, just to be clear. | 4 | Code. So those are the amendments that are |
| 5 | There's notes that are labeled A and notes that | 5 | actually being proposed. |
| 6 | are labeled N. Can you clarify what the two | 6 | So any other discussion, really, should |
| 7 | mean, Mr. Trias, and just so we understand what | 7 | focus on the actual text of the Code or on the |
| 8 | that means? | 8 | outline of the memo. That's really what I'm |
| 9 | MR. TRIAS: Yeah. That's really the way | 9 | trying to accomplish, because otherwise we're |
| 10 | that we kept track of some of the comments. I | 10 | going to have a very confusing conversation. |
| 11 | don't think it has any real relevance beyond | 11 | MS. VELEZ: But I remember last time, when |
| 12 | tracking the history of the discussion. The | 12 | we had our last meeting, there were several |
| 13 | memo that I want to focus on is the one that is | 13 | comments about open space and several concerns |
| 14 | Attachment B, which has the conclusions, and it | 14 | about open space. And I don't know that that |
| 15 | really has the recommendations. | 15 | was I mean, there is no indication of the |
| 16 | So, from a practical point of view, what is | 16 | Board's recommendations or of the Board's |
| 17 | being recommended is in that memo, is in | 17 | concerns in this memo, Attachment B. |
| 18 | Attachment B. | 18 | MR. TRIAS: Well, yeah, it is not organized |
| 19 | MS. VELEZ: I have a question. | 19 | that way, but in the Commission cover memo, |
| 20 | Will the Commission also see Attachment A? | 20 | there's more of a discussion to that. |
| 21 | MR. TRIAS: Yeah. We've included it just | 21 | Now, for example |
| 22 | for general information, yes, but I want to | 22 | MS. VELEZ: So the Commission is given |
| 23 | actually, my main goal here is to see how we | 23 | information as to what the Board's concerns and |
| 24 | can be clear, because I don't want to confuse | 24 | comments are? |
| 25 | people, and, clearly, this is confusing, to | 25 | MR. TRIAS: Yeah. The Commission memo has |

| 2 | that we've had and eventually gets to the | 2 | CHAIRMAN AIZENSTAT: Go ahead and continue, |
| 3 | Planning & Zoning meetings, yes. | 3 | Ramon. |
| 4 | CHAIRMAN AIZENSTAT: Does it include the | 4 | MR. TRIAS: Yeah. No, I let's keep in |
| 5 | I think what Maria is asking is, does it | 5 | mind that the purpose of this discussion the |
| 6 | include the changes, so you see what was | 6 | purpose of the discussion is just an update on |
| 7 | originally presented and the track history? | 7 | the way things are going. There's no action |
| 8 | MR. TRIAS: The track we have a track | 8 | that needs to be taken. So, basically, the |
| 9 | history, but that was a little bit confusing to | 9 | update that I'm giving you is the same update |
| 10 | provide in the overall Code. So what happens | 10 | that I'm going to give the Commission. |
| 11 | is, for example, in the required open spaces, | 11 | It has this memo, Attachment B, as the main |
| 12 | Item Number 1 in the memo | 12 | outline, the outline that we should follow, and |
| 13 | MR. MURAI: Ramon? | 13 | that outline, like I said, for example, if you |
| 14 | MR. TRIAS: Yes, sir. | 14 | look at required open space, one of the issues |
| 15 | MR. MURAI: Yeah, excuse me for | 15 | was that MF3 had a requirement of 30 percent. |
| 16 | interrupting. Where are these attachments? | 16 | Well, we made one minor change, based on |
| 17 | I'm having trouble locating them right now. | 17 | the input from the subcommittee, to say that 25 |
| 18 | MR. TRIAS: In the Legistar item, in the | 18 | percent and the other five percent could be in |
| 19 | agenda, all of the attachments are there in the | 19 | the upper stories. 25 percent had to be at the |
| 20 | item. | 20 | ground level, for example. So there's a lot of |
| 21 | MR. MURAI: Okay. Let me look at that. | 21 | minor changes like that. |
| 22 | MR. TRIAS: I do have a printed copy, but | 22 | In terms of the big picture, in terms of |
| 23 | that's the only one I have. So if you need | 23 | the big ideas, for example, the use of |
| 24 | one, we can probably get you one. It's a very | 24 | Mixed-Use, as opposed to Commercial, all of |
| 25 | thick copy. It's about three inches thick. | 25 | that remains. That was not controversial. |

