A Resolution authorizing the execution of an Off-System Construction and Maintenance Agreement with the Florida Department of Transportation (FDOT) to construct safety improvements on Alhambra Circle, a road not on the State Highway System.

The Florida Department of Transportation (FDOT) will be constructing safety improvements along LeJeune from Majorca Avenue to Almeria Avenue. This agreement allows the construction of improvements on Alhambra Circle, a road not on the State Highway System, extending approximately 205ft into Alhambra Circle west of SR953/LeJeune Road edge of pavement and 300ft into Alhambra Circle east of SR 953/LeJeune Road edge of pavement. The improvements on Alhambra Circle include the addition of a left turn lane which should significantly improve traffic safety and flow in the area. The project includes the following components: Pavement widening; drainage improvements; sidewalk and driveway reconstruction; signing and pavement marking; landscape, lighting and irrigation modifications to existing raised median and existing/proposed bulb-outs. The city will perpetually maintain all improvements on Alhambra Circle, once completed.
