A Resolution authorizing the execution of an Interlocal Master Agreement with Miami-Dade County, to provide for a cooperative and coordinated effort in the completion of Miami-Dade County Water and Sewer District (WASD) utility work within the City's right-of-way.

The purpose of this agreement is to provide a coordinated effort between the City and WASD to assure, to the degree practical and feasible, that WASD utilities get upgraded prior to or in conjunction with City projects. The agreement allows for the City to include design and construction of WASD facilities with City projects when it makes sense to do so and to receive reimbursement from WASD for costs incurred.

This agreement improves efficiency between the City and WASD which should result in overall reduced costs, reduced disruption of facilities, and improved service to our community.