| 15 | something very interesting, which I have | 15 | represent developers in Coral Gables often, as |
| 16 | realized recently, which is, because we have | 16 | what they viewed as a potential taking. So |
| 17 | put things in tables and because we have | 17 | that's where the compromise from 20, to the 30 |
| 18 | actually done an honest translation of the Comp | 18 | that our consultant initially suggested, to now |
| 19 | Plan into Zoning, we realized that there's a | 19 | coming back to this 25 and allowing for the |

| 1 | problematic, but like I say, I don't know if | 1 | bonuses, they provided more green space. And |
| 2 | it's good policy, in terms of, you know, how | 2 | you guys, you know, made it without even being |
| 3 | you develop a city. I would leave that to | 3 | on a policy, just by the fact that when you |
| 4 | Ramon and to Elizabeth Plater-Zyberg. | 4 | approved the project, you know, you requested |
| 5 | MR. WITHERS: Ramon, what do you think? | 5 | to have additional green space, right? |
| 6 | MR. TRIAS: I think the City Manager and | 6 | MR. TRIAS: Right. And that happens |
| 7 | Staff have discussed the idea of refining some | 7 | through the design process and the different |
| 8 | of the bonus processes that we have as a second | 8 | reviews that we have, and typically more green |
| 9 | phase of this effort. So I think what you're | 9 | space and more open space is provided than the |
| 10 | saying makes sense. It's just that tweaking | 10 | minimum requirement. |
| 11 | that bonus program is not a simple task, as you | 11 | MS. RAMOS: Yeah, and I think it's |

| 13 | MR. WITHERS: All right. | 13 | a lot of flexibility being given to the |
| 14 | MR. TRIAS: So I do think that we | 14 | developer, in exchange for more public benefit. |
| 15 | anticipate looking at it in the future, and | 15 | And so that's where that conversation occurs. |
| 16 | that could be one of the outcomes. | 16 | MR. BEHAR: Right. |
| 17 | MR. BEHAR: And, Ramon, may I say | 17 | MR. TRIAS: And it's a very extensive |
| 18 | something? In the past, whenever we had a | 18 | conversation, Mr. Behar, and you've been in |
| 19 | project that has a PAD, the open space has been | 19 | many of them. As you know, it's takes months |
| 20 | up to like 30 percent, so | 20 | to figure that out. |
| 21 | MR. TRIAS: The minimum is 20 percent, yes. | 21 | So, I think, Mr. Withers' recommendation is |
| 22 | MR. BEHAR: Right. But in some projects, | 22 | a very good one for that second phase of the |
| 23 | you have requested, you know, green space, and | 23 | review that we have to take after we get done |
| 24 | the example is, One, The Regency in the North | 24 | with this. |

| | Page 27 | | Page 28 |
| 1 | MR. WITHERS: And how do you feel about the | 1 | I remember when the first iteration of the |
| 2 | placement of the green space? | 2 | Old Spanish Village came into play, and it was |
| 3 | MR. TRIAS: Well, that's the key. The key | 3 | a Planned Area Development, the City already |
| 4 | is that it has to be meaningful and well | 4 | had swales, but in return, the City asked the |
| 5 | designed and it has to be a square or a plaza | 5 | developer to expand the swales by ten feet, to |
| 6 | or something that matters or a park. | 6 | give it a richer, deeper swale look as part of |
| 7 | MR. WITHERS: It just can't be a hedge | 7 | a trade. |
| 8 | along the side of the building. | 8 | MR. TRIAS: Well, I mean, those kinds of |
| 9 | MR. TRIAS: Absolutely. That's the biggest | 9 | very precise design choices happen all of the |
| 10 | issue by far. And I have to say that the | 10 | time, but they're in the Zoning Code per se. |
| 11 | consultant, at the very beginning of this | 11 | The Zoning Code allows and encourages the |
| 12 | process, did prepare some diagrams to go with | 12 | process, but the actual design depends on the |
| 13 | that idea of open space. | 13 | location, of course. |
| 14 | So I think the question was, how soon can | 14 | MR. WITHERS: I got it. Okay. Thank you. |
| 15 | we start? Well, I think we can start very | 15 | CHAIRMAN AIZENSTAT: Any other comments, |
| 16 | soon. As soon as we finish this process, my | 16 | Chip? |

