A Resolution of the City Commission approving an Interlocal Agreement by and between the Miami-Dade County Clerk of the Courts and the City of Coral Gables.

In 2006 the City executed an interlocal agreement with the Miami-Dade County Clerk of the Courts. Since that time, the City has used a centralized digital parking citation system operated and managed by the Miami-Dade Clerk’s Office for use by all municipalities within the county. The current system operates on a 3G platform that will no longer be supported by the telecommunications companies serving the county. The Miami-Dade Clerk’s Office is investing in a new digital parking citation system that operates with 5G technology and is requesting that participating jurisdictions provide some financial support for this capital investment. The options would be to issue handwritten citations for parking violations. Handwritten citations are a very inefficient means of parking enforcement. Thus, Staff recommends that the City execute the proposed interlocal agreement and switch to the 5G system being acquired by the Miami-Dade Clerk’s Office.
