Recognition to "Lovvett" for achieving Silver Coral Gables Green Business Certification.
The City of Coral Gables is proud to recognize our fifth certified Coral Gables Green Business, Lovvett.

Lovvett <<https://www.lovvett.com/>> is a digital marketplace helping food businesses reduce their waste. They do it by connecting them with consumers willing to buy their fresh edible surplus at a discount. It is the first app in Miami that allows consumers to buy delicious food at around 50% while helping local restaurants, bakeries, and grocery stores to sell their fresh surplus.

Congratulations to Lovvett for achieving Silver level Coral Gables Green Business Certification.

The Coral Gables Green Business Program was created in collaboration with the Coral Gables Chamber of Commerce <<https://coralgableschamber.org/>> and the City's Sustainability Advisory Board <<https://www.coralgables.com/sab>>. It aligns with the City's sustainability goals of reducing energy, water, fuel consumption, and waste while increasing recycling efforts, alternative transportation and sustainability education and outreach. The goal of the program is to recognize and reward our local businesses for all their sustainability efforts while also educating them on additional actions they can implement. Together, the City of Coral Gables and our local businesses are creating a more resilient and sustainable Coral Gables for current and future generations.