| 18 | the open space, Med Bonus design oriented | 18 | MR. TORRE: I have a comment to that, and, |
| 19 | regulations that we have. | 19 | again, this is maybe a question for the |
| 20 | MR. WITHERS: And one last question, did we | 20 | urbanist, for the professional. I mean, |
| | ever look at amplifying maybe our you know, | 21 | there's one thing to ask for open space on very |
| 21 | our swale area, by allowing the developer to | 22 | large buildings, and they become sort of pocket |
| 21 22 | our sware area, by anowing the developer to | | |
| | I mean, if they adding to an existing green | 23 | parks and so on, but when you're trying to do |
| 22 | | 23 24 | parks and so on, but when you're trying to do multiple buildings and they're all small, to |

| 2 | amount, let's say, the City would get with | 2 | So I don't think that it's a penalty, in |
| 3 | pocket parks and things like that, I'm not sure | 3 | that sense, and most of the townhouses |
| 4 | they equal out, and I don't know that the rule | 4 | residents have if they have a hundred foot |
| 5 | being across the board makes as much sense as | 5 | deep lot, they meet that space internally |
| 6 | the bigger buildings. | 6 | anyway. |
| 7 | You know, I don't know if it's different | 7 | MR. TORRE: You know, I was talking more |
| 8 | Liz, what do you think? If it's more than a | 8 | about the Downtown core and how that setback |
| 9 | 10,000 square foot lot, they're made to go back | 9 | you know, multiple pockets and so on, with |
| 10 | ten feet across the entire, you know, Aragon or | 10 | having (inaudible) or does it help the street |
| 11 | one of these other streets. Does that make a | 11 | when you start doing that quite often in a |
| 12 | lot of sense? | 12 | smaller sense. |
| 13 | MS. PLATER-ZYBERG: You know, we've looked | 13 | MS. PLATER-ZYBERG: You know, it doesn't |
| 14 | at these, in particular, in three dimensional | 14 | have to be along the streetfront. It can be in |
| 15 | drawings quite a bit, and by asking for the | 15 | the building, as well. So, you know, I think |
| 16 | space to be of a meaningful dimension, we | 16 | there were a couple of buildings we were |
| 17 | imagine that it would be broader as a courtyard | 17 | looking at Downtown. I'm not exactly sure |
| 18 | entry or a courtyard within the building, | 18 | which one. I think one (unintelligible) |
| 19 | rather than a setback the full length of the | 19 | Miracle Mile, the newer buildings that have |
| 20 | building, for instance, which doesn't make | 20 | that kind of open space. Some of it is |
| 21 | sense, because then you have the blank walls of | 21 | relating to the street, and, in fact, I think |
| 22 | the building next door or whatever. And in | 22 | it's part of the enrichment of the City, but, |
| 23 | some cases, it could also have a cross-block | 23 | you know, they're saying, you know, this is |
| 24 | past it, and that can be landscaped and more | 24 | something that can be looked into further, but |
| 25 | amenable than some of the ones that exist | 25 | I think at this point, if we don't do it now, I |
| 23 | antenable than some of the ones that exist | | |

Rene, you know, I think that we've made — when I think back to the beginnings of this and how messy it all seemed to us, not being — using the Code on a daily basis to begin with at that time, I think that we've made enormous strides in bringing it into a much more coherent format. It's something that, if you — at some point, if certain aspects of it wanted to be worked on further, it's not going to be a kind of piecemeal addition to the Code. There's now logical places for that kind of work to happen, as people's ideas and the conditions evolve, and so we're actually very pleased that there's a kind of format for these sorts of things to |

