On May 24, 2018, the City entered into a piggyback agreement executed under the Procurement Officer's authority, pursuant to Section 2-945 of the Procurement Code entitled "Use of Other Governmental Unit Contracts ("Piggybacks"). The contract was executed for elevator services with ThyssenKrupp Elevator Corporation which provides services that include troubleshooting and correcting problems in the elevator systems, pre-maintenance, maintenance repair, emergency repair, and other elevator related work.

On February 9, 2021, the City Commission approved a change order and contract modification in the amount of \$269,986 to specifically address elevator repairs to Parking Garage No. 2.

However, based on additional City facilities and ongoing repairs and maintenance, it has become necessary to increase the spending authority on the contract to address on-going needs.

The additional facilities include Fire Station No. 2 /Trolley and Public Safety Building and other city facilities that are coming online in the future.

This increase will cover \$145,000 in expenses during fiscal year 2022-2023 and for the duration of the contract, not to exceed the available budget for additional work performed under the contract, pursuant to Section 2-764(b) of the City's

Procurement Code.