Page 33 Page 34 1 think a lot of strides were made. 1 On this one, the prior one had the rear 2 MR. MURAI: So you're pleased with the 2 setback at the alley as five feet across the 3 3 content? board, and it's no longer that way, and I do 4 MS. PLATER-ZYBERG: Yes. 4 have concerns about that, as well. Once you 5 MR. MURAI: Okay. The second question, 5 have an alley, I think that adds expansion to 6 6 Ramon, we discussed in Mixed-Use projects, the rear setback, by virtue of the alley. I 7 7 whether to make it a Mixed-Use project, you think that, particularly in the MF1, where most 8 8 have to have retail on the ground floor, as of those properties are investment properties, 9 opposed to perhaps office use. 9 and I know Chip commented the last time about 10 10 MR. TRIAS: Either works, office or retail. perhaps having a look at the Ponce de Leon 11 11 MR. MURAI: Okay. Because we said that, area, where most of those MF1s are, and they 12 12 you know, sometimes to try to get a Mixed-Use have alleys -- I believe they have alleys all 13 project, we put retail where it doesn't belong. 13 along the side. I was asking to see if we had 14 14 a map of alleys. I have not been able to see It's a waste. 15 15 MR. TRIAS: No. No. We have expanded the that yet. 16 16 definition, so it's more flexible. That, again, I think that should go back to 17 17 MR. MURAI: Okay. That's all. No more five. I saw somewhere else we were changing 18 18 comments. the pool setback in Single-Families can be five 19 CHAIRMAN AIZENSTAT: Okay. Thank you, 19 feet, so pool and equipment could be five feet, 20 Rene. 20 but, yet, when you have an alley in the rear, 2.1 21 Maria, did you have any further comments? you're still requiring a ten-foot setback both, 22 22 on Single-Family and on MF1. I think that MS. VELEZ: The other comment, again, going 23 23 back to the chart, because I noticed that, you needs to be looked at a little more. 24 know, the Mixed-Use, there were no changes from 24 MR. TRIAS: That is the required rear 25 25 setback, the ten feet, whether you have an the prior one. Page 35 Page 36 1 1 alley or you don't have an alley. So what experience there, and he could give us a lot 2 you're saying is that if you have an alley, you 2 more help on that. 3 want to have a smaller setback? 3 MR. TRIAS: The related issue is the open 4 4 MS. VELEZ: I think that should be the same space requirements for the townhouse, and if 5 5 across the board. Say you have a four or six you have one parking space, it's easier to do 6 unit building in an MF3 or an MF2 area, and it 6 it at the ground level. If you have two, then 7 7 backs onto an alley, and then you've got a you're able to do it upstairs, at the second 8 8 Single-Family building on the other side of the level. So it's a little bit complicated. I'll 9 9 alley. There are a lot of five-foot setback. be happy to discuss it further with Mr. Torre. 10 MR. TRIAS: Okay. I understand your issue. 10 MS. VELEZ: Thank you. 11 11 That's it for me, Eibi. Let me see if we can show it better in the 12 12 chart CHAIRMAN AIZENSTAT: Thank you, Maria. 13 MS. VELEZ: Yeah. Other than that, I know 13 14 we had also discussed townhouse parkings and 14 MS. ANDERSON: Yes. I agree with the 15 15 the requirement that it's only one now, as a comments that have been made thus far. With 16 minimum, and I understand that is a minimum, 16 regard to encouraging smaller townhomes, I 17 17 think we do need to limit the size of the unit, but we had also talked about perhaps gearing 18 that to the size of the townhouse. The concern 18 in order to do so for that one parking space, 19 being that we have too many cars parking on the 19 because if you don't say that it's just a one 20 street, parking on the swale. Once we do 20 bedroom townhome, and you have one space 21 bump-outs, we're also limiting parking that's 21 parking on those, I don't think we're going to 22 available in front of the townhouses. So I 22 get what we are really looking for and then 23 23 think that's another issue that needs a little we'll end up with a lack of parking, and some 24 24 more work, and I know Venny has a lot of of these areas don't have off-street parking 25 25 comments that he could -- you know, he has readily available. Then our swales will begin

Page 37 Page 38 1 1 to deteriorate as a result of that. this project, and I look forward to following 2 2 And, you know, working in certain areas, we 3 3 CHAIRMAN AIZENSTAT: Thank you, Rhonda. need to do that visioning, so that we have 4 4 meaningful open space. So that, you know, I 5 think we can work with the bonus programs, as 5 MR. BEHAR: Mr. Chair, like I said, and I 6 6 Chip has mentioned, but, you know, if there's stated before, I feel very confident that we 7 7 will continue working with Liz and Ramon to things that the developer does, where we can 8 8 make sure everything is done correctly, to the have additional open space, either on-site or 9 9 best of -- to what would be the best possible off-site, through some visioning, that would be 10 10 beneficial. Code. The fundamental concern here was to make 11 11 sure that we did not lose -- the owners of I'm glad to see that you had more bike 12 12 parking spaces. I'm still a little concerned, properties did not lose any development rights, 13 when you have family units, that, you know, one 13 and I think that, at this point, we feel like, 14 14 parking space to four units is maybe you know, we're almost there. There's a couple 15 15 problematic. So it might require a little more of little more tweakings that has to be done, 16 16 but I think it's important -- I think it needs study on that. 17 17 And TDRs, I'm in favor of them. I do think to be a process, just an evolution that is 18 18 we need to look at each area, though, and see going to continue, and this is not the end. 19 if perhaps we need to look at whether there's a 19 We're going to have to amend it and I'm sure 20 reasonable -- a park within a reasonable 20 Liz and Ramon and everybody who has been 21 21 distance, if we're going to be, you know, working on it will follow-up to make sure it's 22 22 done correctly. reducing the amount of green space on the 23 23 I am very pleased where we are today, and I ground level. 24 So those are my comments. And thank you, 24 feel very confident we're going to end up with 25 again, all of you, for all of your hard work on 25 a very good -- a much better Code than what we Page 39 Page 40 1 1 had before. Thank you. everybody for doing that. 2 CHAIRMAN AIZENSTAT: Thank you. 2 Any other comments from anybody? 3 I would very much encourage, Ramon, that 3 MR. WITHERS: I have one comment. 4 4 you work also closely with the City Attorney's CHAIRMAN AIZENSTAT: Yes, Chip. 5 5 Office. I know Miriam and Craig have really MR. WITHERS: You know, each one of us has 6 worked hard on this, and it's important to make 6 different thoughts and feelings and it seems 7 7 sure that we don't take owner's rights and it's that we all kind of have the thread -- the 8 8 common vision and thread to this, and I don't important to really get a good Code. 9 9 I also look forward to the second stage of know if it would help our esteemed Planning and 10 this, where we can look at bonuses and how we 10 Zoning Director, if he can put it together, but 11 11 almost like a brief vision statement or can possibly get additional items for the City, 12 12 such as the open spaces, possibly, where it's something that kind of outlines what our 13 13 not determined to be a taking of right or so feelings are. 14 forth. 14 I mean, I think we all had a concern about, 15 15 I want to very much thank Liz for working you know, more green space, better quality of 16 on this and putting all of the hard efforts, 16 life, by protecting, you know, the 17 17 the City Staff, Ramon and his entire Staff, Single-Family residences across Le Jeune Road, 18 Development Services, Dennis, basically, you 18 so that the Commission could get the feel of 19 19 know, the group of architects that have come our Board and the direction we were going. 20 together with the attorneys, also, to work on 20 It's just a thought. I think it might help 21 this, and I think it's really come -- I don't 21 them understand some of the direction in which 22 want to say a long way, but they've actually 22 we were, you know, coming from. So that's just 23 23 made quite a bit of strides since even a month a thought. 24 24 CHAIRMAN AIZENSTAT: Okay. Any other ago that we'd initially seen this, and that 25 25 shows dedication and I just want to thank comments? No?
